**Approximate date of commencement of proposed sale to the public: As soon as practicable after this
Registration Statement becomes effective.**

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933 check the following box:

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act.

CALCULATION OF REGISTRATION FEE

Title of Each Class of Security Being Registered	Amount Being Registered	Proposed Maximum Offering Price Per Security ⁽¹⁾	Proposed Maximum Aggregate Offering Price ⁽¹⁾	Amount of Registration Fee
Units, each consisting of one share of Class A common stock, \$0.0001 par value, and one-third of one redeemable warrant ⁽²⁾	28,750,000 units	\$ 10.00	\$ 287,500,000	\$ 31,367
Class A common stock included as part of the units ⁽³⁾	28,750,000 shares	—	—	— ⁽⁴⁾
Redeemable warrants included as part of the units ⁽³⁾	9,583,333 warrants	—	—	— ⁽⁴⁾
Total			<u>\$ 287,500,000</u>	<u>\$ 31,367⁽⁵⁾</u>

(1) Estimated solely for the purpose of calculating the registration fee.

(2) Includes 3,750,000 units, consisting of 3,750,000 shares of Class A common stock and 1,250,000 redeemable warrants, which may be issued upon exercise of a 45-day option granted to the underwriters to cover over-allotments, if any.

(3) Pursuant to Rule 416(a), there are also being registered an indeterminable number of additional securities as may be offered or issued to prevent dilution resulting from stock splits, stock dividends, or similar transactions.

(4) No fee pursuant to Rule 457(g).

(5) Previously paid.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

[Table of Contents](#)

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. The prospectus is not an offer to sell these securities nor a solicitation of an offer to buy these securities in any jurisdiction where the offer and sale is not permitted.

Subject to Completion, dated February 3, 2021

PROSPECTUS

\$250,000,000
Power & Digital Infrastructure Acquisition Corp.
25,000,000 Units

Power & Digital Infrastructure Acquisition Corp. is a newly incorporated blank check company whose business purpose is to effect a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities, which we refer to as our initial business combination. We have not selected any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. Although we may pursue targets in any industry, we intend to initially focus our search on identifying a prospective target business in North America within the renewable and transition energy sector, with a focus on pursuing growth opportunities that are driving the electrical power grid transition, both on the electrical supply and on the demand side for high-intensity electrical users, as well as seeking co-optimization opportunities between supply and demand, of the electrical grid in the United States.

This is an initial public offering of our securities. Each unit sold in this offering has an offering price of \$10.00 and consists of one share of our Class A common stock and one-third of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment, upon the terms and limitations as described herein. The underwriters have a 45-day option from the date of this prospectus to purchase up to 3,750,000 additional units to cover over-allotments, if any.

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of our Class A common stock upon the completion of our initial business combination, subject to the limitations described herein. If we have not completed an initial business combination within 24 months from the closing of this offering, we will redeem 100% of the public shares for cash, subject to applicable law and certain conditions as described herein.

Our sponsor, XPDI Sponsor LLC, and certain funds and accounts managed by subsidiaries of BlackRock, Inc., which we refer to collectively as our "anchor investors" throughout this prospectus, have agreed to purchase an aggregate of 5,000,000 warrants (or 5,500,000 warrants if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one share of our Class A common stock at \$11.50 per share, at a price of \$1.50 per warrant, in a private placement to occur concurrently with the closing of this offering. We refer to these warrants throughout this prospectus as the private placement warrants. Our anchor investors have also expressed to us an interest to purchase an aggregate of 2,000,000 units (or 2,300,000 units if the underwriters' over-allotment option is exercised in full) in this offering. Because these expressions of interest are not binding agreements or commitments to purchase, our anchor investors may determine to purchase more, fewer or no units in this offering or the underwriters may determine to sell more, fewer or no units to our anchor investors. For a discussion of certain additional arrangements with our anchor investors, please see "Summary — The Offering — Expressions of Interest."

Our initial stockholders, which includes our sponsor and independent directors, currently own an aggregate of 7,187,500 shares of our Class B common stock (up to 937,500 shares of which are subject to forfeiture depending on the extent to which the underwriters' over-allotment option is exercised), which will automatically convert into shares of our Class A common stock at the time of our initial business combination as described herein. Prior to our initial business combination, only holders of shares of our Class B common stock will be entitled to vote on the appointment of our directors.

Currently, there is no public market for our units, shares of our Class A common stock or warrants. We will apply to list our units on The Nasdaq Capital Market (the "Nasdaq"), under the symbol "XPDIU" on or promptly after the date of this prospectus. We expect that our Class A common stock and warrants will begin separately trading, and be listed on the Nasdaq under the symbols "XPDI" and "XPDIW," respectively, on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Barclays Capital Inc. ("Barclays") and BofA Securities, Inc. ("BofA"), the representatives of the underwriters, inform us of their decision to allow earlier separate trading, subject to our filing a Current Report on Form 8-K with the Securities and Exchange Commission (the "SEC"), containing an audited balance sheet reflecting our receipt of the gross proceeds of this offering and issuing a press release announcing when such separate trading will begin. We cannot guarantee that our securities will be approved for listing on the Nasdaq.

We are an "emerging growth company" and a "smaller reporting company" under applicable federal securities laws and will be subject to reduced public company reporting requirements. Investing in our securities involves a high degree of risk.

See "Risk Factors" beginning on page 36 for a discussion of information that should be considered in connection with an investment in our securities. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Unit	Total
Public offering price	\$ 10.00	\$ 250,000,000
Underwriting discounts and commissions ⁽¹⁾⁽²⁾	\$ 0.55	\$ 13,750,000
Proceeds before expenses, to us	\$ 9.45	\$ 236,250,000

- (1) Includes \$0.35 per unit, or \$8,750,000 in the aggregate (or up to \$10,062,500 in the aggregate if the underwriters' over-allotment option is exercised in full), payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States and released to the underwriters only upon the completion of an initial business combination. Does not include certain fees and expenses payable to the underwriters in connection with this offering. See also "Underwriting" for a description of compensation and other items of value payable to the underwriters.
- (2) There will be no underwriting discount or commission paid on any units the anchor investors may purchase in this offering.

Of the proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, \$250,000,000, or \$287,500,000 if the underwriters' over-allotment option is exercised in full (\$10.00 per unit in either case), will be deposited into a segregated trust account located in the United States at Bank of America, National Association, with Continental Stock Transfer & Trust Company, acting as trustee, and \$2,500,000 will be available to pay fees and expenses in connection with the closing of this offering and for working capital following the closing of this offering. Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the funds held in the trust account will not be released until the earliest to occur of: (a) the completion of our initial business combination; (b) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation (i) to modify the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provisions relating to the rights of holders of Class A common stock; and (c) the redemption of all of our public shares if we have not completed our business combination within 24 months from the closing of this offering, subject to applicable law. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.

The underwriters are offering the units for sale on a firm commitment basis. The underwriters expect to deliver the units to the purchasers on or about , 2021.

We are responsible for the information contained in this prospectus. We have not, and the underwriters have not, authorized anyone to provide you with different information, and we and the underwriters take no responsibility for any other information others may give to you. We are not, and the underwriters are not, making an offer to sell securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained in this prospectus is accurate as of any date other than the date on the front of this prospectus.

SUMMARY

This summary only highlights the more detailed information appearing elsewhere in this prospectus. As this is a summary, it does not contain all of the information that you should consider in making an investment decision. You should read this entire prospectus carefully, including the information under “Risk Factors” and our financial statements and the related notes included elsewhere in this prospectus, before investing.

Unless otherwise stated in this prospectus or the context otherwise requires, references to:

- “amended and restated certificate of incorporation” are to the amended and restated certificate of incorporation of the company, which will be adopted in connection with the closing of this offering;
- “anchor investors” are to certain funds and accounts managed by subsidiaries of BlackRock, Inc.;
- “AP” are to AP XPDI Sponsor Holdings, LLC, an entity owned by Ben Atkins and Jesse Peltan;
- “common stock” are to our Class A common stock and our Class B common stock;
- “EPTP” are to Energy & Power Transition Partners, LLC, a private equity fund focused on renewable and transition energy infrastructure in North America;
- “equity-linked securities” are to any debt or equity securities that are convertible, exercisable or exchangeable for shares of our Class A common stock issued in connection with our initial business combination including, but not limited to, a private placement of equity or debt;
- “founder shares” are to shares of our Class B common stock initially issued to our sponsor in a private placement prior to this offering and the shares of our Class A common stock that will be issued upon the automatic conversion of the shares of our Class B common stock at the time of our initial business combination (for the avoidance of doubt, such shares of our Class A common stock will not be “public shares”);
- “initial stockholders” are to holders of our founder shares prior to this offering;
- “management” or our “management team” are to our executive officers and directors;
- “Nasdaq” are to The Nasdaq Capital Market;
- “private placement warrants” are to the warrants to be issued to our sponsor and anchor investors in a private placement simultaneously with the closing of this offering and upon conversion of working capital loans, if any;
- “public shares” are to shares of our Class A common stock sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);
- “public stockholders” are to the holders of our public shares, including our sponsor and management team to the extent our sponsor and/or members of our management team purchase public shares, provided that our sponsor’s and each member of our management team’s status as a “public stockholder” will only exist with respect to such public shares;
- “sponsor” are to XPDI Sponsor LLC, a Delaware limited liability company formed by individuals from EPTP, XMS and AP. References to the experience of our sponsor include the experience of EPTP, XMS and AP and their respective affiliated investment professionals;
- “we,” “us,” “company,” “XPDI” or “our company” are to Power & Digital Infrastructure Acquisition Corp., a Delaware corporation; and
- “XMS” are to XMS XPDI Sponsor Holdings LLC, an entity owned by professionals of XMS Capital Partners, LLC, a global independent financial services firm, primarily providing strategic and financial advisory services.

Each unit sold in this offering consists of one share of our Class A common stock and one-third of one warrant for each unit purchased. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus, and only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.

In January 2021, our sponsor agreed to sell to the anchor investors 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) and the anchor investors agreed to purchase from our sponsor on the date of the initial business combination an aggregate of 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) for an aggregate purchase price of approximately \$3,913 (or \$4,500 if the underwriters' over-allotment option is exercised in full), or approximately \$0.003 per share.

Registered trademarks referred to in this prospectus are the property of their respective owners. Unless otherwise stated, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option.

Our Company

Power & Digital Infrastructure Acquisition Corp. ("XPDI") is a blank check company newly incorporated as a Delaware Corporation for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities, which we refer to throughout this prospectus as our initial business combination. We have not selected any business combination targets and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination targets.

We intend to pursue opportunities that are driving the electrical power grid transition, both on the supply and demand side, as well as seeking co-optimization opportunities between supply and demand, of the electrical grid in the United States. On the supply side, we plan to target high growth businesses or entities including, but not limited to (i) renewable power generation; (ii) power technology, equipment and services companies that focus on the integration of intermittent renewables; and (iii) dispatchable energy transition infrastructure. On the demand side, tremendous growth is being driven by high-density energy consumers in the digital infrastructure industry, where we plan to target businesses comprised of, but not limited to (i) data centers and data center management; (ii) blockchain infrastructure; and (iii) frontier technology infrastructure that incorporates these high-density energy consumers into the electrical grid. We believe that these rapid changes on the supply and demand side of the electrical power grid can create co-optimization and incremental margin opportunities as (i) many base load data center customers demand green electricity, and (ii) blockchain infrastructure can act as a virtual power plant by reducing its mining operations when electricity demand is high and/or renewable output is low. These strategies could allow a company to capture high spot electricity market prices, while stabilizing the grid in areas with increasing market price volatility driven by the proliferation of intermittent renewables.

Our intention is to acquire a business or entity that could benefit from our expertise across the power & digital infrastructure landscape.

- EPTP is a private equity fund focused on renewable and transition energy infrastructure. Its leadership team has over 20 years of investment experience and has invested in ~\$1.1 billion, including ~\$900 million directly, in the renewable and transition power verticals.
- XMS is an entity owned by professionals of XMS Capital Partners, LLC ("XMS Capital"), who are experienced in providing strategic and financial advisory services, including advising clients on mergers and acquisitions, capital structure, financings, takeover and activist preparation, and restructurings.
- AP is an entity controlled by Benjamin W. Atkins and Jesse Peltan, each of whom serves as a member of our management team, who collectively have over 10 years of bitcoin mining, high voltage electrical infrastructure, and data center experience.

Market Opportunity

We believe that the evolving transition taking place in the electrical power & digital infrastructure landscape has created and will continue to create significant opportunity for co-optimization from renewable energy resources, expanding their integration into the transmission and distribution grid, and utilizing the more sustainable power to satisfy the demands of the ever-increasing high-density electrical needs of data centers and blockchain infrastructure.

As part of this transition, we expect ongoing and continued rapid growth and penetration of intermittent renewable resources that require power technology, equipment, and services companies to integrate them into the electrical grid. The power grid has demonstrated a significant shift in a short period of time toward investments in renewable infrastructure. Between 2009 and 2019, solar and wind energy consumption increased by ~8,007% and ~306%, respectively.¹ Renewable power has become a low-cost necessity for data centers, with the levelized cost of energy for solar PV crystalline and wind decreasing by 89% and 70%, respectively², from 2009 to 2019. To support these trends, power infrastructure is transforming to incorporate these intermittent resources. We believe that over the coming decades the pace and scope of investments will continue to increase dramatically.

Demand on the electrical grid has demonstrated a significant increase from high-density energy customers, including data centers and blockchain infrastructure. Between 2014 and 2018, worldwide data center revenue from digital infrastructure increased from \$22.8 billion to \$38.2 billion, or a total of \$15.4 billion, a 67.5% increase. Revenues are expected to continue growing at a compounded annual growth rate of 10.1% from 2014 through 2023.³ Annual Bitcoin mining market revenue has grown from \$570 million in 2016 to \$5 billion in 2020, a 777%⁴ increase. Global sentiment has driven a transition toward the use of sustainable energy that has created a cultural desire for green power technology. The data center market is seeing growth both in latency sensitive compute as well as high performance compute (“HPC”). Growth in low latency compute is being driven by a work force that is increasingly working at home, enhancing the need for edge computing and creating demand for more data centers located closer to the end-user. Many high energy consumption tasks, such as artificial intelligence, rendering, 3D seismic processing, big data analytics, and other parallel processing are increasingly locating in areas with low power costs and large power capacity that enable hyperscale deployments and their corresponding economies of scale. Low-tier data centers, which avoid the high costs of redundant infrastructure used in high-tier data centers that support mission critical applications, are able to cheaply and efficiently support many HPC and blockchain infrastructure applications, enabling utilization of renewable energy assets in a capital efficient manner. Growing institutional adoption of Bitcoin, driven by global monetary easing, is driving demand for Bitcoin mining and blockchain data centers. The cost-of-goods for HPC data centers and blockchain infrastructure is predominately driven by electricity. This evolution on the electrical power grid will create opportunities for both the providers of sustainable and reliable electricity, as well as for those consumers of electricity, as it is the main ongoing input cost to digital technology infrastructure.

We intend to exploit the gap between renewable energy assets and high-density energy consumers in the digital infrastructure industry where co-optimization opportunities exist. We expect our digital infrastructure opportunities will secure their electrical needs through long-term power purchase agreements. Electrical market volatility, which is increasing with the proliferation of intermittent renewables and the curtailment of coal plants, creates growing demand for grid balancing and ancillary services. Demand-side management of high-density electricity consumers is a carbon free alternative to peaker plants that can complement utility scale battery deployments and enable higher renewable penetration. Subsequent to our initial business combination, we expect we may have opportunities to demand-side manage our digital infrastructure and sell our electricity opportunistically into the marketplace at scarcity prices that happen for relatively short periods of time when the grid is stressed and renewable production is low. For example, in ERCOT power prices have reached up to the \$9,000/MWh price cap at times of high demand and low renewable generation, whereas we expect to be able to purchase long-term electricity close to \$20/MWh, creating material co-optimization revenue opportunities.

In summary, we believe that the co-optimization of these real assets will present a higher margin profile on the growing renewable energy generation, HPC data center, and blockchain infrastructure sectors, with the downside protection of owning real assets.

Our Sponsors

Our team brings together experts in the renewable and transition power, equipment, services, data center, cryptocurrency mining, and financial advisory sectors. Representatives from three firms with deep and complementary skills have come together to pursue these opportunities created by the electrical power grid transition.

EPTP is a private equity fund focused on renewable energy, energy technology (i.e. battery storage), equipment and services, and transition energy infrastructure. Its leadership has over 20 years of investment experience and has invested ~\$1.1 billion, including ~\$900 million directly, in the renewable and transition energy space.

Select investments that EPTP's leadership has underwritten include:

- \$411 million investment in First Wind, an independent wind and solar energy company focused on utility-scale wind energy projects across the U.S., which was made in 2006 and exited in 2015;
- \$159 million investment in Calpine in 2018, America's largest generator of electricity from natural gas and geothermal resources;
- \$283 million investment in US Power Generating Co., a generator of electricity from natural gas servicing New York City, which was made in 2006 and exited in 2011;
- \$29 million investment in Next Decade in 2018, a leading liquefied natural gas ("LNG") development company with a carbon capture and sequestration ("CCS") solution focused on the export of LNG globally from Texas.

XMS is a newly formed limited liability company owned by professionals of XMS Capital. XMS Capital, founded in 2006, is a global independent financial services firm providing investment banking, asset management and merchant banking services to a wide range of clients. It has offices in Chicago, London and Boston. The XMS Capital value proposition is characterized by Involvement Banking™, a service approach which goes beyond transaction-oriented investment banking and focuses on delivering objective, value-added advice and custom-tailored solutions to help clients achieve their strategic goals. Its track record of consistent value creation for its clients is attributable to its ability to provide turnkey access to comprehensive, independent M&A, strategic advisory, financial restructuring, capital structure advisory and private capital advisory expertise.

Select transactions for XMS Capital include advising:

- Exact Sciences on its \$2.8 billion acquisition of Genomic Health in November 2019 and its \$2.15 billion acquisition of Thrive Earlier Detection in January 2021 that created a leading global cancer diagnostics company;
- Industrea, a publicly-traded special purpose acquisition company ("SPAC") focused on the industrial sector, on its acquisition of Concrete Pumping Holdings Inc., a leading concrete pumping services and concrete environmental waste management solutions company, in December 2018 for \$696 million;
- Icahn Enterprises L.P. on its sale of auto-parts manufacturer Federal Mogul LLC to Tenneco for \$5.4 billion in October 2018;
- Hennessy Capital Acquisition Corp. II, a SPAC, on its \$626 million acquisition of Daseke, a leading consolidator of the open deck freight market in North America, in February 2017;
- Riot Blockchain, Inc. in its pilot project to evaluate latest generation immersion module technology and innovative energy strategies in Texas;
- Various public and private U.S.-based blockchain firms on M&A, strategy and new ventures.

Our Founders, Board of Directors and Management

Our company is supported by a full management team with deep expertise and deal flow across both the intermittent renewable and dispatchable power and digital infrastructure industries. Our operations will be overseen by an experienced Board of Directors with deep knowledge developed through extensive M&A, financing transactions, and entrepreneurial ventures. Our management team brings extensive knowledge and a developed network.

Theodore J. Brombach serves as our Chairman. Mr. Brombach is a founding partner of XMS Capital Partners, LLC and serves as the firm's Co-Managing Partner and has served in such role since 2006. He is also the Chief Executive Officer of XA Investments LLC, an alternative asset management firm he co-founded in 2016. Mr. Brombach is the President and Chief Executive Officer and a Trustee of XAI Octagon Floating Rate & Alternative Income Term Trust (NYSE: XFLT), a closed end fund investing in alternative credit investments, and has served in such role since 2017. He has over 30 years of investment banking experience in Chicago, New York and London. Prior to founding XMS Capital, Mr. Brombach was a Managing Director and co-head of Midwest Investment Banking at Morgan Stanley, which he joined in 1990. At XMS Capital, he has led numerous M&A and capital raising transactions across a number of industry sectors. Mr. Brombach is a director of RiverWood Bank. Mr. Brombach earned a Bachelor of Arts from the University of Notre Dame and a Master of Business Administration from the Kellogg Graduate School of Management at Northwestern University.

Patrick C. Eilers serves as our Chief Executive Officer and is a member of our board of directors. Mr. Eilers is the founder and has served since 2019 as the Managing Partner of EPTP, a private equity firm focused on the energy & power transition, in particular its impact on the electrical grid, with an expertise in (i) renewable energy, (ii) energy storage, technology, equipment & services, and (iii) transitional energy infrastructure. Mr. Eilers has over 20 years of investment experience focused on the energy & power transition. Prior to founding EPTP, Mr. Eilers was a Managing Director on the BlackRock Infrastructure Platform, where he also served as an Investment Committee member for BlackRock's Global Renewable Power Fund, Global Energy & Power Infrastructure Fund, and Chaired the Energy & Power Private Equity Fund. Prior to joining BlackRock in 2016, he also worked at Madison Dearborn Partners overseeing the firm's energy, power, and chemicals practices for 10 years. Mr. Eilers earned a Bachelor of Science in Biology and Mechanical Engineering from the University of Notre Dame and a Master of Business Administration from the Kellogg School of Management at Northwestern University.

James P. Nygaard, Jr. serves as our Chief Financial Officer. Mr. Nygaard is a Managing Director of XMS Capital Partners, LLC and is responsible for leading M&A execution activities at the firm. With 25 years of investment banking experience, he has completed several strategic transactions, financings, and corporate finance advisory assignments for a diverse range of clients across a variety of industry sectors. Prior to joining XMS Capital at the end of 2007, Mr. Nygaard spent 12 years in the Investment Banking Division of Morgan Stanley where he assumed various roles within the corporate finance, M&A and administrative practices of the firm. While at Morgan Stanley, Mr. Nygaard led coverage and strategic execution efforts for a number of Midwest-based companies, including 3M, Anheuser-Busch, ConAgra Brands, Ford Motor Company, and General Mills. Mr. Nygaard graduated summa cum laude from the University of Illinois at Urbana-Champaign with a Bachelor of Arts in Economics, where he was valedictorian of his department and received Bronze Tablet Honors, the university's highest academic distinction.

Paul Dabbar will become a member of our board of directors upon the closing of this offering. Mr. Dabbar is currently the Chief Executive Officer of Bohr Quantum Technologies, a quantum communications company, and has served in such role since 2021. Prior to Bohr Quantum, Mr. Dabbar served as Under Secretary for Science at the U.S. Department of Energy from 2017 to 2021, managing the operations of, and investing capital at the seventeen U.S. National Laboratories, conducting research and development in energy, technology and the sciences. Mr. Dabbar was previously a Managing Director in investment banking at J.P. Morgan Chase & Co., in energy and mergers & acquisitions from 1996 to 2017. Mr. Dabbar was also previously a nuclear submarine officer in the U.S. Navy. Mr. Dabbar earned a Bachelor of Science from the U.S. Naval Academy and an MBA from Columbia University.

Paul Gaynor will become a member of our board of directors upon the closing of this offering. Mr. Gaynor is currently the Chief Executive Officer of Longroad Energy, a renewable energy company. Prior to co-founding Longroad Energy, Mr. Gaynor served as CEO of First Wind, which he founded in 2004. Mr. Gaynor has also held various roles within Singapore Power, PSG International, GE Capital, and GE Power Systems. Mr. Gaynor earned a Bachelor of Science in Mechanical Engineering from Worcester Polytechnic Institute and an MBA from University of Chicago.

Colleen Sullivan will become a member of our board of directors upon the closing of this offering. Ms. Sullivan is Co-Founder and CEO of CMT Digital Holdings LLC and has been a partner with the broader CMT Group since 2013. Ms. Sullivan oversees CMT Digital's trading, investments, and regulatory initiatives in the crypto assets/blockchain technology space. Ms. Sullivan is also a Co-Founder and Managing Member of Sullivan Wolf Kailus LLC, a boutique law firm based in Chicago that specializes in hedge fund, private equity, venture capital, digital assets, and other alternative investment products. Ms. Sullivan previously practiced law in the Investment Funds and Derivatives group at Sidley Austin LLP and, at age 25, co-founded a company called iOptions Group LLC, which developed hedging and monetization strategies for holders of employee stock options. Ms. Sullivan currently serves on the Board of Directors of Silvergate Bank and on the Advisory Board of the Chamber of Digital Commerce. Ms. Sullivan earned a Bachelor of Science in Accounting from the University of St. Francis and a Juris Doctorate from Depaul University School of Law.

Scott Widham will become a member of our board of directors upon the closing of this offering. Mr. Widham brings over 30 years of broad-based management and operations experience in the telecommunications industry. Mr. Widham is currently President of Widham Capital, providing advisory services to strategic and financial institutions making investments in the telecom sector, and has served in that role since 2019. Previously, he served as President of Neverfail from 2018 to 2019, CEO of Alpheus Communications from 2011 to 2017 and, prior to Alpheus, as CEO of Cobridge Communications, Broadwing Communications, and Capital Cable. Mr. Widham also served as EVP of Corecomm and was a Director at MTV Networks. Mr. Widham earned a B.B.A. from the University of Texas at Austin.

Benjamin W. Atkins serves on our management team as a Vice President. Mr. Atkins is a co-founder of HODL Ranch, which he co-founded in 2018, where he focuses on business development and capital origination activities. Mr. Atkins co-founded Skybox Datacenters in 2013 and is a co-founder and partner of Rugen Street Capital, which he also co-founded in 2013. Prior to joining HODL Ranch, Mr. Atkins served as an equity research analyst at Chilton Capital Management in Houston, Texas in 2012 as well as an investment analyst at Salient Partners in Houston, Texas from 2010 to 2011. Mr. Atkins earned a Bachelor of Business Administration in Finance from Texas A&M University.

Jesse Peltan serves on our management team as a Vice President. Mr. Peltan is the Chief Technology Officer and co-founder of HODL Ranch, and has served in such role since 2018. Mr. Peltan is also co-founder and Chief Technology Officer of Autonomous, which he co-founded in 2017, where he has designed and built multiple ASIC and GPU cryptocurrency compute clusters. Mr. Peltan leads technical research and development at HODL Ranch. He has developed solutions for operating blockchain datacenters in various climates in Texas and demand side management strategies to capitalize on the growth in intermittent renewable energy in ERCOT. Prior to leaving his senior year to co-found Autonomous, Mr. Peltan attended the University of Kentucky, where he was a quadruple major in Mathematics, Economics, Philosophy and Environmental Sustainability. Mr. Peltan has been recognized by Forbes 30 under 30 in Energy for his work in sustainable energy and Bitcoin mining.

Business Strategy

Our business strategy is to identify and complete an initial business combination that creates substantial long-term value for our shareholders. We will seek North American targets operating as leaders in the power and digital infrastructure areas to capitalize on co-optimization opportunities, where they exist. Through such opportunities we seek to provide a higher margin profile on the growing low-tier data center sector and blockchain infrastructure industry by capturing the extrinsic value generated through the increased volatility of the electrical markets due to increased intermittent renewable penetration, with the downside protection of owning real assets. We believe the network of proprietary and relationship-based opportunities of the management, combined with its rigorous underwriting and risk management acumen, and macroeconomic and financial insight, will allow us to effectively and efficiently identify and evaluate potential opportunities for our initial business combination. In addition to our network and expertise, we plan to leverage XMS' world class execution with expertise navigating all potential process dynamics and nuances, to extend our access to opportunities. We will seek to:

- Bridge the gap between renewable energy and storage assets with high-density energy consumers in the digital infrastructure industry with a co-optimization strategy, where it's present and actionable;
- Optimize renewable energy resource integration into the transmission and distribution grid using power technology, equipment and services;

- Utilize more sustainable power to satisfy the energy demands of the ever-increasing data center and blockchain digital infrastructure industries;
- Provide a public currency to facilitate rapid growth through acquisition as the electrical grid transitions in these high-growth renewable energy supply and digital infrastructure demand markets;
- Leverage the management team's and Board's deep expertise and deal flow across both the power and digital infrastructure industries which will provide a large opportunity set for XPDI to pursue both as the initial target for the SPAC, as well as for follow-on acquisitions;
- Capitalize on EPTP's long-standing relationships across the energy & power industry to facilitate proprietary and relationship-based opportunities for sourcing and improving investments;
- Utilize XMS Capital's position as the leading advisory firm for blockchain infrastructure and broad experience to navigate all potential process dynamics and nuances;
- Leverage the combination of a highly experienced data center developer and operator with a bitcoin mining team, to achieve our investment goals that has proven execution capabilities.

Acquisition Criteria

The following general criteria and guidelines were developed to evaluate prospective target businesses, consistent with our Business Strategy. These criteria and guidelines will be used in evaluating acquisition opportunities, but the target business that we decide to enter into our initial business combination with may not meet all of the criteria and guidelines listed below. We may also consider other criteria and/or guidelines not listed below. We intend to acquire a business or an entity that we believe:

- Has demonstrated, or has the potential to develop, fundamentally sound financial performance, with visibility into revenue and cash flow growth and relatively predictable future financial performance;
- Exhibits unique business attributes and/or product offerings that provide us confidence on the long-term profitability and outlook of the company;
- Is directed by an exemplary and accomplished management team with a proven track record and complementary capabilities, or is open to augmenting the existing leadership team's capabilities with additional talent through our network;
- Embraces the potential to maximize the value to our shareholders, through utilizing our industry experience, as well as our operating, strategic, financing and M&A capabilities.

The list of criteria and guidelines are not intended to be exhaustive. Any evaluation of the merits of a particular initial business combination may be based on the above criteria and guidelines as well as other factors and considerations that our management and our sponsors may deem appropriate. Should we elect to enter into our initial business combination with a target business that does not meet the above criteria and guidelines, it will be disclosed in any shareholder communications related to our initial business combination that the target business does not meet the above criteria.

Competitive Strengths

We believe the sourcing, valuation, diligence and execution capabilities of our management team will provide us with a significant pipeline of opportunities from which to evaluate and select a target for an initial business combination that will benefit from our extensive experience. Our competitive strengths include the following:

- EPTP's leadership has 20 years of experience and decades-long relationships across the energy & power industry to facilitate proprietary and relationship-based opportunities for sourcing and improving investments;
- EPTP's leadership drives value at the investment level by leveraging industry relationships, employing rigorous underwriting and risk management acumen, and macroeconomic and financial insight
- Senior leadership has >20 years of energy & power investing experience through multiple commodity/economic cycles;

- XMS' partners average over 25 years of investment banking experience;
- XMS has the expertise to advise across the entire range of strategic and financial alternatives — M&A, capital structure, financings, takeover and activist preparation, dividend policy, restructuring;
- XMS Capital is the leading advisory firm for blockchain infrastructure, advising some of the largest public and private U.S. based blockchain firms on M&A, strategy, and new ventures;
- XMS Capital has world class execution with expertise navigating all potential process dynamics and nuances, and has executed transactions in virtually every industry, sector, and vertical;
- The XMS, EPTP, and AP teams have decades of combined experience in sourcing deals with a demonstrated track record of successfully executing transactions.

Initial Business Combination

In accordance with the rules of the Nasdaq, our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the amount of deferred underwriting discounts held in trust and taxes payable by us on the income earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination. If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm or an independent valuation or appraisal firm with respect to satisfaction of such criteria. Our stockholders may not be provided with a copy of such opinion nor will they be able to rely on such opinion. We do not intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination. Subject to this requirement, our management will have virtually unrestricted flexibility in identifying and selecting one or more prospective businesses, although we will not be permitted to effectuate our initial business combination solely with another blank check company or a similar company with nominal operations.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the prior owners of the target business, the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the "Investment Company Act"). Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our issued and outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

To the extent we effect our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, we may be affected by numerous risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all significant risk factors.

In evaluating a prospective target business, we expect to conduct a thorough due diligence review which will encompass, among other things, meetings with incumbent management and employees, document reviews, inspection of facilities, as well as a review of financial, operational, legal and other information which will be made available to us.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination.

Potential Conflicts of Interest

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers, directors or any of their affiliates. In the event we seek to complete our initial business combination with a company that is affiliated with our sponsor, officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or another valuation or appraisal firm that commonly renders fairness opinions that our initial business combination is fair to our company from a financial point of view.

Our sponsor and directors will directly or indirectly own founder shares and/or private placement warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities, including as described above. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity, subject to their fiduciary duties under Delaware law.

For more information on the relevant pre-existing fiduciary duties or contractual obligations of our management team, see the section titled “Management — Conflicts of Interest.”

Corporate Information

Our executive offices are located at 321 North Clark Street, Suite 2440, Chicago, IL 60654, and our telephone number is (312) 262-5642. We will maintain a corporate website at www.xpdispac.com. The information contained on or accessible through our corporate website or any other website that we may maintain is not part of this prospectus or the registration statement of which this prospectus is a part.

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended (the “Securities Act”), as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”). As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our shares of Class A common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three year period. References herein to “emerging growth company” will have the meaning associated with it in the JOBS Act.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our common stock held by non-affiliates exceeds \$250 million as of the end of that fiscal year’s second fiscal quarter and (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of that fiscal year’s second fiscal quarter.

The Offering

In deciding whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled “Risk Factors” in this prospectus.

Securities offered 25,000,000 units, at \$10.00 per unit, each unit consisting of:

- one share of Class A common stock; and
- one-third of one redeemable warrant.

Proposed Nasdaq symbols Units: “XPDIU”

Class A common stock: “XPDI”

Warrants: “XPDIW”

Trading commencement and separation of shares of our Class A common stock and warrants

The units are expected to begin trading on or promptly after the date of this prospectus. The shares of our Class A common stock and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Barclays and BofA inform us of their decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of our Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of our Class A common stock and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.

Additionally, the units will automatically separate into their component parts and will not be traded after completion of our initial business combination.

Separate trading of the Class A common stock and warrants is prohibited until we have filed a Current Report on Form 8-K

In no event will the Class A common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K that includes an audited balance sheet reflecting our receipt of the gross proceeds at the closing of this offering. We will file the Current Report on Form 8-K promptly after the closing of this offering. If the underwriters’ over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters’ over-allotment option.

Units:

Number outstanding before this offering	0
Number outstanding after this offering	25,000,000 ⁽¹⁾

Common stock:

Number outstanding before this offering	7,187,500 shares of Class B common stock ⁽²⁾⁽³⁾
Number outstanding after this offering	31,250,000 shares of Class A common stock and Class B common stock ⁽¹⁾⁽²⁾⁽⁴⁾

Warrants:

Number of private placement warrants to be sold in a private placement simultaneously with this offering	5,000,000 ⁽¹⁾
Number of warrants to be outstanding after this offering and the sale of the private placement warrants	13,333,333 ⁽¹⁾

Exercisability

Each whole warrant sold in this offering is exercisable to purchase one share of our Class A common stock, subject to adjustment as provided herein. Only whole warrants are exercisable.

We structured each unit to contain one-third of one redeemable warrant, with each whole warrant exercisable for one share of our Class A common stock, as compared to units issued by some other similar blank check companies which contain whole warrants exercisable for one whole share, in order to reduce the dilutive effect of the warrants upon completion of a business combination as compared to units that each contain a warrant to purchase one whole share, thus making us, we believe, a more attractive business combination partner for target businesses.

- (1) Assumes no exercise of the underwriters' over-allotment option and the forfeiture of an aggregate of 937,500 founder shares by certain of our initial stockholders.
- (2) Founder shares are currently classified as shares of our Class B common stock, which shares will automatically convert into Class A common stock at the time of our initial business combination as described below adjacent to the caption "Founder shares conversion and anti-dilution rights" and in our amended and restated certificate of incorporation.
- (3) Consists solely of founder shares outstanding as of the date of this prospectus and includes up to 937,500 shares that are subject to forfeiture depending on the extent to which the underwriters' over-allotment option is exercised.
- (4) Includes 25,000,000 public shares and 6,250,000 founder shares.

Exercise price	<p>\$11.50 per whole share, subject to adjustments as described herein. In addition, if (x) we issue additional shares of our Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per share of our Class A common stock (with such issue price or effective issue price to be determined in good faith by us and, in the case of any such issuance to our sponsor or its affiliates, without taking into account any founder shares held by our sponsor or such affiliates, as applicable, prior to such issuance, (the “Newly Issued Price”)), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the completion of our initial business combination (net of redemptions), and (z) the volume-weighted average trading price of our Class A common stock during the 20 trading day period starting on the trading day prior to the day on which we complete our initial business combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 and \$18.00 per share redemption trigger prices described adjacent to “Redemption of warrants when the price per share of our Class A common stock equals or exceeds \$10.00” and “Redemption of warrants when the price per share of our Class A common stock equals or exceeds \$18.00” will be adjusted (to the nearest cent) to be equal to 100% and 180% of the higher of the Market Value and the Newly Issued Price, respectively.</p>
Exercise period	<p>The warrants will become exercisable on the later of:</p> <ul style="list-style-type: none">• 30 days after the completion of our initial business combination; and• 12 months from the closing of this offering; <p><i>provided</i> in each case that we have an effective registration statement under the Securities Act covering the shares of our Class A common stock issuable upon exercise of the warrants and a current prospectus relating to them is available and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder (or holders are permitted to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement as a result of (i) our failure to have an effective registration statement by the 60th business day after the closing of the initial business combination as described in the immediately following paragraph or (ii) a notice of redemption described below under “Redemption of warrants when the price per share of our Class A common stock equals or exceeds \$10.00”). If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.</p>

We are not registering the shares of our Class A common stock issuable upon exercise of the warrants at this time. However, we have agreed that as soon as practicable, but in no event later than 20 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC and have effective a registration statement covering the shares of our Class A common stock issuable upon exercise of the warrants and to maintain a current prospectus relating to those shares of our Class A common stock until the warrants expire or are redeemed, as specified in the warrant agreement. If a registration statement covering the Class A common stock issuable upon exercise of the warrants is not effective by the 60th business day after the closing of the initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption.

The warrants will expire at 5:00 p.m., New York City time, five years after the completion of our initial business combination or earlier upon redemption or liquidation. On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account.

Redemption of warrants when the price per share of our Class A common stock equals or exceeds \$18.00

Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption (the “30-day redemption period”); and
- if, and only if, the last reported sale price of our Class A common stock for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders (the “Reference Value”) equals or exceeds \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “Description of Securities — Warrants — Public Stockholders’ Warrants — Anti-dilution Adjustments”).

However, in this case, we will not redeem the warrants unless an effective registration statement under the Securities Act covering the Class A common stock issuable upon exercise of the warrants is effective and a current prospectus relating to those shares of our Class A common stock is available throughout the 30-day redemption period. Any such exercise would not be on a “cashless” basis and would require the exercising warrant holder to pay the exercise price for each warrant being exercised.

Redemption of warrants when the price per share of our Class A common stock equals or exceeds \$10.00

Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at \$0.10 per warrant;
- upon a minimum of 30 days' prior written notice of redemption;
- if, and only if, the Reference Value (as defined above under "Redemption of warrants when the price per share of our Class A common stock equals or exceeds \$18.00") equals or exceeds \$10.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading "Description of Securities — Warrants — Public Stockholders' Warrants — Anti-dilution Adjustments"); and
- if the Reference Value is less than \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading "Description of Securities — Warrants — Public Stockholders' Warrants — Anti-dilution Adjustments"), the private placement warrants must also concurrently be called for redemption on the same terms (except as described herein with respect to a holder's ability to exercise its warrants on a "cashless" basis) as the outstanding public warrants, as described above;

provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to the table set forth under "Description of Securities — Warrants — Public Stockholders' Warrants" based on the redemption date and the "fair market value" of our Class A common stock (as defined below).

The "fair market value" of our Class A common stock shall mean the volume-weighted average price of our Class A common stock for the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of warrants. We will provide our warrant holders with the final fair market value no later than one business day after the 10-day trading period described above ends. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 shares of our Class A common stock per warrant (subject to adjustment).

No fractional shares of our Class A common stock will be issued upon redemption. If, upon redemption, a holder would be entitled to receive a fractional interest in a share, we will round down to the nearest whole number of the number of shares of our Class A common stock to be issued to the holder. Please see the section entitled "Description of Securities — Warrants — Public Stockholders' Warrants" for additional information.

Expressions of interest; Anchor agreements

Our anchor investors have expressed to us an interest to purchase an aggregate of 2,000,000 units (or 2,300,000 units if the underwriters' over-allotment option is exercised in full) in this offering and we have agreed to direct the underwriters to sell such units to our anchor investors. There will be no underwriting discount or commission paid on any units the anchor investors may purchase in this offering. Because these expressions of interest are not binding agreements or commitments to purchase, our anchor investors may determine to purchase more, fewer or no units in this offering or the underwriters may determine to sell more, fewer or no units to our anchor investors. Further, the anchor investors have agreed with us that, if they do not own an aggregate of at least 2,475,000 public shares (or 2,846,250 public shares if the underwriters' over-allotment option is exercised in full) (which amounts will be increased or reduced on a pro rata basis if more or less than 25,000,000 units are sold in this offering, as applicable) (such amount, the "Anchor Threshold") at the time of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, the number of founder shares to be purchased by such anchor investors from our sponsor shall be reduced pro rata by a fraction, the numerator of which shall equal the Anchor Threshold less the number of public shares held by such anchor investors after giving effect to any redemptions of the public shares by such anchor investors and their affiliates, and the denominator of which shall equal the Anchor Threshold; provided, however, in no event shall such pro rata reduction in the number of founder shares to be purchased by the anchor investors reduce the number of founder shares to be purchased by more than 75%. By way of example and without limiting the foregoing, in the event the anchor investors collectively own a number of shares equal to 50% or 0%, respectively, of the Anchor Threshold (after giving effect to any redemptions of their public shares), the number of founder shares that the anchor investors may purchase shall be reduced by 50% or 75%, respectively.

The anchor investors have also agreed that if, in connection with an initial business combination, the sponsor decides (i) to forfeit, transfer to a third person, exchange, subject to transfer, vesting or conditional forfeiture provisions or amend the terms of all or any portion of the founder shares or (ii) to enter into any other arrangements with respect to the founder shares, including voting in favor of any amendment to the terms of the founder shares (each, a "Change in Investment"), such Change in Investment shall apply pro rata to the anchor investor and the sponsor based on the relative number of founder shares to be purchased or held, as applicable, by each upon consummation of the initial business combination; provided, however that in no event will such Change in Investment reduce the founder shares to be purchased by the anchor investors by more than 75%. By way of example and without limiting the foregoing, in the event our sponsor forfeits or transfers 50% or 100%, respectively, of its founder shares as part of our initial business combination, the number of founder shares to be purchased by the anchor investors shall be reduced by 50% or 75%, respectively.

There can be no assurance that our anchor investors will acquire any units in this offering or will retain any units upon the consummation of our initial business combination. In the event that such anchor investors purchase units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that our anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

Our anchor investors will have the same rights to the funds held in the trust account with respect to the common stock underlying the units they may purchase in this offering as the rights afforded to our public stockholders.

Founder shares

In December 2020, our sponsor paid in the aggregate \$25,000, or approximately \$0.003 per share, to cover certain of our offering costs in consideration of 7,187,500 shares of our Class B common stock, par value \$0.0001. In January 2021, our sponsor agreed to sell to the anchor investors 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) and the anchor investors agreed to purchase from our sponsor on the date of the initial business combination an aggregate of 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) for an aggregate purchase price of approximately \$3,913 (or \$4,500 if the underwriters' over-allotment option is exercised in full), or approximately \$0.003 per share. Also in January 2021, our sponsor transferred 30,000 Class B ordinary shares to each of our independent directors.

Prior to the initial investment in the company of \$25,000 by our sponsor, the company had no assets, tangible or intangible. The per share price of the founder shares was determined by dividing the amount of cash contributed to the company by the number of founder shares issued. The number of founder shares was determined based on the expectation that the founder shares would represent 20% of the outstanding shares after this offering. If we increase or decrease the size of this offering, we will effect a stock capitalization or a share surrender or redemption or other appropriate mechanism, as applicable, with respect to the shares of our Class B common stock immediately prior to the completion of this offering in such amount as to maintain the ownership of our sponsor (and its permitted transferees), on an as-converted basis, at 20% of our issued and outstanding shares of Class A common stock upon the completion of this offering. Up to 937,500 founder shares are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised so that our initial stockholders will maintain ownership of 20% of our issued and outstanding shares of Class A common stock, on an as-converted basis, after this offering.

The founder shares are identical to the shares of our Class A common stock included in the units being sold in this offering, except that:

- only holders of the founder shares have the right to vote on the appointment of our directors prior to our initial business combination and holders of a majority of our founder shares may remove a member of the board of directors for any reason;
- the founder shares are subject to certain transfer restrictions, as described in more detail below;
- each of our sponsor, directors and each member of our management team have entered into a letter agreement with us, pursuant to which they have agreed to waive (i) their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination; (ii) their redemption rights with respect to their founder shares and public shares in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we have not completed an initial business combination within 24 months from the closing of this offering or (B) with respect to any other provisions relating to the rights of holders of Class A common stock; and (iii) their rights to liquidating distributions from the trust account with respect to their founder shares if we do not complete our initial business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we do not complete our initial business combination within the prescribed time frame;
- the anchor investors have agreed to waive their right to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our business combination within 24 months from the closing of this offering and have also agreed to waive their redemption rights with respect to their founder shares, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame. Permitted transferees of the founder shares held by the anchor investors will be subject to the same restrictions;
- the founder shares will automatically convert into shares of our Class A common stock at the time of our initial business combination as described below adjacent to the caption “Founder shares conversion and anti-dilution rights” and in our amended and restated certificate of incorporation; and
- the founder shares are entitled to registration rights.

	<p>If we submit our initial business combination to our public stockholders for a vote, pursuant to the terms of a letter agreement entered into with us, our sponsor, directors and each member of our management team have agreed to vote their founder shares and any public shares purchased during or after this offering, in favor of our initial business combination. As a result, assuming the anchor investors vote in favor of our initial business combination, in addition to our initial stockholders' and anchor investors' founder shares, we would need 9,375,001, or 37.5%, of the 25,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised).</p>
Transfer restrictions on founder shares	<p>Our initial stockholders and the anchor investors have agreed not to transfer, assign or sell any of their founder shares and any shares of our Class A common stock issuable upon conversion thereof until the earlier of (a) one year after the completion of our initial business combination and (b) subsequent to completion of our initial business combination, (x) the date on which the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction after our initial business combination that results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property, except to certain permitted transferees and under certain circumstances as described herein under "Principal Stockholders — Restrictions on Transfers of Founder Shares and Private Placement Warrants". Any permitted transferees will be subject to the same restrictions and other agreements of our initial stockholders and the anchor investors with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up.</p>
Founder shares conversion and anti-dilution rights	<p>The founder shares are designated as shares of our Class B common stock and will automatically convert into shares of our Class A common stock on the first business day following the completion of our initial business combination at a ratio such that the number of shares of our Class A common stock issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of shares of our Class A common stock issued and outstanding upon completion of this offering, plus (ii) the total number of shares of our Class A common stock issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the company in connection with or in relation to the completion of the initial business combination, excluding any shares of our Class A common stock or equity-linked securities exercisable for or convertible into shares of our Class A common stock issued, or to be issued, to any seller in the initial business combination and any private placement warrants issued to our sponsor, its affiliates or any member of our management team upon conversion of working capital loans. In no event will the shares of our Class B common stock convert into shares of our Class A common stock at a rate of less than one to one.</p>

Appointment of directors; Voting rights Prior to our initial business combination, only holders of our founder shares will have the right to vote on the appointment of our directors. Holders of our public shares will not be entitled to vote on the appointment of our directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason. These provisions of our amended and restated certificate of incorporation may be amended only by approval of a majority of the shares of our Class B common stock. Our amended and restated certificate of incorporation will provide that our board of directors will be divided into three classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term.

With respect to any other matter submitted to a vote of our stockholders, including any vote in connection with our initial business combination, except as required by law or the applicable rules of the Nasdaq then in effect, holders of our founder shares and holders of our public shares will vote together as a single class, with each share entitling the holder to one vote.

Private placement warrants Our sponsor and the anchor investors have committed, pursuant to a written agreement, to purchase an aggregate of 5,000,000 private placement warrants (or 5,500,000 private placement warrants if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one share of our Class A common stock at \$11.50 per share, at a price of \$1.50 per whole warrant (approximately \$7,500,000 in the aggregate or \$8,250,000 in the aggregate if the underwriters' over-allotment option is exercised in full), in a private placement that will close simultaneously with the closing of this offering. Among the private placement warrants, 4,000,000 private placement warrants (or 4,400,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be purchased by our sponsor and an aggregate of 1,000,000 private placement warrants (or 1,100,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be purchased by the anchor investors.

A portion of the purchase price of the private placement warrants will be added to the proceeds from this offering to be held in the trust account such that at the time of closing \$250,000,000 (or \$287,500,000 if the underwriters exercise their over-allotment option in full) will be held in the trust account. If we do not complete an initial business combination within 24 months from the closing of this offering, the proceeds from the sale of the private placement warrants held in the trust account will be used to fund the redemption of our public shares (subject to the requirements of applicable law) and the private placement warrants will expire worthless.

	<p>The private placement warrants will be non-redeemable (except as set forth under “Description of Securities — Warrants — Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$10.00”) and exercisable on a cashless basis so long as they are held by our sponsor, the anchor investors or their respective permitted transferees (see “Description of Securities — Warrants — Private Placement Warrants”). If the private placement warrants are held by holders other than our sponsor, the anchor investors or their respective permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering. Our sponsor, the anchor investors and their respective permitted transferees have the option to exercise the private placement warrants on a cashless basis. The private placement warrants will be entitled to registration rights.</p>
Transfer restrictions on private placement warrants	<p>The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except as described herein under the section of this prospectus entitled “Principal Stockholders — Restrictions on Transfers of Founder Shares and Private Placement Warrants.”)</p>
Proceeds to be held in trust account	<p>Of the proceeds we will receive from this offering and the sale of the private placement warrants described in this prospectus, \$250,000,000, or \$287,500,000 if the underwriters’ over-allotment option is exercised in full (\$10.00 per unit in either case), will be deposited into a segregated trust account located in the United States at Bank of America, National Association, with Continental Stock Transfer & Trust Company, acting as trustee, and \$2,500,000 will be used to pay expenses in connection with the closing of this offering and for working capital following this offering. The proceeds to be placed into the trust account include \$8,750,000 (or \$10,062,500 if the underwriters’ over-allotment option is exercised in full) in deferred underwriting commissions.</p> <p>Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the funds held in the trust account will not be released until the earliest to occur of: (a) the completion of our initial business combination; (b) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation (i) to modify the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provisions relating to the rights of holders of Class A common stock; and (c) the redemption of all of our public shares if we have not completed our business combination within 24 months from the closing of this offering, subject to applicable law. Public stockholders who redeem their shares of our Class A common stock in connection with a stockholder vote described in clause (b) in the preceding sentence shall not be entitled to funds from the trust account upon the subsequent completion of an initial business combination or liquidation if we are unable to complete an initial business combination within 24 months from the closing of this offering, with respect to such shares of our Class A common stock so redeemed. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.</p>

Anticipated expenses and funding sources

Except as described above with respect to the payment of our taxes, unless and until we complete our initial business combination, no proceeds held in the trust account will be available for our use. The proceeds held in the trust account, if invested, will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Assuming an interest rate of 0.1% per year, we estimate the interest earned on the trust account to generate approximately \$250,000 per year; however we can provide no assurances regarding this amount. Except as described above, unless and until we complete our initial business combination, we may pay our expenses only from:

- the net proceeds of this offering and the sale of the private placement warrants not held in the trust account, which will be approximately \$1,000,000 in working capital after the payment of approximately \$1,500,000 in expenses relating to this offering; and
- any loans or additional investments from our sponsor or an affiliate of our sponsor or certain of our officers and directors, although they are under no obligation to advance funds or invest in us, and provided that any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of our initial business combination.

Conditions to completing our initial business combination

There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination, and we may enter into forward purchase agreements or other commitments to purchase our securities after the closing of this offering and prior to completion of our initial business combination. The Nasdaq rules require that our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the amount of deferred underwriting discounts held in trust and taxes payable by us on the income earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination.

If our board of directors is not able to independently determine the fair market value of the target business or businesses or we are considering an initial business combination with an affiliated entity, we will obtain an opinion from an independent investment banking firm or an independent accounting firm. Our stockholders may not

be provided with a copy of such opinion nor will they be able to rely on such opinion. We will complete our initial business combination only if the post-transaction company in which our public stockholders own shares will own or acquire 50% or more of the outstanding voting securities of the target or is otherwise not required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to our initial business combination may collectively own a minority interest in the post-business combination company, depending on valuations ascribed to the target and us in the business combination transaction. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test, provided that in the event that the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

Permitted purchases of public shares and public warrants by our affiliates

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, directors, executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination where otherwise permissible under applicable laws, rule and regulations. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds held in the trust account will be used to purchase shares or public warrants in such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. See “Proposed Business — Permitted Purchases of Our Securities” for a description of how our sponsor, directors, executive officers, advisors or any of their affiliates will select which stockholders to purchase securities from in any private transaction.

The purpose of any such purchases of shares could be to vote such shares, or cause such shares to be voted, in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. In addition, if such purchases are made, the public “float” of our Class A common stock or warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Redemption rights for public stockholders upon completion of our initial business combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their Class A common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the completion of the initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be approximately \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. The redemption rights will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares held by them and any public shares they may acquire during or after this offering in connection with the completion of our initial business combination or otherwise.

Limitation on redemptions

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules). However, a greater net tangible asset or cash requirement may be contained in the agreement relating to our initial business combination. For example, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. Furthermore, although we will not redeem shares in an amount that would cause our net tangible assets to fall below \$5,000,001, we do not have a maximum redemption threshold based on the percentage of shares sold in this offering, as many blank check companies do. In the event the aggregate cash consideration we would be required to pay for all Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all Class A common stock submitted for redemption will be returned to the holders thereof.

Manner of conducting redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) without a stockholder vote by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under applicable law or stock exchange listing requirements. Asset acquisitions and stock purchases would not typically require stockholder approval, while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding shares of Class A common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. We currently intend to conduct redemptions in connection with a stockholder vote unless stockholder approval is not required by applicable law or stock exchange listing requirement and we choose to conduct redemptions pursuant to the tender offer rules of the SEC for business or other legal reasons.

If we hold a stockholder vote to approve our initial business combination, we will:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock are voted by the stockholders at a stockholders meeting to approve the initial business combination, unless applicable law, our corporate governing documents or applicable stock exchange rules require a different vote, in which case we will complete our initial business combination only if such requisite vote is received. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the Company representing a majority of the voting power of all outstanding shares of capital stock of the Company entitled to vote at such meeting. Our initial stockholders and anchor investors will count towards this quorum and, pursuant to the terms of a letter agreement entered into with us, our sponsor, directors and each member of our management team have agreed (and their respective permitted transferees will agree) to vote their founder shares held by them and any public shares purchased during or after this offering (including in open market and privately-negotiated transactions) in favor of our initial business combination. As a result, assuming the anchor investors vote in favor of our initial business combination, in addition to our initial stockholders' and anchor investors' founder shares, we would need 9,375,001, or 37.5%, of the 25,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised). In addition, as a result of the founder shares and private placement warrants that our anchor investors may hold, they may have different interests with respect to a vote on an initial business combination than other public stockholders. The other members of our management team have entered into agreements similar to the one entered into by our sponsor with respect to any public shares acquired by them in or after this offering. Each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction or whether they were a stockholder on the record date for the stockholder meeting held to approve the proposed transaction.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, if we elect to conduct redemptions pursuant to the tender offer rules, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A common stock in the open market, in order to comply with Rule 14e-5 under the Exchange Act. In addition, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. The tender offer will also be conditioned on public stockholders not tendering more than the number of public shares we are permitted to redeem. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete such initial business combination.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules). Redemptions of our public shares may also be subject to a higher net tangible asset test or cash requirement pursuant to an agreement relating to our initial business combination. For example, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all common stock submitted for redemption will be returned to the holders thereof.

Limitation on redemption rights of stockholders holding 15% or more of the shares sold in this offering if we hold stockholder vote

Notwithstanding the foregoing redemption rights, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering, without our prior consent. We believe the restriction described above will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public

stockholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights against a business combination if such holder's shares are not purchased by us, our sponsor or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem to no more than 15% of the shares sold in this offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders' ability to vote all of their shares (including all shares held by those stockholders that hold more than 15% of the shares sold in this offering) for or against our initial business combination. Our sponsor and each member of our management team have, pursuant to a letter agreement entered into with us, waived their right to have any founder shares or public shares redeemed in connection with our initial business combination. Unless any of our other affiliates acquires founder shares through a permitted transfer from our sponsor, and thereby becomes subject to the letter agreement, no such affiliate is subject to this waiver. However, to the extent any such affiliate acquires public shares in this offering or thereafter through open market purchases, it would be a public stockholder and subject to the 15% limitation in connection with any such redemption right.

Release of funds in trust account on closing of our initial business combination

On the completion of our initial business combination, the funds held in the trust account will be disbursed directly by the trustee to pay amounts due to any public stockholders who exercise their redemption rights as described above under "Proposed Business — Redemption Rights for Public Stockholders upon Completion of our Initial Business Combination," to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination. If our initial business combination is paid for using equity or debt securities or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

Redemption of public shares and distribution and liquidation if no initial business combination

Our sponsor, officers and directors have agreed that we will have only 24 months from the closing of this offering to complete our initial business combination. If we have not completed an initial business combination within 24-months from the closing of this offering, we will: (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of the then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law; and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case, to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we do not complete an initial business combination within 24 months from the closing of this offering.

Our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we do not complete an initial business combination within 24 months from the closing of this offering. However, if our sponsor, directors, members of our management team or anchor investors acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we do not complete an initial business combination within 24 months from the closing of this offering.

The underwriters have agreed to waive their rights to their deferred underwriting commission held in the trust account in the event we do not complete an initial business combination within 24 months from the closing of this offering and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of our public shares.

Our sponsor, executive officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete an initial business combination within 24 months from the closing of this offering, or with respect to any other provisions relating to the rights of holders of Class A common stock, unless we provide our public stockholders with the opportunity to redeem their Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares, subject to the limitations described above under “Proposed Business — Limitations on Redemptions.” For example, our board of directors may propose such an amendment if it determines that additional time is necessary to complete our initial business combination. In such event, we will conduct a proxy solicitation and distribute proxy materials pursuant to Regulation 14A of the Exchange Act seeking stockholder approval of such proposal and, in connection therewith, provide our public stockholders with the redemption rights described above upon stockholder approval of such amendment. This redemption right shall apply in the event of the approval of any such amendment, whether proposed by our sponsor, any executive officer, director or director nominee, or any other person.

Limited payments to insiders

There will be no finder’s fees, reimbursements or cash payments made by the company to our sponsor, officers or directors, or our or their affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination, other than the following payments, none of which will be made from the proceeds of this offering and the sale of the private placement warrants held in the trust account prior to the completion of our initial business combination:

- Reimbursement of funds advanced to us by our sponsor to cover offering-related and organizational expenses;
- Reimbursement for office space and administrative support services provided to us by affiliates of our sponsor, in the amount of \$20,000 per month;
- Cash payment to XMS Capital or its affiliates for any financial advisory, placement agency or other similar investment banking services that XMS Capital or its affiliates may provide to our company in connection with our initial business combination and reimbursement to XMS Capital or its affiliates for any out-of-pocket expenses incurred by it in connection with the performance of such services;
- Reimbursement of legal fees and expenses incurred by our sponsor, officers or directors in connection with our formation, the initial business combination and their services to us;

- Payment of fees and reimbursement for any out-of-pocket expenses related to identifying, investigating, negotiating and completing an initial business combination; and
- Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination. Up to \$1,500,000 of such loans may be convertible into warrants of the post-business combination entity, at a price of \$1.50 per warrant, at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans.

Any such payments will be made either (i) prior to our initial business combination using proceeds of this offering held outside the trust account or from loans made to us by our sponsor or (ii) in connection with or after the completion of our initial business combination.

Audit Committee

We will establish and maintain an audit committee, which will be composed entirely of independent directors. Among its responsibilities, the audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates and monitor compliance with the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to promptly take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. For more information, see the section entitled “Management — Committees of the Board of Directors — Audit Committee.”

Conflicts of interest

Investment vehicles managed by affiliates of our sponsor may compete with us for acquisition opportunities. If these investment vehicles decide to pursue any such opportunity, we may be precluded from procuring such opportunities. In addition, investment ideas generated by affiliates of our sponsor may be suitable for both us and for a current or future investment vehicle of such affiliates and may be directed to such investment vehicle rather than to us. Members of our management team who are also employed by affiliates of our sponsor do not have any obligation to present us with any opportunity for a potential business combination of which they become aware, unless presented to such member solely in his or her capacity as an officer of the company. Our management, in their capacities as officers or managing directors of affiliates of our sponsor or in their other endeavors, may be required to present potential business combinations to the related entities described above, current or future investment vehicles of our sponsor’s affiliates or third parties, before they present such opportunities to us.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity. Accordingly, if our sponsor or its affiliates or our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our business combination. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

In addition, our sponsor and its affiliates and our officers and directors may participate in the formation of, or become an officer or director of, any other blank check company prior to or after the completion of our initial business combination, which other blank check company may complete an initial public offering prior to the completion of our initial business combination. As a result, our sponsor, officers or directors could have conflicts of interest in determining whether to present business combination opportunities to us or to any other blank check company with which they may become involved. However, we do not believe that any potential conflicts would materially affect our ability to complete our initial business combination.

Indemnity

Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent public accountants) for services rendered or products sold to us, or by a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay our taxes. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, then our sponsor will not be responsible to the extent of any liability for such third party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. None of our officers will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Risk Factors

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment. Such risks include, but are not limited to:

Risks Relating to our Search for, Consummation of, or Inability to Consummate, a Business Combination and Post-Business Combination Risks

- Our public stockholders may not be afforded an opportunity to vote on our proposed initial business combination, which means we may complete our initial business combination even though a majority of our public stockholders do not support such a combination.
- If we seek stockholder approval of our initial business combination, our sponsor, directors and each member of our management team have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.
- Your only opportunity to affect the investment decision regarding a potential business combination may be limited to the exercise of your right to redeem your shares from us for cash.
- The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.
- The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.
- The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.
- The requirement that we complete an initial business combination within 24 months after the closing of this offering may give potential target businesses leverage over us in negotiating a business combination and may limit the time we have in which to conduct due diligence on potential business combination targets as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our stockholders.
- The recent coronavirus (COVID-19) pandemic and the impact on business and debt and equity markets could have a material adverse effect on our search for a business combination, and any target business with which we ultimately consummate a business combination.
- We may not be able to complete an initial business combination within 24 months after the closing of the offering, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate, in which case our public stockholders may only receive \$10.00 per share, or less than such amount in certain circumstances, and our warrants will expire worthless.
- If we seek stockholder approval of our initial business combination, our sponsor, directors, officers, advisors and their affiliates may elect to purchase shares or public warrants from public stockholders, which may influence a vote on a proposed business combination and reduce the public “float” of our Class A common stock.
- If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our initial business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.
- You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. Therefore, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

- You will not be entitled to protections normally afforded to investors of many other blank check companies.
- Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we do not complete our initial business combination, our public stockholders may receive only their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.
- If the net proceeds of this offering and the sale of the private placement warrants not being held in the trust account are insufficient to allow us to operate for at least the next 24 months, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination, and we will depend on loans from our sponsor or management team to fund our search and to complete our initial business combination.

Risks Relating to Our Sponsor and Management Team

- Since our sponsor, executive officers and directors will lose their entire investment in us if our initial business combination is not completed (other than with respect to public shares they may acquire during or after this offering), a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.
- We are dependent upon our executive officers and directors and their loss could adversely affect our ability to operate.
- The officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The loss of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business.
- Our executive officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Risks Relating to Our Securities

- Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination and results of operations.
- If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a "group" of stockholders are deemed to hold in excess of 15% of our Class A common stock, you will lose the ability to redeem all such shares in excess of 15% of our Class A common stock.
- The securities in which we invest the funds held in the trust account could bear a negative rate of interest, which could reduce the value of the assets held in trust such that the per-share redemption amount received by public stockholders may be less than \$10.00 per share.
- The Nasdaq may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.
- Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company.

General Risks

- We are a recently incorporated company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.
- The other risks and uncertainties discussed in "Risk Factors" and elsewhere in this prospectus.

Summary Financial Data

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

Balance Sheet Data:	December 31, 2020	
	Actual	As Adjusted
Working capital (deficiency) ⁽¹⁾	\$ (400)	\$ 242,264,600
Total assets ⁽²⁾	\$ 15,000	\$ 251,014,600
Total liabilities ⁽³⁾	\$ 400	\$ 8,750,000
Value of Class A common stock subject to possible redemption ⁽⁴⁾	\$ —	\$ 237,264,590
Stockholder's equity ⁽⁵⁾	\$ 14,600	\$ 5,000,010

- (1) The "as adjusted" calculation includes \$250,000,000 cash held in trust from the proceeds of this offering and the sale of the private placement warrants, plus \$1,000,000 in cash held outside the trust account, plus \$14,600 of actual stockholder's equity as of December 31, 2020, less \$8,750,000 of deferred underwriting commissions.
- (2) The "as adjusted" calculation equals \$250,000,000 cash held in trust from the proceeds of this offering and the sale of the private placement warrants, plus \$1,000,000 in cash held outside the trust account plus \$14,600 of actual stockholder's equity as of December 31, 2020.
- (3) The "as adjusted" calculation includes \$8,750,000 of deferred underwriting commissions.
- (4) The "as adjusted" calculation equals the "as adjusted" total assets, less the "as adjusted" total liabilities, less the "as adjusted" stockholder's equity, which is set to approximate the minimum net tangible assets threshold of at least \$5,000,001.
- (5) Excludes 23,726,459 public shares which are subject to redemption in connection with our initial business combination. The "as adjusted" calculation equals the "as adjusted" total assets, less the "as adjusted" total liabilities, less the value of shares of Class A common stock that may be redeemed in connection with our initial business combination (initially \$10.00 per share). The actual number of public shares that may be redeemed may exceed this amount as long as we satisfy the \$5,000,001 minimum net tangible asset threshold.

The "as adjusted" information gives effect to the sale of the units in this offering, the sale of the private placement warrants, repayment of up to an aggregate of \$300,000 in loans made to us by our sponsor and the payment of the estimated expenses of this offering and assumes no exercise of the underwriters' over-allotment option. The "as adjusted" total assets amount includes the \$250,000,000 held in the trust account for the benefit of our public stockholders, which amount, less deferred underwriting commissions, will be available to us only upon the completion of our initial business combination within 24 months from the closing of this offering. The "as adjusted" working capital and "as adjusted" total assets include \$8,750,000 being held in the trust account representing deferred underwriting commissions. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.

If no business combination is completed within 24 months from the closing of this offering, the proceeds then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), will be used to fund the redemption of our public shares. Our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we do not complete our initial business combination within such 24-month time period.

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

Risks Relating to our Search for, Consummation of, or Inability to Consummate, a Business Combination and Post-Business Combination Risks

Our public stockholders may not be afforded an opportunity to vote on our proposed initial business combination, which means we may complete our initial business combination even though a majority of our public stockholders do not support such a combination.

We may choose not to hold a stockholder vote before we complete our initial business combination if the business combination would not require stockholder approval under applicable law or stock exchange listing requirement. For instance, if we were seeking to acquire a target business where the consideration we were paying in the transaction was all cash, we would not be required to seek stockholder approval to complete such a transaction. Except as required by law or stock exchange, the decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek stockholder approval. Accordingly, we may complete our initial business combination even if a majority of our public stockholders do not approve of the business combination we complete.

Please see the section of this prospectus entitled “Proposed Business — Stockholders May Not Have the Ability to Approve our Initial Business Combination” for additional information.

If we seek stockholder approval of our initial business combination, our sponsor, directors and each member of our management team have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.

Our initial stockholders (including our sponsor) will own, on an as-converted basis, 20% of our outstanding shares of Class A common stock immediately following the completion of this offering. Our initial stockholders, directors and members of our management team also may from time to time purchase Class A common stock prior to our initial business combination. Our amended and restated certificate of incorporation will provide that, if we seek stockholder approval of an initial business combination, such initial business combination will be approved if we receive the affirmative vote of a majority of the shares voted at such meeting, including the founder shares. If we submit our initial business combination to our public stockholders for a vote, pursuant to the terms of a letter agreement entered into with us, our sponsor, directors and each member of our management team have agreed to vote their founder shares and any shares purchased during or after the offering, in favor of our initial business combination. As a result, assuming the anchor investors vote in favor of our initial business combination, in addition to our initial stockholders’ and anchor investors’ founder shares, we would need 9,375,001, or 37.5%, of the 25,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised). Accordingly, if we seek stockholder approval of our initial business combination, the agreement by our sponsor and each member of our management team to vote in favor of our initial business combination will increase the likelihood that we will receive the requisite stockholder approval for such initial business combination.

Your only opportunity to affect the investment decision regarding a potential business combination may be limited to the exercise of your right to redeem your shares from us for cash.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of one or more target businesses. Since our board of directors may complete a business combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the business combination, unless we seek such stockholder vote. Accordingly, your only opportunity to affect the

investment decision regarding a potential business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.

We may seek to enter into a business combination transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.

At the time we enter into an agreement for our initial business combination, we will not know how many stockholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third party financing. In addition, if a larger number of shares are submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for additional third party financing. Raising additional third party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure. The amount of the deferred underwriting commissions payable to the underwriters will not be adjusted for any shares that are redeemed in connection with an initial business combination. The per-share amount we will distribute to stockholders who properly exercise their redemption rights will not be reduced by the deferred underwriting commission and after such redemptions, the amount held in trust will continue to reflect our obligation to pay the entire deferred underwriting commissions.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.

If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your shares in the open market; however, at such time our shares may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your shares in the open market.

The requirement that we complete an initial business combination within 24 months after the closing of this offering may give potential target businesses leverage over us in negotiating a business combination and may limit the time we have in which to conduct due diligence on potential business combination targets as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our stockholders.

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete an initial business combination within 24 months from the closing of this offering. Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

The recent coronavirus (COVID-19) pandemic and the impact on business and debt and equity markets could have a material adverse effect on our search for a business combination, and any target business with which we ultimately consummate a business combination.

In December 2019, a novel strain of coronavirus (COVID-19) was reported to have surfaced in Wuhan, China, which has and is continuing to spread throughout China and other parts of the world, including the United States and Europe. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus a “Public Health Emergency of International Concern.” On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to the coronavirus, and on March 11, 2020, the World Health Organization characterized the outbreak as a “pandemic.” A significant outbreak of the coronavirus and other infectious diseases could result in a widespread health crisis that could adversely affect the economies and financial markets worldwide, business operations and the conduct of commerce generally and could have a material adverse effect on the business of any potential target business with which we consummate a business combination. Furthermore, we may be unable to complete a business combination if continued concerns relating to the coronavirus restrict travel, limit the ability to have meetings with potential investors or the target company’s personnel, vendors and services providers are unavailable to negotiate and consummate a transaction in a timely manner. The extent to which the coronavirus impacts our search for a business combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus pandemic and the actions to contain the coronavirus or treat its impact, among others. If the disruptions posed by the coronavirus or other matters of global concern continue for an extensive period of time, it could have a material adverse effect on our ability to consummate a business combination, or the operations of a target business with which we ultimately consummate a business combination.

In addition, our ability to consummate a transaction may be dependent on the ability to raise equity and debt financing and the coronavirus pandemic and other related events could have a material adverse effect on our ability to raise adequate financing.

We may not be able to complete an initial business combination within 24 months after the closing of the offering, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate, in which case our public stockholders may only receive \$10.00 per share, or less than such amount in certain circumstances, and our warrants will expire worthless.

Our sponsor, officers and directors have agreed that we must complete our initial business combination within 24 months from the closing of this offering. We may not be able to find a suitable target business and complete an initial business combination within 24 months after the closing of this offering. Our ability to complete our initial business combination may be negatively impacted by general market conditions, volatility in the capital and debt markets and the other risks described herein. If we have not completed an initial business combination within such applicable time period, we will: (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption

[Table of Contents](#)

will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law; and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

If we seek stockholder approval of our initial business combination, our sponsor, directors, officers, advisors and their affiliates may elect to purchase shares or public warrants from public stockholders, which may influence a vote on a proposed business combination and reduce the public "float" of our Class A common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, directors, executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, where otherwise permissible under applicable laws, rules and regulations, although they are under no obligation to do so. However, other than as expressly stated herein, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase shares or public warrants in such transactions.

Such a purchase may include a contractual acknowledgment that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees to vote in favor of the initial business combination or abstain and in any event not to exercise its redemption rights. In the event that our sponsor, directors, executive officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. The purpose of any such purchases of shares could be to vote such shares in favor of the business combination, or abstain, and thereby increase the likelihood of obtaining stockholder approval of the business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. See "Proposed Business — Permitted Purchases of Our Securities" for a description of how our sponsor, directors, executive officers, advisors or any of their affiliates will select which stockholders to purchase securities from in any private transaction.

In addition, if such purchases are made, the public "float" of our Class A common stock or public warrants and the number of beneficial holders of our securities may be reduced, possibly making it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our initial business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the proxy rules or tender offer rules, as applicable, when conducting redemptions in connection with our initial business combination. Despite our compliance with these rules, if a stockholder fails to receive our proxy solicitation or tender offer materials, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, the proxy solicitation or tender offer materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly redeem or tender public shares. For example, we may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares

[Table of Contents](#)

to the transfer agent electronically. In the event that a stockholder fails to comply with these or any other procedures, its shares may not be redeemed. See the section of this prospectus entitled “Proposed Business — Tendering Share Certificates in Connection with a Tender Offer or Redemption Rights.”

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. Therefore, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public stockholders will be entitled to receive funds from the trust account only upon the earlier to occur of: (i) our completion of an initial business combination, and then only in connection with those shares of our Class A common stock that such stockholder properly elected to redeem, subject to the limitations described herein, (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete an initial business combination within 24 months from the closing of this offering or (B) with respect to any other provisions relating to the rights of our Class A common stock, and (iii) the redemption of our public shares if we have not completed an initial business within 24 months from the closing of this offering, subject to applicable law and as further described herein. Public stockholders who redeem their Class A common stock in connection with a stockholder vote described in clause (ii) in the preceding sentence shall not be entitled to funds from the trust account upon the subsequent completion of an initial business combination or liquidation if we have not completed an initial business combination within 24 months from the closing of this offering, with respect to such Class A common stock so redeemed. In addition, if we do not complete an initial business combination within 24 months from the closing of this offering is not completed for any reason, compliance with Delaware law may require that we submit a plan of dissolution to our then-existing stockholders for approval prior to the distribution of the proceeds held in our trust account. In that case, public stockholders may be forced to wait beyond 24 months from the closing of this offering before they receive funds from our trust account. In no other circumstances will a public stockholder have any right or interest of any kind in the trust account. Holders of warrants will not have any right to the proceeds held in the trust account with respect to the warrants. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Since the net proceeds of this offering and the sale of the private placement warrants are intended to be used to complete an initial business combination with a target business that has not been selected, we may be deemed to be a “blank check” company under the United States securities laws. However, because we will have net tangible assets in excess of \$5,000,000 upon the successful completion of this offering and the sale of the private placement warrants and will file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we will have a longer period of time to complete our initial business combination than do companies subject to Rule 419. Moreover, if this offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our completion of an initial business combination. For a more detailed comparison of our offering to offerings that comply with Rule 419, please see the section of this prospectus entitled “Proposed Business — Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.”

Because of our limited resources, the increasing number of special purpose acquisition companies evaluating targets and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we do not complete our initial business combination, our public stockholders may receive only their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

In recent years, the number of special purpose acquisition companies that have been formed has increased substantially. Many potential targets for special purpose acquisition companies have already entered into an initial business combination, and there are still many special purpose acquisition companies preparing for an initial public offering, as well as many such companies currently in registration. As a result, we expect to encounter intense

[Table of Contents](#)

competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more local industry knowledge than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. Furthermore, this competition for available targets with attractive fundamentals or business models could cause target companies to demand improved financial terms. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of this offering and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, we are obligated to offer holders of our public shares the right to redeem their shares for cash at the time of our initial business combination in conjunction with a stockholder vote or via a tender offer. Target companies will be aware that this may reduce the resources available to us for our initial business combination. Any of these obligations may place us at a competitive disadvantage in successfully negotiating a business combination. If we do not complete our initial business combination our public stockholders may receive only their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

If the net proceeds of this offering and the sale of the private placement warrants not being held in the trust account are insufficient to allow us to operate for at least the next 24 months, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination, and we will depend on loans from our sponsor or management team to fund our search and to complete our initial business combination.

The funds available to us outside of the trust account to fund our working capital requirements may not be sufficient to allow us to operate for at least the next 24 months, assuming that our initial business combination is not completed during that time. We believe that, upon closing of this offering, the funds available to us outside of the trust account, together with funds available from loans from our sponsor will be sufficient to allow us to operate for at least the next 24 months; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we expect to use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent designed to keep target businesses from “shopping” around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into a letter of intent where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business. If we do not complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share upon our liquidation. See “— If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

In the event that our offering expenses exceed our estimate of \$1,500,000, we may fund such excess with funds not to be held in the trust account. In such case, unless funded by the proceeds of loans available from our sponsor, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,500,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount. The amount held in the trust account will not be impacted as a result of such increase or decrease. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate or may be forced to liquidate. Neither our sponsor, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. Up to \$1,500,000 of such loans may be convertible into warrants of the post-business combination

[Table of Contents](#)

entity at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account. If we are unable to obtain these loans, we may be unable to complete our initial business combination. If we do not complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. Consequently, our public stockholders may only receive an estimated \$10.00 per share, or possibly less, on our redemption of our public shares, and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares. See “— If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

Our independent registered public accounting firm’s report contains an explanatory paragraph that expresses substantial doubt about our ability to continue as a “going concern.”

As of December 31, 2020, we had no cash and a working capital deficit of approximately \$400. Further, we expect to incur significant costs in pursuit of our acquisition plans. Management’s plans to address this need for capital through this offering are discussed in the section of this prospectus titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” Our plans to raise capital and to consummate our initial business combination may not be successful. These factors, among others, raise substantial doubt about our ability to continue as a going concern. The financial statements contained elsewhere in this prospectus do not include any adjustments that might result from our inability to consummate this offering or our inability to continue as a going concern.

Subsequent to our completion of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our share price, which could cause you to lose some or all of your investment.

Even if we conduct due diligence on a target business with which we combine, we cannot assure you that this diligence will surface all material issues with a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their securities. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share.

Our placing of funds in the trust account may not protect those funds from third-party claims against us. Although we will seek to have all vendors, service providers (other than our independent auditors), prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements, they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary

[Table of Contents](#)

responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Making such a request of potential target businesses may make our acquisition proposal less attractive to them and, to the extent prospective target businesses refuse to execute such a waiver, it may limit the field of potential target businesses that we might pursue.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we have not completed an initial business combination within 24 months from the closing of this offering, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the ten years following redemption. Accordingly, the per-share redemption amount received by public stockholders could be less than the \$10.00 per public share initially held in the trust account, due to claims of such creditors. Pursuant to the letter agreement the form of which is filed as an exhibit to the registration statement of which this prospectus forms a part, our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent auditors) for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amounts in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case net of the interest that may be withdrawn to pay our taxes, if any, provided that such liability will not apply to any claims by a third party or prospective target business that executed a waiver of any and all rights to seek access to the trust account nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third party claims. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Our directors may decide not to enforce the indemnification obligations of our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case net of the interest that may be withdrawn to pay our taxes, if any, and our sponsor assert that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment and subject to their fiduciary duties may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

We may not have sufficient funds to satisfy indemnification claims of our directors and executive officers.

We have agreed to indemnify our officers and directors to the fullest extent permitted by law. However, our officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the trust account and to not seek recourse against the trust account for any reason whatsoever (except to the extent they are entitled to funds from the trust account due to their ownership of public shares). Accordingly, any indemnification provided will be able to be satisfied by us only if (i) we have sufficient funds outside of the trust account or (ii) we complete an initial business combination. Our obligation to indemnify our officers and directors may discourage stockholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, a bankruptcy or insolvency court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy or insolvency laws as either a "preferential transfer" or a "fraudulent conveyance." As a result, a bankruptcy or insolvency court could seek to recover some or all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our stockholders and the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy or insolvency law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

Our stockholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

Under the Delaware General Corporation Law (the "DGCL"), stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 24 months from the closing of this offering may be considered a liquidating distribution under Delaware law. If a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

[Table of Contents](#)

However, it is our intention to redeem our public shares as soon as reasonably possible following the 24th month from the closing of this offering in the event we do not complete our initial business combination and, therefore, we do not intend to comply with the foregoing procedures.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the 10 years following our dissolution. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. If our plan of distribution complies with Section 281(b) of the DGCL, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would likely be barred after the third anniversary of the dissolution. We cannot assure you that we will properly assess all claims that may be potentially brought against us. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend beyond the third anniversary of such date. Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 24 months from the closing of this offering is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful (potentially due to the imposition of legal proceedings that a party may bring or due to other circumstances that are currently unknown), then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution.

We may not hold an annual meeting of stockholders until after the completion of our initial business combination.

In accordance with the Nasdaq corporate governance requirements, we are not required to hold an annual meeting until no later than one year after our first fiscal year end following our listing on the Nasdaq. Under Section 211(b) of the DGCL, we will, however, be required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our amended and restated bylaws unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

Because we are neither limited to evaluating a target business in a particular industry sector nor have we selected any specific target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business's operations.

We may pursue business combination opportunities in any sector, except that we will not, under our amended and restated certificate of incorporation, be permitted to effectuate our initial business combination with another blank check company or similar company with nominal operations. Because we have not yet selected or approached any specific target business with respect to a business combination, there is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any stockholders who choose to remain stockholders following our initial business combination could suffer a reduction in the value of their securities. Such

stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

We may seek acquisition opportunities in industries or sectors which may be outside of our management's area of expertise.

We will consider a business combination outside of our management's area of expertise if a business combination candidate is presented to us and we determine that such candidate offers an attractive acquisition opportunity for our company. Although our management will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our units will not ultimately prove to be less favorable to investors in this offering than a direct investment, if an opportunity were available, in a business combination candidate. In the event we elect to pursue an acquisition outside of the areas of our management's expertise, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained in this prospectus regarding the areas of our management's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to adequately ascertain or assess all of the significant risk factors. Accordingly, any stockholder who choose to remain stockholders following our business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses and our strategy will be to identify, acquire and build a company in our target investment area, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses and our strategy will be to identify, acquire and build a company in our target investment area, it is possible that a target business with which we enter into our initial business combination will not have attributes consistent with our general criteria and guidelines. If we complete our initial business combination with a target that does not meet some or all of these guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we do not complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

We may seek business combination opportunities with a financially unstable business or an entity lacking an established record of revenue, cash flow or earnings, which could subject us to volatile revenues, cash flows or earnings or difficulty in retaining key personnel.

To the extent we complete our initial business combination with an early stage company, a financially unstable business or an entity lacking an established record of revenues or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include investing in a business without a proven business model or with limited historic financial data, volatile revenues or earnings, intense competition and difficulties in obtaining and retaining key personnel. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all of the relevant risk factors and we may not have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

We are not required to obtain an opinion from an independent accounting or investment banking firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our stockholders from a financial point of view.

Unless we complete our initial business combination with an affiliated entity, we are not required to obtain an opinion from an independent accounting firm or independent investment banking firm that the price we are paying is fair to our stockholders from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our proxy solicitation or tender offer materials, as applicable, related to our initial business combination.

Past performance by our sponsor and its affiliates or our management team, including the businesses referred to herein, may not be indicative of future performance of an investment in us or in the future performance of any business that we may acquire.

Information regarding past performance of our sponsor and its affiliates and our management team is presented for informational purposes only. Any past experience and performance of our sponsor and its affiliates, our management team or the other companies referred to herein is not a guarantee either: (1) that we will be able to successfully identify a suitable candidate for our initial business combination or (2) of any results with respect to any initial business combination we may complete. You should not rely on the historical record of our sponsor and its affiliates, our management team's performance or the performance of the other companies referred to herein as indicative of the future performance of an investment in us or the returns we will, or are likely to, generate going forward. An investment in us is not an investment in our sponsor or its affiliates, nor the other companies referred to in this prospectus.

Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America ("GAAP"), or international financial reporting standards as issued by the International Accounting Standards Board ("IFRS"), depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"). These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate a business combination, require substantial financial and management resources, and increase the time and costs of completing an acquisition.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2021. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target business with which we seek to complete our initial business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete our initial business combination with which a substantial majority of our stockholders do not agree.

Our amended and restated certificate of incorporation will not provide a specified maximum redemption threshold, except that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (such that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. As a result, we may be able to complete our initial business combination even though a substantial majority of our public stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, officers, directors, advisors or any of their affiliates. In the event the aggregate cash consideration we would be required to pay for all shares of our Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all shares of our Class A common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

In order to effectuate an initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and other governing instruments, including their warrant agreements. We cannot assure you that we will not seek to amend our amended and restated certificate of incorporation or governing instruments in a manner that will make it easier for us to complete our initial business combination that our stockholders may not support.

In order to effectuate a business combination, blank check companies have, in the recent past, amended various provisions of their charters and governing instruments, including their warrant agreements. For example, blank check companies have amended the definition of business combination, increased redemption thresholds, changed industry focus and, with respect to their warrants, amended their warrant agreements to require the warrants to be exchanged for cash and/or other securities. Amending our amended and restated certificate of incorporation will require the approval of holders of 65% of our common stock, and amending our warrant agreement will require a vote of holders of at least 65% of the public warrants. In addition, our amended and restated certificate of incorporation will require us to provide our public stockholders with the opportunity to redeem their public shares for cash if we propose an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete an initial business combination within 24 months from the closing of this offering or with respect to any other provisions relating to the rights of holders of Class A common stock. To the extent any of such amendments would be deemed to fundamentally change the nature of any of the securities offered through this registration statement, we would register, or seek an exemption from registration for, the affected securities. We cannot assure you that we will not seek to amend our charter or governing instruments or extend the time to consummate an initial business combination in order to effectuate our initial business combination.

The provisions of our amended and restated certificate of incorporation that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of at least 65% of our common stock, which is a lower amendment threshold than that of some other blank check companies. It may be easier for us, therefore, to amend our amended and restated certificate of incorporation to facilitate the completion of an initial business combination that some of our stockholders may not support.

Some other blank check companies have a provision in their charter which prohibits the amendment of certain of its provisions, including those which relate to a company's pre-business combination activity, without approval by a certain percentage of the company's stockholders. In those companies, amendment of these provisions typically requires approval by 90% of the company's stockholders attending and voting at an annual meeting. Our amended and restated certificate of incorporation will provide that any of its provisions related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the private placement of warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights

[Table of Contents](#)

to public stockholders as described herein) may be amended if approved by holders of 65% of our common stock entitled to vote thereon and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of at least 65% of our common stock entitled to vote thereon. In all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our outstanding shares of common stock entitled to vote thereon, subject to applicable provisions of the DGCL or applicable stock exchange rules. Our sponsor and its permitted transferees, if any, who will collectively beneficially own, on an as converted basis, 20% of our Class A common stock upon the closing of this offering (assuming they do not purchase any units in this offering), will participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated certificate of incorporation which govern our pre-business combination behavior more easily than some other blank check companies, and this may increase our ability to complete a business combination with which you do not agree. Our stockholders may pursue remedies against us for any breach of our amended and restated certificate of incorporation.

Our sponsor, executive officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete an initial business combination within 24 months from the closing of this offering, unless we provide our public stockholders with the opportunity to redeem their Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of then outstanding public shares. These agreements are contained in letter agreements that we have entered into with our sponsor, directors and each member of our management team. Our stockholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsor, executive officers or directors for any breach of these agreements.

As a result, in the event of a breach, our stockholders would need to pursue a stockholder derivative action, subject to applicable law.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination. If we do not complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

Although we believe that the net proceeds of this offering and the sale of the private placement warrants will be sufficient to allow us to complete our initial business combination, because we have not yet selected any prospective target business we cannot ascertain the capital requirements for any particular transaction. If the net proceeds of this offering and the sale of the private placement warrants prove to be insufficient, either because of the size of our initial business combination, the depletion of the available net proceeds in search of a target business, the obligation to redeem for cash a significant number of shares from stockholders who elect redemption in connection with our initial business combination or the terms of negotiated transactions to purchase shares in connection with our initial business combination, we may be required to seek additional financing or to abandon the proposed business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. The current economic environment may make it difficult for companies to obtain acquisition financing. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. If we do not complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders and not previously released to us to pay our taxes on the liquidation of our trust account, and our warrants will expire worthless. In addition, even if we do not need additional financing to complete our initial business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in

connection with or after our initial business combination. If we do not complete our initial business combination, our public stockholders may only receive approximately \$10.00 per share on the liquidation of our trust account, and our warrants will expire worthless.

Our initial stockholders and the anchor investors control a substantial interest in us and thus may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

Upon closing of this offering, our initial stockholders (including our sponsor) will own, on an as-converted basis, 20% of our issued and outstanding Class A common stock (assuming they do not purchase any units in this offering). The anchor investors have also expressed to us an interest to purchase an aggregate of 2,000,000 units (or 2,300,000 units if the underwriters' over-allotment option is exercised in full) in this offering. There will be no underwriting discount or commission paid on any units the anchor investors may purchase in this offering. Because these expressions of interest are not binding agreements or commitments to purchase, our anchor investors may determine to purchase more, fewer or no units in this offering or the underwriters may determine to sell more, fewer or no units to our anchor investors. Accordingly, they may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our amended and restated certificate of incorporation. If our initial stockholders or the anchor investors purchase any units in this offering or if our initial stockholders or the anchor investors purchase any additional shares of our Class A common stock in the aftermarket or in privately negotiated transactions, this would increase their control. Neither our sponsor nor, to our knowledge, any of our officers or directors, have any current intention to purchase additional securities, other than as disclosed in this prospectus. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A common stock. In addition, our board of directors, whose members were elected by our sponsor, is and will be divided into three classes, each of which will generally serve for a terms for three years with only one class of directors being elected in each year. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our initial business combination, in which case all of the current directors will continue in office until at least the completion of the business combination. If there is an annual meeting, as a consequence of our "staggered" board of directors, only a minority of the board of directors will be considered for election and our sponsor, because of its ownership position, will have considerable influence regarding the outcome. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason. Accordingly, our sponsor will continue to exert control at least until the completion of our initial business combination.

Resources could be wasted in researching acquisitions that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we do not complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we do not complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination, and a particular business combination may be conditioned on the retention or resignation of such key personnel. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Our key personnel may be able to remain with our company after the completion of our initial business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination

[Table of Contents](#)

and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. Such negotiations also could make such key personnel's retention or resignation a condition to any such agreement. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business, subject to his or her fiduciary duties under Delaware law. However, we believe the ability of such individuals to remain with us after the completion of our business combination will not be the determining factor in our decision as to whether or not we will proceed with any potential business combination. There is no certainty, however, that any of our key personnel will remain with us after the completion of our business combination. We cannot assure you that any of our key personnel will remain in senior management or advisory positions with us. The determination as to whether any of our key personnel will remain with us will be made at the time of our initial business combination. In addition, pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, our sponsor, upon completion of an initial business combination, will be entitled to nominate three individuals for election to our board of directors, as long as our sponsor holds any securities covered by the registration and stockholder's rights agreement.

We may have a limited ability to assess the management of a prospective target business and, as a result, may affect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target business's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target business's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our stockholders' investment in us.

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt following this offering, we may choose to incur substantial debt to complete our initial business combination. We and our officers have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per-share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our Class A common stock;

[Table of Contents](#)

- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our Class A common stock if declared, our ability to pay expenses, make capital expenditures and acquisitions and fund other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements and execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of this offering and the sale of the private placement warrants, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.

Of the net proceeds from this offering and the sale of the private placement warrants, \$250,000,000 (or \$287,500,000 if the underwriters' over-allotment option is exercised in full) will be available to complete our business combination and pay related fees and expenses (which excludes up to \$8,750,000 (or \$10,062,500 if the over-allotment option is exercised in full), after taking into account the deferred underwriting commissions being held in the trust account and the estimated expense of this offering).

We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset; or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our acquisition strategy, we may seek to effectuate our initial business combination with a privately held company. By definition, very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

Our initial business combination and our structure thereafter may not be tax-efficient to our securityholders.

Although we will attempt to structure our initial business combination in a tax-efficient manner, tax structuring considerations are complex, the relevant facts and law are uncertain and may change, and we may prioritize commercial and other considerations over tax considerations. For example, in connection with our initial business combination and subject to requisite stockholder approval, we may structure our business combination in a manner that requires stockholders and/or warrant holders to recognize gain or income for tax purposes. We do not intend to make any cash distributions to stockholders or warrant holders to pay taxes in connection with our business combination or thereafter. Accordingly, a stockholder or a warrant holder may need to satisfy any liability resulting from our initial business combination with cash from its own funds or by selling all or a portion of such holder's shares or warrants.

If we pursue a target company with operations or opportunities outside of the United States for our initial business combination, we may face additional burdens in connection with investigating, agreeing to and completing such initial business combination, and if we effect such initial business combination, we would be subject to a variety of additional risks that may negatively impact our operations.

If we pursue a target a company with operations or opportunities outside of the United States for our initial business combination, we would be subject to risks associated with cross-border business combinations, including in connection with investigating, agreeing to and completing our initial business combination, conducting due diligence in a foreign jurisdiction, having such transaction approved by any local governments, regulators or agencies and changes in the purchase price based on fluctuations in foreign exchange rates.

If we effect our initial business combination with such a company, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- costs and difficulties inherent in managing cross-border business operations and complying with different commercial and legal requirements of overseas markets;
- rules and regulations regarding currency redemption;
- laws governing the manner in which future business combinations may be effected;
- exchange listing and/or delisting requirements;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- local or regional economic policies and market conditions;
- unexpected changes in regulatory requirements;
- longer payment cycles;
- tax issues, including limits on our ability to change our tax residence from the United States, complex withholding or other tax regimes which may apply in connection with our business combination or to our structure following our business combination, variations in tax laws as compared to the United States, and potential changes in the applicable tax laws in the United States and/or relevant non-U.S. jurisdictions;

[Table of Contents](#)

- currency fluctuations and exchange controls;
- rates of inflation;
- challenges in collecting accounts receivable;
- cultural and language differences;
- employment regulations;
- underdeveloped or unpredictable legal or regulatory systems;
- corruption;
- protection of intellectual property;
- social unrest, crime, strikes, riots and civil disturbances;
- regime changes and political upheaval;
- terrorist attacks, natural disasters and wars;
- deterioration of political relations with the United States; and
- government appropriation of assets.

We may not be able to adequately address these additional risks. If we were unable to do so, we may be unable to complete such initial business combination, or, if we complete such combination, our operations might suffer, either of which may adversely impact our business, financial condition and results of operations.

If we effect a business combination with a target company organized in another jurisdiction, we may take actions in connection with the business combination that could have adverse tax consequences.

We may effect a business combination with a target company in another jurisdiction, reincorporate in the jurisdiction in which the target company or business is located, or reincorporate in another jurisdiction. Such transactions may result in tax liability for a stockholder or warrant holder in the jurisdiction in which the stockholder or warrant holder is a tax resident (or in which its members are resident if it is a tax transparent entity), in which the target company is located, or in which we reincorporate. In the event of a reincorporation pursuant to our initial business combination, such tax liability may attach prior to the consummation of redemptions of any of our public shares properly submitted to us for redemption in connection with such business combination. We do not intend to make any cash distributions to shareholders to pay such taxes. Stockholders or warrant holders may be subject to withholding taxes or other taxes with respect to their ownership of us after the reincorporation.

Furthermore, we may effect a business combination with a target company that has business operations outside of the United States and, possibly, business operations in multiple jurisdictions. If we effect such a business combination, we could be subject to significant income, withholding and other tax obligations in a number of jurisdictions with respect to income, operations and subsidiaries related to those jurisdictions. Due to the complexity of tax obligations and filings in other jurisdictions, we may have a heightened risk related to audits or examinations by taxing authorities. This additional complexity and risk could have an adverse effect on our after-tax profitability and financial condition.

If we have not completed an initial business combination within 24 months from the closing of this offering, our public stockholders may be forced to wait beyond such 24 months before redemption from our trust account.

If we have not completed an initial business combination within 24 months from the closing of this offering, the proceeds then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of the interest to pay dissolution expenses), will be used to fund the redemption of our public shares, as further described herein. Any redemption of public stockholders from the trust account will be effected automatically by function of our amended and restated certificate of incorporation prior to any voluntary winding up. If we are required to wind-up, liquidate the trust

[Table of Contents](#)

account and distribute such amount therein, pro rata, to our public stockholders, as part of any liquidation process, such winding up, liquidation and distribution must comply with the applicable provisions of the DGCL. In that case, investors may be forced to wait beyond 24 months from the closing of this offering before the redemption proceeds of our trust account become available to them, and they receive the return of their pro rata portion of the proceeds from our trust account. We have no obligation to return funds to investors prior to the date of our redemption or liquidation unless we complete our initial business combination prior thereto and only then in cases where investors have sought to redeem their Class A common stock. Only upon our redemption or any liquidation will public stockholders be entitled to distributions if we do not complete our initial business combination.

Holders of our Class A common stock will not be entitled to vote on any appointment of directors we hold prior to our initial business combination.

Prior to our initial business combination, only holders of our founder shares will have the right to vote on the appointment of our directors. Holders of our public shares will not be entitled to vote on the appointment of our directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason. Accordingly, you may not have any say in the management of our company prior to the completion of an initial business combination.

The grant of registration rights to our sponsor may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of the shares of our Class A common stock.

Pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, our sponsor and its permitted transferees can demand that we register the shares of our Class A common stock into which founder shares are convertible, the private placement warrants and the Class A common stock issuable upon exercise of the private placement warrants, and warrants that may be issued upon conversion of working capital loans and the Class A common stock issuable upon conversion of such warrants. The registration rights will be exercisable with respect to the founder shares and the private placement warrants and the Class A common stock issuable upon exercise of such private placement warrants. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our Class A common stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our Class A common stock that is expected when the securities owned by our sponsor or initial stockholders, holders of our private placement warrants or holders of warrants issued upon conversion of working capital loans, if any, or their permitted transferees are registered.

We may seek business combination opportunities with a high degree of complexity that require significant operational improvements, which could delay or prevent us from achieving our desired results.

We may seek business combination opportunities with large, highly complex companies that we believe would benefit from operational improvements. While we intend to implement such improvements, to the extent that our efforts are delayed or we are unable to achieve the desired improvements, the business combination may not be as successful as we anticipate.

To the extent we complete our initial business combination with a large complex business or entity with a complex operating structure, we may also be affected by numerous risks inherent in the operations of the business with which we combine, which could delay or prevent us from implementing our strategy. Although our management team will endeavor to evaluate the risks inherent in a particular target business and its operations, we may not be able to properly ascertain or assess all of the significant risk factors until we complete our business combination. If we are not able to achieve our desired operational improvements, or the improvements take longer to implement than anticipated, we may not achieve the gains that we anticipate. Furthermore, some of these risks and complexities may be outside of our control and leave us with no ability to control or reduce the chances that those risks and complexities will adversely impact a target business. Such combination may not be as successful as a combination with a smaller, less complex organization.

A provision of our warrant agreement may make it more difficult for us to complete an initial business combination.

If (i) we issue additional common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at a Newly Issued Price of less than \$9.20 per common stock, (ii) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the completion of our initial business combination (net of redemptions), and (iii) the Market Value is below \$9.20 per share, then the exercise price of the warrants will be adjusted to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 and \$18.00 per share redemption trigger prices will be adjusted (to the nearest cent) to be equal to 100% and 180% of the higher of the Market Value and the Newly Issued Price, respectively. This may make it more difficult for us to complete an initial business combination with a target business.

Changes in the market for directors and officers liability insurance could make it more difficult and more expensive for us to negotiate and complete an initial business combination.

In recent months, the market for directors and officers liability insurance for special purpose acquisition companies has changed in ways adverse to us and our management team. Fewer insurance companies are offering quotes for directors and officers liability coverage, the premiums charged for such policies have generally increased and the terms of such policies have generally become less favorable. These trends may continue into the future.

The increased cost and decreased availability of directors and officers liability insurance could make it more difficult and more expensive for us to negotiate an initial business combination. In order to obtain directors and officers liability insurance or modify its coverage as a result of becoming a public company, the post-business combination entity might need to incur greater expense, accept less favorable terms or both. However, any failure to obtain adequate directors and officers liability insurance could have an adverse impact on the post-business combination's ability to attract and retain qualified officers and directors.

In addition, even after we were to complete an initial business combination, our directors and officers could still be subject to potential liability from claims arising from conduct alleged to have occurred prior to the initial business combination. As a result, in order to protect our directors and officers, the post-business combination entity may need to purchase additional insurance with respect to any such claims ("run-off insurance"). The need for run-off insurance would be an added expense for the post-business combination entity, and could interfere with or frustrate our ability to consummate an initial business combination on terms favorable to our investors.

Risks Relating to Our Sponsor and Management Team

Our ability to successfully effect our initial business combination and to be successful thereafter will be totally dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our ability to successfully effect our initial business combination is dependent upon the efforts of our key personnel. The role of our key personnel in the target business, however, cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management, director or advisory positions following our initial business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we engage after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

We are dependent upon our executive officers and directors and their loss could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals and, in particular, our executive officers and directors. We believe that our success depends on the continued service of our officers and directors, at least until we have completed our initial business combination. In addition, our executive officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating their time among various business activities, including identifying potential business combinations and

[Table of Contents](#)

monitoring the related due diligence. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or executive officers. The unexpected loss of the services of one or more of our directors or executive officers could have a detrimental effect on us.

The officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The loss of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business.

The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place.

Our executive officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our executive officers and directors is engaged in several other business endeavors for which he may be entitled to substantial compensation, and our executive officers and directors are not obligated to contribute any specific number of hours per week to our affairs. In particular, certain of our executive officers and directors are employed by affiliates of our sponsor. Our independent directors also serve as officers and board members for other entities. If our executive officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination. For a complete discussion of our executive officers' and directors' other business affairs, please see the section of this prospectus entitled "Management — Officers, Directors and Director Nominees."

Our officers and directors presently have, and any of them in the future may have additional, fiduciary or contractual obligations to other entities, including another blank check company, and, accordingly, may have conflicts of interest in allocating their time and determining to which entity a particular business opportunity should be presented.

Following the completion of this offering and until we complete our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses or entities. Each of our officers and directors presently has, and any of them in the future may have, additional fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity, subject to his or her fiduciary duties under Delaware law. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us, subject to their fiduciary duties under Delaware law. However, we do not believe that any potential conflicts would materially affect our ability to complete our initial business combination.

In addition, our directors and officers and our sponsor or its affiliates may in the future become affiliated with other blank check companies that may have acquisition objectives that are similar to ours. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to such other blank check companies prior to its presentation to us, subject to our officers' and directors' fiduciary duties under Delaware law. Our amended and restated certificate of incorporation will provide that we renounce our interest in any business combination opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of the company and it is an opportunity that we are able to complete on a reasonable basis.

[Table of Contents](#)

For a complete discussion of our executive officers' and directors' business affiliations and the potential conflicts of interest that you should be aware of, please see the sections of this prospectus entitled "Management — Officers, Directors and Director Nominees," "Management — Conflicts of Interest" and "Certain Relationships and Related Party Transactions."

Our executive officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, executive officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a business combination with a target business that is affiliated with our sponsor, our directors or executive officers, although we do not intend to do so. Nor do we have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us, including the formation or participation in one or more other blank check companies. Accordingly, such persons or entities may have a conflict between their interests and ours.

The personal and financial interests of our directors and officers may influence their motivation in timely identifying and selecting a target business and completing a business combination. Consequently, our directors' and officers' discretion in identifying and selecting a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of a particular business combination are appropriate and in our stockholders' best interest. If this were the case, it would be a breach of their fiduciary duties to us as a matter of Delaware law and we or our stockholders might have a claim against such individuals for infringing on our stockholders' rights. See the section titled "Description of Securities — Certain Differences in Corporate Law — Stockholders' Suits" for further information on the ability to bring such claims. However, we might not ultimately be successful in any claim we may make against them for such reason.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our sponsor, executive officers, directors or existing holders which may raise potential conflicts of interest.

In light of the involvement of our sponsor, executive officers and directors with other entities, we may decide to acquire one or more businesses affiliated with our sponsor, executive officers, directors or existing holders. Our directors also serve as officers and board members for other entities, including, without limitation, those described under the section of this prospectus entitled "Management — Conflicts of Interest." Our directors and officers and our sponsor or its affiliates may sponsor, form or participate in other blank check companies similar to ours during the period in which we are seeking an initial business combination. Such entities may compete with us for business combination opportunities. Our sponsor, including any of its affiliates, officers and directors are not currently aware of any specific opportunities for us to complete our initial business combination with any entities with which they are affiliated, and there have been no substantive discussions concerning a business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for a business combination as set forth in the section of this prospectus entitled "Proposed Business — Evaluation of a Target Business and Structuring of our Initial Business Combination" and such transaction was approved by a majority of our independent and disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm, or from an independent accounting firm, regarding the fairness to our company from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our sponsor, executive officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest.

Since our sponsor, anchor investors, executive officers and directors will lose their entire investment in us if our initial business combination is not completed (other than with respect to public shares they may acquire during or after this offering), a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

In December 2020, our sponsor paid an aggregate of \$25,000, or approximately \$0.003 per share, to cover certain of our offering costs in consideration of 7,187,500 shares of our Class B common stock. In January 2021, our sponsor agreed to sell to the anchor investors 1,125,000 founder shares (or 1,293,750 founder shares if the

[Table of Contents](#)

underwriters' over-allotment option is exercised in full) and the anchor investors agreed to purchase from our sponsor on the date of the initial business combination an aggregate of 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) for an aggregate purchase price of approximately \$3,913 (or \$4,500 if the underwriters' over-allotment option is exercised in full), or approximately \$0.003 per share. Also in January 2021, our sponsor transferred 30,000 Class B ordinary shares to each of our independent directors. These 120,000 shares will not be subject to forfeiture in the event the underwriters' over-allotment option is not exercised. Prior to the initial investment in the company of \$25,000 by our sponsor, the company had no assets, tangible or intangible. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the outstanding shares after this offering. The founder shares will be worthless if we do not complete an initial business combination. In addition, our sponsor and the anchor investors have committed, pursuant to a written agreement, to purchase an aggregate of 5,000,000 private placement warrants (or 5,500,000 private placement warrants if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one share of our Class A common stock at \$11.50 per share, for a purchase price of approximately \$7,500,000 (or \$8,250,000 if the underwriters' over-allotment option is exercised in full), or \$1.50 per whole warrant, that will also be worthless if we do not complete a business combination. Among the private placement warrants, 4,000,000 private placement warrants (or 4,400,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be purchased by our sponsor and an aggregate of 1,000,000 private placement warrants (or 1,100,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be purchased by the anchor investors. Our initial stockholders have agreed (A) to vote any shares owned by them in favor of any proposed business combination and (B) not to redeem any founder shares in connection with a stockholder vote to approve a proposed initial business combination. In addition, we may obtain loans from our sponsor, affiliates of our sponsor or an officer or director, and we may pay our sponsor, officers, directors and any of their respective affiliates fees and expenses in connection with identifying, investigating and completing an initial business combination.

Additionally, in the event that the anchor investors purchase units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that our anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

The personal and financial interests of our executive officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination. This risk may become more acute as the 24-month anniversary of the closing of this offering nears, which is the deadline for our completion of an initial business combination.

Our management may not be able to maintain control of a target business after our initial business combination. Upon the loss of control of a target business, new management may not possess the skills, qualifications or abilities necessary to profitably operate such business.

We may structure our initial business combination so that the post-transaction company in which our public stockholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction company owns 50% or more of the voting securities of the target, our stockholders prior to our initial business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares of our Class A common stock in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new shares of our Class A common stock, our stockholders immediately prior to such transaction could own less than a majority of our issued and outstanding Class A common stock subsequent to such

[Table of Contents](#)

transaction. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's shares than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain control of the target business.

Risks Relating to Our Securities

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities, each of which may make it difficult for us to complete our initial business combination.

In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading of securities and that our activities do not include investing, reinvesting, owning, holding or trading "investment securities" constituting more than 40% of our assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete a business combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. To this end, the proceeds held in the trust account may only be invested in United States "government securities" within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an "investment company" within the meaning of the Investment Company Act. This offering is not intended for persons who are seeking a return on investments in government securities or investment securities. The trust account is intended as a holding place for funds pending the earliest to occur of either: (a) the completion of our initial business combination; (b) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation (i) to modify the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete an initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provisions relating to the rights of holders of our Class A common stock; or (c) absent our completing an initial business combination within 24 months from the closing of this offering, our return of the funds held in the trust account to our public stockholders as part of our redemption of the public shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete a business combination. If we do not complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to negotiate and complete our initial business combination, and results of operations.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of stockholders are deemed to hold in excess of 15% of our Class A common stock, you will lose the ability to redeem all such shares in excess of 15% of our Class A common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in this offering without our prior consent (the “Excess Shares.” However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our initial business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your shares in open market transactions, potentially at a loss.

The securities in which we invest the funds held in the trust account could bear a negative rate of interest, which could reduce the value of the assets held in trust such that the per-share redemption amount received by public stockholders may be less than \$10.00 per share.

The proceeds held in the trust account will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest only in direct U.S. government treasury obligations. While short-term U.S. government treasury obligations currently yield a positive rate of interest, they have briefly yielded negative interest rates in recent years. Central banks in Europe and Japan pursued interest rates below zero in recent years, and the Open Market Committee of the Federal Reserve has not ruled out the possibility that it may in the future adopt similar policies in the United States. In the event that we are unable to complete our initial business combination or make certain amendments to our amended and restated memorandum and articles of association, our public stockholders are entitled to receive their pro-rata share of the proceeds held in the trust account, plus any interest income, net of taxes paid or payable (less, in the case we are unable to complete our initial business combination, \$100,000 of interest). Negative interest rates could reduce the value of the assets held in trust such that the per-share redemption amount received by public stockholders may be less than \$10.00 per share.

The Nasdaq may delist our securities from trading on its exchange, which could limit investors’ ability to make transactions in our securities and subject us to additional trading restrictions.

We intend to apply to have our units listed on the Nasdaq on or promptly after the date of this prospectus and our Class A common stock and warrants listed on or promptly after their date of separation. Although after giving effect to this offering we expect to meet, on a pro forma basis, the minimum initial listing standards set forth in the Nasdaq listing standards, we cannot assure you that our securities will be, or will continue to be, listed on the Nasdaq in the future or prior to our initial business combination. In order to continue listing our securities on the

[Table of Contents](#)

Nasdaq prior to our initial business combination, we must maintain certain financial, distribution and share price levels. Generally, we must maintain a minimum stockholders' equity (generally \$2,500,000) and a minimum number of holders of our securities (generally 300 public holders).

Additionally, our units will not be traded after completion of our initial business combination and, in connection with our initial business combination, we will be required to demonstrate compliance with the Nasdaq initial listing requirements, which are more rigorous than the Nasdaq continued listing requirements, in order to continue to maintain the listing of our securities on the Nasdaq.

For instance, our share price would generally be required to be at least \$4.00 per share and our stockholders' equity would generally be required to be at least \$5.0 million and we would be required to have a minimum of 300 round lot holders of our securities, with at least 50% of such round lot holders holding securities with a market value of at least \$2,500. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If the Nasdaq delists any of our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A common stock are a "penny stock" which will require brokers trading in our Class A common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Because we expect that our units and eventually our Class A common stock and warrants will be listed on the Nasdaq, our units, Class A common stock and warrants will qualify as covered securities under the statute. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on the Nasdaq, our securities would not qualify as covered securities under the statute, and we would be subject to regulation in each state in which we offer our securities.

We may issue additional shares of our Class A common stock or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue shares of our Class A common stock upon the conversion of the founder shares at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions contained in our amended and restated certificate of incorporation. Any such issuances would dilute the interest of our stockholders and likely present other risks.

Our amended and restated certificate of incorporation will authorize the issuance of up to 500,000,000 shares of our Class A common stock, par value \$0.0001 per share, 50,000,000 shares of our Class B common stock, par value \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. Immediately after this offering, there will be 475,000,000 and 43,750,000 (assuming in each case that the underwriters have not exercised their over-allotment option and the forfeiture of 937,500 shares of Class B common stock) authorized but unissued shares of our Class A common stock and Class B common stock, respectively, available for issuance which amount does not take into account shares reserved for issuance upon exercise of outstanding warrants or shares issuable upon conversion of the Class B common stock, if any. The Class B common stock is automatically convertible into

[Table of Contents](#)

Class A common stock at the time of our initial business combination as described herein and in our amended and restated certificate of incorporation. Immediately after this offering, there will be no shares of preferred stock issued and outstanding.

We may issue a substantial number of additional shares of our Class A common stock or shares of preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue Class A common stock to redeem the warrants as described in “Description of Securities — Warrants — Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$10.00” or upon conversion of the Class B common stock at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions contained in our amended and restated certificate of incorporation. However, our amended and restated certificate of incorporation will provide, among other things, that prior to or in connection with our initial business combination, we may not issue additional shares that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination or on any other proposal presented to stockholders prior to or in connection with the completion of an initial business combination. These provisions of our amended and restated certificate of incorporation, like all provisions of our amended and restated certificate of incorporation, may be amended with a stockholder vote. The issuance of additional shares of common stock or shares of preferred stock:

- may significantly dilute the equity interest of investors in this offering;
- may subordinate the rights of holders of our Class A common stock if share of preferred stock are issued with rights senior to those afforded our Class A common stock;
- could cause a change in control if a substantial number of shares of our Class A common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may adversely affect prevailing market prices for our units, Class A common stock and/or warrants; and
- will not result in adjustment to the exercise price of our warrants.

Unlike most other similarly structured special purpose acquisition companies, our initial stockholders and anchor investors will receive additional shares of our Class A common stock if we issue shares to complete an initial business combination.

The founder shares will automatically convert into shares of our Class A common stock on the first business day following the completion of our initial business combination at a ratio such that the number of shares of our Class A common stock issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of shares of our Class A common stock issued and outstanding upon completion of this offering, plus (ii) the total number of shares of our Class A common stock issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the company in connection with or in relation to the completion of the initial business combination, excluding any shares of our Class A common stock or equity-linked securities exercisable for or convertible into shares of our Class A common stock issued, or to be issued, to any seller in the initial business combination and any private placement warrants issued to our sponsor upon conversion of working capital loans. In no event will the shares of our Class B common stock convert into shares of our Class A common stock at a rate of less than one to one. This is different than most other similarly structured blank check companies in which our sponsor will only be issued an aggregate of 20% of the total number of shares to be outstanding prior to the initial business combination.

We are not registering the Class A common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time, and such registration may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise its warrants except on a cashless basis and potentially causing such warrants to expire worthless.

We are not registering the Class A common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time. However, under the terms of the warrant agreement, we have agreed to use our commercially reasonable efforts to file a registration statement under the Securities Act covering such shares and maintain a current prospectus relating to the Class A common stock issuable upon exercise of the warrants until

[Table of Contents](#)

the expiration of the warrants in accordance with the provisions of the warrant agreement. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order.

If the shares of our Class A common stock issuable upon exercise of the warrants are not registered under the Securities Act, we will be required to permit holders to exercise their warrants on a cashless basis, in which case the number of shares of our Class A common stock that you will receive upon cashless exercise will be based on a formula subject to a maximum number of shares equal to 0.361 shares of our Class A common stock per warrant (subject to adjustment).

However, no such warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, unless an exemption from state registration is available.

Notwithstanding the above, if the shares of our Class A common stock are at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will be required to use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under the Securities Act or applicable state securities laws and there is no exemption available. If the issuance of the shares upon exercise of the warrants is not so registered or qualified or exempt from registration or qualification, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the shares of our Class A common stock included in the units. There may be a circumstance where an exemption from registration exists for holders of our private placement warrants to exercise their warrants while a corresponding exemption does not exist for holders of the warrants included as part of units sold in this offering. In such an instance, our sponsor and its permitted transferees (which may include our directors and executive officers) would be able to sell the common stock underlying their warrants while holders of our public warrants would not be able to exercise their warrants and sell the underlying common stock. There may be a circumstance where an exemption from registration exists for holders of our private placement warrants to exercise their warrants while a corresponding exemption does not exist for holders of the warrants included as part of units sold in this offering. In such an instance, our sponsor and its permitted transferees (which may include our directors and executive officers) would be able to sell the shares of common stock underlying their warrants while holders of our public warrants would not be able to exercise their warrants and sell the underlying shares of common stock. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We may amend the terms of the warrants in a manner that may be adverse to holders of public warrants with the approval by the holders of at least 65% of the then outstanding public warrants. As a result, the exercise price of your warrants could be increased, the exercise period could be shortened and the number of shares of our Class A common stock purchasable upon exercise of a warrant could be decreased, all without your approval.

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement will provide that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 65% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder if holders of at least 65% of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the public warrants with the consent of at least 65% of the then outstanding public warrants is unlimited, examples of such

[Table of Contents](#)

amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash, shorten the exercise period or decrease the number of shares of our Class A common stock purchasable upon exercise of a warrant.

Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company.

Our warrant agreement will provide that, subject to applicable law, (i) any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement, including under the Securities Act, will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and (ii) that we irrevocably submit to such jurisdiction, which jurisdiction shall be the exclusive forum for any such action, proceeding or claim. We will waive any objection to such exclusive jurisdiction and that such courts represent an inconvenient forum.

Notwithstanding the foregoing, these provisions of the warrant agreement will not apply to suits brought to enforce any liability or duty created by the Exchange Act or any other claim for which the federal district courts of the United States of America are the sole and exclusive forum. Any person or entity purchasing or otherwise acquiring any interest in any of our warrants shall be deemed to have notice of and to have consented to the forum provisions in our warrant agreement.

If any action, the subject matter of which is within the scope of the forum provisions of the warrant agreement, is filed in a court other than a court of the State of New York or the United States District Court for the Southern District of New York (a “foreign action”) in the name of any holder of our warrants, such holder shall be deemed to have consented to: (x) the personal jurisdiction of the state and federal courts located in the State of New York in connection with any action brought in any such court to enforce the forum provisions (an “enforcement action”), and (y) having service of process made upon such warrant holder in any such enforcement action by service upon such warrant holder’s counsel in the foreign action as agent for such warrant holder.

This choice-of-forum provision may limit a warrant holder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with our company, which may discourage such lawsuits. Alternatively, if a court were to find this provision of our warrant agreement inapplicable or unenforceable with respect to one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could materially and adversely affect our business, financial condition and results of operations and result in a diversion of the time and resources of our management and board of directors.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem the outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, if, among other things, the Reference Value equals or exceeds \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “Description of Securities — Warrants — Public Stockholders’ Warrants — Anti-dilution Adjustments”). Please see “Description of Securities — Warrants — Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$18.00.” If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding warrants as described above could force you to (i) exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, we expect would be substantially less than the Market Value of your warrants. None of the private placement warrants will be redeemable by us so long as they are held by our sponsor, the anchor investors or their respective permitted transferees.

In addition, we have the ability to redeem the outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.10 per warrant if, among other things, the Reference Value equals or exceeds \$10.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a

[Table of Contents](#)

warrant as described under the heading “Description of Securities — Warrants — Public Stockholders’ Warrants — Anti-dilution Adjustments”). In such a case, the holders will be able to exercise their warrants on a cashless basis prior to redemption for a number of shares of our Class A common stock determined based on the redemption date and the fair market value of our Class A common stock. Please see “Description of Securities — Warrants — Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$10.00.” The value received upon exercise of the warrants (1) may be less than the value the holders would have received if they had exercised their warrants at a later time where the underlying share price is higher and (2) may not compensate the holders for the value of the warrants, including because the number of common stock received is capped at 0.361 shares of our Class A common stock per warrant (subject to adjustment) irrespective of the remaining life of the warrants.

Our warrants and founder shares may have an adverse effect on the market price of the shares of our Class A common stock and make it more difficult to effectuate our initial business combination.

We will be issuing warrants to purchase 8,333,333 of our Class A common stock (or up to 9,583,333 shares of our Class A common stock if the underwriters’ over-allotment option is exercised in full) as part of the units offered by this prospectus and, simultaneously with the closing of this offering, we will be issuing in a private placement an aggregate of 5,000,000 private placement warrants (or up to 5,500,000 private placement warrants if the underwriters’ over-allotment option is exercised in full), each exercisable to purchase one share of our Class A common stock at \$11.50 per share. Our sponsor currently owns an aggregate of 7,187,500 founder shares. The founder shares are convertible into Class A common stock on a one-for-one basis, subject to adjustment as set forth herein. In addition, if our sponsor makes any working capital loans, up to \$1,500,000 of such loans may be converted into warrants, at the price of \$1.50 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. Our public warrants are also redeemable by us for shares of our Class A common stock as described in “Description of Securities — Warrants — Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$10.00.”

To the extent we issue Class A common stock for any reason, including to effectuate a business combination, the potential for the issuance of a substantial number of additional shares of our Class A common stock upon exercise of these warrants and conversion rights could make us a less attractive acquisition vehicle to a target business. Such warrants when exercised will increase the number of issued and outstanding shares of our Class A common stock and reduce the value of the Class A common stock issued to complete the business transaction. Therefore, our warrants and founder shares may make it more difficult to effectuate a business transaction or increase the cost of acquiring the target business.

The private placement warrants are identical to the warrants sold as part of the units in this offering except that, so long as they are held by our sponsor, the anchor investors, or their respective permitted transferees, (i) they will not be redeemable by us, (ii) they (including the shares of our Class A common stock issuable upon exercise of these warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by our sponsor until 30 days after the completion of our initial business combination, (iii) they may be exercised by the holders on a cashless basis and (iv) the holders thereof (including with respect to the shares of Class A common stock issuable upon exercise of these warrants) are entitled to registration rights.

Because each unit sold in this offering contains one-third of one warrant and only a whole warrant may be exercised, the units may be worth less than units of other blank check companies.

Each unit sold in this offering contains one-third of one warrant. Pursuant to the warrant agreement, no fractional warrants will be issued upon separation of the units, and only whole units will trade. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of shares of our Class A common stock to be issued to the warrant holder. This is different from other offerings similar to ours whose units include one share of common stock and one warrant to purchase one share of common stock. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a business combination since the warrants will be exercisable in the aggregate for one-third of the number of shares compared to units that each contain a whole warrant to purchase one share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if it included a warrant to purchase one whole share.

Our ability to require holders of our warrants to exercise such warrants on a cashless basis after we call the warrants for redemption or if there is no effective registration statement covering the Class A common stock issuable upon exercise of these warrants will cause holders to receive fewer shares of our Class A common stock upon their exercise of the warrants than they would have received had they been able to pay the exercise price of their warrants in cash.

If our shares of Class A common stock are at the time of any exercise of a warrant not listed on a national securities exchange such that our shares of Class A common stock satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a cashless basis in accordance with Section 3(a)(9) of the Securities Act and, in the event we elect to do so, we will not be required to file or maintain in effect a registration statement, but we will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. “Cashless exercise” means each holder would pay the exercise price by surrendering warrants in exchange for a number of shares of our Class A common stock equal to the lesser of (A) the quotient obtained by dividing (x) the product of (a) the number of shares of our Class A common stock underlying the warrants and (b) the excess of the “fair market value” over the exercise price of the warrants by (y) such fair market value and (B) the product of the number of warrants surrendered and 0.361, subject to adjustment. The “fair market value” shall mean the volume weighted average price of the shares of our Class A common stock for the 10 trading days ending on the trading day prior to the date on which the notice of exercise is received by the warrant agent.

In addition, if a registration statement covering the Class A common stock issuable upon exercise of the warrants is not effective within a specified period following the consummation of our initial business transaction, warrant holders may, until such time as there is an effective registration statement and during any period when we shall have failed to maintain an effective registration statement, exercise warrants on a cashless basis. For purposes of calculating the number of shares issuable upon such cashless exercise, the “fair market value” of warrants shall be calculated using the volume weighted average sale price of the Class A common stock for the 10 trading days ending on the trading day prior to the date on which notice of exercise is received by the warrant agent.

If we choose to require holders to exercise their warrants on a cashless basis, which we may do at our sole discretion, or if holders elect to do so when there is no effective registration statement, the number of shares of our Class A common stock received by a holder upon exercise will be fewer than it would have been had such holder exercised his or her warrant for cash. For example, if the holder is exercising 875 public warrants at \$11.50 per share through a cashless exercise when the Class A common stock have a fair market value of \$17.50 per share when there is no effective registration statement, then upon the cashless exercise, the holder will receive 300 shares of our Class A common stock. The holder would have received 875 shares of our Class A common stock if the exercise price was paid in cash. This will have the effect of reducing the potential “upside” of the holder’s investment in our company because the warrant holder will hold a smaller number of shares of our Class A common stock upon a cashless exercise of the warrants they hold.

The warrants may become exercisable and redeemable for a security other than the Class A common stock, and you will not have any information regarding such other security at this time.

In certain situations, including if we are not the surviving entity in our initial business combination, the warrants may become exercisable for a security other than the Class A common stock. As a result, if the surviving company redeems your warrants for securities pursuant to the warrant agreement, you may receive a security in a company of which you do not have information at this time. Pursuant to the warrant agreement, the surviving company will be required to use commercially reasonable efforts to register the issuance of the security underlying the warrants within 20 business days of the closing of an initial business combination.

Our sponsor paid an aggregate of \$25,000, or approximately \$0.003 per founder share, and, accordingly, you will experience immediate and substantial dilution from the purchase of the shares of our Class A common stock.

The difference between the public offering price per share (allocating all of the unit purchase price to the share of our Class A common stock and none to the one-third of a warrant included in the unit) and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to you and the other investors in this offering. Our sponsor acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon closing of this offering, and assuming no value is ascribed to the warrants included in the units, you and the other public stockholders will incur an immediate and substantial dilution of approximately 93.4% (or \$9.34 per share, assuming no

[Table of Contents](#)

exercise of the underwriters' over-allotment option), the difference between the pro forma net tangible book value per share of \$0.67 and the initial offering price of \$10.00 per unit. This dilution would increase to the extent that the anti-dilution provisions of the founder shares result in the issuance of shares of our Class A common stock on a greater than one-to-one basis upon conversion of the founder shares at the time of our initial business combination and would become exacerbated to the extent that public stockholders seek redemptions from the trust for their public shares. In addition, because of the anti-dilution protection in the founder shares, any equity or equity-linked securities issued in connection with our initial business combination would be disproportionately dilutive to our Class A common stock.

The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry. You may have less assurance, therefore, that the offering price of our units properly reflects the value of such units than you would have in a typical offering of an operating company.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the Class A common stock and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;
- our prospects for acquiring an operating business at attractive values;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering price is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

There is currently no market for our securities. Stockholders therefore have no access to information about prior market history on which to base their investment decision. Following this offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

Provisions in our amended and restated certificate of incorporation and Delaware law may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for shares of our Class A common stock and could entrench management.

Our amended and restated certificate of incorporation will contain provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions will include a classified board of directors, the ability of the board of directors to designate the terms of and issue new series of preferred stock, advance notice provisions for any stockholder proposals or director nominations, and the fact that prior to the completion of our initial business combination only holders of shares of our Class B common stock, which have been issued to our sponsor, are entitled to vote on the appointment of our directors, which may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Provisions in our amended and restated certificate of incorporation and Delaware law may have the effect of discouraging lawsuits against our directors and officers.

Our amended and restated certificate of incorporation will require, unless we consent in writing to the selection of an alternative forum, that (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer or other employee to us or our stockholders, (iii) any action asserting a claim against us, our directors, officers or employees arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or amended and restated bylaws, or (iv) any action asserting a claim against us, our directors, officers or employees governed by the internal affairs doctrine may be brought only in the Court of Chancery in the State of Delaware, except any claim (A) as to which the Court of Chancery of the State of Delaware determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, or (C) for which the Court of Chancery does not have subject matter jurisdiction. If an action is brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, a court may determine that this provision is unenforceable, and to the extent it is enforceable, the provision may have the effect of discouraging lawsuits against our directors and officers, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder.

Notwithstanding the foregoing, our amended and restated certificate of incorporation will provide that the exclusive forum provision will not apply to suits brought to enforce a duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers. Additionally, unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States of America shall be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act against us or any of our directors, officers, other employees or agents. However, there is uncertainty as to whether a court would enforce the exclusive forum provisions relating to causes of actions arising under the Securities Act.

An investment in our securities, and certain subsequent transactions with respect to our securities, may result in uncertain or adverse U.S. federal income tax consequences.

An investment in our securities, and certain subsequent transactions with respect to our securities, may result in uncertain or adverse U.S. federal income tax consequences. For instance, because there are no authorities that directly address instruments similar to the units we are issuing in this offering, the allocation an investor makes with respect to the purchase price of a unit between the shares of Class A common stock and the one-third of one redeemable warrant to purchase one share of Class A common stock included in each unit could be challenged by the Internal Revenue Service ("IRS") or courts. Furthermore, the U.S. federal income tax consequences of a cashless exercise of warrants included in the units we are issuing in this offering is unclear under current law. Finally, it is unclear whether the redemption rights with respect to our shares of Class A common stock suspend the running of a U.S. Holder's (as defined below in "Taxation — United States Federal Income Tax Considerations — General") holding period for purposes of determining whether any gain or loss realized by such holder on the sale or exchange of Class A common stock is long-term capital gain or loss and for determining whether any dividend we pay would be considered "qualified dividends" for U.S. federal income tax purposes. See the section titled "Taxation — United States Federal Income Tax Considerations" for a summary of the U.S. federal income tax considerations of an investment in our securities. Prospective investors are urged to consult their tax advisors with respect to these and other tax consequences when purchasing, holding or disposing of our securities.

General Risks

We are a recently incorporated company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a recently incorporated company incorporated under the laws of the State of Delaware with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We have no plans, arrangements or understandings with any prospective target business concerning a business combination and may be unable to complete our initial business combination. If we do not complete our initial business combination, we will never generate any operating revenues.

Cyber incidents or attacks directed at us could result in information theft, data corruption, operational disruption and/or financial loss.

We depend on digital technologies, including information systems, infrastructure and cloud applications and services, including those of third parties with which we may deal. Sophisticated and deliberate attacks on, or security breaches in, our systems or infrastructure, or the systems or infrastructure of third parties or the cloud, could lead to corruption or misappropriation of our assets, proprietary information and sensitive or confidential data. As an early stage company without significant investments in data security protection, we may not be sufficiently protected against such occurrences. We may not have sufficient resources to adequately protect against, or to investigate and remediate any vulnerability to, cyber incidents. It is possible that any of these occurrences, or a combination of them, could have adverse consequences on our business and lead to financial loss.

We are an emerging growth company and a smaller reporting company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies or smaller reporting companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the Market Value of our Class A common stock held by non-affiliates equals or exceeds \$700.0 million as of any June 30th before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

[Table of Contents](#)

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our common stock held by non-affiliates equals or exceeds \$250 million as of the end of that fiscal year’s second fiscal quarter, and (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of that fiscal year’s second fiscal quarter. To the extent we take advantage of such reduced disclosure obligations, it may also make comparison of our financial statements with other public companies difficult or impossible.

We would be subject to a second level of U.S. federal income tax on a portion of our income if we are determined to be a personal holding company (a “PHC”) for U.S. federal income tax purposes.

A U.S. corporation generally will be classified as a PHC for U.S. federal income tax purposes in a given taxable year if (i) at any time during the last half of such taxable year, five or fewer individuals (without regard to their citizenship or residency and including as individuals for this purpose certain entities such as certain tax exempt organizations, pension funds and charitable trusts) own or are deemed to own (pursuant to certain constructive ownership rules) more than 50% of the stock of the corporation by value and (ii) at least 60% of the corporation’s adjusted ordinary gross income, as determined for U.S. federal income tax purposes, for such taxable year consists of PHC income (which includes, among other things, dividends, interest, certain royalties, annuities and, under certain circumstances, rents).

Depending on the date and size of our initial business combination, it is possible that at least 60% of our adjusted ordinary gross income may consist of PHC income as discussed above. In addition, depending on the concentration of our stock in the hands of individuals, including the members of our sponsor and certain tax exempt organizations, pension funds and charitable trusts, it is possible that more than 50% of our stock may be owned or deemed owned (pursuant to the constructive ownership rules) by five or fewer individuals during the last half of a taxable year. Thus, no assurance can be given that we will not become a PHC following this offering or in the future. If we are or were to become a PHC in a given taxable year, we would be subject to an additional PHC tax, currently 20%, on our undistributed PHC income, which generally includes our taxable income, subject to certain adjustments.

Since only holders of our founder shares will have the right to vote on the appointment of our directors, upon the listing of our shares on the Nasdaq, the Nasdaq may consider us to be a ‘controlled company’ within the meaning of the Nasdaq rules and, as a result, we may qualify for exemptions from certain corporate governance requirements.

After completion of this offering, only holders of our founder shares will have the right to vote on the appointment of our directors. As a result, the Nasdaq may consider us to be a ‘controlled company’ within the meaning of the Nasdaq corporate governance standards. Under the Nasdaq corporate governance standards, a company of which more than 50% of the voting power is held by an individual, group or another company is a ‘controlled company’ and may elect not to comply with certain corporate governance requirements, including the requirements that:

- we have a board that includes a majority of ‘independent directors,’ as defined under the rules of the Nasdaq;
- we have a compensation committee of our board that is comprised entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities; and
- we have a nominating and corporate governance committee of our board that is comprised entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities.

We do not intend to utilize these exemptions and intend to comply with the corporate governance requirements of the Nasdaq, subject to applicable phase-in rules. However, if we determine in the future to utilize some or all of these exemptions, you will not have the same protections afforded to stockholders of companies that are subject to all of the Nasdaq corporate governance requirements.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the statements contained in this prospectus may constitute “forward-looking statements” for purposes of the federal securities laws. Our forward-looking statements include, but are not limited to, statements regarding our or our management team’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intends,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to select an appropriate target business or businesses;
- our ability to complete our initial business combination;
- our expectations around the performance of a prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses;
- our ability to consummate an initial business combination due to the uncertainty resulting from the recent COVID-19 pandemic;
- the ability of our officers and directors to generate a number of potential investment opportunities;
- our public securities’ potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance;
- the trust account not being subject to claims of third parties; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the section of this prospectus entitled “Risk Factors.” Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

USE OF PROCEEDS

We are offering 25,000,000 units at an offering price of \$10.00 per unit. We estimate that the net proceeds of this offering together with the funds we will receive from the sale of the private placement warrants will be used as set forth in the following table:

	Without Over-Allotment Option	Over-Allotment Option Fully Exercised
Gross proceeds		
Gross proceeds from units offered to public ⁽¹⁾	\$ 250,000,000	\$ 287,500,000
Gross proceeds from private placement warrants offered in the private placement	7,500,000	8,250,000
Total gross proceeds	<u>\$ 257,500,000</u>	<u>\$ 295,750,000</u>
Offering expenses⁽²⁾		
Underwriting commissions (2% of gross proceeds from units offered to public, excluding deferred portion) ⁽⁴⁾	\$ 5,000,000	\$ 5,750,000
Legal fees and expenses	350,000	350,000
Printing and engraving expenses	35,000	35,000
Accounting fees and expenses	60,000	60,000
SEC/FINRA Expenses	75,000	75,000
Travel and road show	50,000	50,000
Nasdaq listing and filing fees	75,000	75,000
Director and Officer liability insurance premiums ⁽³⁾	700,000	700,000
Miscellaneous	155,000	155,000
Total offering expenses (excluding underwriting commissions)	<u>\$ 1,500,000</u>	<u>\$ 1,500,000</u>
Proceeds after offering expenses	<u>\$ 251,000,000</u>	<u>\$ 288,500,000</u>
Held in trust account ⁽⁴⁾	250,000,000	287,500,000
% of public offering size	100%	100%
Not held in trust account after offering expenses	<u>\$ 1,000,000</u>	<u>\$ 1,000,000</u>

The following table shows the use of the approximately \$1,000,000 of net proceeds not held in the trust account.⁽⁵⁾⁽⁶⁾

	Amount	% of Total
Legal, accounting, due diligence, travel and other expenses in connection with any business combination ⁽⁷⁾	300,000	30.0%
Legal and accounting fees related to regulatory reporting obligations	140,000	14.0%
Nasdaq continued listing fees	58,000	5.8%
Payment for office space and administrative support services (\$20,000 per month for up to 24 months)	480,000	48.0%
Working capital to cover miscellaneous expenses (including franchise taxes net of anticipated interest income)	22,000	2.2%
Total	<u>1,000,000</u>	<u>100.0%</u>

- (1) Includes amounts payable to public stockholders who properly redeem their shares in connection with our successful completion of our initial business combination.
- (2) A portion of the offering expenses will be paid from the proceeds of loans from our sponsor. These funds will be reimbursed up to \$300,000 as described in this prospectus. As of the date of this prospectus, we have borrowed approximately \$75,000 under the promissory note with our sponsor. Any amounts borrowed under the loan will be repaid upon completion of this offering out of the \$1,500,000 of offering proceeds that has been allocated for the payment of offering expenses (other than underwriting commissions) and amounts not to be held in the trust account. In the event that offering expenses are less than set forth in this table, any such amounts will be used for post-closing working capital expenses. In the event that the offering expenses are more than as set forth in this table, we may fund such excess with funds not held in the trust account.

Table of Contents

- (3) This amount represents the approximate amount of annual director and officer liability insurance premiums the registrant anticipates paying following the completion of its initial public offering and until it completes a business combination.
- (4) The underwriters have agreed to defer underwriting commissions of 3.5% of the gross proceeds of this offering. Upon and concurrently with the completion of our initial business combination, \$8,750,000, which constitutes the underwriters' deferred commissions (or \$10,062,500 if the underwriters' over-allotment option is exercised in full) will be paid to the underwriters from the funds held in the trust account, see "Underwriting." The remaining funds, less amounts released to the trustee to pay redeeming stockholders will be released to us and can be used to pay all or a portion of the purchase price of the business or businesses with which our initial business combination occurs or for general corporate purposes, including payment of principal or interest on indebtedness incurred in connection with our initial business combination, to fund the purchases of other companies or for working capital. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.
- (5) These expenses are estimates only. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring our initial business combination based upon the level of complexity of such business combination. In the event we identify a business combination target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses. The amount in the table above does not include interest available to us from the trust account. The proceeds held in the trust account will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Assuming an interest rate of 0.1% per year, we estimate the interest earned on the trust account will be approximately \$250,000 per year; however, we can provide no assurances regarding this amount.
- (6) Assumes no exercise of the underwriters' over-allotment option.
- (7) Includes estimated amounts that may also be used in connection with our initial business combination to fund a "no shop" provision and commitment fees for financing.

Of the \$257,500,000 in proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, or \$295,750,000 if the underwriters' over-allotment option is exercised in full, 250,000,000 (\$10.00 per unit), or \$287,500,000 if the underwriters' over-allotment option is exercised in full (\$10.00 per unit), will be deposited into a segregated trust account located in the United States at Bank of America, National Association, with Continental Stock Transfer & Trust Company, acting as trustee, and \$2,500,000 will be available to be used to pay expenses in connection with the closing of this offering and for working capital following this offering. Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the funds held in the trust account will not be released until the earliest to occur of: (a) the completion of our initial business combination; (b) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation (i) to modify the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provisions relating to the rights of holders of Class A common stock; and (c) the redemption of all of our public shares if we have not completed our business combination within 24 months from the closing of this offering, subject to applicable law. Based on current interest rates, we expect that interest income earned on the trust account will be sufficient to pay our income and franchise taxes.

The net proceeds held in the trust account may be used as consideration to pay the sellers of a target business with which we ultimately complete our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital. There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination, and we may enter into forward purchase agreements or other commitments to purchase our securities after the closing of this offering and prior to completion of our initial business combination.

[Table of Contents](#)

We believe that amounts not held in trust, together with funds available to us from loans from our sponsor, will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective acquisition, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of a business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating a business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we could seek such additional capital through loans or additional investments from our sponsor, members of our management team or their affiliates, but such persons are not under any obligation to advance funds to, or invest in, us.

We will reimburse affiliates of our sponsor a total of \$20,000 per month for office space and administrative support services. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Prior to the closing of this offering, our sponsor has agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering. As of the date of this prospectus, we have borrowed approximately \$75,000 under the promissory note with our sponsor. This loan is non-interest bearing, unsecured and is due at the earlier of June 30, 2021 or the closing of this offering. Any amounts borrowed under the loan will be repaid upon the closing of this offering out of the \$1,500,000 of offering proceeds not held in the trust account that has been allocated for the payment of offering expenses.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts out of the proceeds of the trust account released to us. Otherwise, such loans would be repaid only out of funds held outside the trust account. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity, at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Except as set forth above, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

If we seek stockholder approval of our initial business combination, and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions either prior to or following the completion of our initial business combination. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed or if such subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

Our anchor investors have expressed to us an interest to purchase an aggregate of 2,000,000 units (or 2,300,000 units if the underwriters' over-allotment option is exercised in full) in this offering and we have agreed to direct the underwriters to sell such units to our anchor investors. There will be no underwriting discount or commission paid on any units the anchor investors may purchase in this offering. Because these expressions of interest are not binding agreements or commitments to purchase, our anchor investors may determine to purchase more, fewer or no units in this offering or the underwriters may determine to sell more, fewer or no units to our anchor investors. Further, the anchor investors have agreed with us that, if they do not own an aggregate number of public shares at least equal to the Anchor Threshold at the time of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, the number of founder shares to be purchased by such anchor investors from our sponsor shall be reduced pro rata by a fraction, the numerator of which shall equal the Anchor Threshold less the number of public shares held by such anchor investors after giving effect to any redemptions of the public shares by such

[Table of Contents](#)

anchor investors and their affiliates, and the denominator of which shall equal the Anchor Threshold; provided, however, in no event shall such pro rata reduction in the number of founder shares to be purchased by the anchor investors reduce the number of founder shares to be purchased by more than 75%. By way of example and without limiting the foregoing, in the event the anchor investors collectively own a number of shares equal to 50% or 0%, respectively, of the Anchor Threshold (after giving effect to any redemptions of their public shares), the number of founder shares that the anchor investors may purchase shall be reduced by 50% or 75%, respectively.

The anchor investors have also agreed that if, in connection with an initial business combination, the sponsor decides (i) to forfeit, transfer to a third person, exchange, subject to transfer, vesting or conditional forfeiture provisions or amend the terms of all or any portion of the founder shares or (ii) to enter into any other arrangements with respect to the founder shares, including voting in favor of any amendment to the terms of the founder shares (each, a “Change in Investment”), such Change in Investment shall apply pro rata to the anchor investor and the sponsor based on the relative number of founder shares to be purchased or held, as applicable, by each upon consummation of the initial business combination; provided, however that in no event will such Change in Investment reduce the founder shares to be purchased by the anchor investors by more than 75%. By way of example and without limiting the foregoing, in the event our sponsor forfeits or transfers 50% or 100%, respectively, of its founder shares as part of our initial business combination, the number of founder shares to be purchased by the anchor investors shall be reduced by 50% or 75%, respectively.

There can be no assurance that our anchor investors will acquire any units in this offering or will retain any units upon the consummation of our initial business combination. In the event that such anchor investors purchase units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that our anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

Our anchor investors will have the same rights to the funds held in the trust account with respect to the common stock underlying the units they may purchase in this offering as the rights afforded to our public stockholders.

We may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC’s “penny stock” rules) and the agreement for our business combination may require as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights so that we cannot satisfy the net tangible asset requirement or any net worth or cash requirements, we would not proceed with the redemption of our public shares or the business combination, and instead may search for an alternate business combination.

A public stockholder will be entitled to receive funds from the trust account only upon the earliest to occur of: (a) our completion of an initial business combination, (b) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation (i) to modify the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provisions relating to the rights of holders of Class A common stock and (c) the redemption of our public shares if we have not completed our business combination within 24 months following the closing of this offering, subject to applicable law and as further described herein and any limitations (including but not limited to cash requirements) created by the terms of the proposed business combination. In no other circumstances will a public stockholder have any right or interest of any kind to or in the trust account.

Our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our initial business combination. In addition, our sponsor, directors, each member of our management team and the anchor investors have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we do not complete our business combination within the prescribed time frame. However, if our sponsor or any of our officers, directors or affiliates or the anchor investors acquires public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we do not complete our initial business combination within the prescribed time frame.

DIVIDEND POLICY

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. If we increase the size of this offering, we will effect a stock capitalization or other appropriate mechanism immediately prior to the completion of this offering in such amount as to maintain the number of founder shares, on an as-converted basis, at 20% of our issued and outstanding shares of Class A common stock upon the completion of this offering. Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

DILUTION

The difference between the public offering price per share of our Class A common stock, assuming no value is attributed to the warrants included in the units we are offering pursuant to this prospectus or the private placement warrants, and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with the sale and exercise of warrants, including the private placement warrants, which would cause the actual dilution to the public stockholders to be higher, particularly where a cashless exercise is utilized. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of shares of our Class A common stock which may be redeemed for cash), by the number of shares of outstanding Class A common stock.

At December 31, 2020, our net tangible book deficit was \$400, or approximately \$0 per common stock. After giving effect to the sale of 25,000,000 shares of Class A common stock included in the units we are offering by this prospectus (or 28,750,000 shares of Class A common stock if the underwriters' over-allotment option is exercised in full), the sale of the private placement warrants and the deduction of underwriting commissions and estimated expenses of this offering, our pro forma net tangible book value at December 31, 2020 would have been \$5,000,010 or \$0.66 per share (or \$0.58 per share if the underwriters' over-allotment option is exercised in full), representing an immediate increase in net tangible book value (as decreased by the value of the approximately 23,726,459 shares of our Class A common stock that may be redeemed for cash or 27,345,209 shares of our Class A common stock if the underwriters' over-allotment option is exercised in full) of \$0.66 per share (or \$0.58 per share to our sponsor as of the date of this prospectus) and an immediate dilution to the public stockholders from this offering of \$9.34 per share or 93.4% to our public stockholders not exercising their redemption rights. The dilution to new investors if the underwriters exercise the over-allotment option in full would be an immediate dilution of \$9.42 per share or 94.2%.

The following table illustrates the dilution to the public stockholders on a per-share basis, assuming no value is attributed to the warrants included in the units or the private placement warrants:

	Without Over-allotment	With Over-allotment
Public offering price	\$ 10.00	\$ 10.00
Net tangible book deficit before this offering	(0.00)	(0.00)
Increase attributable to public stockholders	<u>0.66</u>	<u>0.58</u>
Pro forma net tangible book value after this offering and the sale of the private placement warrants	0.66	0.58
Dilution to public stockholders	<u>\$ 9.34</u>	<u>\$ 9.42</u>
Percentage of dilution to public stockholders	93.4%	94.2%

For purposes of presentation, we have reduced our pro forma net tangible book value after this offering (assuming no exercise of the underwriters' over-allotment option) by \$237,264,590 because holders of up to approximately 94.9% of our public shares may redeem their shares for a pro rata share of the aggregate amount then on deposit in the trust account at a per share redemption price equal to the amount in the trust account as set forth in our tender offer or proxy materials (initially anticipated to be the aggregate amount held in trust two days prior to the commencement of our tender offer or stockholder meeting, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any, less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares.

The following table sets forth information with respect to our sponsor and the public stockholders:

	Shares Purchased		Total Consideration		Average Price per Share
	Number	Percentage	Amount	Percentage	
Class B Common Stockholders ⁽¹⁾	6,250,000	20.0%	\$ 25,000	0.01%	\$ 0.004
Public Stockholders	25,000,000	80.0%	\$ 250,000,000	99.99%	\$ 10.00
	<u>31,250,000</u>	<u>100.0%</u>	<u>\$ 250,025,000</u>	<u>100.00%</u>	

- (1) Assumes no exercise of the underwriters' over-allotment option and the corresponding forfeiture of an aggregate of 937,500 shares of our Class B common stock held by certain of our initial stockholders.

[Table of Contents](#)

The pro forma net tangible book value per share after the offering is calculated as follows:

	Without Over-Allotment	With Over-Allotment
Numerator:		
Net tangible book deficit before this offering	\$ (400)	\$ (400)
Net proceeds from this offering and sale of the private placement warrants ⁽¹⁾	251,000,000	288,500,000
Plus: Offering costs paid in advance, excluded from tangible book value before this offering	15,000	15,000
Less: Deferred underwriting commissions	(8,750,000)	(10,062,500)
Less: Proceeds held in trust subject to redemption ⁽²⁾	(237,264,590)	(273,452,090)
	<u>\$ 5,000,010</u>	<u>\$ 5,000,010</u>
Denominator:		
Class B common stock outstanding prior to this offering	7,187,500	7,187,500
Class B common stock forfeited if over-allotment is not exercised	(937,500)	—
Class A common stock included in the units offered	25,000,000	28,750,000
Less: Common stock subject to redemption	(23,726,459)	(27,345,209)
	<u>7,523,541</u>	<u>8,592,291</u>

- (1) Expenses applied against gross proceeds include offering expenses of \$1,500,000 and underwriting commissions of \$5,000,000 or \$5,750,000 if the underwriters exercise their over-allotment option (excluding deferred underwriting fees).
- (2) If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, directors, executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. In the event of any such purchases of our shares prior to the completion of our initial business combination, the number of shares of our Class A common stock subject to redemption will be reduced by the amount of any such purchases, increasing the pro forma net tangible book value per share. See “Proposed Business — Permitted Purchases of Our Securities.”

CAPITALIZATION

The following table sets forth our capitalization at December 31, 2020, and as adjusted to give effect to the filing of our amended and restated certificate of incorporation, the sale of our units in this offering and the private placement warrants and the application of the estimated net proceeds derived from the sale of such securities:

	December 31, 2020	
	Actual	As Adjusted⁽¹⁾
Promissory note – related party ⁽²⁾	\$ —	\$ —
Deferred underwriting commissions ⁽³⁾		8,750,000
Class A common stock, \$0.0001 par value, 500,000,000 shares authorized; -0- and 23,726,459 shares are subject to possible redemption; actual and as adjusted, respectively ⁽⁴⁾	—	237,264,590
Preferred stock, \$0.0001 par value, 1,000,000 shares authorized (actual and as adjusted), none issued and outstanding (actual and as adjusted)	—	—
Class A common stock, \$0.0001 par value, 500,000,000 shares authorized (actual and as adjusted); no shares issued and outstanding (actual); 1,273,541 shares issued and outstanding (excluding 23,726,459 shares subject to redemption) (as adjusted)	—	127
Class B common stock, \$0.0001 par value, 50,000,000 shares authorized; 7,187,500 shares issued and outstanding (actual); 6,250,000 shares issued and outstanding (as adjusted) ⁽⁵⁾	719	625
Additional paid-in capital	24,281	5,009,658
Accumulated deficit	(10,400)	(10,400)
Total stockholders' equity	<u>14,600</u>	<u>5,000,010</u>
Total capitalization	<u>14,600</u>	<u>251,014,600</u>

- (1) Assumes no exercise of the underwriters' over-allotment option and the corresponding forfeiture of an aggregate of 937,500 shares of Class B common stock held by certain of our initial stockholders.
- (2) Our sponsor has agreed to loan us up to \$300,000 in the aggregate to be used for a portion of the expenses of this offering. As of the date of this prospectus, we have borrowed approximately \$75,000 under the promissory note with our sponsor.
- (3) \$0.35 per Unit, or \$8.75 million in the aggregate, will be payable to the underwriters for deferred underwriting commissions. The deferred underwriting commissions will become payable to the underwriters from the amounts held in the trust account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement. The Company records deferred underwriting commissions upon the closing of the initial public offering as a reduction of additional paid-in capital. Since the actual additional paid-in capital was reduced by the recording of the accrued deferred underwriting commission, total capitalization, as adjusted, includes the amount of the deferred underwriting commission to reflect total capitalization.
- (4) Upon the completion of our initial business combination, we will provide our public stockholders with the opportunity to redeem their public shares for cash at a per-share price equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the completion of the initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares, subject to the limitations described herein whereby redemptions cannot cause our net tangible assets to be less than \$5,000,001 and any limitations (including, but not limited to, cash requirements) created by the terms of the proposed business combination. For a detailed calculation of our Class A common stock subject to redemption, please see the section of this prospectus entitled "Dilution."
- (5) Actual share amount is prior to any forfeiture of founder shares by our sponsor and as adjusted amount assumes no exercise of the underwriters' over-allotment option.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a blank check company incorporated on December 29, 2020 as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities. We have not selected any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions directly or indirectly, with any business combination target. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, our shares, debt or a combination of cash, equity and debt.

The issuance of additional shares in a business combination:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in our Class B common stock resulted in the issuance of our Class A common stock on a greater than one-to-one basis upon conversion of our Class B common stock;
- may subordinate the rights of holders of our Class A common stock if shares of preferred stock are issued with rights senior to those afforded our Class A common stock;
- could cause a change in control if a substantial number of shares of our Class A common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our Class A common stock and/or warrants.

Similarly, if we issue debt securities, or otherwise incur significant debt, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our Class A common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our Class A common stock if declared, our ability to pay expenses, make capital expenditures and acquisitions and fund other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements and execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

[Table of Contents](#)

As indicated in the accompanying financial statements, as of December 31, 2020, we had cash and deferred offering costs of approximately \$15,000. Further, we expect to incur significant costs in the pursuit of our initial business combination. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful. These factors, among others, raise substantial doubt about our ability to continue as a going concern.

Results of Operations and Known Trends or Future Events

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents after this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses. We expect our expenses to increase substantially after the closing of this offering.

Liquidity and Capital Resources

Our liquidity needs have been satisfied prior to the completion of this offering through receipt of (i) a \$25,000 capital contribution from our sponsor in exchange for the issuance of the founder shares to our sponsor and (ii) the advancement of funds by our sponsor to cover our expenses in connection with this offering.

We estimate that the net proceeds from (i) the sale of the units in this offering, after deducting offering expenses of approximately \$1,500,000 and underwriting commissions of \$5,000,000 (\$5,750,000 if the underwriters' over-allotment option is exercised in full), excluding deferred underwriting commissions of \$8,750,000 (or \$10,062,500, if the underwriters' over-allotment option is exercised in full), and (ii) the sale of the private placement warrants for a purchase price of approximately \$7,500,000 (or \$8,250,000 if the underwriters' over-allotment option is exercised in full), will be \$251,000,000 (or \$288,500,000 if the underwriters' over-allotment option is exercised in full). 250,000,000 (or \$287,500,000 if the underwriters' over-allotment option is exercised in full) will be held in the trust account, which includes the deferred underwriting commissions described above. The proceeds held in the trust account will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. The remaining approximately \$1,000,000 will not be held in the trust account. In the event that our offering expenses exceed our estimate of \$1,500,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,500,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (less taxes payable by us and deferred underwriting commissions), to complete our initial business combination. We may withdraw interest income (if any) to pay our taxes, if any. We estimate our annual franchise tax obligations, based on the number of shares of our common stock authorized and outstanding after the completion of this offering, to be \$200,000, which is the maximum amount of annual franchise taxes payable by us as a Delaware corporation per annum, which we may pay from funds from this offering held outside of the trust account or from interest earned on the funds held in the trust account and released to us for this purpose. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. Based on assumed interest rates, we expect that the interest income earned on the amount in the trust account, will be sufficient to pay our income and franchise taxes. To the extent that our equity or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

[Table of Contents](#)

Prior to the completion of our initial business combination, we will have available to us the approximately \$1,000,000 of proceeds held outside the trust account, as well as certain funds from loans from our sponsor. We will use these funds to primarily identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a business combination.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business prior to our initial business combination, other than funds available from loans from our sponsor. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity, at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We expect our primary liquidity requirements during that period to include approximately \$300,000 for legal, accounting, due diligence, travel and other expenses associated with structuring, negotiating and documenting successful business combinations; \$140,000 for legal and accounting fees related to regulatory reporting requirements; \$480,000 for office space and administrative support services; \$58,000 for continued listing fees of the Nasdaq; and approximately \$22,000 for working capital that will be used for miscellaneous expenses and reserves (including franchise taxes net of anticipated interest income).

These amounts are estimates and may differ materially from our actual expenses. In addition, we could use a portion of the funds not being placed in trust to pay commitment fees for financing, fees to consultants to assist us with our search for a target business or as a down payment or to fund a “no-shop” provision (a provision designed to keep target businesses from “shopping” around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into an agreement where we paid for the right to receive exclusivity from a target business, the amount that would be used as a down payment or to fund a “no-shop” provision would be determined based on the terms of the specific business combination and the amount of our available funds at the time. Our forfeiture of such funds (whether as a result of our breach or otherwise) could result in our not having sufficient funds to continue searching for, or conducting due diligence with respect to, prospective target businesses.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our business combination. Moreover, we may need to obtain additional financing either to complete our initial business combination, either because the transaction requires more cash than is available from the proceeds held in our trust account, or because we become obligated to redeem a significant number of our public shares upon completion of our business combination, in which case we may issue additional securities or incur debt in connection with such business combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our business combination. If we do not complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. In addition, following our initial business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Controls and Procedures

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2021. Only in the event that we are deemed to be a large accelerated filer or an accelerated filer and no longer an emerging growth company would we be required to comply with the independent registered public accounting firm attestation requirement. Further, for as long as we remain an emerging growth company as defined in the JOBS Act, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirement.

Prior to the closing of this offering, we have not completed an assessment, nor have our auditors tested our systems, of our internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our initial business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expense in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain our independent auditors to audit and render an opinion on such report when required by Section 404 of the Sarbanes-Oxley Act. The independent auditors may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of this offering and the sale of the private placement warrants held in the trust account will be invested in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Related Party Transactions

In December 2020, our sponsor purchased 7,187,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.003 per share. In January 2021, our sponsor agreed to sell to the anchor investors 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) and the anchor investors agreed to purchase from our sponsor on the date of the initial business combination an aggregate of 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) for an aggregate purchase price of approximately \$3,913 (or \$4,500 if the underwriters' over-allotment option is

[Table of Contents](#)

exercised in full), or approximately \$0.003 per share. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the issued and outstanding shares upon completion of this offering. The per share purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the aggregate number of founder shares issued.

Commencing on the date of this prospectus, we have agreed to pay affiliates of our sponsor a total of \$20,000 per month for office space and administrative support services. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees. In connection with our initial business combination, we may potentially make a cash payment to XMS Capital or its affiliates for any financial advisory, placement agency or other similar investment banking services that XMS Capital or its affiliates may provide to us in connection with our initial business combination, and may reimburse to XMS Capital or its affiliates for any out-of-pocket expenses incurred by it in connection with the performance of such services.

Except as otherwise disclosed in this prospectus, no compensation of any kind, including finder's and consulting fees, will be paid to our sponsor, officers and directors, or their respective affiliates, for services rendered prior to or in connection with the completion of an initial business combination. However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made by us to our sponsor, officers, directors or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Prior to the closing of this offering, our sponsor has agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering. As of the date of this prospectus, we have borrowed approximately \$75,000 under the promissory note with our sponsor. This loan is non-interest bearing, unsecured and is due at the earlier of June 30, 2021 or the closing of this offering. Any outstanding amount under the loan will be repaid upon the closing of this offering out of the \$1,500,000 of offering proceeds not held in the trust account.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

Our anchor investors have expressed to us an interest to purchase an aggregate of 2,000,000 units (or 2,300,000 units if the underwriters' over-allotment option is exercised in full) in this offering and we have agreed to direct the underwriters to sell such units to our anchor investors. There will be no underwriting discount or commission paid on any units the anchor investors may purchase in this offering. Because these expressions of interest are not binding agreements or commitments to purchase, our anchor investors may determine to purchase more, fewer or no units in this offering or the underwriters may determine to sell more, fewer or no units to our anchor investors. Further, the anchor investors have agreed with us that, if they do not own an aggregate number of public shares at least equal to the Anchor Threshold at the time of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, the number of founder shares to be purchased by such anchor investors from our sponsor shall be reduced pro rata by a fraction, the numerator of which shall equal the Anchor Threshold less the number of public shares held by such anchor investors after giving effect to any redemptions of the public shares by such anchor investors and their affiliates, and the denominator of which shall equal the Anchor Threshold; provided, however, in no event shall such pro rata reduction in the number of founder shares to be purchased by the anchor investors reduce the number of founder shares to be purchased by more than 75%. By way of example and without limiting the foregoing, in the event the anchor investors collectively own a number of shares equal to 50% or 0%, respectively, of the Anchor Threshold (after giving effect to any redemptions of their public shares), the number of founder shares that the anchor investors may purchase shall be reduced by 50% or 75%, respectively.

[Table of Contents](#)

The anchor investors have also agreed that if, in connection with an initial business combination, the sponsor decides (i) to forfeit, transfer to a third person, exchange, subject to transfer, vesting or conditional forfeiture provisions or amend the terms of all or any portion of the founder shares or (ii) to enter into any other arrangements with respect to the founder shares, including voting in favor of any amendment to the terms of the founder shares (each, a “Change in Investment”), such Change in Investment shall apply pro rata to the anchor investor and the sponsor based on the relative number of founder shares to be purchased or held, as applicable, by each upon consummation of the initial business combination; provided, however that in no event will such Change in Investment reduce the founder shares to be purchased by the anchor investors by more than 75%. By way of example and without limiting the foregoing, in the event our sponsor forfeits or transfers 50% or 100%, respectively, of its founder shares as part of our initial business combination, the number of founder shares to be purchased by the anchor investors shall be reduced by 50% or 75%, respectively.

There can be no assurance that our anchor investors will acquire any units in this offering or will retain any units upon the consummation of our initial business combination. In the event that such anchor investors purchase units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that our anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

Our anchor investors will have the same rights to the funds held in the trust account with respect to the common stock underlying the units they may purchase in this offering as the rights afforded to our public stockholders.

Our sponsor and anchor investors have committed to purchase an aggregate of 5,000,000 private placement warrants (or 5,500,000 if the underwriters’ over-allotment option is exercised in full) at a price of \$1.50 per whole warrant (approximately \$7,500,000 in the aggregate or \$8,250,000 if the underwriters’ over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of this offering. Among the private placement warrants, 4,000,000 private placement warrants (or 4,400,000 private placement warrants if the underwriters’ over-allotment option is exercised in full) will be purchased by our sponsor and an aggregate of 1,000,000 private placement warrants (or 1,100,000 private placement warrants if the underwriters’ over-allotment option is exercised in full) will be purchased by the anchor investors. Each whole private placement warrant is exercisable for one share of Class A common stock at \$11.50 per share. Our sponsor will be permitted to transfer the private placement warrants held by it to certain permitted transferees, including our officers and directors and other persons or entities affiliated with or related to it, but the transferees receiving such securities will be subject to the same agreements with respect to such securities as our sponsor. Otherwise, these warrants will not, subject to certain limited exceptions, be transferable or salable until 30 days after the completion of our business combination. The private placement warrants will be non-redeemable so long as they are held by our sponsor, the anchor investors or their respective permitted transferees. The private placement warrants may also be exercised by our sponsor, the anchor investors and their respective permitted transferees for cash or on a cashless basis. Otherwise, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering, including as to exercise price, exercisability and exercise period.

Pursuant to a registration and stockholders rights agreement we will enter into with our sponsor on or prior to the closing of this offering, we may be required to register certain securities for sale under the Securities Act. These holders, and holders of warrants issued upon conversion of working capital loans, if any, are entitled under the registration and stockholders rights agreement to make up to three demands that we register certain of our securities held by them for sale under the Securities Act and to have the securities covered thereby registered for resale pursuant to Rule 415 under the Securities Act. In addition, these holders have the right to include their securities in other registration statements filed by us. However, the registration and stockholders rights agreement will provide that we will not permit any registration statement filed under the Securities Act to become effective until the securities covered thereby are released from their lock-up restrictions, as described herein. We will bear the costs and expenses of filing any such registration statements. See the section of this prospectus entitled “Certain Relationships and Related Party Transactions.”

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results

As of December 31, 2020, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus, as we have not conducted any operations to date.

JOBS Act

The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an “emerging growth company” and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company,” we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor’s attestation report on our system of internal controls over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (auditor discussion and analysis) and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our initial public offering or until we are no longer an “emerging growth company,” whichever is earlier.

PROPOSED BUSINESS

Our Company

XPDI is a blank check company newly incorporated as a Delaware Corporation for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities, which we refer to throughout this prospectus as our initial business combination. We have not selected any business combination targets and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination targets.

We intend to pursue opportunities that are driving the electrical power grid transition, both on the supply and demand side, as well as seeking co-optimization opportunities between supply and demand, of the electrical grid in the United States. On the supply side, we plan to target high growth businesses or entities including, but not limited to (i) renewable power generation; (ii) power technology, equipment and services companies that focus on the integration of intermittent renewables; and (iii) dispatchable energy transition infrastructure. On the demand side, tremendous growth is being driven by high-density energy consumers in the digital infrastructure industry, where we plan to target businesses comprised of, but not limited to (i) data centers and data center management; (ii) blockchain infrastructure; and (iii) frontier technology infrastructure that incorporates these high-density energy consumers into the electrical grid. We believe that these rapid changes on the supply and demand side of the electrical power grid can create co-optimization and incremental margin opportunities as (i) many base load data center customers demand green electricity, and (ii) blockchain infrastructure can act as a virtual power plant by reducing its mining operations when electricity demand is high and/or renewable output is low. These strategies could allow a company to capture high spot electricity market prices, while stabilizing the grid in areas with increasing market price volatility driven by the proliferation of intermittent renewables.

Our intention is to acquire a business or entity that could benefit from our expertise across the power & digital infrastructure landscape.

- EPTP is a private equity fund focused on renewable and transition energy infrastructure. Its leadership team has over 20 years of investment experience and has invested in ~\$1.1 billion, including ~\$900 million directly, in the renewable and transition power verticals.
- XMS is an entity owned by professionals of XMS Capital, who are experienced in providing strategic and financial advisory services, including advising clients on mergers and acquisitions, capital structure, financings, takeover and activist preparation, and restructurings.
- AP is an entity controlled by Benjamin W. Atkins and Jesse Peltan, each of whom serves as a member of our management team, who collectively have over 10 years of bitcoin mining, high voltage electrical infrastructure, and data center experience.

Market Opportunity

We believe that the evolving transition taking place in the electrical power & digital infrastructure landscape has created and will continue to create significant opportunity for co-optimization from renewable energy resources, expanding their integration into the transmission and distribution grid, and utilizing the more sustainable power to satisfy the demands of the ever-increasing high-density electrical needs of data centers and blockchain infrastructure.

As part of this transition, we expect ongoing and continued rapid growth and penetration of intermittent renewable resources that require power technology, equipment, and services companies to integrate them into the electrical grid. The power grid has demonstrated a significant shift in a short period of time toward investments in renewable infrastructure. Between 2009 and 2019, solar and wind energy consumption increased by ~8,007% and ~306%, respectively.⁵ Renewable power has become a low-cost necessity for data centers, with the levelized cost of energy for solar PV crystalline and wind decreasing by 89% and 70%, respectively⁶, from 2009 to 2019. To support these trends, power infrastructure is transforming to incorporate these intermittent resources. We believe that over the coming decades the pace and scope of investments will continue to increase dramatically.

⁵ Source: U.S. Energy Information Administration, Monthly Energy Review, August 2020.

⁶ Source: Lazard's Levelized Cost of Energy Analysis — Version 13.0, November 2019.

[Table of Contents](#)

Demand on the electrical grid has demonstrated a significant increase from high-density energy customers, including data centers and blockchain infrastructure. Between 2014 and 2018, worldwide data center revenue from digital infrastructure increased from \$22.8 billion to \$38.2 billion, or a total of \$15.4 billion, a 67.5% increase. Revenues are expected to continue growing at a compounded annual growth rate of 10.1% from 2014 through 2023.⁷ Annual Bitcoin mining market revenue has grown from \$570 million in 2016 to \$5 billion in 2020, a 777%⁸ increase. Global sentiment has driven a transition toward the use of sustainable energy that has created a cultural desire for green power technology. The data center market is seeing growth both in latency sensitive compute as well as HPC. Growth in low latency compute is being driven by a work force that is increasingly working at home, enhancing the need for edge computing and creating demand for more data centers located closer to the end-user. Many high energy consumption tasks, such as artificial intelligence, rendering, 3D seismic processing, big data analytics, and other parallel processing are increasingly locating in areas with low power costs and large power capacity that enable hyperscale deployments and their corresponding economies of scale. Low-tier data centers, which avoid the high costs of redundant infrastructure used in high-tier data centers that support mission critical applications, are able to cheaply and efficiently support many HPC and blockchain infrastructure applications, enabling utilization of renewable energy assets in a capital efficient manner. Growing institutional adoption of Bitcoin, driven by global monetary easing, is driving demand for Bitcoin mining and blockchain data centers. The cost-of-goods for HPC data centers and blockchain infrastructure is predominately driven by electricity. This evolution on the electrical power grid will create opportunities for both the providers of sustainable and reliable electricity, as well as for those consumers of electricity, as it is the main ongoing input cost to digital technology infrastructure.

We intend to exploit the gap between renewable energy assets and high-density energy consumers in the digital infrastructure industry where co-optimization opportunities exist. We expect our digital infrastructure opportunities will secure their electrical needs through long-term power purchase agreements. Electrical market volatility, which is increasing with the proliferation of intermittent renewables and the curtailment of coal plants, creates growing demand for grid balancing and ancillary services. Demand-side management of high-density electricity consumers is a carbon free alternative to peaker plants that can complement utility scale battery deployments and enable higher renewable penetration. Subsequent to our initial business combination, we expect we may have opportunities to demand-side manage our digital infrastructure and sell our electricity opportunistically into the marketplace at scarcity prices that happen for relatively short periods of time when the grid is stressed and renewable production is low. For example, in ERCOT power prices have reached up to the \$9,000/MWh price cap at times of high demand and low renewable generation, whereas we expect to be able to purchase long-term electricity close to \$20/MWh, creating material co-optimization revenue opportunities.

In summary, we believe that the co-optimization of these real assets will present a higher margin profile on the growing renewable energy generation, HPC data center, and blockchain infrastructure sectors, with the downside protection of owning real assets.

Our Sponsors

Our team brings together experts in the renewable and transition power, equipment, services, data center, cryptocurrency mining, and financial advisory sectors. Representatives from three firms with deep and complementary skills have come together to pursue these opportunities created by the electrical power grid transition.

EPTP is a private equity fund focused on renewable energy, energy technology (i.e. battery storage), equipment and services, and transition energy infrastructure. Its leadership has over 20 years of investment experience and has invested ~\$1.1 billion, including ~\$900 million directly, in the renewable and transition energy space.

Select investments that EPTP's leadership has underwritten include:

- \$411 million investment in First Wind, an independent wind and solar energy company focused on utility-scale wind energy projects across the U.S., which was made in 2006 and exited in 2015;
- \$159 million investment in Calpine in 2018, America's largest generator of electricity from natural gas and geothermal resources;

⁷ Source: Cisco Annual Internet Report (2018–2023), Wall Street Research, U.S. Energy Information Administration, Statista.

⁸ Source: Coin Metrics market data. Annual market revenue is calculated as the daily USD value of all block rewards and transaction fees received by Bitcoin miners in a year.

[Table of Contents](#)

- \$283 million investment in US Power Generating Co., a generator of electricity from natural gas servicing New York City, which was made in 2006 and exited in 2011;
- \$29 million investment in Next Decade in 2018, a leading LNG development company with a CCS solution focused on the export of LNG globally from Texas.

XMS is a newly formed limited liability company owned by professionals of XMS Capital. XMS Capital, founded in 2006, is a global independent financial services firm providing investment banking, asset management and merchant banking services to a wide range of clients. It has offices in Chicago, London and Boston. The XMS Capital value proposition is characterized by Involvement Banking™, a service approach which goes beyond transaction-oriented investment banking and focuses on delivering objective, value-added advice and custom-tailored solutions to help clients achieve their strategic goals. Its track record of consistent value creation for its clients is attributable to its ability to provide turnkey access to comprehensive, independent M&A, strategic advisory, financial restructuring, capital structure advisory and private capital advisory expertise.

Select transactions for XMS Capital include advising:

- Exact Sciences on its \$2.8 billion acquisition of Genomic Health in November 2019 and its \$2.15 billion acquisition of Thrive Earlier Detection in January 2021 that created a leading global cancer diagnostics company;
- Industrea, a publicly-traded SPAC focused on the industrial sector, on its acquisition of Concrete Pumping Holdings Inc., a leading concrete pumping services and concrete environmental waste management solutions company, in December 2018 for \$696 million;
- Icahn Enterprises L.P. on its sale of auto-parts manufacturer Federal Mogul LLC to Tenneco for \$5.4 billion in October 2018;
- Hennessy Capital Acquisition Corp. II, a SPAC, on its \$626 million acquisition of Daseke, a leading consolidator of the open deck freight market in North America, in February 2017;
- Riot Blockchain, Inc. in its pilot project to evaluate latest generation immersion module technology and innovative energy strategies in Texas;
- Various public and private U.S.-based blockchain firms on M&A, strategy and new ventures.

Our Founders, Board of Directors and Management

Our company is supported by a full management team with deep expertise and deal flow across both the intermittent renewable and dispatchable power and digital infrastructure industries. Our operations will be overseen by an experienced Board of Directors with deep knowledge developed through extensive M&A, financing transactions, and entrepreneurial ventures. Our management team brings extensive knowledge and a developed network.

Theodore J. Brombach serves as our Chairman. Mr. Brombach is a founding partner of XMS Capital Partners, LLC and serves as the firm's Co-Managing Partner and has served in such role since 2006. He is also the Chief Executive Officer of XA Investments LLC, an alternative asset management firm he co-founded in 2016. Mr. Brombach is the President and Chief Executive Officer and a Trustee of XAI Octagon Floating Rate & Alternative Income Term Trust (NYSE: XFLT), a closed end fund investing in alternative credit investments, and has served in such role since 2017. He has over 30 years of investment banking experience in Chicago, New York and London. Prior to founding XMS Capital, Mr. Brombach was a Managing Director and co-head of Midwest Investment Banking at Morgan Stanley, which he joined in 1990. At XMS Capital, he has led numerous M&A and capital raising transactions across a number of industry sectors. Mr. Brombach is a director of RiverWood Bank. Mr. Brombach earned a Bachelor of Arts from the University of Notre Dame and a Master of Business Administration from the Kellogg Graduate School of Management at Northwestern University.

Patrick C. Eilers serves as our Chief Executive Officer and is a member of our board of directors. Mr. Eilers is the founder and has served since 2019 as the Managing Partner of EPTP, a private equity firm focused on the energy & power transition, in particular its impact on the electrical grid, with an expertise in (i) renewable energy, (ii) energy storage, technology, equipment & services, and (iii) transitional energy infrastructure. Mr. Eilers has over 20 years of investment experience focused on the energy & power transition. Prior to founding EPTP, Mr. Eilers was

a Managing Director on the BlackRock Infrastructure Platform, where he also served as an Investment Committee member for BlackRock's Global Renewable Power Fund, Global Energy & Power Infrastructure Fund, and Chaired the Energy & Power Private Equity Fund. Prior to joining BlackRock in 2016, he also worked at Madison Dearborn Partners overseeing the firm's energy, power, and chemicals practices for 10 years. Mr. Eilers earned a Bachelor of Science in Biology and Mechanical Engineering from the University of Notre Dame and a Master of Business Administration from the Kellogg School of Management at Northwestern University.

James P. Nygaard, Jr. serves as our Chief Financial Officer. Mr. Nygaard is a Managing Director of XMS Capital Partners, LLC and is responsible for leading M&A execution activities at the firm. With 25 years of investment banking experience, he has completed several strategic transactions, financings, and corporate finance advisory assignments for a diverse range of clients across a variety of industry sectors. Prior to joining XMS Capital at the end of 2007, Mr. Nygaard spent 12 years in the Investment Banking Division of Morgan Stanley where he assumed various roles within the corporate finance, M&A and administrative practices of the firm. While at Morgan Stanley, Mr. Nygaard led coverage and strategic execution efforts for a number of Midwest-based companies, including 3M, Anheuser-Busch, ConAgra Brands, Ford Motor Company, and General Mills. Mr. Nygaard graduated *summa cum laude* from the University of Illinois at Urbana-Champaign with a Bachelor of Arts in Economics, where he was valedictorian of his department and received Bronze Tablet Honors, the university's highest academic distinction.

Paul Dabbar will become a member of our board of directors upon the closing of this offering. Mr. Dabbar is currently the Chief Executive Officer of Bohr Quantum Technologies, a quantum communications company, and has served in such role since 2021. Prior to Bohr Quantum, Mr. Dabbar served as Under Secretary for Science at the U.S. Department of Energy from 2017 to 2021, managing the operations of, and investing capital at the seventeen U.S. National Laboratories, conducting research and development in energy, technology and the sciences. Mr. Dabbar was previously a Managing Director in investment banking at J.P. Morgan Chase & Co., in energy and mergers & acquisitions from 1996 to 2017. Mr. Dabbar was also previously a nuclear submarine officer in the U.S. Navy. Mr. Dabbar earned a Bachelor of Science from the U.S. Naval Academy and an MBA from Columbia University.

Paul Gaynor will become a member of our board of directors upon the closing of this offering. Mr. Gaynor is currently the Chief Executive Officer of Longroad Energy, a renewable energy company. Prior to co-founding Longroad Energy, Mr. Gaynor served as CEO of First Wind, which he founded in 2004. Mr. Gaynor has also held various roles within Singapore Power, PSG International, GE Capital, and GE Power Systems. Mr. Gaynor earned a Bachelor of Science in Mechanical Engineering from Worcester Polytechnic Institute and an MBA from University of Chicago.

Colleen Sullivan will become a member of our board of directors upon the closing of this offering. Ms. Sullivan is Co-Founder and CEO of CMT Digital Holdings LLC and has been a partner with the broader CMT Group since 2013. Ms. Sullivan oversees CMT Digital's trading, investments, and regulatory initiatives in the crypto assets/blockchain technology space. Ms. Sullivan is also a Co-Founder and Managing Member of Sullivan Wolf Kailus LLC, a boutique law firm based in Chicago that specializes in hedge fund, private equity, venture capital, digital assets, and other alternative investment products. Ms. Sullivan previously practiced law in the Investment Funds and Derivatives group at Sidley Austin LLP and, at age 25, co-founded a company called iOptions Group LLC, which developed hedging and monetization strategies for holders of employee stock options. Ms. Sullivan currently serves on the Board of Directors of Silvergate Bank and on the Advisory Board of the Chamber of Digital Commerce. Ms. Sullivan earned a Bachelor of Science in Accounting from the University of St. Francis and a Juris Doctorate from DePaul University School of Law.

Scott Widham will become a member of our board of directors upon the closing of this offering. Mr. Widham brings over 30 years of broad-based management and operations experience in the telecommunications industry. Mr. Widham is currently President of Widham Capital, providing advisory services to strategic and financial institutions making investments in the telecom sector, and has served in that role since 2019. Previously, he served as President of Neverfail from 2018 to 2019, CEO of Alpheus Communications from 2011 to 2017 and, prior to Alpheus, as CEO of Cobridge Communications, Broadwing Communications, and Capital Cable. Mr. Widham also served as EVP of Corecomm and was a Director at MTV Networks. Mr. Widham earned a B.B.A. from the University of Texas at Austin.

Benjamin W. Atkins serves on our management team as a Vice President. Mr. Atkins is a co-founder of HODL Ranch, which he co-founded in 2018, where he focuses on business development and capital origination activities. Mr. Atkins co-founded Skybox Datacenters in 2013 and is a co-founder and partner of Rugen Street Capital, which he also co-founded in 2013. Prior to joining HODL Ranch, Mr. Atkins served as an equity research analyst at Chilton Capital Management in Houston, Texas in 2012 as well as an investment analyst at Salient Partners in Houston, Texas from 2010 to 2011. Mr. Atkins earned a Bachelor of Business Administration in Finance from Texas A&M University.

Jesse Peltan serves on our management team as a Vice President. Mr. Peltan is the Chief Technology Officer and co-founder of HODL Ranch, and has served in such role since 2018. Mr. Peltan is also co-founder and Chief Technology Officer of Autonomous, which he co-founded in 2017, where he has designed and built multiple ASIC and GPU cryptocurrency compute clusters. Mr. Peltan leads technical research and development at HODL Ranch. He has developed solutions for operating blockchain datacenters in various climates in Texas and demand side management strategies to capitalize on the growth in intermittent renewable energy in ERCOT. Prior to leaving his senior year to co-found Autonomous, Mr. Peltan attended the University of Kentucky, where he was a quadruple major in Mathematics, Economics, Philosophy and Environmental Sustainability. Mr. Peltan has been recognized by Forbes 30 under 30 in Energy for his work in sustainable energy and Bitcoin mining.

Business Strategy

Our business strategy is to identify and complete an initial business combination that creates substantial long-term value for our shareholders. We will seek North American targets operating as leaders in the power and digital infrastructure areas to capitalize on co-optimization opportunities, where they exist. Through such opportunities we seek to provide a higher margin profile on the growing low-tier data center sector and blockchain infrastructure industry by capturing the extrinsic value generated through the increased volatility of the electrical markets due to increased intermittent renewable penetration, with the downside protection of owning real assets. We believe the network of proprietary and relationship-based opportunities of the management, combined with its rigorous underwriting and risk management acumen, and macroeconomic and financial insight, will allow us to effectively and efficiently identify and evaluate potential opportunities for our initial business combination. In addition to our network and expertise, we plan to leverage XMS' world class execution with expertise navigating all potential process dynamics and nuances, to extend our access to opportunities. We will seek to:

- Bridge the gap between renewable energy and storage assets with high-density energy consumers in the digital infrastructure industry with a co-optimization strategy, where it's present and actionable;
- Optimize renewable energy resource integration into the transmission and distribution grid using power technology, equipment and services;
- Utilize more sustainable power to satisfy the energy demands of the ever-increasing data center and blockchain digital infrastructure industries;
- Provide a public currency to facilitate rapid growth through acquisition as the electrical grid transitions in these high-growth renewable energy supply and digital infrastructure demand markets;
- Leverage the management team's and Board's deep expertise and deal flow across both the power and digital infrastructure industries which will provide a large opportunity set for XPDI to pursue both as the initial target for the SPAC, as well as for follow-on acquisitions;
- Capitalize on EPTP's long-standing relationships across the energy & power industry to facilitate proprietary and relationship-based opportunities for sourcing and improving investments;
- Utilize XMS Capital's position as the leading advisory firm for blockchain infrastructure and broad experience to navigate all potential process dynamics and nuances;
- Leverage the combination of a highly experienced data center developer and operator with a bitcoin mining team, to achieve our investment goals that has proven execution capabilities.

Acquisition Criteria

The following general criteria and guidelines were developed to evaluate prospective target businesses, consistent with our Business Strategy. These criteria and guidelines will be used in evaluating acquisition opportunities, but the target business that we decide to enter into our initial business combination with may not meet all of the criteria and guidelines listed below. We may also consider other criteria and/or guidelines not listed below. We intend to acquire a business or an entity that we believe:

- Has demonstrated, or has the potential to develop, fundamentally sound financial performance, with visibility into revenue and cash flow growth and relatively predictable future financial performance;
- Exhibits unique business attributes and/or product offerings that provide us confidence on the long-term profitability and outlook of the company;
- Is directed by an exemplary and accomplished management team with a proven track record and complementary capabilities, or is open to augmenting the existing leadership team's capabilities with additional talent through our network;
- Embraces the potential to maximize the value to our shareholders, through utilizing our industry experience, as well as our operating, strategic, financing and M&A capabilities.

The list of criteria and guidelines are not intended to be exhaustive. Any evaluation of the merits of a particular initial business combination may be based on the above criteria and guidelines as well as other factors and considerations that our management and our sponsors may deem appropriate. Should we elect to enter into our initial business combination with a target business that does not meet the above criteria and guidelines, it will be disclosed in any shareholder communications related to our initial business combination that the target business does not meet the above criteria.

Competitive Strengths

We believe the sourcing, valuation, diligence and execution capabilities of our management team will provide us with a significant pipeline of opportunities from which to evaluate and select a target for an initial business combination that will benefit from our extensive experience. Our competitive strengths include the following:

- EPTP's leadership has 20 years of experience and decades-long relationships across the energy & power industry to facilitate proprietary and relationship-based opportunities for sourcing and improving investments;
- EPTP's leadership drives value at the investment level by leveraging industry relationships, employing rigorous underwriting and risk management acumen, and macroeconomic and financial insight
- Senior leadership has >20 years of energy & power investing experience through multiple commodity/economic cycles;
- XMS' partners average over 25 years of investment banking experience;
- XMS has the expertise to advise across the entire range of strategic and financial alternatives — M&A, capital structure, financings, takeover and activist preparation, dividend policy, restructuring;
- XMS Capital is the leading advisory firm for blockchain infrastructure, advising some of the largest public and private U.S. based blockchain firms on M&A, strategy, and new ventures;
- XMS Capital has world class execution with expertise navigating all potential process dynamics and nuances, and has executed transactions in virtually every industry, sector, and vertical;
- The XMS, EPTP, and AP teams have decades of combined experience in sourcing deals with a demonstrated track record of successfully executing transactions.

Initial Business Combination

In accordance with the rules of the Nasdaq, our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the amount of deferred underwriting discounts held in trust and taxes payable by us on the income earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination. If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm or an independent valuation or appraisal firm with respect to satisfaction of such criteria. Our stockholders may not be provided with a copy of such opinion nor will they be able to rely on such opinion. We do not intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination. Subject to this requirement, our management will have virtually unrestricted flexibility in identifying and selecting one or more prospective businesses, although we will not be permitted to effectuate our initial business combination solely with another blank check company or a similar company with nominal operations.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the prior owners of the target business, the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our issued and outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

To the extent we effect our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, we may be affected by numerous risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all significant risk factors.

In evaluating a prospective target business, we expect to conduct a thorough due diligence review which will encompass, among other things, meetings with incumbent management and employees, document reviews, inspection of facilities, as well as a review of financial, operational, legal and other information which will be made available to us.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination.

Potential Conflicts of Interest

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers, directors, or any of their affiliates. In the event we seek to complete our initial business combination with a company that is affiliated with our sponsor, officers, or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or another valuation or appraisal firm that commonly renders fairness opinions that our initial business combination is fair to our company from a financial point of view.

Our sponsor and directors will directly or indirectly own founder shares and/or private placement warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to an agreement with respect to our initial business combination.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities, including as described above. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity, subject to their fiduciary duties under Delaware law.

For more information on the relevant pre-existing fiduciary duties or contractual obligations of our management team, see the section titled “Management — Conflicts of Interest.”

Status as a Public Company

We believe our structure will make us an attractive business combination partner to target businesses. As an existing public company, we offer a target business an alternative to the traditional initial public offering through a merger or other business combination with us. In a business combination transaction with us, the owners of the target business may, for example, exchange their shares of stock, shares or other equity interests in the target business for our Class A common stock (or shares of a new holding company) or for a combination of our Class A common stock and cash, allowing us to tailor the consideration to the specific needs of the sellers. We believe target businesses will find this method a more expeditious and cost effective method to becoming a public company than the typical initial public offering. The typical initial public offering process takes a significantly longer period of time than the typical business combination transaction process, and there are significant expenses in the initial public offering process, including underwriting discounts and commissions, that may not be present to the same extent in connection with a business combination with us.

Furthermore, once a proposed business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters’ ability to complete the offering, as well as general market conditions, which could delay or prevent the offering from occurring or could have negative valuation consequences. Once public, we believe the target business would then have greater access to capital, an additional means of providing management incentives consistent with stockholders’ interests and the ability to use its shares as currency for acquisitions. Being a public company can offer further benefits by augmenting a company’s profile among potential new customers and vendors and aid in attracting talented employees.

While we believe that our structure and our management team’s backgrounds will make us an attractive business partner, some potential target businesses may view our status as a blank check company, such as our lack of an operating history and our ability to seek stockholder approval of any proposed initial business combination, negatively.

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley

[Table of Contents](#)

Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the Market Value of our Class A common stock that is held by non-affiliates equals or exceeds \$700.0 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period.

Financial Position

With funds available for a business combination from this offering and the sale of the private placement warrants initially in the amount of \$241,250,000, after payment of the estimated expenses of this offering and \$8,750,000 of deferred underwriting fees (or \$277,437,500 after payment of \$10,062,500 of deferred underwriting fees if the underwriters’ over-allotment option is exercised in full), we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt leverage ratio. Because we are able to complete our initial business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third party financing and there can be no assurance it will be available to us.

Effecting our Initial Business Combination

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering, the private placements of the private placement warrants, our equity, debt or a combination of these as the consideration to be paid in our initial business combination. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination or used for redemptions of our Class A common stock, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We currently do not have any specific business combination under consideration. Our officers and directors have neither individually identified nor considered a target business, nor have they had any discussions regarding possible target businesses among themselves or with our underwriters or other advisors. Some of the members of our management team are employed by certain affiliates of our sponsor, including EPTP and XMS Capital. Affiliates of our sponsor are continuously made aware of potential business opportunities, one or more of which we may desire to pursue for a business combination, but we have not (nor has anyone on our behalf) contacted any prospective target business or had any discussions, formal or otherwise, with respect to a business combination transaction. We have not (nor have any of our agents or affiliates) been approached by any candidates (or representative of any candidates) with respect to a possible acquisition transaction with us and we will not consider a business combination with any company that has already been identified to EPTP or XMS as a suitable acquisition candidate for it. Additionally, we

[Table of Contents](#)

have not, nor has anyone on our behalf, taken any measure, directly or indirectly, to identify or locate any suitable acquisition candidate for us, nor have we engaged or retained any agent or other representative to identify or locate any such acquisition candidate.

We have not selected any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions with any business combination target. Additionally, we have not engaged or retained any agent or other representative to identify or locate any suitable acquisition candidate, to conduct any research or take any measures, directly or indirectly, to locate or contact a target business, other than our officers and directors. Accordingly, there is no current basis for investors in this offering to evaluate the possible merits or risks of the target business with which we may ultimately complete our initial business combination. Although our management will assess the risks inherent in a particular target business with which we may combine, we cannot assure you that this assessment will result in our identifying all risks that a target business may encounter. Furthermore, some of those risks may be outside of our control, meaning that we can do nothing to control or reduce the chances that those risks will adversely affect a target business.

We may need to obtain additional financing to complete our initial business combination, either because the transaction requires more cash than is available from the proceeds held in our trust account, or because we become obligated to redeem a significant number of our public shares upon completion of the business combination, in which case we may issue additional securities or incur debt in connection with such business combination. There are no prohibitions on our ability to issue securities or incur debt in connection with our initial business combination. We are not currently a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities, the incurrence of debt or otherwise.

Sources of Target Businesses

Our process of identifying acquisition targets will leverage XMS, EPTP, our sponsor and our management team's industry experiences, proven deal sourcing capabilities and broad and deep network of relationships in numerous industries, including executives and management teams, private equity groups and other institutional investors, large business enterprises, lenders, investment bankers and other investment market participants, restructuring advisers, consultants, attorneys and accountants, which we believe should provide us with a number of business combination opportunities. We expect that the collective experience, capability and network of XMS, EPTP, our directors and officers, combined with their individual and collective reputations in the investment community, will help to create prospective business combination opportunities.

In addition, we anticipate that target business candidates may be brought to our attention from various unaffiliated sources, including investment bankers and private investment funds. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us through calls or mailings. These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read this prospectus and know what types of businesses we are targeting. Our officers and directors, as well as their affiliates, may also bring to our attention target business candidates of which they become aware through their business contacts as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions.

We also expect to receive a number of proprietary deal flow opportunities that would not otherwise necessarily be available to us as a result of the business relationships of our officers and directors. While we do not presently anticipate engaging the services of professional firms or other individuals that specialize in business acquisitions on any formal basis, we may engage these firms or other individuals in the future, in which event we may pay a finder's fee, consulting fee or other compensation to be determined in an arm's length negotiation based on the terms of the transaction. We will engage a finder only to the extent our management determines that the use of a finder may bring opportunities to us that may not otherwise be available to us or if finders approach us on an unsolicited basis with a potential transaction that our management determines is in our best interest to pursue. Payment of finder's fees is customarily tied to completion of a transaction, in which case any such fee will be paid out of the funds held in the trust account. In no event, however, will either of our sponsor or any of our existing officers or directors, or any entity with which they are affiliated, be paid any finder's fee, consulting fee or other compensation by the company prior to, or for any services they render in order to effectuate, the completion of our initial business combination (regardless of the type of transaction that it is). None of our sponsor, executive officers or directors, or any of their respective affiliates, will be allowed to receive any compensation, finder's fees or consulting fees from a prospective business combination target in connection with a contemplated acquisition of such target by us.

[Table of Contents](#)

We are not prohibited from pursuing an initial business combination with a business combination target that is affiliated with our sponsor, officers or directors or from making the acquisition through a joint venture or other form of shared ownership with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a business combination target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm or an independent accounting firm, that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities, including entities that are affiliates of our sponsor, pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity.

Accordingly, if our sponsor or its affiliates or our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such entity, subject to their fiduciary duties under Delaware law. See “Management — Conflicts of Interest.”

Evaluation of a Target Business and Structuring of our Initial Business Combination

Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the deferred underwriting commissions and taxes payable by us on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. The fair market value of the target or targets will be determined by our board of directors based upon one or more standards generally accepted by the financial community, such as discounted cash flow valuation or value of comparable businesses. If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm, or from an independent accounting firm, with respect to the satisfaction of such criteria. We do not intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination. Subject to this requirement, our management will have virtually unrestricted flexibility in identifying and selecting one or more prospective target businesses, although we will not be permitted to effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In any case, we will only complete an initial business combination in which we own or acquire 50% or more of the outstanding voting securities of the target or otherwise acquire a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. If we own or acquire less than 100% of the equity interests or assets of a target business or businesses, the portion of such business or businesses that are owned or acquired by the post-transaction company is what will be valued for purposes of the 80% of net assets test. There is no basis for investors in this offering to evaluate the possible merits or risks of any target business with which we may ultimately complete our business combination.

To the extent we effect our business combination with a company or business that may be financially unstable or in its early stages of development or growth we may be affected by numerous risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all significant risk factors.

In evaluating a prospective target business, we expect to conduct a thorough due diligence review, which will encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities, as well as a review of financial, operational, legal and other information which will be made available to us. If we determine to move forward with a particular target, we will proceed to structure and negotiate the terms of the business combination transaction.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of, and negotiation with, a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses

and will reduce the funds we can use to complete another business combination. The company will not pay any consulting fees to members of our management team, or any of their respective affiliates, for services rendered to or in connection with our initial business combination.

Lack of Business Diversification

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. By completing our initial business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination; and
- cause us to depend on the marketing and sale of a single product or limited number of products or services.

Limited Ability to Evaluate the Target's Management Team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our initial business combination with that business, our assessment of the target business's management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. The determination as to whether any of the members of our management team will remain with the combined company will be made at the time of our initial business combination. While it is possible that one or more of our directors will remain associated in some capacity with us following our initial business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to our initial business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following a business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Stockholders May Not Have the Ability to Approve our Initial Business Combination

We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC subject to the provisions of our amended and restated certificate of incorporation. However, we will seek stockholder approval if it is required by law or applicable stock exchange rule, or we may decide to seek stockholder approval for business or other legal reasons.

Under the Nasdaq's listing rules, stockholder approval would be required for our initial business combination if, for example:

- we issue shares of common stock that will be equal to or in excess of 20% of the number of our shares of common stock then outstanding (other than in a public offering);
- any of our directors, officers or substantial stockholders (as defined by the Nasdaq rules) has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the target business or assets to be acquired or otherwise and the present or potential issuance of common stock could result in an increase in outstanding common stock or voting power of 5% or more; or

[Table of Contents](#)

- the issuance or potential issuance of common stock will result in our undergoing a change of control.

The decision as to whether we will seek stockholder approval of a proposed business combination in those instances in which stockholder approval is not required by law will be made by us, solely in our discretion, and will be based on business and legal reasons, which include a variety of factors, including, but not limited to:

- the timing of the transaction, including in the event we determine stockholder approval would require additional time and there is either not enough time to seek stockholder approval or doing so would place the company at a disadvantage in the transaction or result in other additional burdens on the company;
- the expected cost of holding a stockholder vote;
- the risk that the stockholders would fail to approve the proposed business combination;
- other time and budget constraints of the company; and
- additional legal complexities of a proposed business combination that would be time-consuming and burdensome to present to stockholders.

Permitted Purchases of Our Securities

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, directors, executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase shares or public warrants in such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act.

Such a purchase may include a contractual acknowledgment that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

The purpose of any such purchases of shares could be to (i) vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or (ii) to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public “float” of our Class A common stock or public warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsor, officers, directors and/or their affiliates anticipate that they may identify the stockholders with whom our sponsor, officers, directors or their affiliates may pursue privately negotiated purchases by either the stockholders contacting us directly or by our receipt of redemption requests submitted by stockholders (in the case of our Class A common stock) following our mailing of proxy materials in connection with our initial business

[Table of Contents](#)

combination. To the extent that our sponsor, officers, directors, advisors or their affiliates enter into a private purchase, they would identify and contact only potential selling stockholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against our initial business combination, whether or not such stockholder has already submitted a proxy with respect to our initial business combination but only if such shares have not already been voted at the stockholder meeting related to our initial business combination. Our sponsor, executive officers, directors, advisors or any of their affiliates will select which stockholders to purchase shares from based on the negotiated price and number of shares and any other factors that they may deem relevant, and will only purchase shares if such purchases comply with Regulation M under the Exchange Act and the other federal securities laws.

Any purchases by our sponsor, officers, directors and/or their affiliates who are affiliated purchasers under Rule 10b-18 under the Exchange Act will only be made to the extent such purchases are able to be made in compliance with Rule 10b-18, which is a safe harbor from liability for manipulation under Section 9(a)(2) and Rule 10b-5 of the Exchange Act. Rule 10b-18 has certain technical requirements that must be complied with in order for the safe harbor to be available to the purchaser. Our sponsor, officers, directors and/or their affiliates will not make purchases of shares if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements.

Redemption Rights for Public Stockholders upon Completion of our Initial Business Combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their Class A common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the completion of the initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be approximately \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. The redemption rights will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares in connection with (i) the completion of our initial business combination and (ii) a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we have not completed an initial business combination within 24 months from the closing of this offering.

Limitations on Redemptions

Our amended and restated certificate of incorporation provides that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules). However, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all Class A common stock submitted for redemption will be returned to the holders thereof.

Manner of Conducting Redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under applicable law or stock exchange listing requirement or whether we were deemed to be a foreign private issuer (which would require a tender offer rather than seeking stockholder approval under SEC rules). Asset acquisitions and share purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our shares of outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. We currently intend to conduct redemptions in connection with a stockholder vote unless stockholder approval is not required by applicable law or stock exchange listing requirement and we choose to conduct redemptions pursuant to the tender offer rules of the SEC for business or other legal reasons. So long as we obtain and maintain a listing for our securities on the Nasdaq, we will be required to comply with the Nasdaq rules.

If we held a stockholder vote to approve our initial business combination, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules; and
- file proxy materials with the SEC.

In the event that we seek stockholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public stockholders with the redemption rights described above upon completion of the initial business combination.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock are voted by the stockholders at a stockholders meeting to approve the initial business combination, unless applicable law, our corporate governing documents or applicable stock exchange rules require a different vote, in which case we will complete our initial business combination only if such requisite vote is received. A quorum for such meeting will consist of the holder present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. Our initial stockholders and the anchor investors will count towards this quorum and, pursuant to the terms of a letter agreement entered into with us, our sponsor, directors and each member of our management team have agreed to vote their founder shares and any public shares purchased during or after this offering, in favor of our initial business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, assuming the anchor investors vote in favor of our initial business combination, in addition to our initial stockholders' and the anchor investors' founder shares, we would need 9,375,001, or 37.5%, of the 25,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised). In addition, as a result of the founder shares and private placement warrants that our anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders. These quorum and voting thresholds, and the voting agreements of our initial stockholders, may make it more likely that we will complete our initial business combination. Each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction or whether they were a stockholder on the record date for the stockholder meeting held to approve the proposed transaction. In addition, our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with (i) the completion of a business combination and (ii) a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we have not completed an initial business combination within 24 months from the closing of this offering.

[Table of Contents](#)

If, however, stockholder approval of the transaction is required by law or stock exchange listing requirement, or we decide to obtain stockholder approval for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers; and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase Class A common stock in the open market if we elect to redeem our public shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than the number of public shares we are permitted to redeem. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules). Redemptions of our public shares may also be subject to a higher net tangible asset test or cash requirement pursuant to an agreement relating to our initial business combination. For example, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of our Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all shares of our Class A common stock submitted for redemption will be returned to the holders thereof.

Limitation on Redemption upon Completion of Our Initial Business Combination If We Seek Stockholder Approval

Notwithstanding the foregoing, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to the Excess Shares. We believe this restriction will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed business combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights if such holder's shares are not purchased by us, our sponsor or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem no more than 15% of the shares sold in this offering without our prior consent, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash.

However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination.

Tendering Share Certificates in Connection with a Tender Offer or Redemption Rights

Public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," will be required to either tender their certificates (if any) to our transfer agent prior to the date set forth in the proxy solicitation or tender offer materials, as applicable, mailed to such holders, or to deliver their shares to the transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option, in each case up to two business days prior to the initially scheduled vote to approve the business combination. The proxy solicitation or tender offer materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate the applicable delivery requirements, which will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. Accordingly, a public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two days prior to the initial vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights. Given the relatively short period in which to exercise redemption rights, it is advisable for stockholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker a fee of approximately \$80.00 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

The foregoing is different from the procedures used by many blank check companies. In order to perfect redemption rights in connection with their business combinations, many blank check companies would distribute proxy materials for the stockholders' vote on an initial business combination, and a holder could simply vote against a proposed business combination and check a box on the proxy card indicating such holder was seeking to exercise his or her redemption rights. After the business combination was approved, the company would contact such stockholder to arrange for him or her to deliver his or her certificate to verify ownership. As a result, the stockholder then had an "option window" after the completion of the business combination during which he or she could monitor the price of the company's shares in the market. If the price rose above the redemption price, he or she could sell his or her shares in the open market before actually delivering his or her shares to the company for cancellation. As a result, the redemption rights, to which stockholders were aware they needed to commit before the general meeting, would become "option" rights surviving past the completion of the business combination until the redeeming holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a redeeming stockholder's election to redeem is irrevocable once the business combination is approved.

Any request to redeem such shares, once made, may be withdrawn at any time up to two business days prior to the vote on the proposal to approve the business combination, unless otherwise agreed to by us. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our initial business combination.

If our initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed business combination is not completed, we may continue to try to complete a business combination with a different target until 24 months from the closing of this offering.

Redemption of Public Shares and Liquidation if no Initial Business Combination

Our sponsor, officers and directors have agreed that we will have only 24 months from the closing of this offering to complete an initial business combination. If we have not completed an initial business combination within 24 months from the closing of this offering, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of the then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we do not complete an initial business combination within 24 months from the closing of this offering.

Our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we do not complete an initial business combination within 24 months from the closing of this offering. However, if our sponsor, director or members of our management team acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we do not complete an initial business combination within 24 months from the closing of this offering.

Our sponsor, executive officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete an initial business combination within 24 months from the closing of this offering, unless we provide our public stockholders with the opportunity to redeem their public shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules). If this optional redemption right is exercised with respect to an excessive number of public shares such that we cannot satisfy the net tangible asset requirement, we would not proceed with the amendment or the related redemption of our public shares at such time. This redemption right shall apply in the event of the approval of any such amendment, whether proposed by our sponsor, any executive officer, director or director nominee, or any other person.

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the approximately \$1,000,000 of proceeds held outside the trust account plus up to \$100,000 of funds from the trust account available to us to pay dissolution expenses, although we cannot assure you that there will be sufficient funds for such purpose.

If we were to expend all of the net proceeds of this offering and the sale of the private placement warrants, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by stockholders upon our dissolution would be approximately \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public stockholders. We cannot assure you that the actual per-share redemption amount received by stockholders will not be substantially less than \$10.00. Under Section 281(b) of the DGCL, our plan of dissolution must provide for all claims against us to be paid in full or make provision for payments to be made in full, as applicable, if there are sufficient assets. These claims must be paid or provided for before we make any distribution of our remaining assets to our stockholders. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

[Table of Contents](#)

Although we will seek to have all vendors, service providers (other than our independent auditors), prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. The underwriters of this offering will not execute agreements with us waiving such claims to the monies held in the trust account. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. In order to protect the amounts held in the trust account, our sponsor have agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us (other than our independent registered public accounting firm), or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amounts in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share, due to reductions in the value of the trust assets, in each case net of the interest that may be withdrawn to pay our taxes, if any, provided that such liability will not apply to any claims by a third party or prospective target business that executed a waiver of any and all rights to seek access to the trust account nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third party claims. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy their indemnity obligations and we believe that our sponsor's only assets are securities of our company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share, due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay our taxes, if any, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that they have no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.00 per share.

We will seek to reduce the possibility that our sponsor will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers (other than our independent auditors), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsor will also not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to approximately \$1,000,000 from the proceeds of this offering and the sale of the private placement warrants with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient,

[Table of Contents](#)

stockholders who received funds from our trust account could be liable for claims made by creditors, however such liability will not be greater than the amount of funds from our trust account received by any such stockholder. In the event that our offering expenses exceed our estimate of \$1,500,000, we may fund such excess with funds from the funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,500,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 24 months from the closing of this offering may be considered a liquidating distribution under Delaware law. If the corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 24 months from the closing of this offering, is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful (potentially due to the imposition of legal proceedings that a party may bring or due to other circumstances that are currently unknown), then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution. If we do not complete our initial business combination within 24 months from the closing of this offering, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any) and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Accordingly, it is our intention to redeem our public shares as soon as reasonably possible following our 24th month and, therefore, we do not intend to comply with those procedures. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of such date.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the subsequent 10 years. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. As described above, pursuant to the obligation contained in our underwriting agreement, we will seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account. As a result of this obligation, the claims that could be made against us are significantly limited and the likelihood that any claim that would result in any liability extending to the trust account is remote. Further, our sponsor may be liable only to the extent necessary to ensure that the amounts in the trust account are not reduced below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest withdrawn to pay taxes and will not be liable as to any claims under our

[Table of Contents](#)

indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims.

If we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy or insolvency law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public stockholders. Additionally, if we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy or insolvency laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy or insolvency court could seek to recover some or all amounts received by our stockholders.

Furthermore, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public stockholders will be entitled to receive funds from the trust account only (i) in the event of the redemption of our public shares if we do not complete an initial business combination within 24 months from the closing of this offering, (ii) in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete an initial business combination within 24 months from the closing of this offering or (B) with respect to any other provisions relating to the rights of holders of our Class A common stock, or (iii) if they redeem their respective shares for cash upon the completion of the initial business combination. Public stockholders who redeem their shares of our Class A common stock in connection with a stockholder vote described in clause (ii) in the preceding sentence shall not be entitled to funds from the trust account upon the subsequent completion of an initial business combination or liquidation if we have not completed an initial business combination within 24 months from the closing of this offering, with respect to such shares of our Class A common stock so redeemed. In no other circumstances will a stockholder have any right or interest of any kind to or in the trust account. In the event we seek stockholder approval in connection with our initial business combination, a stockholder’s voting in connection with the business combination alone will not result in a stockholder’s redeeming its shares to us for an applicable pro rata share of the trust account. Such stockholder must have also exercised its redemption rights described above. These provisions of our amended and restated certificate of incorporation, like all provisions of our amended and restated certificate of incorporation, may be amended with a stockholder vote.

Comparison of Redemption or Purchase Prices in Connection with our Initial Business Combination and if We Do Not Complete our Initial Business Combination

The following table compares the redemptions and other permitted purchases of public shares that may take place in connection with the completion of our initial business combination and if we have not completed our business combination within 24 months from the closing of this offering.

	Redemptions in Connection with our Initial Business Combination	Other Permitted Purchases of Public Shares by our Affiliates	Redemptions if we do not Complete the Initial Business Combination
Calculation of redemption price`	Redemptions at the time of our initial business combination may be made pursuant to a tender offer or in connection with a stockholder vote. The redemption price will be the same whether we conduct redemptions pursuant to a tender offer or in connection with a stockholder vote. In either case, our public stockholders may redeem their public shares for cash equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the completion of the initial business combination (which is initially anticipated to be \$10.00 per share), including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares, subject to the limitation that no redemptions will take place if all of the redemptions would cause our net tangible assets to be less than \$5,000,001 and any limitations (including but not limited to cash requirements) agreed to in connection with the negotiation of terms of a proposed business combination.	If we seek stockholder approval of our initial business combination, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following completion of our initial business combination. There is no limit to the prices that our sponsor, directors, officers, advisors or their affiliates may pay in these transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material nonpublic information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.	If we have not completed an initial business combination within 24 months from the closing of this offering, we will redeem all public shares at a per-share price, payable in cash, equal to the aggregate amount, then on deposit in the trust account (which is initially anticipated to be \$10.00 per share), including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares.

[Table of Contents](#)

	Redemptions in Connection with our Initial Business Combination	Other Permitted Purchases of Public Shares by our Affiliates	Redemptions if we do not Complete the Initial Business Combination
Impact to remaining stockholders	The redemptions in connection with our initial business combination will reduce the book value per share for our remaining stockholders, who will bear the burden of the deferred underwriting commissions and taxes payable by us.	If the permitted purchases described above are made, there would be no impact to our remaining stockholders because the purchase price would not be paid by us.	The redemption of our public shares if we do not complete our initial business combination will reduce the book value per share for the shares held by our sponsor, who will be our only remaining stockholder after such redemptions.

Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	Terms of Our Offering	Terms Under a Rule 419 Offering
Escrow of offering proceeds	\$250,000,000 of the net proceeds of this offering and the sale of the private placement warrants will be deposited into a U.S.-based trust account at Bank of America, National Association, with Continental Stock Transfer & Trust Company, acting as trustee.	Approximately \$212,625,000 of the offering proceeds, representing the gross proceeds of this offering would be required to be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.
Investment of net proceeds	\$250,000,000 of the net proceeds of this offering and the sale of the private placement warrants held in trust will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations.	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States.
Receipt of interest on escrowed funds	Interest income (if any) on proceeds from the trust account to be paid to stockholders is reduced by (i) any taxes paid or payable and (ii) in the event of our liquidation for failure to complete our initial business combination within the allotted time, up to \$100,000 of net interest that may be released to us should we have no or insufficient working capital to fund the costs and expenses of our dissolution and liquidation.	Interest income on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds held in escrow were released to us in connection with our completion of a business combination.

[Table of Contents](#)

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Limitation on fair value or net assets of target business	Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the amount of deferred underwriting discounts held in trust and taxes payable by us on the income earned on the trust account) at the time of the agreement to enter into the initial business combination.	The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.
Trading of securities issued	<p>The units are expected to begin trading on or promptly after the date of this prospectus. The Class A common stock and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Barclays and BofA inform us of their decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. We will file the Current Report on Form 8-K promptly after the closing of this offering. If the over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, an additional Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the over-allotment option.</p> <p>The units will automatically separate into their component parts and will not be traded after completion of our initial business combination.</p>	No trading of the units or the underlying Class A common stock and warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.
Exercise of the warrants	The warrants cannot be exercised until the later of 30 days after the completion of our initial business combination or 12 months from the closing of this offering.	The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Election to remain an investor	<p>We will provide our public stockholders with the opportunity to redeem their public shares for cash at a per-share price equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the completion of our initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares, upon the completion of our initial business combination, subject to the limitations described herein. We may not be required by law to hold a stockholder vote. If we are not required by law and do not otherwise decide to hold a stockholder vote, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, we hold a stockholder vote, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock are voted by the stockholders at a stockholders meeting to approve the initial business combination, unless applicable law, our corporate governing documents or applicable stock exchange rules require a different vote, in which case we will complete our initial business combination only if such requisite vote is received. Additionally, each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction</p>	<p>A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company in writing, within a period of no less than 20 business days and no more than 45 business days from the effective date of a post-effective amendment to the company's registration statement, to decide if he, she or it elects to remain a stockholder of the company or require the return of his, her or its investment. If the company has not received the notification by the end of the 45th business day, funds and interest or dividends, if any, held in the trust or escrow account are automatically returned to the stockholder. Unless a sufficient number of investors elect to remain investors, all funds on deposit in the escrow account must be returned to all of the investors and none of the securities are issued.</p>

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Business combination deadline	<p>If we have not completed an initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.</p>	<p>If an acquisition has not been completed within 18 months after the effective date of the company's registration statement, funds held in the trust or escrow account are returned to investors.</p>
Release of funds	<p>Except for the withdrawal of interest income (if any) to pay our taxes, if any, none of the funds held in trust will be released from the trust account until the earliest of:</p> <ul style="list-style-type: none">(i) the completion of our initial business combination,(ii) the redemption of 100% of our public shares if we have not completed an initial business combination within 24 months from the closing of this offering, subject to applicable law, or	<p>The proceeds held in the escrow account are not released until the earlier of the completion of a business combination or the failure to effect a business combination within the allotted time.</p>

<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
(iii)	the redemption of our public shares properly submitted in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that (A) would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we have not completed an initial business combination within 24 months from the closing of this offering or (B) with respect to the rights of holders of our Class A common stock and any other provisions relating to the rights of holders of Class A common stock.

Competition

In identifying, evaluating and selecting a target business for our initial business combination, we may encounter intense competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, public companies and operating businesses seeking strategic acquisitions. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than us. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

Facilities

We currently maintain our executive offices at 321 North Clark Street, Suite 2440, Chicago, IL 60654. The cost for our use of this space is included in the \$20,000 per month fee we will pay to affiliates of our sponsor for office space, administrative and support services. We consider our current office space adequate for our current operations.

Employees

We currently have two executive officers. These individuals are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the business combination process we are in. We do not intend to have any full time employees prior to the completion of our initial business combination.

Periodic Reporting and Financial Information

We will register our units, Class A common stock and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports will contain financial statements audited and reported on by our independent registered public accountants.

We will provide stockholders with audited financial statements of the prospective target business as part of the proxy solicitation or tender offer materials, as applicable, sent to stockholders to assist them in assessing the target business. In all likelihood, these financial statements may be required to be prepared in accordance with, or reconciled to, GAAP, or IFRS, depending on the circumstances, and the historical financial statements may be required to be audited in accordance with the standards of the PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame. We cannot assure you that any particular target business identified by us as a potential acquisition candidate will have financial statements prepared in accordance with the requirements outlined above, or that the potential target business will be able to prepare its financial statements in accordance with the requirements outlined above. To the extent that these requirements cannot be met, we may not be able to acquire the proposed target business. While this may limit the pool of potential acquisition candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2021 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to have our internal control procedures audited. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Prior to the date of this prospectus, we will file a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Exchange Act. As a result, we will be subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the completion of our initial business combination.

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the Market Value of the shares of our Class A common stock that is held by non-affiliates equals or exceeds \$700.0 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

[Table of Contents](#)

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our common stock held by non-affiliates equals or exceeds \$250 million as of the end of that year’s second fiscal quarter, and (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of that year’s second fiscal quarter.

Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such, and we and the members of our management team have not been subject to any such proceeding in the 12 months preceding the date of this prospectus.

MANAGEMENT**Officers, Directors and Director Nominees**

Our officers, directors and director nominees are as follows:

Name	Age	Position
Theodore J. Brombach	57	Chairman of the Board
Patrick C. Eilers	54	Chief Executive Officer and Director
James P. Nygaard, Jr.	46	Chief Financial Officer
Paul Dabbar	53	Director Nominee
Paul Gaynor	55	Director Nominee
Colleen Sullivan	47	Director Nominee
Scott Widham	63	Director Nominee
Benjamin W. Atkins	34	Vice President
Jesse Peltan	24	Vice President

Theodore J. Brombach serves as our Chairman. Mr. Brombach is a founding partner of XMS Capital Partners, LLC and serves as the firm's Co-Managing Partner and has served in such role since 2006. He is also the Chief Executive Officer of XA Investments LLC, an alternative asset management firm he co-founded in 2016. Mr. Brombach is the President and Chief Executive Officer and a Trustee of XAI Octagon Floating Rate & Alternative Income Term Trust (NYSE: XFLT), a closed end fund investing in alternative credit investments, and has served in such role since 2017. He has over 30 years of investment banking experience in Chicago, New York and London. Prior to founding XMS Capital, Mr. Brombach was a Managing Director and co-head of Midwest Investment Banking at Morgan Stanley, which he joined in 1990. At XMS Capital, he has led numerous M&A and capital raising transactions across a number of industry sectors. Mr. Brombach is a director of RiverWood Bank. Mr. Brombach earned a Bachelor of Arts from the University of Notre Dame and a Master of Business Administration from the Kellogg Graduate School of Management at Northwestern University.

Mr. Brombach's qualifications to serve on our board of directors include his extensive executive, director and leadership experience, including over 30 years in investment banking experience.

Patrick C. Eilers serves as our Chief Executive Officer and is a member of our board of directors. Mr. Eilers is the founder and has served since 2019 as the Managing Partner of EPTP, a private equity firm focused on the energy & power transition, in particular its impact on the electrical grid, with an expertise in (i) renewable energy, (ii) energy storage, technology, equipment & services, and (iii) transitional energy infrastructure. Mr. Eilers has over 20 years of investment experience focused on the energy & power transition. Prior to founding EPTP, Mr. Eilers was a Managing Director on the BlackRock Infrastructure Platform, where he also served as an Investment Committee member for BlackRock's Global Renewable Power Fund, Global Energy & Power Infrastructure Fund, and Chaired the Energy & Power Private Equity Fund. Prior to joining BlackRock in 2016, he also worked at Madison Dearborn Partners overseeing the firm's energy, power, and chemicals practices for 10 years. Mr. Eilers earned a Bachelor of Science in Biology and Mechanical Engineering from the University of Notre Dame and a Master of Business Administration from the Kellogg School of Management at Northwestern University.

Mr. Eilers' qualifications to serve on our Board include his extensive executive, director and leadership experience in private equity and investment banking, including extensive knowledge relating to the power generation, power infrastructure, transmission, and battery storage industries.

James P. Nygaard, Jr. serves as our Chief Financial Officer. Mr. Nygaard is a Managing Director of XMS Capital Partners, LLC and is responsible for leading M&A execution activities at the firm. With 25 years of investment banking experience, he has completed several strategic transactions, financings, and corporate finance advisory assignments for a diverse range of clients across a variety of industry sectors. Prior to joining XMS Capital at the end of 2007, Mr. Nygaard spent 12 years in the Investment Banking Division of Morgan Stanley where he assumed various roles within the corporate finance, M&A and administrative practices of the firm. While at Morgan Stanley, Mr. Nygaard led coverage and strategic execution efforts for a number of Midwest-based companies, including 3M, Anheuser-Busch, ConAgra Brands, Ford Motor Company, and General Mills.

[Table of Contents](#)

Mr. Nygaard graduated *summa cum laude* from the University of Illinois at Urbana-Champaign with a Bachelor of Arts in Economics, where he was valedictorian of his department and received Bronze Tablet Honors, the university's highest academic distinction.

Paul Gaynor will become a member of our board of directors upon the closing of this offering. Mr. Gaynor is currently the Chief Executive Officer of Longroad Energy, a renewable energy company. Prior to co-founding Longroad Energy, Mr. Gaynor served as CEO of First Wind, which he founded in 2004. Mr. Gaynor has also held various roles within Singapore Power, PSG International, GE Capital, and GE Power Systems. Mr. Gaynor earned a Bachelor of Science in Mechanical Engineering from Worcester Polytechnic Institute and an MBA from University of Chicago.

Mr. Gaynor's qualifications to serve on our board of directors include his extensive executive and leadership experience in the power generation and power infrastructure industries.

Paul Dabbar will become a member of our board of directors upon the closing of this offering. Mr. Dabbar is currently the Chief Executive Officer of Bohr Quantum Technologies, a quantum communications company, and has served in such role since 2021. Prior to Bohr Quantum, Mr. Dabbar served as Under Secretary for Science at the U.S. Department of Energy from 2017 to 2021, managing the operations of, and investing capital at the seventeen U.S. National Laboratories, conducting research and development in energy, technology and the sciences. Mr. Dabbar was previously a Managing Director in investment banking at J.P. Morgan Chase & Co., in energy and mergers & acquisitions from 1996 to 2017. Mr. Dabbar was also previously a nuclear submarine officer in the U.S. Navy. Mr. Dabbar earned a Bachelor of Science from the U.S. Naval Academy and an MBA from Columbia University.

Mr. Dabbar's qualifications to serve on our board of directors include his extensive leadership experience in the communications and energy industry.

Colleen Sullivan will become a member of our board of directors upon the closing of this offering. Ms. Sullivan is Co-Founder and CEO of CMT Digital Holdings LLC and has been a partner with the broader CMT Group since 2013. Ms. Sullivan oversees CMT Digital's trading, investments, and regulatory initiatives in the crypto assets/blockchain technology space. Ms. Sullivan is also a Co-Founder and Managing Member of Sullivan Wolf Kailus LLC, a boutique law firm based in Chicago that specializes in hedge fund, private equity, venture capital, digital assets, and other alternative investment products. Ms. Sullivan previously practiced law in the Investment Funds and Derivatives group at Sidley Austin LLP and, at age 25, co-founded a company called iOptions Group LLC, which developed hedging and monetization strategies for holders of employee stock options. Ms. Sullivan currently serves on the Board of Directors of Silvergate Bank and on the Advisory Board of the Chamber of Digital Commerce. Ms. Sullivan earned a Bachelor of Science in Accounting from the University of St. Francis and a Juris Doctorate from DePaul University School of Law.

Ms. Sullivan's qualifications to serve on our board of directors include her extensive executive and leadership experience in the crypto asset and blockchain technology industries.

Scott Widham will become a member of our board of directors upon the closing of this offering. Mr. Widham brings over 30 years of broad-based management and operations experience in the telecommunications industry. Mr. Widham is currently President of Widham Capital, providing advisory services to strategic and financial institutions making investments in the telecom sector, and has served in that role since 2019. Previously, he served as President of Neverfail from 2018 to 2019, CEO of Alpheus Communications from 2011 to 2017 and, prior to Alpheus, as CEO of Cobridge Communications, Broadwing Communications, and Capital Cable. Mr. Widham also served as EVP of Corecomm and was a Director at MTV Networks. Mr. Widham earned a B.B.A. from the University of Texas at Austin.

Mr. Widham's qualifications to serve on our board of directors include his over 30 years of executive, financial and leadership experience in the telecommunications industry.

Benjamin W. Atkins serves on our management team as a Vice President. Mr. Atkins is a co-founder of HODL Ranch, which he co-founded in 2018, where he focuses on business development and capital origination activities. Mr. Atkins co-founded Skybox Datacenters in 2013 and is a co-founder and partner of Rugen Street Capital, which he also co-founded in 2013. Prior to joining HODL Ranch, Mr. Atkins served as an equity research analyst

[Table of Contents](#)

at Chilton Capital Management in Houston, Texas in 2012 as well as an investment analyst at Salient Partners in Houston, Texas from 2010 to 2011. Mr. Atkins earned a Bachelor of Business Administration in Finance from Texas A&M University.

Jesse Peltan serves on our management team as a Vice President. Mr. Peltan is the Chief Technology Officer and co-founder of HODL Ranch, and has served in such role since 2018. Mr. Peltan is also co-founder and Chief Technology Officer of Autonomous, which he co-founded in 2017, where he has designed and built multiple ASIC and GPU cryptocurrency compute clusters. Mr. Peltan leads technical research and development at HODL Ranch. He has developed solutions for operating blockchain datacenters in various climates in Texas and demand side management strategies to capitalize on the growth in intermittent renewable energy in ERCOT. Prior to leaving his senior year to co-found Autonomous, Mr. Peltan attended the University of Kentucky, where he was a quadruple major in Mathematics, Economics, Philosophy and Environmental Sustainability. Mr. Peltan has been recognized by Forbes 30 under 30 in Energy for his work in sustainable energy and Bitcoin mining.

Number and Terms of Office of Officers and Directors

Our board of directors will be divided into three classes, with only one class of directors being elected in each year, and with each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term. In accordance with the Nasdaq corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on the Nasdaq. The term of office of the first class of directors, consisting of Mr. Gaynor and Ms. Sullivan, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of Mr. Dabbar and Mr. Widham, will expire at our second annual meeting of the stockholders. The term of office of the third class of directors, consisting of Mr. Brombach and Mr. Eilers, will expire at our third annual meeting of stockholders. We may not hold an annual meeting of stockholders until after we complete our initial business combination.

Prior to the completion of an initial business combination, any vacancy on the board of directors may be filled by a nominee chosen by holders of a majority of our founder shares. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason.

Pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, our sponsor, upon completion of an initial business combination, will be entitled to nominate three individuals for election to our board of directors, as long as our sponsor holds any securities covered by the registration and stockholders rights agreement.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to nominate persons to the offices set forth in our amended and restated certificate of incorporation as it deems appropriate. Our amended and restated certificate of incorporation will provide that our officers may consist of one or more chairman of the board of directors, chief executive officer, president, chief financial officer, vice presidents, secretary, treasurer and such other offices as may be determined by the board of directors.

Director Independence

The Nasdaq listing standards require that a majority of our board of directors be independent within one year of our initial public offering. An “independent director” is defined generally as a person that, in the opinion of the company’s board of directors, has no material relationship with the listed company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the company). We expect to have three “independent directors” as defined in the Nasdaq rules and applicable SEC rules prior to completion of this offering. Our board of directors has determined that Mr. Dabbar, Mr. Gaynor, Mr. Widham and Ms. Sullivan are “independent directors” as defined in the Nasdaq listing standards and applicable SEC rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

Executive Officer and Director Compensation

None of our executive officers or directors have received any cash compensation for services rendered to us. Commencing on the date that our securities are first listed on the Nasdaq through the earlier of completion of our initial business combination and our liquidation, we will reimburse affiliates of our sponsor for office space and administrative support services provided to us in the amount of \$20,000 per month. Furthermore, in connection

[Table of Contents](#)

with our initial business combination, we may potentially make a cash payment to XMS Capital or its affiliates for any financial advisory, placement agency or other similar investment banking services that XMS Capital or its affiliates may provide to us in connection with our initial business combination, and may reimburse to XMS Capital or its affiliates for any out-of-pocket expenses incurred by it in connection with the performance of such services. In addition, our sponsor, executive officers and directors, or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, executive officers or directors, or our or their affiliates. Any such payments prior to an initial business combination will be made using funds held outside the trust account. Other than quarterly audit committee review of such reimbursements, we do not expect to have any additional controls in place governing our reimbursement payments to our directors and executive officers for their out-of-pocket expenses incurred in connection with our activities on our behalf in connection with identifying and completing an initial business combination. Other than these payments and reimbursements, no compensation of any kind, including finder's and consulting fees, will be paid by the company to our sponsor, executive officers and directors, or any of their respective affiliates, prior to completion of our initial business combination.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting or management fees from the combined company. All of these fees will be fully disclosed to stockholders, to the extent then known, in the proxy solicitation materials or tender offer materials furnished to our stockholders in connection with a proposed business combination. We have not established any limit on the amount of such fees that may be paid by the combined company to our directors or members of management. It is unlikely the amount of such compensation will be known at the time of the proposed business combination, because the directors of the post-combination business will be responsible for determining executive officer and director compensation. Any compensation to be paid to our executive officers will be determined, or recommended to the board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the completion of our initial business combination, although it is possible that some or all of our executive officers and directors may negotiate employment or consulting arrangements to remain with us after our initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management's motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the completion of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our executive officers and directors that provide for benefits upon termination of employment.

Committees of the Board of Directors

Upon the effectiveness of the registration statement of which this prospectus forms a part, our board of directors will have three standing committees: an audit committee, a compensation committee and a corporate governance and nominating committee. Subject to phase-in rules and a limited exception, the rules of the Nasdaq and Rule 10A of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors. Subject to phase-in rules and a limited exception, the rules of the Nasdaq require that the compensation committee of a listed company be comprised solely of independent directors.

Audit Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish an audit committee of the board of directors. Mr. Gaynor, Mr. Widham and Ms. Sullivan will serve as members of our audit committee. Our board of directors has determined that each of Mr. Gaynor, Mr. Widham and Ms. Sullivan are independent under the Nasdaq listing standards and applicable SEC rules. Mr. Gaynor will serve as the chairman of the audit committee. Each member of the audit committee is financially literate and our board of directors has determined that Mr. Gaynor qualifies as an "audit committee financial expert" as defined in applicable SEC rules.

The primary functions of the audit committee include:

- appointing, compensating and overseeing our independent registered public accounting firm;
- reviewing and approving the annual audit plan for the company;

Table of Contents

- overseeing the integrity of our financial statements and our compliance with legal and regulatory requirements;
- discussing the annual audited financial statements and unaudited quarterly financial statements with management and the independent registered public accounting firm;
- pre-approving all audit services and permitted non-audit services to be performed by our independent registered public accounting firm, including the fees and terms of the services to be performed;
- appointing or replacing the independent registered public accounting firm;
- monitoring our environmental sustainability and governance practices;
- establishing procedures for the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls or reports which raise material issues regarding our financial statements or accounting policies;
- discussing earnings press releases and financial information provided to analysts and rating agencies;
- discussing with management our policies and practices with respect to risk assessment and risk management;
- reviewing any material transaction between our Chief Financial Officer that has been approved in accordance with our Code of Ethics for our officers, and providing prior written approval of any material transaction between us and our Chief Executive Officer; and
- producing an annual report for inclusion in our proxy statement, in accordance with applicable rules and regulations.

The audit committee is a separately designated standing committee established in accordance with Section 3 (a)(58)(A) of the Exchange Act.

Compensation Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish a compensation committee of our board of directors. The members of our compensation committee will be Mr. Gaynor, Mr. Widham, and Ms. Sullivan, and Mr. Widham will serve as chairman of the compensation committee.

Under the Nasdaq listing standards and applicable SEC rules, we are required to have a compensation committee composed entirely of independent directors. Our board of directors has determined that each of Mr. Gaynor, Mr. Widham, and Ms. Sullivan are independent. We will adopt a compensation committee charter, which will detail the principal functions of the compensation committee, including:

- reviewing and approving corporate goals and objectives relevant to our Chief Executive Officer's compensation (if any), evaluating our Chief Executive Officer's performance in light of those goals and objectives, and setting our Chief Executive Officer's compensation level (if any) based on this evaluation;
- setting salaries and approving incentive compensation and equity awards, as well as compensation policies, for all other officers who file reports of their ownership, and changes in ownership, of the company's common stock under Section 16(a) of the Exchange Act (the "Section 16 Officers"), as designated by our board of directors;
- making recommendations to the board with respect to incentive compensation programs and equity-based plans that are subject to board approval;
- approving any employment or severance agreements with our Section 16 Officers;
- granting any awards under equity compensation plans and annual bonus plans to our Chief Executive Officer and the Section 16 Officers;
- approving the compensation of our directors; and

[Table of Contents](#)

- producing an annual report on executive compensation for inclusion in our proxy statement, in accordance with applicable rules and regulations.

The charter will also provide that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by the Nasdaq and the SEC.

Compensation Committee Interlocks and Insider Participation

None of our executive officers currently serves, and in the past year has not served, as a member of the compensation committee of any entity that has one or more executive officers serving on our board of directors.

Corporate Governance and Nominating Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish a corporate governance and nominating committee of our board of directors. The members of our corporate governance and nominating committee will be Mr. Gaynor, Mr. Widham, and Ms. Sullivan, and Ms. Sullivan will serve as chairman of the corporate governance and nominating committee. Under the Nasdaq listing standards, we are required to have a corporate governance and nominating committee composed entirely of independent directors. Our board of directors has determined that each of Mr. Gaynor, Mr. Widham, and Ms. Sullivan are independent.

The primary function of the corporate governance and nominating committee include:

- identifying individuals qualified to become members of the board of directors and making recommendations to the board of directors regarding nominees for election;
- reviewing the independence of each director and making a recommendation to the board of directors with respect to each director's independence;
- developing and recommending to the board of directors the corporate governance principles applicable to us and reviewing our corporate governance guidelines at least annually;
- making recommendations to the board of directors with respect to the membership of the audit, compensation and corporate governance and nominating committees;
- overseeing the evaluation of the performance of the board of directors and its committees on a continuing basis, including an annual self-evaluation of the performance of the corporate governance and nominating committee;
- considering the adequacy of our governance structures and policies, including as they relate to our environmental sustainability and governance practices;
- considering director nominees recommended by stockholders; and
- reviewing our overall corporate governance and reporting to the board of directors on its findings and any recommendations.

Guidelines for Selecting Director Nominees

The guidelines for selecting nominees, which will be specified by a charter to be adopted by us, generally provide that persons to be nominated:

- should possess personal qualities and characteristics, accomplishments and reputation in the business community;
- should have current knowledge and contacts in the communities in which we do business and in our industry or other industries relevant to our business;

Table of Contents

- should have the ability and willingness to commit adequate time to the board of directors and committee matters;
- should demonstrate ability and willingness to commit adequate time to the board of directors and committee matters;
- should possess the fit of the individual's skills and personality with those of other directors and potential directors in building a board of directors that is effective, collegial and responsive to our needs; and
- should demonstrate diversity of viewpoints, background, experience, and other demographics, and all aspects of diversity in order to enable the board to perform its duties and responsibilities effectively, including candidates with a diversity of age, gender, nationality, race, ethnicity, and sexual orientation.

Each year in connection with the nomination of candidates for election to the board of directors, the corporate governance and nominating committee will evaluate the background of each candidate, including candidates that may be submitted by our stockholders.

Code of Ethics

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will have adopted a Code of Ethics applicable to our directors, officers and employees. We will file a copy of our Code of Ethics and our audit committee charter as exhibits to the registration statement of which this prospectus is a part. You will be able to review these documents by accessing our public filings at the SEC's web site at www.sec.gov. In addition, a copy of the Code of Ethics will be provided without charge upon request from us. We intend to disclose any amendments to or waivers of certain provisions of our Code of Ethics in a Current Report on Form 8-K. See the section of this prospectus entitled "Where You Can Find Additional Information."

Conflicts of Interest

In general, officers and directors of a corporation incorporated under the laws of the State of Delaware are required to present business opportunities to a corporation if:

- the corporation could financially undertake the opportunity;
- the opportunity is within the corporation's line of business; and
- it would not be fair to our company and its stockholders for the opportunity not to be brought to the attention of the corporation.

Certain of our officers and directors presently have, and any of them in the future may have additional, fiduciary or contractual obligations to other entities, including entities that are affiliates of our sponsor, pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if our sponsor, its affiliates or our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity

[Table of Contents](#)

to such entity, subject to their fiduciary duties under Delaware law. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our initial business combination.

Below is a table summarizing the entities to which our executive officers and directors currently have fiduciary duties, contractual obligations or other material management relationships:

Individual	Entity	Entity's Business	Affiliation
Theodore J. Brombach	XMS Capital Partners, LLC	Investment Banking	Founder/Partner
	XA Investments LLC	Financial Services	Chief Executive Officer
	XAI Octagon Floating Rate & Alternative Income Term Trust	Financial Services	President, Chief Executive Officer and Trustee
	RiverWood Bank	Banking	Director
Patrick C. Eilers	Energy & Power Transition Partners, LLC	Private Equity	Managing Partner
James P. Nygaard, Jr.	XMS Capital Partners, LLC	Investment Banking	Managing Director
Paul Dabbar	Bohr Quantum Technologies	Communications	Chief Executive Officer
Paul Gaynor	Longroad Energy	Energy	Chief Executive Officer
Scott Widham	Widham Capital	Investment Management	President
Colleen Sullivan	CMT Digital Holdings LLC	Financial Services	Co-Founder/Chief Executive Officer
	CMT Group	Financial Services	Partner
	Sullivan Wolf Kailus LLC	Legal	Co-Founder/Managing Member
	iOptions Group LLC	Financial Services	Founder
	Silvergate Bank	Banking	Director
	Chamber of Digital Commerce	Financial Services	Advisory Board Member
Benjamin W. Atkins	HODL Ranch	Datacenter Development and Bitcoin Mining	Founder
	Rugen Street Capital	Investment Management	Founder
Jesse Peltan	HODL Ranch	Datacenter Development and Bitcoin Mining	Chief Technology Officer
	Autonomous, LLC	Energy and Bitcoin Mining	Chief Technology Officer

Potential investors should also be aware of the following other potential conflicts of interest:

- Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our executive officers and directors is engaged in several other business endeavors for which he may be entitled to substantial compensation, and our executive officers and directors are not obligated to contribute any specific number of hours per week to our affairs.
- Our sponsor subscribed for founder shares prior to the date of this prospectus and will purchase private placement warrants in a transaction that will close simultaneously with the closing of this offering.
- Our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with (i) the completion of our initial

business combination and (ii) a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we have not completed an initial business combination within 24 months from the closing of this offering. Additionally, our initial stockholders and the anchor investors have agreed to waive their rights to liquidating distributions from the trust account with respect to its founder shares if we do not complete our initial business combination within the prescribed time frame. If we do not complete our initial business combination within the prescribed time frame, the private placement warrants will expire worthless. Except as described herein, our initial stockholders and the anchor investors have agreed not to transfer, assign or sell any of their founder shares until the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to completion of our initial business combination, (x) the date on which the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their common stock for cash, securities or other property. The private placement warrants will not be transferable until 30 days following the completion of our initial business combination. Because each of our executive officers and directors will own common stock or warrants directly or indirectly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.

- Our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors is included by a target business as a condition to any agreement with respect to our initial business combination.

We are not prohibited from pursuing an initial business combination with a business combination target that is affiliated with our sponsor, officers or directors or making the acquisition through a joint venture or other form of shared ownership with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a business combination target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm or from an independent accounting firm, that such initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context. Furthermore, in no event will our sponsor or any of our existing officers or directors, or any of their respective affiliates, be paid by the company any finder's fee, consulting fee or other compensation prior to, or for any services they render in order to effectuate, the completion of our initial business combination. Further, commencing on the date our securities are first listed on the Nasdaq, we will also reimburse affiliates of our sponsor for office space and administrative support services provided to us in the amount of \$20,000 per month. In addition, in connection with our initial business combination, we may potentially make a cash payment to XMS Capital or its affiliates for any financial advisory, placement agency or other similar investment banking services that XMS Capital or its affiliates may provide to us in connection with our initial business combination, and may reimburse to XMS Capital or its affiliates for any out-of-pocket expenses incurred by it in connection with the performance of such services.

We cannot assure you that any of the above-mentioned conflicts will be resolved in our favor.

In the event that we submit our initial business combination to our public stockholders for a vote, our sponsor, directors and each member of our management team have agreed to vote their founder shares, and our sponsor, directors and each member of our management team have agreed to vote any shares purchased during or after the offering, in favor of our initial business combination.

Limitation on Liability and Indemnification of Officers and Directors

Our amended and restated certificate of incorporation will provide that our officers and directors will be indemnified by us to the fullest extent authorized by Delaware law, as it now exists or may in the future be amended. In addition, our amended and restated certificate of incorporation will provide that our directors will not be personally liable for monetary damages to us or our stockholders for breaches of their fiduciary duty as directors,

[Table of Contents](#)

unless they violated their duty of loyalty to us or our stockholders, acted in bad faith, knowingly or intentionally violated the law, authorized unlawful payments of dividends, unlawful stock purchases or unlawful redemptions, or derived an improper personal benefit from their actions as directors.

We will enter into agreements with our officers and directors to provide contractual indemnification in addition to the indemnification provided for in our amended and restated certificate of incorporation. Our amended and restated bylaws will also permit us to secure insurance on behalf of any officer, director or employee for any liability arising out of his or her actions, regardless of whether Delaware law would permit such indemnification.

We expect to purchase a policy of directors' and officers' liability insurance that insures our officers and directors against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify our officers and directors. Our officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the trust account, and have agreed to waive any right, title, interest or claim of any kind they may have in the future as a result of, or arising out of, any services provided to us and will not seek recourse against the trust account for any reason whatsoever (except to the extent they are entitled to funds from the trust account due to their ownership of public shares). Accordingly, any indemnification provided will only be able to be satisfied by us if (i) we have sufficient funds outside of the trust account or (ii) we complete an initial business combination.

Our indemnification obligations may discourage stockholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

We believe that these provisions, the insurance and the indemnity agreements are necessary to attract and retain talented and experienced officers and directors.

PRINCIPAL STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our common stock as of the date of this prospectus, and as adjusted to reflect the sale of our Class A common stock included in the units offered by this prospectus, and assuming no purchase of units in this offering, by:

- each person known by us to be the beneficial owner of more than 5% of our outstanding shares of common stock;
- each of our executive officers, directors and director nominees that beneficially owns shares of common stock; and
- all our executive officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all of our common stock beneficially owned by them. The following table does not reflect record or beneficial ownership of the private placement warrants as these warrants are not exercisable within 60 days of the date of this prospectus.

In December 2020, our sponsor paid an aggregate of \$25,000, or approximately \$0.003 per share, to cover certain of our offering costs in consideration of 7,187,500 shares of Class B common stock. In January 2021, our sponsor agreed to sell to the anchor investors 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) and the anchor investors agreed to purchase from our sponsor on the date of the initial business combination an aggregate of 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) for an aggregate purchase price of approximately \$3,913 (or \$4,500 if the underwriters' over-allotment option is exercised in full), or approximately \$0.003 per share. Also in January 2021, our sponsor transferred 30,000 Class B ordinary shares to each of our independent directors. These 120,000 shares will not be subject to forfeiture in the event the underwriters' over-allotment option is not exercised. Prior to the initial investment in the company of \$25,000 by our sponsor, the company had no assets, tangible or intangible. The per share price of the founder shares was determined by dividing the amount contributed to the company by the number of founder shares issued. The post-offering percentages in the following table assume that the underwriters do not exercise their over-allotment option and that there are 31,250,000 shares of common stock issued and outstanding after this offering.

Name and Address of Beneficial Owner ⁽¹⁾	Number of Shares Beneficially Owned ⁽²⁾	Approximate Percentage of Outstanding Common stock	
		Before Offering	After Offering
XPDI Sponsor LLC ⁽³⁾	7,067,500	98.3%	19.6%

Scott Widham	30,000	*	*
All officers, directors and director nominees as a group (9 individuals)	7,187,500	100%	19.6%

* Less than one percent.

(1) Unless otherwise noted, the business address of each of our stockholders is 321 North Clark Street Suite 2440 Chicago, IL 60654.

(2) Interests shown consist solely of founder shares, classified as Class B common stock. Such shares will automatically convert into Class A common stock at the time of our initial business combination as described in the section entitled "Description of Securities." Includes up to an aggregate of 937,500 founder shares that are subject to forfeiture depending on the extent to which the underwriters' over-allotment option is exercised.

[Table of Contents](#)

- (3) XPDI Sponsor LLC is the record holder of the shares reported herein. XPDI Sponsor LLC is controlled by its managing members, Messrs. Brombach and Eilers. Accordingly, all of the shares held by our sponsor may be deemed to be beneficially held by Messrs. Brombach and Eilers. Each such person disclaims beneficial ownership of these securities, except to the extent, if any, of his pecuniary interest therein.

Immediately after this offering, our initial stockholders (including our sponsor) will beneficially own 20% of the then issued and outstanding common stock (assuming they do not purchase any units in this offering) and will have the right to appoint all of our directors prior to our initial business combination. Holders of our public shares will not have the right to appoint any directors to our board of directors prior to our initial business combination. Because of this ownership block, our initial stockholders (including our sponsor) may be able to effectively influence the outcome of all other matters requiring approval by our stockholders, including amendments to our amended and restated certificate of incorporation and approval of significant corporate transactions including our initial business combination.

Our anchor investors have expressed to us an interest to purchase an aggregate of 2,000,000 units (or 2,300,000 units if the underwriters' over-allotment option is exercised in full) in this offering and we have agreed to direct the underwriters to sell such units to our anchor investors. There will be no underwriting discount or commission paid on any units the anchor investors may purchase in this offering. Because these expressions of interest are not binding agreements or commitments to purchase, our anchor investors may determine to purchase more, fewer or no units in this offering or the underwriters may determine to sell more, fewer or no units to our anchor investors. Further, the anchor investors have agreed with us that, if they do not own an aggregate number of public shares at least equal to the Anchor Threshold at the time of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, the number of founder shares to be purchased by such anchor investors from our sponsor shall be reduced pro rata by a fraction, the numerator of which shall equal the Anchor Threshold less the number of public shares held by such anchor investors after giving effect to any redemptions of the public shares by such anchor investors and their affiliates, and the denominator of which shall equal the Anchor Threshold; provided, however, in no event shall such pro rata reduction in the number of founder shares to be purchased by the anchor investors reduce the number of founder shares to be purchased by more than 75%. By way of example and without limiting the foregoing, in the event the anchor investors collectively own a number of shares equal to 50% or 0%, respectively, of the Anchor Threshold (after giving effect to any redemptions of their public shares), the number of founder shares that the anchor investors may purchase shall be reduced by 50% or 75%, respectively.

The anchor investors have also agreed that if, in connection with an initial business combination, the sponsor decides (i) to forfeit, transfer to a third person, exchange, subject to transfer, vesting or conditional forfeiture provisions or amend the terms of all or any portion of the founder shares or (ii) to enter into any other arrangements with respect to the founder shares, including voting in favor of any amendment to the terms of the founder shares (each, a "Change in Investment"), such Change in Investment shall apply pro rata to the anchor investor and the sponsor based on the relative number of founder shares to be purchased or held, as applicable, by each upon consummation of the initial business combination; provided, however that in no event will such Change in Investment reduce the founder shares to be purchased by the anchor investors by more than 75%. By way of example and without limiting the foregoing, in the event our sponsor forfeits or transfers 50% or 100%, respectively, of its founder shares as part of our initial business combination, the number of founder shares to be purchased by the anchor investors shall be reduced by 50% or 75%, respectively.

There can be no assurance that our anchor investors will acquire any units in this offering or will retain any units upon the consummation of our initial business combination. In the event that such anchor investors purchase units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that our anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

Our anchor investors will have the same rights to the funds held in the trust account with respect to the common stock underlying the units they may purchase in this offering as the rights afforded to our public stockholders.

[Table of Contents](#)

Our initial stockholders have agreed (a) to vote any founder shares owned by them in favor of any proposed business combination and (b) not to redeem any founder shares in connection with a stockholder vote to approve a proposed initial business combination.

Our sponsor is deemed to be our “promoter” as such term is defined under the federal securities laws.

Restrictions on Transfers of Founder Shares and Private Placement Warrants

The founder shares, private placement warrants and any shares of our Class A common stock issued upon conversion or exercise thereof are each subject to transfer restrictions pursuant to lock-up provisions in the agreements entered into by our sponsor, directors, each member of our management team and anchor investors. Our initial stockholders and the anchor investors have agreed not to transfer, assign or sell any of their founder shares until the earlier of (a) one year after the completion of our initial business combination and (b) subsequent to completion of our initial business combination, (x) the date on which the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction after our initial business combination that results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property. The private placement warrants and the respective Class A common stock underlying such warrants are not transferable or salable until 30 days after the completion of our initial business combination. The foregoing restrictions are not applicable to transfers (a) to our employees, officers or directors, any affiliates or family members of any of our officers or directors, any employees, officers, directors or members of the initial stockholders (including our sponsor (or former sponsor if such transfer occurs after a dissolution of our sponsor)), the anchor investors or their affiliates, any affiliates of our initial stockholders (including our sponsor (or former sponsor if such transfer occurs after a dissolution of our sponsor)), the anchor investors, or any employees of such affiliates; (b) in the case of an individual, by gift to a member of one of the individual’s immediate family or to a trust, the beneficiary of which is a member of the individual’s immediate family, an affiliate of such person or to a charitable organization; (c) in the case of an individual, by virtue of laws of descent and distribution upon death of the individual; (d) in the case of an individual, pursuant to a qualified domestic relations order; (e) by private sales or transfers made in connection with the completion of a business combination at prices no greater than the price at which the founder shares, private placement warrants or Class A common stock, as applicable, were originally purchased; (f) by pro rata distributions from our sponsor to its members, partners or stockholders pursuant to our sponsor’s organizational documents; (g) by virtue of the laws of the State of Delaware or of our sponsor’s organizational documents upon liquidation or dissolution of our sponsor; (h) to the company for no value for cancellation in connection with the completion of our initial business combination; (i) in the event of our completion of a liquidation, merger, capital stock exchange, reorganization or other similar transaction which results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property subsequent to our completion of our initial business combination; or (j) in the case of the anchor investors, to such investors’ affiliates, or any investment fund or other entity controlled or managed by such investors, or to any investment manager or investment advisor of the anchor investors or an affiliate of any such investment manager or investment advisor; provided, however, that in the case of clauses (a) through (g) these permitted transferees must enter into a written agreement agreeing to be bound by these transfer restrictions and the other restrictions contained in the letter agreements and by the same agreements entered into by our initial stockholders and the anchor investors with respect to such securities (including provisions relating, as applicable, to voting, the trust account and liquidation distributions described elsewhere in this prospectus).

Expressions of Interest

Our anchor investors have expressed to us an interest to purchase an aggregate of 2,000,000 units (or 2,300,000 units if the underwriters’ over-allotment option is exercised in full) in this offering and we have agreed to direct the underwriters to sell such units to our anchor investors. There will be no underwriting discount or commission paid on any units the anchor investors may purchase in this offering. Because these expressions of interest are not binding agreements or commitments to purchase, our anchor investors may determine to purchase more, fewer or no units in this offering or the underwriters may determine to sell more, fewer or no units to our anchor investors. Further, the anchor investors have agreed with us that, if they do not own an aggregate number of public shares at least equal to the Anchor Threshold at the time of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, the number of founder shares to be

[Table of Contents](#)

purchased by such anchor investors from our sponsor shall be reduced pro rata by a fraction, the numerator of which shall equal the Anchor Threshold less the number of public shares held by such anchor investors after giving effect to any redemptions of the public shares by such anchor investors and their affiliates, and the denominator of which shall equal the Anchor Threshold; provided, however, in no event shall such pro rata reduction in the number of founder shares to be purchased by the anchor investors reduce the number of founder shares to be purchased by more than 75%. By way of example and without limiting the foregoing, in the event the anchor investors collectively own a number of shares equal to 50% or 0%, respectively, of the Anchor Threshold (after giving effect to any redemptions of their public shares), the number of founder shares that the anchor investors may purchase shall be reduced by 50% or 75%, respectively.

The anchor investors have also agreed that if, in connection with an initial business combination, the sponsor decides (i) to forfeit, transfer to a third person, exchange, subject to transfer, vesting or conditional forfeiture provisions or amend the terms of all or any portion of the founder shares or (ii) to enter into any other arrangements with respect to the founder shares, including voting in favor of any amendment to the terms of the founder shares (each, a "Change in Investment"), such Change in Investment shall apply pro rata to the anchor investor and the sponsor based on the relative number of founder shares to be purchased or held, as applicable, by each upon consummation of the initial business combination; provided, however that in no event will such Change in Investment reduce the founder shares to be purchased by the anchor investors by more than 75%. By way of example and without limiting the foregoing, in the event our sponsor forfeits or transfers 50% or 100%, respectively, of its founder shares as part of our initial business combination, the number of founder shares to be purchased by the anchor investors shall be reduced by 50% or 75%, respectively.

There can be no assurance that our anchor investors will acquire any units in this offering or will retain any units upon the consummation of our initial business combination. In the event that such anchor investors purchase units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that our anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

Our anchor investors will have the same rights to the funds held in the trust account with respect to the common stock underlying the units they may purchase in this offering as the rights afforded to our public stockholders.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

In December 2020, our sponsor paid an aggregate of \$25,000, or approximately \$0.003 per share, to cover certain of our offering costs in consideration of 7,187,500 shares of Class B common stock, par value \$0.0001. In January 2021, our sponsor agreed to sell to the anchor investors 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) and the anchor investors agreed to purchase from our sponsor on the date of the initial business combination an aggregate of 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) for an aggregate purchase price of approximately \$3,913 (or \$4,500 if the underwriters' over-allotment option is exercised in full), or approximately \$0.003 per share. Also in January 2021, our sponsor transferred 30,000 Class B ordinary shares to each of our independent directors. These 120,000 shares will not be subject to forfeiture in the event the underwriters' over-allotment option is not exercised. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the outstanding shares upon completion of this offering. If we further increase or decrease the size of the offering, we will effect a stock capitalization or a share surrender or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the completion of the offering in such amount as to maintain the ownership of our sponsor (and its permitted transferees, if any) at 20% of the issued and outstanding shares upon the completion of this offering. Up to of 937,500 founder shares are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised. The founder shares (including the Class A common stock issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder.

Our sponsor and the anchor investors have committed, pursuant to a written agreement, to purchase an aggregate of 5,000,000 private placement warrants (or 5,500,000 private placement warrants if the over-allotment option is exercised in full) for a purchase price of \$1.50 per whole warrant in a private placement that will occur simultaneously with the closing of this offering. Among the private placement warrants, 4,000,000 private placement warrants (or 4,400,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be purchased by our sponsor and an aggregate of 1,000,000 private placement warrants (or 1,100,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be purchased by the anchor investors. As such, our sponsor's interest in this transaction is valued at between approximately \$7,500,000 and \$8,250,000, depending on the number of private placement warrants purchased. Each private placement warrant entitles the holder to purchase one share of our Class A common stock at \$11.50 per share. The private placement warrants (including the Class A common stock issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder. The anchor investors have also agreed that if, in connection with an initial business combination, the sponsor decides (i) to forfeit, transfer to a third person, exchange, subject to transfer, vesting or conditional forfeiture provisions or amend the terms of all or any portion of the founder shares or the private placement warrants or (ii) to enter into any other arrangements with respect to the founder shares or the private placement warrants, including voting in favor of any amendment to the terms of the founder shares or the private placement warrants (each, a "Change in Investment"), such Change in Investment shall apply pro rata to the anchor investor and the sponsor based on the relative number of founder shares or private placement warrants to be held by each upon consummation of the initial business combination; provided, however that in no event will such Change in Investment apply to more than 75% of the founder shares to be purchased by the anchor investors (but for the avoidance of doubt may apply to up to 100% of the private placement warrants to be purchased by the anchor investors).

As more fully discussed in the section of this prospectus entitled "Management — Conflicts of Interest," if any of our sponsor or its affiliates, our officers or directors becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. Our officers and directors currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us.

We currently maintain our executive offices at 321 North Clark Street Suite 2440 Chicago, IL 60654. The cost for our use of this space is included in the \$20,000 per month fee we will pay to affiliates of our sponsor for office space and administrative support services, commencing on the date that our securities are first listed on the Nasdaq. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

[Table of Contents](#)

In connection with our initial business combination, we may potentially make a cash payment to XMS Capital or its affiliates for any financial advisory, placement agency or other similar investment banking services that XMS Capital or its affiliates may provide to us in connection with our initial business combination, and may reimburse to XMS Capital or its affiliates for any out-of-pocket expenses incurred by it in connection with the performance of such services.

Except as otherwise disclosed in this prospectus, no compensation of any kind, including finder's and consulting fees, will be paid to our sponsor, officers and directors, or any of their respective affiliates, for services rendered prior to or in connection with the completion of an initial business combination. However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Our anchor investors have expressed to us an interest to purchase an aggregate of 2,000,000 units (or 2,300,000 units if the underwriters' over-allotment option is exercised in full) in this offering and we have agreed to direct the underwriters to sell such units to our anchor investors. There will be no underwriting discount or commission paid on any units the anchor investors may purchase in this offering. Because these expressions of interest are not binding agreements or commitments to purchase, our anchor investors may determine to purchase more, fewer or no units in this offering or the underwriters may determine to sell more, fewer or no units to our anchor investors. Further, the anchor investors have agreed with us that, if they do not own an aggregate number of public shares at least equal to the Anchor Threshold at the time of any stockholder vote with respect to an initial business combination or the business day immediately prior to the consummation of our initial business combination, the number of founder shares to be purchased by such anchor investors from our sponsor shall be reduced pro rata by a fraction, the numerator of which shall equal the Anchor Threshold less the number of public shares held by such anchor investors after giving effect to any redemptions of the public shares by such anchor investors and their affiliates, and the denominator of which shall equal the Anchor Threshold; provided, however, in no event shall such pro rata reduction in the number of founder shares to be purchased by the anchor investors reduce the number of founder shares to be purchased by more than 75%. By way of example and without limiting the foregoing, in the event the anchor investors collectively own a number of shares equal to 50% or 0%, respectively, of the Anchor Threshold (after giving effect to any redemptions of their public shares), the number of founder shares that the anchor investors may purchase shall be reduced by 50% or 75%, respectively.

The anchor investors have also agreed that if, in connection with an initial business combination, the sponsor decides (i) to forfeit, transfer to a third person, exchange, subject to transfer, vesting or conditional forfeiture provisions or amend the terms of all or any portion of the founder shares or (ii) to enter into any other arrangements with respect to the founder shares, including voting in favor of any amendment to the terms of the founder shares (each, a "Change in Investment"), such Change in Investment shall apply pro rata to the anchor investor and the sponsor based on the relative number of founder shares to be purchased or held, as applicable, by each upon consummation of the initial business combination; provided, however that in no event will such Change in Investment reduce the founder shares to be purchased by the anchor investors by more than 75%. By way of example and without limiting the foregoing, in the event our sponsor forfeits or transfers 50% or 100%, respectively, of its founder shares as part of our initial business combination, the number of founder shares to be purchased by the anchor investors shall be reduced by 50% or 75%, respectively.

There can be no assurance that our anchor investors will acquire any units in this offering or will retain any units upon the consummation of our initial business combination. In the event that such anchor investors purchase units (either in this offering or after) and vote them in favor of our initial business combination, it is possible that no votes from other public stockholders would be required to approve our initial business combination, depending on the number of shares that are present at the meeting to approve such transaction. As a result of the founder shares and private placement warrants that our anchor investors may hold (directly or indirectly), they may have different interests with respect to a vote on an initial business combination than other public stockholders.

[Table of Contents](#)

Our anchor investors will have the same rights to the funds held in the trust account with respect to the common stock underlying the units they may purchase in this offering as the rights afforded to our public stockholders.

Prior to the closing of this offering, a portion of the offering expenses will be paid from the proceeds of loans from our sponsor. These funds will be reimbursed up to \$300,000 as described in this prospectus. These funds will be reimbursed upon the earlier of (i) closing of this offering, or (ii) June 30, 2021 out of the \$1,500,000 of offering proceeds that has been allocated to the payment of offering expenses.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete an initial business combination, we would repay such loaned amounts. In the event that the initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our stockholders, to the extent then known, in the tender offer or proxy solicitation materials, as applicable, furnished to our stockholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a stockholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We will enter into a registration and stockholders rights agreement pursuant to which our initial stockholders and the anchor investors will be entitled to certain registration rights with respect to the private placement warrants, the warrants issuable upon conversion of working capital loans (if any) and the shares of our Class A common stock issuable upon exercise of the foregoing and upon conversion of the founder shares and, upon completion of our initial business combination, to nominate three individuals for election to our board of directors, as long as our initial stockholders and the anchor investors hold any securities covered by the registration and stockholder rights agreement, which is described under the section of this prospectus entitled “Description of Securities — Registration and Stockholder Rights.”

Policy for Approval of Related Party Transactions

The audit committee of our board of directors will adopt a charter, providing for the review, approval and/or ratification of “related party transactions,” which are those transactions required to be disclosed pursuant to Item 404 of Regulation S-K as promulgated by the SEC, by the audit committee. At its meetings, the audit committee shall be provided with the details of each new, existing or proposed related party transaction, including the terms of the transaction, any contractual restrictions that the company has already committed to, the business purpose of the transaction and the benefits of the transaction to the company and to the relevant related party. Any member of the committee who has an interest in the related party transaction under review by the committee shall abstain from voting on the approval of the related party transaction, but may, if so requested by the chairman of the committee, participate in some or all of the committee’s discussions of the related party transaction. Upon completion of its review of the related party transaction, the committee may determine to permit or to prohibit the related party transaction.

DESCRIPTION OF SECURITIES

We are a Delaware corporation and our affairs are governed by our amended and restated certificate of incorporation and the DGCL. Pursuant to our amended and restated certificate of incorporation we will be authorized to issue 500,000,000 shares of our Class A common stock and 50,000,000 shares of our Class B common stock, as well as 1,000,000 shares of preferred stock, \$0.0001 par value each. The following description summarizes certain terms of our capital stock as set out more particularly in our amended and restated certificate of incorporation. Because it is only a summary, it may not contain all the information that is important to you.

Units

Each unit sold in this offering has an offering price of \$10.00 and consists of one share of our Class A common stock and one-third of one warrant. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of the shares of the company's Class A common stock. This means only a whole warrant may be exercised at any given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.

The Class A common stock and warrants comprising the units are expected to begin separate trading on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Barclays and BofA informs us of their decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of our Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into Class A common stock and warrants.

In no event will the Class A common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds of this offering. We will file a Current Report on Form 8-K which includes this audited balance sheet upon the completion of this offering. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

Additionally, the units will automatically separate into their component parts and will not be traded after completion of our initial business combination.

Common Stock

Prior to the date of this prospectus, there were 7,187,500 shares of our Class B common stock issued and outstanding, all of which were held of record by our initial stockholders (including our sponsor), so that our initial stockholders (including our sponsor) will own 20% of our issued and outstanding shares after this offering (assuming our initial stockholders do not purchase any units in this offering). Upon the closing of this offering, 31,250,000 of our shares of common stock will be outstanding (assuming no exercise of the underwriters' over-allotment option) including:

- 25,000,000 shares of our Class A common stock underlying the units issued as part of this offering; and
- 6,250,000 shares of our Class B common stock held by our initial stockholders (including our sponsor).

If we increase or decrease the size of this offering, we will effect a stock capitalization or stock compulsory redemption or redemption or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the completion of this offering in such amount as to maintain the ownership of our initial stockholders (including our sponsor) (and their permitted transferees, if any) at 20% of our issued and outstanding common stock upon the completion of this offering.

[Table of Contents](#)

Stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Holders of our Class A common stock and holders of our Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders except as required by law. Unless specified in our amended and restated certificate of incorporation, or as required by applicable provisions of the DGCL or applicable stock exchange rules, the affirmative vote of a majority of our shares of common stock that are voted is required to approve any such matter voted on by our stockholders. Our board of directors is divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the shares voted for the election of directors can elect all of the directors.

Our stockholders are entitled to receive ratable dividends when, as and if declared by the board of directors out of funds legally available therefor. Prior to our initial business combination, only holders of our founder shares will have the right to vote on the appointment of our directors. Holders of our public shares will not be entitled to vote on the appointment of our directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason.

Because our amended and restated certificate of incorporation authorizes the issuance of up to 500,000,000 shares of our Class A common stock, if we were to enter into a business combination, we may (depending on the terms of such a business combination) be required to increase the number of shares of our Class A common stock which we will be authorized to issue at the same time as our stockholders vote on the business combination to the extent we seek stockholder approval in connection with our initial business combination.

Our board of directors is divided into three classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term. In accordance with the Nasdaq corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on the Nasdaq. Under Section 211(b) of the DGCL, we will, however, be required to hold annual meetings of stockholders for the purpose of electing directors in accordance with our amended and restated bylaws, unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the completion of an initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL. Prior to the completion of an initial business combination, any vacancy on the board of directors may be filled by a nominee chosen by holders of a majority of our founder shares. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason.

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the completion of our initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. The redemption rights will include the requirement that a beneficial owner must identify itself in order to validly redeem its shares. Our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with (i) the completion of our initial business combination and (ii) a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we have not completed an initial business combination within 24 months from the closing of this offering. Unlike many blank check companies that hold stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of such initial business combinations even when a vote is not required by law, if a stockholder vote is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our

[Table of Contents](#)

amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated certificate of incorporation require these tender offer documents to contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock are voted by the stockholders at a stockholders meeting to approve our initial business combination, unless applicable law, our corporate governing documents or applicable stock exchange rules require a different vote, in which case we will complete our initial business combination only if such requisite vote is received. However, the participation of our sponsor, officers, directors, advisors or their affiliates in privately-negotiated transactions (as described in this prospectus), if any, could result in the approval of our initial business combination even if a majority of our public stockholders vote, or indicate their intention to vote, against such initial business combination. For purposes of seeking approval of the majority of our outstanding common stock, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to Excess Shares. However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our stockholders' inability to redeem the Excess Shares will reduce their influence over our ability to complete our initial business combination, and such stockholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such stockholders will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And, as a result, such stockholders will continue to hold that number of shares exceeding 15% and, in order to dispose such shares would be required to sell their shares in open market transactions, potentially at a loss.

If we seek stockholder approval in connection with our initial business combination, pursuant to the terms of a letter agreement entered into with us, our sponsor, directors and each member of our management team have agreed to vote their founder shares and any public shares purchased during or after this offering, in favor of our initial business combination. As a result, assuming the anchor investors vote in favor of our initial business combination, in addition to our initial stockholders' and anchor investors' founder shares, we would need 9,375,001, or 37.5%, of the 25,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised). The other members of our management team have entered into a letter agreement similar to the one entered into by our sponsor with respect to any public shares acquired by them in or after this offering. Additionally, each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction.

Pursuant to our amended and restated certificate of incorporation, if we have not completed an initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but no more than ten business days thereafter subject to lawfully available funds therefor, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law; and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we do not complete an initial business combination within 24 months from the closing of this offering. However, if our sponsor, directors, members of our management team or the anchor

[Table of Contents](#)

investors acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we do not complete our initial business combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the company after a business combination, our stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of shares, if any, having preference over the common stock. Our stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that we will provide our public stockholders with the opportunity to redeem their public shares for cash at a per share price equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares, upon the completion of our initial business combination, subject to the limitations described herein.

Founder Shares

The founder shares are designated as Class B common stock and, except as described below, are identical to the shares of our Class A common stock included in the units being sold in this offering, and holders of founder shares have the same stockholder rights as public stockholders, except that (i) the founder shares are subject to certain transfer restrictions, as described in more detail below, (ii) our sponsor, directors, each member of our management team and the anchor investors have entered into agreements with us, pursuant to which they have agreed (A) to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination, (B) to waive their redemption rights with respect to their founder shares and public shares in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we have not completed an initial business combination within 24 months from the closing of this offering or with respect to any other provisions relating to the rights of holders of Class A common stock and (C) to waive their rights to liquidating distributions from the trust account with respect to its founder shares if we do not complete an initial business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we do not complete our initial business combination within such time period, (iii) the founder shares will automatically convert into Class A common stock at the time of our initial business combination as described herein and in our amended and restated certificate of incorporation, and (iv) prior to the completion of our initial business combination, only our founder shares will have the right to vote on the election of our directors. If we submit our initial business combination to our public stockholders for a vote, our sponsor, directors and each member of our management team have agreed to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination.

The founder shares will automatically convert into shares of our Class A common stock on the first business day following the completion of our initial business combination at a ratio such that the number of shares of our Class A common stock issuable upon conversion of all founder shares will equal, on an as-converted basis, 20% of the sum of (i) the total number of shares of our Class A common stock issued and outstanding upon completion of this offering, plus (ii) the total number of shares of our Class A common stock issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the company in connection with or in relation to the completion of the initial business combination, excluding any shares of our Class A common stock or equity-linked securities exercisable for or convertible into shares of our Class A common stock issued, or to be issued, to any seller in the initial business combination and any private placement warrants issued to our sponsor upon conversion of working capital loans. In no event will the shares of our Class B common stock convert into shares of our Class A common stock at a rate of less than one to one.

Except as described herein, our sponsor, directors, each member of our management team and the anchor investors have agreed not to transfer, assign or sell any of their founder shares until (a) one year after the completion of our initial business combination, or (b) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction after our initial business combination that results in all of our stockholders having the right to exchange their shares of our Class A common stock for cash, securities or other property. Any permitted transferees will be subject to the same restrictions and other agreements of our sponsor

[Table of Contents](#)

with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up. Notwithstanding the foregoing, if the last reported sale price of the shares of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the converted Class A common stock will be released from the lock-up.

Prior to our initial business combination, only holders of our founder shares will have the right to vote on the appointment of our directors. Holders of our public shares will not be entitled to vote on the appointment of our directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason. These provisions of our amended and restated certificate of incorporation may only be amended by approval of a majority of our Class B common stock voting in an annual meeting. With respect to any other matter submitted to a vote of our stockholders, including any vote in connection with our initial business combination, except as required by law, holders of our founder shares and holders of our public shares will vote together as a single class, with each share entitling the holder to one vote.

Preferred Stock

Our amended and restated certificate of incorporation will authorize 1,000,000 shares of preferred stock and provide that shares of preferred stock may be issued from time to time in one or more series. Our board of directors will be authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series. Our board of directors will be able to, without stockholder approval, issue shares of preferred stock with voting and other rights that could adversely affect the voting power and other rights of the holders of the common stock and could have anti-takeover effects. The ability of our board of directors to issue shares of preferred stock without stockholder approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. We have no shares of preferred stock issued and outstanding at the date hereof. Although we do not currently intend to issue any shares of preferred stock, we cannot assure you that we will not do so in the future. No shares of preferred stock are being issued or registered in this offering.

Warrants

Public Stockholders' Warrants

Each whole warrant entitles the registered holder to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing on the later of one year from the closing of this offering and 30 days after the completion of our initial business combination, provided in each case that we have an effective registration statement under the Securities Act covering the shares of the Class A common stock issuable upon exercise of the warrants and a current prospectus relating to them is available (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement) and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares of our Class A common stock. This means only a whole warrant may be exercised at a given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

We will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the shares of Class A common stock underlying the warrants is then effective and a prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration, or a valid exemption from registration is available. No warrant will be exercisable and we will not be obligated to issue a share of our Class A common stock upon exercise of a warrant unless the share of our Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be

[Table of Contents](#)

entitled to exercise such warrant and such warrant may have no value and expire worthless. In no event will we be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the share of our Class A common stock underlying such unit.

We have agreed that as soon as practicable, but in no event later than 20 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A common stock issuable upon exercise of the warrants. We will use our commercially reasonable efforts to cause the same to become effective within 60 business days after the closing of our initial business combination, and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration or redemption of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the issuance of the Class A common stock issuable upon exercise of the warrants is not effective by the 60th business day after the closing of the initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. In addition, if our Class A common stock are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of our public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we elect to do so, we will not be required to file or maintain in effect a registration statement, but we will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. In such event, each holder would pay the exercise price by surrendering warrants in exchange for a number of shares of our Class A common stock equal to the lesser of (A) the quotient obtained by dividing (x) the product of (a) the number of shares of our Class A common stock underlying the warrants and (b) the excess of the “fair market value” over the exercise price of the warrants by (y) such fair market value and (B) the product of the number of warrants surrendered and 0.361, subject to adjustment. The “fair market value” shall mean the volume weighted average price of the shares of our Class A common stock for the 10 trading days ending on the trading day prior to the date on which the notice of exercise is received by the warrant agent.

No fractional Class A common stock will be issued upon exercise. If, upon exercise, a holder would be entitled to receive a fractional interest in a share, we will round down to the nearest whole number of the number of shares of our Class A common stock to be issued to the holder. If, at the time of redemption, the warrants are exercisable for a security other than the shares of our Class A common stock pursuant to the warrant agreement (for instance, if we are not the surviving company in our initial business combination), the warrants may be exercised for such security. At such time as the warrants become exercisable for a security other than the Class A common stock, the company (or surviving company) will use its commercially reasonable efforts to register under the Securities Act the security issuable upon the exercise of the warrants.

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person’s affiliates), to the warrant agent’s actual knowledge, would beneficially own in excess of 4.9% or 9.8% (as specified by the holder) of the Class A common stock issued and outstanding immediately after giving effect to such exercise.

Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$18.00.

Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption to each warrant holder; and

[Table of Contents](#)

- if, and only if, the last reported sale price of the Class A common stock for any 20 trading days within a 30-trading day period ending three business days before we send to the notice of redemption to the warrant holders (the “Reference Value”) equals or exceeds \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “— Warrants — Public Stockholders’ Warrants — Anti-dilution Adjustments”).

If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. However, we will not redeem the warrants unless an effective registration statement under the Securities Act covering the shares of our Class A common stock issuable upon exercise of the warrants is effective and a current prospectus relating to those shares of our Class A common stock is available throughout the 30-day redemption period.

We have established the last of the redemption criteria discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise his, her or its warrant prior to the scheduled redemption date. Any such exercise would not be done on a “cashless” basis and would require the exercising warrant holder to pay the exercise price for each warrant being exercised. However, the price of the Class A common stock may fall below the \$18.00 redemption trigger price (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “— Warrants — Public Stockholders’ Warrants — Anti-dilution Adjustments”) as well as the \$11.50 (for whole shares) warrant exercise price after the redemption notice is issued.

Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$10.00. Once the warrants become exercisable, we may redeem the outstanding warrants:

- in whole and not in part;
- at \$0.10 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption, provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to the table below, based on the redemption date and the “fair market value” of our Class A common stock except as otherwise described below;
- if, and only if, the Reference Value equals or exceeds \$10.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “— Warrants — Public Stockholders’ Warrants — Anti-dilution Adjustments”); and
- if the Reference Value is less than \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “— Warrants — Public Stockholders’ Warrants — Anti-dilution Adjustments”) the private placement warrants must also be concurrently called for redemption on the same terms (except as described above with respect to a holder’s ability to exercise its warrants on a “cashless” basis) as the outstanding public warrants, as described above.

Beginning on the date the notice of redemption is given until the warrants are redeemed or exercised, holders may elect to exercise their warrants on a cashless basis. The numbers in the table below represent the number of shares of our Class A common stock that a warrant holder will receive upon such cashless exercise in connection with a redemption by us pursuant to this redemption feature, based on the “fair market value” of our Class A common stock on the corresponding redemption date (assuming holders elect to exercise their warrants and such warrants are not redeemed for \$0.10 per warrant), determined for these purposes based on volume-weighted average price of our Class A common stock as reported during the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of warrants, and the number of months that the corresponding redemption date precedes the expiration date of the warrants, each as set forth in the table below. We will provide our warrant holders with the final fair market value no later than one business day after the 10-trading day period described above ends.

Pursuant to the warrant agreement, references above to shares of Class A common stock shall include a security other than shares of Class A common stock into which the shares of Class A common stock have been converted or exchanged for in the event we are not the surviving company in our initial business combination. The

[Table of Contents](#)

numbers in the table below will not be adjusted when determining the number of shares of our Class A common stock to be issued upon exercise of the warrants if we are not the surviving entity following our initial business combination.

The stock prices set forth in the column headings of the table below will be adjusted as of any date on which the number of shares issuable upon exercise of a warrant or the exercise price of a warrant is adjusted as set forth under the heading “— Anti-dilution Adjustments” below. If the number of shares issuable upon exercise of a warrant is adjusted, the adjusted share prices in the column headings will equal the share prices immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the number of shares deliverable upon exercise of a warrant immediately prior to such adjustment and the denominator of which is the number of shares deliverable upon exercise of a warrant as so adjusted. The number of shares in the table below shall be adjusted in the same manner and at the same time as the number of shares issuable upon exercise of a warrant. If the exercise price of a warrant is adjusted (a) in the case of an adjustment pursuant to the fifth paragraph under the heading “— Anti-dilution Adjustments” below, the adjusted share prices in the column headings will equal the unadjusted share price multiplied by a fraction, the numerator of which is the higher of the Market Value and the Newly Issued Price as set forth under the heading “— Anti-dilution Adjustments” and the denominator of which is \$10.00 and (b) in the case of in the case of an adjustment pursuant to the second paragraph under the heading “— Anti-dilution Adjustments” below, the adjusted share prices in the column headings will equal the unadjusted share price less the decrease in the exercise price of a warrant pursuant to such exercise price adjustment.

Redemption Date (period to expiration of warrants)	Fair Market Value of Our Class A Common stock								
	≤\$10.00	\$11.00	\$12.00	\$13.00	\$14.00	\$15.00	\$16.00	\$17.00	≥\$18.00

0 months	—	—	0.042	0.115	0.179	0.233	0.281	0.323	0.361

The exact fair market value and redemption date may not be set forth in the table above, in which case, if the fair market value is between two values in the table or the redemption date is between two redemption dates in the table, the number of shares of our Class A common stock to be issued for each warrant exercised will be determined by a straight-line interpolation between the number of shares set forth for the higher and lower fair market values and the earlier and later redemption dates, as applicable, based on a 365 or 366-day year, as applicable. For example, if the volume-weighted average price of our Class A common stock as reported during the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of the warrants is \$11.00 per share, and at such time there are 57 months until the expiration of the warrants, holders may choose to, in connection with this redemption feature, exercise their warrants for 0.277 shares of Class A common stock for each whole warrant. For an example where the exact fair market value and redemption date are not as set forth in the table above, if the volume-weighted average price of our Class A common stock as reported during the 10 trading days immediately

[Table of Contents](#)

following the date on which the notice of redemption is sent to the holders of the warrants is \$13.50 per share, and at such time there are 38 months until the expiration of the warrants, holders may choose to, in connection with this redemption feature, exercise their warrants for 0.298 shares of Class A common stock for each whole warrant. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 shares of Class A common stock per warrant (subject to adjustment). Finally, as reflected in the table above, if the warrants are out of the money and about to expire, they cannot be exercised on a cashless basis in connection with a redemption by us pursuant to this redemption feature, since they will not be exercisable for any shares of Class A common stock.

This redemption feature is structured to allow for all of the outstanding warrants to be redeemed when the Class A common stock are trading at or above \$10.00 per share, which may be at a time when the trading price of our Class A common stock is below the exercise price of the warrants. We have established this redemption feature to provide us with the flexibility to redeem the warrants without the warrants having to reach the \$18.00 per share threshold set forth above under “— Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$18.00.” Holders choosing to exercise their warrants in connection with a redemption pursuant to this feature will, in effect, receive a number of shares for their warrants based on an option pricing model with a fixed volatility input as of the date of this prospectus. This redemption right provides us with an additional mechanism by which to redeem all of the outstanding warrants, and therefore have certainty as to our capital structure as the warrants would no longer be outstanding and would have been exercised or redeemed. We will be required to pay the applicable redemption price to warrant holders if we choose to exercise this redemption right and it will allow us to quickly proceed with a redemption of the warrants if we determine it is in our best interest to do so. As such, we would redeem the warrants in this manner when we believe it is in our best interest to update our capital structure to remove the warrants and pay the redemption price to the warrant holders.

As stated above, we can redeem the warrants when the Class A common stock are trading at a price starting at \$10.00, which is below the exercise price of \$11.50, because it will provide certainty with respect to our capital structure and cash position while providing warrant holders with the opportunity to exercise their warrants on a cashless basis for the applicable number of shares. If we choose to redeem the warrants when the Class A common stock are trading at a price below the exercise price of the warrants, this could result in the warrant holders receiving fewer shares of Class A common stock than they would have received if they had chosen to wait to exercise their warrants for Class A common stock if and when such shares of Class A common stock were trading at a price higher than the exercise price of \$11.50.

Anti-dilution Adjustments. If the number of outstanding shares of our Class A common stock is increased by a stock capitalization or stock dividend paid in shares of our Class A common stock to all or substantially all holders of Class A common stock, or by a split-up of Class A common stock or other similar event, then, on the effective date of such stock capitalization or stock dividend, split-up or similar event, the number of shares of our Class A common stock issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding shares of Class A common stock. A rights offering made to all or substantially all holders of common stock entitling holders to purchase Class A common stock at a price less than the “historical fair market value” (as defined below) will be deemed a stock dividend of a number of shares of our Class A common stock equal to the product of (i) the number of shares of our Class A common stock actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A common stock) and (ii) one minus the quotient of (x) the price per share of our Class A common stock paid in such rights offering and (y) the historical fair market value. For these purposes, (i) if the rights offering is for securities convertible into or exercisable for shares of our Class A common stock, in determining the price payable for Class A common stock, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) “historical fair market value” means the volume-weighted average price of shares of our Class A common stock as reported during the 10 trading day period ending on the trading day prior to the first date on which the Class A common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay to all or substantially all of the holders of the Class A common stock a dividend or make a distribution in cash, securities or other assets to all or substantially all of the holders of our Class A common stock on account of such shares of Class A common stock (or other securities into which the warrants are convertible), other than (a) as described above, (b) any cash dividends or cash distributions which, when combined on a per share basis with all other cash dividends and cash distributions paid on the shares of Class A common stock during the 365-day period ending on the date of declaration of such

[Table of Contents](#)

dividend or distribution does not exceed \$0.50 (as adjusted to appropriately reflect any other adjustments and excluding cash dividends or cash distributions that resulted in an adjustment to the exercise price or to the number of shares of our Class A common stock issuable on exercise of each warrant) but only with respect to the amount of the aggregate cash dividends or cash distributions equal to or less than \$0.50 per share, (c) to satisfy the redemption rights of the holders of our Class A common stock in connection with a proposed initial business combination, (d) to satisfy the redemption rights of the holders of our Class A common stock in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to the rights of holders of Class A common stock, (e) as a result of the repurchase of shares of Class A common stock if a proposed initial business combination is presented to our stockholders for approval, or (f) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each share of our Class A common stock in respect of such event.

If the number of outstanding shares of our Class A common stock is decreased by a consolidation, combination, reverse share split or reclassification of our Class A common stock or other similar event, then, on the effective date of such consolidation, combination, reverse share split, reclassification or similar event, the number of shares of our Class A common stock issuable on exercise of each warrant will be decreased in proportion to such decrease in outstanding shares of our Class A common stock.

Whenever the number of shares of our Class A common stock purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of shares of our Class A common stock purchasable upon the exercise of the warrants immediately prior to such adjustment and (y) the denominator of which will be the number of shares of our Class A common stock so purchasable immediately thereafter.

In addition, if (x) we issue additional shares of our Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per share of our Class A common stock (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our sponsor or its affiliates, without taking into account any founder shares held by our sponsor or such affiliates, as applicable, prior to such issuance), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the completion of our initial business combination (net of redemptions), and (z) the volume-weighted average trading price of our Class A common stock during the 20 trading day period starting on the trading day prior to the day on which we complete our initial business combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 and \$18.00 per share redemption trigger prices described above under “— Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$10.00” and “— Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$18.00” will be adjusted (to the nearest cent) to be equal to 100% and 180% of the higher of the Market Value and the Newly Issued Price, respectively.

In case of any reclassification or reorganization of the outstanding shares of Class A common stock (other than those described above or that solely affects the par value of such shares of Class A common stock), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding shares of Class A common stock), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the shares of Class A common stock immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of our Class A common stock or other securities or property (including cash) receivable upon

[Table of Contents](#)

such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. However, if such holders were entitled to exercise a right of election as to the kind or amount of securities, cash or other assets receivable upon such consolidation or merger, then the kind and amount of securities, cash or other assets for which each warrant will become exercisable will be deemed to be the weighted average of the kind and amount received per share by such holders in such consolidation or merger that affirmatively make such election, and if a tender, exchange or redemption offer has been made to and accepted by such holders (other than a tender, exchange or redemption offer made by the company in connection with redemption rights held by stockholders of the company as provided for in the company's amended and restated certificate of incorporation or as a result of the redemption of shares of Class A common stock by the company if a proposed initial business combination is presented to the stockholders of the company for approval) under circumstances in which, upon completion of such tender or exchange offer, the maker thereof, together with members of any group (within the meaning of Rule 13d-5(b)(1) under the Exchange Act) of which such maker is a part, and together with any affiliate or associate of such maker (within the meaning of Rule 12b-2 under the Exchange Act) and any members of any such group of which any such affiliate or associate is a part, own beneficially (within the meaning of Rule 13d-3 under the Exchange Act) more than 50% of the issued and outstanding shares of Class A common stock, the holder of a warrant will be entitled to receive the highest amount of cash, securities or other property to which such holder would actually have been entitled as a stockholder if such warrant holder had exercised the warrant prior to the expiration of such tender or exchange offer, accepted such offer and all of the shares of Class A common stock held by such holder had been purchased pursuant to such tender or exchange offer, subject to adjustment (from and after the consummation of such tender or exchange offer) as nearly equivalent as possible to the adjustments provided for in the warrant agreement. If less than 70% of the consideration receivable by the holders of our Class A common stock in such a transaction is payable in the form of our Class A common stock in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within 30 days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the Black-Scholes value (as defined in the warrant agreement) of the warrant. The purpose of such exercise price reduction is to provide additional value to holders of the warrants when an extraordinary transaction occurs during the exercise period of the warrants pursuant to which the holders of the warrants otherwise do not receive the full potential value of the warrants.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 65% of the then-outstanding public warrants to make any change that adversely affects the interests of the registered holders. You should review a copy of the warrant agreement, which will be filed as an exhibit to the registration statement of which this prospectus is a part, for a complete description of the terms and conditions applicable to the warrants.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price (or on a cashless basis, if applicable), by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of common stock and any voting rights until they exercise their warrants and receive shares of Class A common stock. After the issuance of shares of our Class A common stock upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by stockholders.

We have agreed that, subject to applicable law, any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and we irrevocably submit to such jurisdiction, which jurisdiction will be the exclusive forum for any such action, proceeding or claim. See "Risk Factors — Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company." This provision applies to claims under the Securities Act but does not apply to claims under the Exchange Act or any claim for which the federal district courts of the United States of America are the sole and exclusive forum.

Private Placement Warrants

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except pursuant to limited exceptions as described under “Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants,” to our officers and directors and other persons or entities affiliated with the initial purchasers of the private placement warrants) and they will not be redeemable by us so long as they are held by our sponsor, the anchor investors or their respective permitted transferees (except as otherwise set forth herein). Except as described below, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering. If the private placement warrants are held by holders other than our sponsor, the anchor investors or their respective permitted transferees, the private placement warrants will be redeemable by us in all redemption scenarios and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering. Our sponsor, the direct anchor investors and their permitted transferees will also have certain registration rights related to the private placement warrants (including the shares of Class A common stock issuable upon exercise of the private placement warrants), as described below.

Our sponsor, or its permitted transferees, have the option to exercise the private placement warrants on a cashless basis. Except as described under “Description of Securities — Warrants — Redemption of Warrants When the Price per Share of Our Class A Common Stock Equals or Exceeds \$10.00,” if holders of the private placement warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering his, her or its warrants in exchange for a number of shares of our Class A common stock equal to the quotient obtained by dividing (x) the product of (a) the number of shares of our Class A common stock underlying the warrants, and (b) the excess of the “historical fair market value” (defined below) over the exercise price of the warrants by (y) such historical fair market value. For these purposes, the “historical fair market value” shall mean the average last reported sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of warrant exercise is sent to the warrant agent. The reason that we have agreed that these warrants will be exercisable on a cashless basis so long as they are held by our sponsor, the anchor investors or their respective permitted transferees is because it is not known at this time whether they will be affiliated with us following a business combination. If they remain affiliated with us, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that restrict insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public stockholders who could exercise their warrants and sell the shares of our Class A common stock received upon such exercise freely in the open market in order to recoup the cost of such exercise, the insiders could be significantly restricted from selling such securities. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis is appropriate.

In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may loan us funds as may be required, although they are under no obligation to advance funds or invest in us. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$1.50 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants.

Dividends

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of a business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of a business combination. The payment of any cash dividends subsequent to a business combination will be within the discretion of our board of directors at such time. If we increase the size of this offering, then we will effect a stock capitalization with respect to our founder shares immediately prior to the completion of this offering in such amount as to maintain the number of founder shares at 20% of our issued and outstanding common stock upon the completion of this offering. Further, if we incur any indebtedness, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

Our Transfer Agent and Warrant Agent

The transfer agent for our common stock and warrant agent for our warrants is Continental Stock Transfer & Trust Company. We have agreed to indemnify Continental Stock Transfer & Trust Company in its roles as transfer agent and warrant agent, its agents and each of its stockholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any claims and losses due to any gross negligence or intentional misconduct of the indemnified person or entity.

Amended and Restated Certificate of Incorporation

Our amended and restated certificate of incorporation will contain provisions designed to provide certain requirements and restrictions relating to this offering that will apply to us until the completion of our initial business combination. These provisions cannot be amended without the approval of the holders of 65% of our common stock. Our sponsor and its permitted transferees, if any, who will collectively beneficially own 20% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), will participate in any vote to amend our amended and restated certificate of incorporation and will have the discretion to vote in any manner they choose. Specifically, our amended and restated certificate of incorporation will provide, among other things, that:

- If we have not completed an initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but no more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of the then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law;
- Prior to or in connection with our initial business combination, we may not issue additional securities that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on our initial business combination or on any other proposal presented to stockholders prior to or in connection with the completion of an initial business combination;
- Although we do not intend to enter into a business combination with a target business that is affiliated with our sponsor, our directors or our executive officers, we are not prohibited from doing so. In the event we enter into such a transaction, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or from an independent accounting firm that such a business combination is fair to our company from a financial point of view;
- If a stockholder vote on our initial business combination is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will offer to redeem our public shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, and will file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act;
- Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the amount of deferred underwriting discounts held in trust and taxes payable by us on the income earned on the trust account) at the time of the agreement to enter into the initial business combination;

[Table of Contents](#)

- If our stockholders approve an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete an initial business combination within 24 months from the closing of this offering, or with respect to any other provisions relating to the rights of holders of Class A common stock, we will provide our public stockholders with the opportunity to redeem all or a portion of their Class A common stock upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then outstanding public shares, subject to the limitations described herein; and
- We will not effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In addition, our amended and restated certificate of incorporation will provide that under no circumstances will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001.

Certain Anti-Takeover Provisions of Delaware Law and our Amended and Restated Certificate of Incorporation

We will be subject to the provisions of Section 203 of the DGCL regulating corporate takeovers upon completion of this offering. This statute prevents certain Delaware corporations, under certain circumstances, from engaging in a “business combination” with:

- a stockholder who owns 15% or more of our outstanding voting stock (otherwise known as an “interested stockholder”);
- an affiliate of an interested stockholder; or
- an associate of an interested stockholder, for three years following the date that the stockholder became an interested stockholder.

A “business combination” includes a merger or sale of more than 10% of our assets. However, the above provisions of Section 203 do not apply if:

- our board of directors approves the transaction that made the stockholder an “interested stockholder,” prior to the date of the transaction;
- after the completion of the transaction that resulted in the stockholder becoming an interested stockholder, that stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, other than statutorily excluded shares of common stock; or
- on or subsequent to the date of the transaction, the initial business combination is approved by our board of directors and authorized at a meeting of our stockholders, and not by written consent, by an affirmative vote of at least two-thirds of the outstanding voting stock not owned by the interested stockholder.

Our amended and restated certificate of incorporation will provide that our board of directors will be classified into three classes of directors. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual meetings.

Our authorized but unissued common stock and preferred stock will be available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Exclusive Forum for Certain Lawsuits

Our amended and restated certificate of incorporation will require, unless we consent in writing to the selection of an alternative forum, that (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer or other employee to us or our stockholders, (iii) any action asserting a claim against us, our directors, officers or employees arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or amended and restated bylaws, or (iv) any action asserting a claim against us, our directors, officers or employees governed by the internal affairs doctrine may be brought only in the Court of Chancery in the State of Delaware, except any claim (A) as to which the Court of Chancery of the State of Delaware determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, or (C) for which the Court of Chancery does not have subject matter jurisdiction. If an action is brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, a court may determine that this provision is unenforceable, and to the extent it is enforceable, the provision may have the effect of discouraging lawsuits against our directors and officers, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder.

Notwithstanding the foregoing, our amended and restated certificate of incorporation will provide that the exclusive forum provision will not apply to suits brought to enforce a duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers. Additionally, unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States of America shall be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act against us or any of our directors, officers, other employees or agents. However, there is uncertainty as to whether a court would enforce the exclusive forum provisions relating to causes of actions arising under the Securities Act.

Special Meeting of Stockholders

Our amended and restated bylaws will provide that special meetings of our stockholders may be called only by a majority vote of our board of directors or by our Chairman.

Advance Notice Requirements for Stockholder Proposals and Director Nominations

Our amended and restated bylaws will provide that stockholders seeking to bring business before our annual meeting of stockholders, or to nominate candidates for election as directors at our annual meeting of stockholders, must provide timely notice of their intent in writing. To be timely, a stockholder's notice will need to be received by the company secretary at our principal executive offices not later than the close of business on the 90th day nor earlier than the opening of business on the 120th day prior to the anniversary date of the immediately preceding annual meeting of stockholders. Pursuant to Rule 14a-8 of the Exchange Act, proposals seeking inclusion in our annual proxy statement must comply with the notice periods contained therein. Our amended and restated bylaws will also specify certain requirements as to the form and content of a stockholders' meeting. These provisions may preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders.

Action by Written Consent

Subsequent to the consummation of the offering, any action required or permitted to be taken by our common stockholders must be effected by a duly called annual or special meeting of such stockholders and may not be effected by written consent of the stockholders other than with respect to our Class B common stock.

Classified Board of Directors

Our board of directors will initially be divided into three classes, Class I, Class II and Class III, with members of each class serving staggered three-year terms. Our amended and restated certificate of incorporation will provide that the authorized number of directors may be changed only by resolution of the board of directors. Subject to the terms of any preferred stock, any or all of the directors may be removed from office at any time, but only for cause and only by the affirmative vote of holders of a majority of the voting power of all then outstanding shares of our capital stock entitled to vote generally in the election of directors, voting together as a single class. Any vacancy on our board of directors, including a vacancy resulting from an enlargement of our board of directors, may be filled only by vote of a majority of our directors then in office.

Class B Common Stock Consent Right

For so long as any shares of our Class B common stock remain outstanding, we may not, without the prior vote or written consent of the holders of a majority of the shares of our Class B common stock then outstanding, voting separately as a single class, amend, alter or repeal any provision of our amended and restated certificate of incorporation, whether by merger, consolidation or otherwise, if such amendment, alteration or repeal would alter or change the powers, preferences or relative, participating, optional or other or special rights of the Class B common stock. Any action required or permitted to be taken at any meeting of the holders of our Class B common stock may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of the outstanding Class B common stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of our Class B common stock were present and voted.

Securities Eligible for Future Sale

Immediately after this offering we will have 31,250,000 shares of common stock (or 35,937,500 shares of common stock if the underwriters' over-allotment option is exercised in full) issued and outstanding on an as-converted basis. Of these shares, the shares of our Class A common stock sold in this offering (25,000,000 shares of Class A common stock if the underwriters' over-allotment option is not exercised and 28,750,000 shares of Class A common stock if the underwriters' over-allotment option is exercised in full) will be freely tradable without restriction or further registration under the Securities Act, except for any Class A common stock purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the outstanding founder shares (6,250,000 founder shares if the underwriters' over-allotment option is not exercised and 7,187,500 founder shares if the underwriters' over-allotment option is exercised in full) and all of the outstanding private placement warrants (5,000,000 private placement warrants if the underwriters' over-allotment option is not exercised and 5,500,000 private placement warrants if the underwriters' over-allotment option is exercised in full) will be restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering. These restricted securities will be subject to registration rights as more fully described below under "— Registration Rights."

Rule 144

Pursuant to Rule 144, a person who has beneficially owned restricted shares or warrants for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares or warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of shares of common stock then outstanding, which will equal 312,500 shares immediately after this offering (or 359,375 shares if the underwriters exercise their over-allotment option in full); or

[Table of Contents](#)

- the average weekly reported trading volume of the Class A common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Form 8-K reports; and at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our sponsor will be able to sell its founder shares and private placement warrants, as applicable, pursuant to Rule 144 without registration one year after we have completed our initial business combination.

Registration and Stockholder Rights

The holders of the founder shares, private placement warrants and warrants that may be issued upon conversion of working capital loans (and any Class A common stock issuable upon the exercise of the private placement warrants and warrants that may be issued upon conversion of working capital loans) will be entitled to registration rights pursuant to a registration and stockholder rights agreement to be signed prior to or on the effective date of this offering. The holders of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination. However, the registration and stockholders rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lockup period, which occurs (i) in the case of the founder shares, as described in the following paragraph, and (ii) in the case of the private placement warrants and the respective shares of our Class A common stock underlying such warrants, 30 days after the completion of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

Except as described herein, our sponsor, directors, each member of our management team and the anchor investors have agreed not to transfer, assign or sell any of their founder shares until the earlier of (a) one year after the completion of our initial business combination, and (b) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction after our initial business combination that results in all of our stockholders having the right to exchange their shares of our Class A common stock for cash, securities or other property. Any permitted transferees will be subject to the same restrictions and other agreements of our sponsor with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up. Notwithstanding the foregoing, if the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the converted shares of our Class A common stock will be released from the lock-up.

[Table of Contents](#)

In addition, pursuant to the registration and stockholder rights agreement, our sponsor, upon completion of an initial business combination, will be entitled to nominate three individuals for election to our board of directors, as long as our sponsor holds any securities covered by the registration and stockholder rights agreement.

Listing of Securities

We intend to apply to have our units listed on the Nasdaq, under the symbol “XPDIU.” We expect that our units will be listed on the Nasdaq promptly after the effective date of the registration statement. Once the securities comprising the units begin separate trading, we expect that the Class A common stock and warrants will be listed on the Nasdaq under the symbols “XPDI” and “XPDIW,” respectively. We cannot guarantee that our securities will be approved for listing on the Nasdaq. The units will automatically separate into their component parts and will not be traded following the completion of our initial business combination.

U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion summarizes the material U.S. federal income tax considerations generally applicable to the acquisition, ownership and disposition of our units (each consisting of one share of our Class A common stock and one-third of one redeemable warrant) that are purchased in this offering by U.S. Holders (as defined below) and Non-U.S. Holders (as defined below, and together, "Holders"). Because the components of a unit are generally separable at the option of a Holder, the Holder of a unit generally should be treated for U.S. federal income tax purposes as the owner of the underlying share of our Class A common stock and the one-third of one redeemable warrant that are the components of the unit. See "— Allocation of Purchase Price and Characterization of a Unit" below. As a result, the discussion below with respect to actual Holders of shares of our Class A common stock and warrants should also apply to Holders of units (as the deemed owners of the underlying shares of our Class A common stock and warrants that constitute the units).

This discussion is limited to the material U.S. federal income tax considerations for beneficial owners of our securities who are initial purchasers of a unit pursuant to this offering and hold the unit and each component of the unit as a capital asset under the U.S. Internal Revenue Code of 1986, as amended (the "Code"). This discussion assumes that the shares of our Class A common stock and warrants will trade separately and that any distributions made (or deemed made) by us on the shares of our Class A common stock and any consideration received (or deemed received) by a Holder in consideration for the sale or other disposition of our securities will be in U.S. dollars. This discussion is a summary only and does not consider all aspects of U.S. federal income taxation that may be relevant to the acquisition, ownership and disposition of a unit by a prospective investor in light of its particular circumstances, including:

- our sponsor or its affiliates, officers or directors or Holders of our Class B common stock or private placement warrants;
- financial institutions or financial services entities;
- broker-dealers;
- taxpayers that are subject to the mark-to-market tax accounting rules;
- tax-exempt entities;
- S-corporations;
- governments or agencies or instrumentalities thereof;
- insurance companies;
- regulated investment companies;
- real estate investment trusts;
- shareholders passive foreign investment companies;
- controlled foreign corporations;
- expatriates or former long-term residents of the United States;
- persons that acquired our securities pursuant to an exercise of employee share options, in connection with employee share incentive plans or otherwise as compensation or in connection with services;
- persons that hold our securities as part of a straddle, constructive sale, appreciated financial position, synthetic security, hedge, conversion transaction or other integrated or similar risk reduction transaction; or
- U.S. Holders whose functional currency is not the U.S. dollar.

Moreover, the discussion below is based upon the provisions of the Code, the Treasury regulations promulgated thereunder and administrative and judicial interpretations thereof, all as of the date hereof, and such provisions may be repealed, revoked, modified or subject to differing interpretations, possibly on a retroactive

[Table of Contents](#)

basis, so as to result in U.S. federal income tax consequences different from those discussed below. Furthermore, this discussion does not address any aspect of U.S. federal non-income tax laws, such as gift, estate or Medicare contribution tax laws, or state, local or non-U.S. tax laws.

We have not sought, and will not seek, a ruling from the IRS as to any U.S. federal income tax consequence described herein. The statements made and conclusions reached herein are not free from doubt. The IRS may disagree with the discussion herein, and its determination may be upheld by a court. Moreover, there can be no assurance that future legislation, regulations, administrative rulings or court decisions will not adversely affect the accuracy of the statements in this discussion.

This discussion does not consider the tax treatment of partnerships or other pass-through entities (including branches) or persons who hold our securities through such entities. If a partnership (or other entity or arrangement classified as a partnership for U.S. federal income tax purposes) is the beneficial owner of our securities, the U.S. federal income tax treatment of a partner in the partnership generally will depend on the status of the partner and the activities of the partner and the partnership. If you are a partner of a partnership holding our securities, we urge you to consult your own tax advisor.

THIS DISCUSSION ADDRESSES ONLY THE MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS ASSOCIATED WITH THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR UNITS. EACH PROSPECTIVE INVESTOR IN OUR UNITS IS URGED TO CONSULT ITS OWN TAX ADVISOR WITH RESPECT TO THE PARTICULAR TAX CONSEQUENCES TO SUCH INVESTOR OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR UNITS, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL, AND NON-UNITED STATES TAX LAWS.

Personal Holding Company Status

We could be subject to additional U.S. federal income tax on a portion of our income if we are determined to be a personal holding company (“PHC”) for U.S. federal income tax purposes. If we are or were to become a PHC in a given taxable year, we would be subject to an additional PHC tax, currently 20%, on our undistributed PHC income, which generally includes our taxable income during such year, subject to certain adjustments.

A U.S. corporation generally will be classified as a PHC for U.S. federal income tax purposes in a given taxable year if (i) at any time during the last half of such taxable year, five or fewer individuals (without regard to their citizenship or residency and including as individuals for this purpose certain entities such as certain tax-exempt organizations, pension funds and charitable trusts) own or are deemed to own (pursuant to certain constructive ownership rules) more than 50% of the stock of the corporation by value and (ii) at least 60% of the corporation’s adjusted ordinary gross income, as determined for U.S. federal income tax purposes, for such taxable year consists of PHC income (which includes, among other things, dividends, interest, certain royalties, annuities and, under certain circumstances, rents).

Depending on the date and size of our initial business combination, it is possible that at least 60% of our adjusted ordinary gross income may consist of PHC income as discussed above. In addition, depending on the concentration of our stock in the hands of individuals, including the members of our sponsor and certain tax-exempt organizations, pension funds and charitable trusts, it is possible that more than 50% of our stock may be owned or deemed owned (pursuant to the constructive ownership rules) by five or fewer such persons during the last half of a taxable year. Thus, there can be no assurance that we are not and will not be a PHC in the future.

Allocation of Purchase Price and Characterization of a Unit

No statutory, administrative or judicial authority directly addresses the treatment of a unit or instruments similar to a unit for U.S. federal income tax purposes, and therefore, that treatment is not entirely clear. The acquisition of a unit should be treated for U.S. federal income tax purposes as the acquisition of one share of our Class A common stock and one-third of one warrant, a whole one of which is exercisable to acquire one share of our Class A common stock and we intend to treat the acquisition of a unit in this manner.

For U.S. federal income tax purposes, each Holder of a unit should allocate the purchase price paid by such Holder for such unit between the one share of our Class A common stock and the one-third of one warrant based on the relative fair market value of each at the time of issuance. Under U.S. federal income tax law, each investor

[Table of Contents](#)

must make its own determination of such value based on all the relevant facts and circumstances. Therefore, we strongly urge each investor to consult its tax advisor regarding the determination of value for these purposes. The purchase price allocated to each share of our Class A common stock and one-third of one warrant should constitute the Holder's initial tax basis in such share or one-third of one warrant. Any disposition of a unit should be treated, for U.S. federal income tax purposes, as a disposition of the share of our Class A common stock and the one-third of one warrant comprising the unit, and the amount realized on the disposition should be allocated between the share of our Class A common stock and one-third of one warrant based on their respective relative fair market values at the time of disposition. Neither the separation of the share of our Class A common stock and the one-third of one warrant constituting a unit nor the combination of halves of warrants into a single warrant should be a taxable event for U.S. federal income tax purposes.

The foregoing treatment of the Class A common stock and warrants and a Holder's purchase price allocation are not binding on the IRS or the courts. Because there are no authorities that directly address instruments that are similar to the units, no assurance can be given that the IRS or the courts will agree with the characterization described above or the discussion below. Accordingly, each prospective investor is urged to consult its tax advisor regarding the tax consequences of an investment in a unit (including alternative characterizations of a unit). The balance of this discussion assumes that the characterization of the units described above is respected for U.S. federal income tax purposes.

U.S. Holders

As used herein, the term "U.S. Holder" means a beneficial owner of our units, shares of our Class A common stock or our warrants that is for U.S. federal income tax purposes: (i) an individual citizen or resident of the United States, (ii) a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) that is created or organized (or treated as created or organized) in or under the laws of the United States, any state thereof or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source or (iv) a trust if (A) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons (as defined in Section 7701(a)(30) of the Code) have the authority to control all substantial decisions of the trust, or (B) it has in effect a valid election to be treated as a United States person.

Taxation of Distributions

If we pay cash distributions to U.S. Holders of our Class A common stock, such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will constitute a non-taxable return of capital to the extent of a U.S. Holder's adjusted tax basis in its shares of our Class A common stock that will be applied against and reduce (but not below zero) the U.S. Holder's adjusted tax basis in its shares of our Class A common stock. Any remaining excess will be treated as capital gain realized on the sale or other disposition of the shares of our Class A common stock and will be treated as described under "U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Our Class A Common Stock and Warrants" below.

Dividends we pay to a corporate U.S. Holder generally will qualify for the dividends received deduction if certain holding period requirements are met. With certain exceptions (including, but not limited to, dividends treated as investment income for purposes of investment interest deduction limitations), and provided certain holding period requirements are met, dividends we pay to a non-corporate U.S. Holder generally will be taxed as qualified dividend income at the preferential tax rate for long-term capital gains. It is unclear whether the redemption rights with respect to the Class A common stock described in this prospectus may prevent a U.S. Holder from satisfying the applicable holding period requirements with respect to the dividends received deduction or the preferential tax rate on qualified dividend income, as the case may be. If the holding period requirements are not met, then a corporate U.S. Holder may not be able to qualify for the dividends received deduction and may have taxable income equal to the entire dividend amount, and a non-corporate U.S. Holder may be subject to tax on such dividend at regular ordinary income tax rates instead of the preferential rate that applies to qualified dividend income. U.S. Holders should consult with their tax advisors regarding the availability of the dividends received deduction or the lower preferential rate for qualified dividend income, as the case may be, for any dividends paid with respect to our Class A common stock.

Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Our Class A Common Stock and Warrants

A U.S. Holder generally will recognize capital gain or loss on a sale or other taxable disposition of its shares of our Class A common stock or warrants (which in general would include a redemption of our Class A common stock or warrants that is treated as a sale of such securities, as described below, including on our dissolution and liquidation if we do not complete an initial business combination within the required time period). Any such capital gain or loss generally will be long-term capital gain or loss if the U.S. Holder's holding period for such shares of our Class A common stock or warrants (as applicable) exceeds one year. Long-term capital gain realized by a non-corporate U.S. Holder is currently eligible to be taxed at reduced rates. It is unclear, however, whether the redemption rights with respect to our Class A common stock described in this prospectus may suspend the running of the applicable holding period for this purpose. If the running of the holding period for the Class A common stock is suspended, then non-corporate U.S. Holders may not be able to satisfy the one-year holding period requirement for long-term capital gain treatment, in which case any gain on a sale or other taxable disposition of the shares of Class A common stock would be subject to short-term capital gain treatment and would be taxed at regular ordinary income tax rates. The deduction of capital losses is subject to certain limitations.

The amount of gain or loss recognized on a sale or other taxable disposition generally will be equal to the difference between (i) the sum of the amount of cash and the fair market value of any property received in such disposition (or, if the shares of our Class A common stock or warrants are held as part of units at the time of the disposition, the portion of the amount realized on such disposition that is allocated to the shares of our Class A common stock or warrants based upon the then relative fair market values of the shares of our Class A common stock and the warrants included in the units) and (ii) the U.S. Holder's adjusted tax basis in its shares of our Class A common stock or warrants so disposed of. A U.S. Holder's adjusted tax basis in its shares of our Class A common stock and warrants generally will equal the U.S. Holder's acquisition cost (that is, the portion of the purchase price of a unit allocated to a share of our Class A common stock or one-third of one warrant, as described above under "— Allocation of Purchase Price and Characterization of a Unit") reduced, in the case of shares of our Class A common stock, by any prior distributions treated as a return of capital. See "— Exercise, Lapse or Redemption of a Warrant" below for a discussion regarding a U.S. Holder's tax basis in a share of our Class A common stock acquired pursuant to the exercise of a warrant.

Redemption of Our Class A Common stock

In the event that a U.S. Holder's shares of our Class A common stock are redeemed pursuant to the redemption provisions described in this prospectus under "Description of Securities — Common Stock" or if we purchase a U.S. Holder's shares of our Class A common stock in an open market transaction (referred to herein as a redemption), the treatment of the redemption for U.S. federal income tax purposes will depend on whether it qualifies as a sale or exchange of the shares of our Class A common stock under Section 302 of the Code. If the redemption qualifies as a sale or exchange of the shares of our Class A common stock, the U.S. Holder will be treated as described under "— Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Our Class A Common Stock and Warrants" above. If the redemption does not qualify as a sale or exchange of the shares of our Class A common stock, the U.S. Holder will be treated as receiving a corporate distribution from us with the tax consequences described above under "— Taxation of Distributions." Whether a redemption qualifies for sale or exchange treatment will depend largely on the total number of our shares treated as held by the U.S. Holder (including any shares constructively owned by the U.S. Holder as a result of owning warrants or otherwise, as described in the following paragraph) relative to all of our shares outstanding both before and after such redemption. The redemption of our Class A common stock generally will be treated as a sale or exchange of the shares of our Class A common stock (rather than as a corporate distribution from us) if, within the meaning of Section 302 of the Code, such redemption (i) is "substantially disproportionate" with respect to the U.S. Holder, (ii) results in a "complete termination" of the U.S. Holder's interest in us or (iii) is "not essentially equivalent to a dividend" with respect to the U.S. Holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. Holder takes into account not only our stock actually owned by the U.S. Holder, but also shares of our stock that are constructively owned by it. A U.S. Holder may constructively own, in addition to stock owned directly, stock owned by certain related individuals and entities in which the U.S. Holder has an interest or that have an interest in such U.S. Holder, as well as any stock the U.S. Holder has a right to acquire by exercise of an option, which would generally include any shares of our Class A common stock which could be acquired pursuant to the exercise of the warrants. In order to meet the "substantially

[Table of Contents](#)

disproportionate” test, the percentage of our outstanding voting shares actually and constructively owned by the U.S. Holder immediately following the redemption of shares of our Class A common stock must, among other requirements, be less than 80% of the percentage of our outstanding voting stock actually and constructively owned by the U.S. Holder immediately before the redemption. Prior to our initial business combination, the shares of our Class A common stock may not be treated as voting shares for this purpose and, consequently, this substantially disproportionate test may not be applicable. There will be a “complete termination” of a U.S. Holder’s interest if either (i) all of our shares actually and constructively owned by the U.S. Holder are redeemed or (ii) all of our shares actually owned by the U.S. Holder are redeemed and the U.S. Holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of shares owned by certain family members and the U.S. Holder does not constructively own any other shares of our stock (including as a result of owning warrants). The redemption of the shares of our Class A common stock will not be “essentially equivalent to a dividend” with respect to a U.S. Holder if it results in a “meaningful reduction” of the U.S. Holder’s proportionate interest in us. Whether the redemption will result in a meaningful reduction in a U.S. Holder’s proportionate interest in us will depend on the particular facts and circumstances. However, the IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority stockholder in a publicly-held corporation who exercises no control over corporate affairs may constitute such a “meaningful reduction.” A U.S. Holder should consult with its own tax advisors as to the tax consequences of a redemption.

If none of the foregoing tests are satisfied, then the redemption will be treated as a corporate distribution from us and the tax effects will be as described under “— Taxation of Distributions” above. After the application of those rules, any remaining tax basis of the U.S. Holder in the redeemed shares of our Class A common stock will be added to the U.S. Holder’s adjusted tax basis in its remaining shares, or, if it has none, to the U.S. Holder’s adjusted tax basis in its warrants or possibly in other shares of our stock constructively owned by it.

U.S. Holders who actually or constructively own five percent (or, if shares of our Class A common stock are not then publicly traded, one percent) or more of our shares (by vote or value) may be subject to special reporting requirements with respect to a redemption of shares of Class A common stock, and such holders are urged to consult with their own tax advisors with respect to their reporting requirements.

Exercise, Lapse or Redemption of a Warrant

Except as discussed below with respect to the cashless exercise of a warrant, a U.S. Holder generally will not recognize gain or loss upon the acquisition of a share of our Class A common stock on the exercise of a warrant. A U.S. Holder’s initial tax basis in a share of our Class A common stock received upon exercise of the warrant generally will equal the sum of the U.S. Holder’s initial investment in the warrant (that is, the portion of the U.S. Holder’s purchase price for the units that is allocated to the warrant, as described above under “— Allocation of Purchase Price and Characterization of a Unit”) and the exercise price of such warrant. It is unclear whether a U.S. Holder’s holding period for the share of our Class A common stock received will commence on the date of exercise of the warrant or the day following the date of exercise of the warrant; in either case, the holding period will not include the period during which the U.S. Holder held the warrant. If a warrant is allowed to lapse unexercised, a U.S. Holder generally will recognize a capital loss equal to such Holder’s tax basis in the warrant. The deductibility of capital losses is subject to certain limitations.

The tax consequences of a cashless exercise of a warrant are not clear under current law. A cashless exercise may not be taxable, either because the exercise is not treated as a realization event or because the exercise is treated as a “recapitalization” for U.S. federal income tax purposes. In either situation, a U.S. Holder’s tax basis in the shares of our Class A common stock received generally would equal the U.S. Holder’s tax basis in the warrants exercised therefor. If the cashless exercise were treated as not being a realization event (and not a recapitalization), it is unclear whether a U.S. Holder’s holding period for the shares of our Class A common stock received will commence on the date of exercise of the warrants or the day following the date of exercise of the warrants; in either case, the holding period will not include the period during which the U.S. Holder held the warrants. If the cashless exercise were treated as a recapitalization, the holding period of the shares of our Class A common stock would include the holding period of the warrants.

It is also possible that a cashless exercise may be treated as a taxable exchange in which gain or loss would be recognized. For example, a portion of the warrants to be exercised on a cashless basis could, for U.S. federal income tax purposes, be deemed to have been surrendered in payment of the exercise price of the remaining portion of such

warrants, which will be deemed to be exercised. In such event, a U.S. Holder would be deemed to have surrendered a number of warrants having an aggregate value equal to the total exercise price for the total number of warrants to be exercised. The U.S. Holder would recognize capital gain or loss in an amount equal to the difference between the fair market value of the warrants deemed surrendered (*i.e.*, the total exercise price) and the U.S. Holder's tax basis in such warrants. In this case, a U.S. Holder's tax basis in the shares of our Class A common stock received would equal the sum of the U.S. Holder's initial investment in the warrants exercised (*i.e.*, the portion of the U.S. Holder's purchase price for the units that is allocated to the warrant, as described above under "— Allocation of Purchase Price and Characterization of a Unit") and the exercise price of such warrants. It is unclear whether a U.S. Holder's holding period for the shares of our Class A common stock would commence on the date of exercise of the warrants or the day following the date of exercise of the warrants; in either case, the holding period will not include the period during which the U.S. Holder held the warrant.

Due to the absence of authority on the U.S. federal income tax treatment of a cashless exercise, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, a U.S. Holder should consult its tax advisor regarding the tax consequences of a cashless exercise.

The U.S. federal income tax consequences of a cashless exercise of a warrant occurring after our giving notice of an intention to redeem the warrant for cash as described in the section of this prospectus entitled "Description of Securities — Warrants — Public Stockholders' Warrants" are unclear under current law. In the case of a cashless exercise, the exercise may be treated either as if we redeemed such warrant for shares of Class A common stock or as an exercise of the warrant. If the cashless exercise is treated as a redemption, then, while not free from doubt, such redemption generally should be treated as a tax-deferred "recapitalization" for U.S. federal income tax purposes, in which case a U.S. Holder should not recognize any gain or loss on such redemption, and accordingly, a U.S. Holder's aggregate tax basis in the shares of Class A common stock received should equal the U.S. Holder's aggregate tax basis in the warrants redeemed and the holding period for the shares of Class A common stock received should include the U.S. Holder's holding period of the warrant. Alternatively, if the cashless exercise of a warrant is treated as the exercise of a warrant, the U.S. federal income tax consequences generally should be similar to as described above in the second and third paragraphs under the heading "— U.S. Holders — Exercise, Lapse or Redemption of a Warrant." In the case of an exercise of a warrant for cash, the U.S. federal income tax treatment generally should be as described above in the first paragraph under "— U.S. Holders — Exercise, Lapse or Redemption of a Warrant." Due to the lack of clarity under current law regarding the treatment described in this paragraph, there can be no assurance as to which, if any, of the alternative tax consequences described above would be adopted by the IRS or a court of law. Accordingly, U.S. Holders should consult their tax advisors regarding the tax consequences of the cashless exercise of a warrant occurring after our giving notice of an intention to redeem the warrant as described above.

If we redeem warrants for cash pursuant to the redemption provisions described in the section of this prospectus entitled "Description of Securities — Warrants — Public Stockholders' Warrants" or if we purchase warrants in an open market transaction, such redemption or purchase generally will be treated as a taxable disposition to the U.S. Holder, taxed as described above under "— Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Our Class A Common Stock and Warrants."

Possible Constructive Distributions

The terms of each warrant provide for an adjustment to the number of shares of our Class A common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus captioned "Description of Securities — Warrants — Public Stockholders' Warrants." An adjustment which has the effect of preventing dilution generally is not taxable. The U.S. Holders of the warrants would, however, be treated as receiving a constructive distribution from us if, for example, the adjustment increases the warrant holders' proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of our Class A common stock that would be obtained upon exercise or through a decrease to the exercise price, including, for example, where additional shares of our Class A common stock are issued in connection with the closing of our initial business combination at an issue price of less than \$9.20 and the exercise price of the warrants is adjusted to be equal to 115% of the Newly Issued Price, as described under "Description of Securities — Warrants — Anti-dilution Adjustments") within a three-year period of a distribution of cash or other property to the Holders of shares of our Class A common stock which is taxable to the U.S. Holders of such shares of our Class A common stock as described under "— Taxation of Distributions" above. Such constructive

[Table of Contents](#)

distribution would be subject to tax as described under that section in the same manner as if the U.S. Holders of the warrants received a cash distribution from us equal to the fair market value of such increased interest. For certain information reporting purposes, we are required to determine the date and amount of any such constructive distributions. Proposed Treasury regulations, which we may rely on prior to the issuance of final regulations, specify how we are to determine the date and amount of any such constructive distributions.

Non-U.S. Holders

This section applies to you if you are a “Non-U.S. Holder.” As used herein, the term “Non-U.S. Holder” means a beneficial owner of our units, Class A common stock or warrants that is an individual, corporation, estate or trust and is not a U.S. Holder, but such term generally does not include an individual who is present in the United States for 183 days or more in the taxable year of disposition. If you are such an individual, you should consult your tax advisor regarding the U.S. federal income tax consequences of the sale or other disposition of our securities.

Taxation of Distributions

Any distributions (including constructive distributions) we make to a Non-U.S. Holder of shares of our Class A common stock, to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles), will constitute dividends for U.S. federal income tax purposes.

Provided such dividends are not effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States (and are not attributable to a U.S. permanent establishment under an applicable treaty), we will be required to withhold tax from the gross amount of the dividend at a rate of 30%, unless such

Non-U.S. Holder is eligible for a reduced rate of withholding tax under an applicable income tax treaty and provides proper certification of its eligibility for such reduced rate (usually on an IRS Form W-8BEN or W-8BEN-E, as applicable). In the case of any constructive dividend, it is possible that this tax would be withheld from any amount owed to a Non-U.S. Holder by the applicable withholding agent, including cash distributions on other property or sale proceeds from warrants or other property subsequently paid or credited to such Holder. Any distribution not constituting a dividend will be treated first as reducing (but not below zero) the Non-U.S. Holder’s adjusted tax basis in its shares of our Class A common stock and, to the extent such distribution exceeds the Non-U.S. Holder’s adjusted tax basis, as gain realized from the sale or other disposition of the shares of our Class A common stock, which will be treated as described under “Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Our Class A Common Stock and Warrants” below. In addition, if we determine that we are likely to be classified as a “United States real property holding corporation” (see “Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Our Class A Common Stock and Warrants” below), we will withhold 15% of any distribution that exceeds our current and accumulated earnings and profits, including a distribution in redemption of shares of our Class A common stock. See also “Non-U.S. Holders — Possible Constructive Distributions” for potential U.S. federal tax consequences with respect to constructive distributions.

Dividends that we pay to a Non-U.S. Holder that are effectively connected with such Non-U.S. Holder’s conduct of a trade or business within the United States (and if a tax treaty applies, are attributable to a U.S. permanent establishment or fixed base maintained by the Non-U.S. Holder) generally will not be subject to U.S. withholding tax, provided such Non-U.S. Holder complies with certain certification and disclosure requirements (usually by providing an IRS Form W-8ECI). Instead, the effectively connected income generally will be subject to regular U.S. income tax on a net income basis as if the Non-U.S. Holder were a U.S. resident, unless an applicable income tax treaty provides otherwise. A corporate Non-U.S. Holder receiving effectively connected dividends may also be subject to an additional “branch profits tax” imposed at a rate of 30% (or a lower treaty rate).

Exercise, Lapse or Redemption of a Warrant

The U.S. federal income tax treatment of a Non-U.S. Holder’s exercise of a warrant, or the lapse of a warrant held by a Non-U.S. Holder, generally will correspond to the U.S. federal income tax treatment of the exercise or lapse of a warrant by a U.S. Holder, as described under “U.S. Holders — Exercise, Lapse or Redemption of a Warrant” above, although to the extent a cashless exercise results in a taxable exchange, the consequences would be similar to those described below in “Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Our Class A Common Stock and Warrants.” The U.S. federal income tax treatment for a Non-U.S.

[Table of Contents](#)

Holder of an exercise of a warrant occurring after our giving notice of an intention to redeem the warrant for cash as described in the section of this prospectus entitled “Description of Securities — Warrants — Public Stockholders’ Warrants” generally will correspond to the U.S. federal income tax treatment, as described under “U.S. Holders — Exercise, Lapse or Redemption of a Warrant” above. The U.S. federal income tax treatment for a Non-U.S. Holder of a redemption of warrants for cash (or if we purchase warrants in an open market transaction) would be similar to that described below in “Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Our Class A Common Stock and Warrants.”

Gain on Sale, Taxable Exchange or Other Taxable Disposition of Our Class A Common Stock and Warrants

Subject to the discussion of FATCA and backup withholding below, a Non-U.S. Holder will not be subject to U.S. federal income or withholding tax in respect of gain recognized on a sale, taxable exchange or other taxable disposition of our shares of our Class A common stock (including a dissolution and liquidation if we do not complete an initial business combination within the required time period) or warrants (including an expiration or redemption of our warrants), in each case without regard to whether such securities were held as part of a unit, unless:

- the gain is effectively connected with the conduct of a trade or business by the Non-U.S. Holder within the United States (and, under certain income tax treaties, is attributable to a United States permanent establishment or fixed base maintained by the Non-U.S. Holder); or
- we are or have been a “United States real property holding corporation” for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the Non-U.S. Holder held the applicable security and either (i) in the case where our Class A common stock is or continues to be “regularly traded on an established securities market” (within the meaning of the U.S. Treasury regulations, referred to herein as “regularly traded”), the Non-U.S. Holder, directly or constructively, owns, or has owned at any time during the shorter of the five-year period ending on the date of disposition or such Non-U.S. Holder’s holding period for the applicable security, (A) more than 5% of our Class A common stock or (B) more than 5% of the warrants, provided the warrants are considered to be regularly traded, as applicable or (ii) in the case where our Class A common stock were not considered to be regularly traded on an established securities market a Non-U.S. Holder owns any percentage of our stock or warrants. It is unclear how a Non-U.S. Holder’s ownership of warrants will affect the determination of whether such Non-U.S. Holder owns more than 5% of our Class A common stock. In addition, special rules may apply in the case of a disposition of units or warrants if our Class A common stock is considered to be regularly traded, but our warrants are not considered to be regularly traded. We can provide no assurance as to our future status as a United States real property holding corporation or as to whether our Class A common stock or warrants will be treated as regularly traded. If we are or have been a “United States real property holding corporation” and you own warrants, you are urged to consult your own tax advisor regarding the application of these rules.

Unless an applicable treaty provides otherwise, gain described in the first bullet point above will be subject to tax at applicable U.S. federal income tax rates as if the Non-U.S. Holder were a United States person. Any gains described in the first bullet point above of a Non-U.S. Holder that is a corporation for U.S. federal income tax purposes may also be subject to an additional “branch profits tax” at a 30% rate (or lower treaty rate).

If the second bullet point above applies to a Non-U.S. Holder, gain recognized by such Holder on the sale, exchange or other disposition of our Class A common stock or warrants will be subject to tax at applicable U.S. federal income tax rates as if the Non-U.S. Holder were a United States person. In addition, a buyer of our Class A common stock or warrants from such Holder will generally be required to withhold U.S. federal income tax at a rate of 15% of the gross proceeds from such disposition. We cannot determine whether we will be a United States real property holding corporation in the future until we complete an initial business combination. We will be classified as a United States real property holding corporation if the fair market value of our “United States real property interests” equals or exceeds 50% of the sum of the fair market value of our worldwide real property interests plus our other assets used or held for use in a trade or business, as determined for U.S. federal income tax purposes.

Redemption of Our Class A Common Stock

The characterization for U.S. federal income tax purposes of the redemption of a Non-U.S. Holder's shares of our Class A common stock pursuant to the redemption provisions described in the section of this prospectus entitled "Description of Securities — Common Stock" will correspond to the U.S. federal income tax characterization of such a redemption of a U.S. Holder's shares of our Class A common stock, as described under "U.S. Holders — Redemption of Our Class A Common Stock" above, and the consequences of the redemption to the Non-U.S. Holder will be as described above under "Non-U.S. Holders — Taxation of Distributions" and "Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Our Class A Common Stock and Warrants," as applicable.

Possible Constructive Distributions

The terms of each warrant provide for an adjustment to the number of shares of our Class A common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus captioned "Description of Securities — Warrants — Public Stockholders' Warrants." An adjustment which has the effect of preventing dilution generally is not taxable. The Non-U.S. Holders of the warrants would, however, be treated as receiving a constructive distribution from us if, for example, the adjustment increases the warrant holders' proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of our Class A common stock that would be obtained upon exercise or through a decrease to the exercise price, including, for example, where additional shares of our Class A common stock are issued in connection with the closing of our initial business combination at an issue price of less than \$9.20 and the exercise price of the warrants is adjusted to be equal to 115% of the Newly Issued Price, as described under "Description of Securities — Warrants — Anti-dilution Adjustments") within a three-year period of a distribution of cash or other property to the Holders of shares of our Class A common stock which is taxable to the Non-U.S. Holders of such shares of our Class A common stock as described under "Non U.S. Holders — Taxation of Distributions" above. Such constructive distribution would be subject to tax as described under that section in the same manner as if the Non-U.S. Holders of the warrants received a cash distribution from us equal to the fair market value of such increased interest. For certain information reporting purposes, we are required to determine the date and amount of any such constructive distributions. Proposed Treasury regulations, which we may rely on prior to the issuance of final regulations, specify how we are to determine the date and amount of any such constructive distributions.

Information Reporting and Backup Withholding

Dividend payments with respect to our Class A common stock and proceeds from the sale, exchange or redemption of shares of our Class A common stock or warrants may be subject to information reporting to the IRS and possible U.S. backup withholding. Backup withholding will not apply, however, to a U.S. Holder who furnishes a correct taxpayer identification number and makes other required certifications, or who is otherwise exempt from backup withholding and establishes such exempt status. A Non-U.S. Holder generally will eliminate the requirement for information reporting and backup withholding by providing certification of its foreign status, under penalties of perjury, on a duly executed applicable IRS Form W-8 or by otherwise establishing an exemption.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a Holder's U.S. federal income tax liability, and a Holder generally may obtain a refund of any excess amounts withheld under the backup withholding rules by timely filing the appropriate claim for refund with the IRS and furnishing any required information.

FATCA Withholding Taxes

Sections 1471 through 1474 of the Code and the Treasury Regulations and administrative guidance promulgated thereunder (commonly referred to as the "Foreign Account Tax Compliance Act" or "FATCA") impose withholding tax at a rate of 30% on payments of dividends (including constructive dividends) and, subject to the proposed Treasury Regulations discussed below, on proceeds from sales or other disposition of shares of our Class A common stock paid to "foreign financial institutions" (which is broadly defined for this purpose and includes investment vehicles) and certain other non-U.S. entities unless various U.S. information reporting and due diligence requirements (relating to ownership by U.S. persons of interests in or accounts with those entities) have been satisfied or an exemption applies (typically certified to by the delivery of a properly completed

[Table of Contents](#)

IRS Form W-8BEN-E). If FATCA withholding is imposed, a beneficial owner that is not a foreign financial institution will be entitled to a refund of any amounts withheld by filing a U.S. federal income tax return (which may entail significant administrative burden). Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

Similarly, dividends and, subject to the proposed Treasury Regulations discussed below, proceeds from sales or other disposition in respect of our units held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exceptions will be subject to withholding tax at a rate of 30%, unless such entity either (i) certifies to us or the applicable withholding agent that such entity does not have any “substantial United States owners” (as defined in Section 1473(2) of the Code) or (ii) provides certain information regarding the entity’s “substantial United States owners,” which will in turn be provided to the U.S. Department of the Treasury. The U.S. Department of the Treasury has proposed regulations which eliminate the U.S. federal withholding tax at a rate of 30% applicable to the gross proceeds of a sale or other disposition of our Class A common stock. Withholding agents may rely on the proposed Treasury Regulations until final regulations are issued. Prospective investors should consult their own tax advisor regarding the effects of FATCA on their investment in our securities.

THE U.S. FEDERAL INCOME TAX DISCUSSION SET FORTH ABOVE IS INCLUDED FOR GENERAL INFORMATION ONLY AND MAY NOT BE APPLICABLE DEPENDING UPON A HOLDER’S PARTICULAR SITUATION. HOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS WITH RESPECT TO THE TAX CONSEQUENCES TO THEM OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR UNITS, CLASS A COMMON STOCK AND WARRANTS, INCLUDING THE TAX CONSEQUENCES UNDER STATE, LOCAL, ESTATE, NON-U.S. AND OTHER TAX LAWS AND TAX TREATIES AND THE POSSIBLE EFFECTS OF CHANGES IN U.S. OR OTHER TAX LAWS.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated _____, 2021, we have agreed to sell to the underwriters, and each underwriter named below has severally agreed to purchase the following respective numbers of units:

Underwriters	Number of Units
Barclays Capital Inc.	
BofA Securities, Inc.	
Total	25,000,000

The underwriting agreement provides that the underwriters are obligated to purchase all the units in this offering if any are purchased, other than those units covered by the over-allotment option described below.

We have granted to the underwriters a 45-day option to purchase on a pro rata basis up to 3,750,000 additional units at the initial public offering price, less the underwriting discounts and commissions. The option may be exercised only to cover any over-allotments of units.

The underwriters propose to offer the units initially at the public offering price on the cover page of this prospectus and to selling group members at that price less a selling concession of \$ _____ per unit.

The following table summarizes the compensation and estimated expenses we will pay.

	Per Unit ⁽¹⁾⁽²⁾		Total ⁽¹⁾⁽²⁾	
	Without	With	Without	With
	Over-allotment	Over-allotment	Over-allotment	Over-allotment
Underwriting Discounts and Commissions paid by us	0.55	0.55	13,750,000	15,812,500

- (1) Includes \$0.35 per unit, or \$8,750,000 (or \$10,062,500 if the over-allotment option is exercised in full) in the aggregate payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States as described herein. The deferred commissions will be released to the underwriters only on completion of an initial business combination, in an amount equal to \$0.35 multiplied by the number of shares of our Class A common stock sold as part of the units in this offering, as described in this prospectus.
- (2) Our anchor investors have expressed to us an interest to purchase an aggregate of 2,000,000 units (or 2,300,000 units if the underwriters' over-allotment option is exercised in full) in this offering. Because these expressions of interest are not binding agreements or commitments to purchase, our anchor investors may determine to purchase more, fewer or no units in this offering or the underwriters may determine to sell more, fewer or no units to our anchor investors. These figures assume the anchor investors do not purchase any units in this offering. There will be no underwriting discount or commission paid on any units the anchor investors may purchase in this offering.

We estimate that our non-reimbursed out-of-pocket expenses for this offering will be approximately \$1,500,000. We have agreed to pay for the Financial Industry Regulatory Authority ("FINRA")-related fees and expenses of the underwriters' legal counsel, not to exceed \$25,000.

The underwriters have informed us that they do not intend to make sales to discretionary accounts. We, our sponsor and our officers and directors have agreed not to offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, without the prior written consent of Barclays Capital Inc. and BofA Securities, Inc. for a period of 180 days after the date of this prospectus, any units, warrants, Class A common stock or any other securities convertible into, or exercisable, or exchangeable for, Class A common stock; provided, however, that we may (1) issue and sell the private placement warrants; (2) issue and sell the additional units to cover our underwriters' over-allotment option (if any); (3) register with the SEC pursuant to the registration and stockholders rights agreement, to be entered into concurrently with the issuance and sale of the securities in this offering, the resale of the private placement warrants and the Class A common stock issuable upon exercise of the warrants and the founder shares; and (4) issue securities in connection with our initial business combination. However, the foregoing shall not apply to the forfeiture of any founder shares pursuant to their terms or any transfer of founder shares to any current or future independent director of the company (as long as such current or future independent director is subject to the terms of the letter agreement, filed herewith, at the time of such transfer; and as long as, to the extent any Section 16 reporting obligation is triggered as a result of such transfer, any related Section 16 filing

[Table of Contents](#)

includes a practical explanation as to the nature of the transfer). Barclays Capital Inc. and BofA Securities, Inc. in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice. Our sponsor and our officers and directors are also subject to transfer restrictions on their founder shares and private placement warrants pursuant to the letter agreement described herein.

Our sponsor, directors, each member of our management team and the anchor investors have agreed not to transfer, assign or sell any of their founder shares and any Class A common stock issued upon conversion thereof until the earlier to occur of (A) one year after the completion of our initial business combination; or (B) subsequent to completion of our initial business combination, (x) the date on which the last reported sale price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalization, stock dividends, rights issuances, subdivisions reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property (except with respect to permitted transferees as described herein under “Principal Stockholders — Restrictions on Transfers of Founder Shares and Private Placement Warrants”). Any permitted transferees would be subject to the same restrictions and other agreements of our sponsor, directors, each member of our management team and the anchor investors with respect to any founder shares.

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except with respect to permitted transferees as described herein under “Principal Stockholders — Restrictions on Transfers of Founder Shares and Private Placement Warrants”).

We have agreed to indemnify the underwriters against certain liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

We intend to apply to have our units listed on the Nasdaq, under the symbol “XPDIU” and, once the Class A common stock and warrants begin separate trading, we expect that our Class A common stock and warrants will be listed on the Nasdaq under the symbols “XPDI” and “XPDIW,” respectively.

Prior to this offering, there has been no public market for our securities. Consequently, the initial public offering price for the units was determined by negotiations between us and the underwriters.

The determination of our per unit offering price was more arbitrary than would typically be the case if we were an operating company. Among the factors considered in determining the initial public offering price were the history and prospects of companies whose principal business is the acquisition of other companies, prior offerings of those companies, our management, our capital structure and currently prevailing general conditions in equity securities markets, including current market valuations of publicly traded companies considered comparable to our company. We cannot assure you, however, that the price at which the units, Class A common stock or warrants will sell in the public market after this offering will not be lower than the initial public offering price or that an active trading market in our units, Class A common stock or warrants will develop and continue after this offering.

If we do not complete our initial business combination within 24 months from the closing of this offering, the trustee and the underwriters have agreed that: (1) they will forfeit any rights or claims to their deferred underwriting discounts and commissions, including any accrued interest thereon, then in the trust account; and (2) the deferred underwriters’ discounts and commissions will be distributed on a pro rata basis, together with any accrued interest thereon (which interest shall be net of taxes payable by us) to the public stockholders.

In connection with this offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- Over-allotment involves sales by the underwriters of units in excess of the number of units the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of

[Table of Contents](#)

units over-allotted by the underwriters is not greater than the number of units that they may purchase in the over-allotment option. In a naked short position, the number of units involved is greater than the number of units in the over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option and/or purchasing units in the open market.

- Syndicate covering transactions involve purchases of the units in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of units to close out the short position, the underwriters will consider, among other things, the price of units available for purchase in the open market as compared to the price at which they may purchase units through the over-allotment option. If the underwriters sell more units than could be covered by the over-allotment option (a naked short position), the position can only be closed out by buying units in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the units in the open market after pricing that could adversely affect investors who purchase in this offering.
- Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the units originally sold by the syndicate member are purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our units or preventing or retarding a decline in the market price of the units. As a result, the price of our units may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the Nasdaq or otherwise and, if commenced, may be discontinued at any time.

We are not under any contractual obligation to engage any of the underwriters to provide any services for us after this offering and have no present intent to do so. However, any of the underwriters may introduce us to potential target businesses or assist us in raising additional capital in the future. If any of the underwriters provide services to us after this offering, we may pay such underwriter fair and reasonable fees that would be determined at that time in an arm's length negotiation; provided that no agreement will be entered into with any of the underwriters and no fees for such services will be paid to any of the underwriters prior to the date that is 90 days from the date of this prospectus, unless FINRA determines that such payment would not be deemed underwriters' compensation in connection with this offering, and we may pay the underwriters of this offering or any entity with which they are affiliated, a finder's fee or other compensation for services rendered to us in connection with the completion of a business combination.

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

A prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters, or selling group members, if any, participating in this offering and one or more of the underwriters participating in this offering may distribute prospectuses electronically. The underwriters may agree to allocate a number of units to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

The units are offered for sale in the United States, Europe, Asia and other jurisdictions where it is lawful to make such offers.

[Table of Contents](#)

Each of the underwriters has represented and agreed that it has not offered, sold or delivered and will not offer, sell or deliver any of the units directly or indirectly, or distribute this prospectus or any other offering material relating to the units, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof and that will not impose any obligations on us except as set forth in the underwriting agreement.

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area (each a “Member State”), no Shares have been offered or will be offered pursuant to this offering to the public in that Member State prior to the publication of a prospectus in relation to the Shares which has been approved by the competent authority in that Member State or, where appropriate, approved in another Member State and notified to the competent authority in that Member State, all in accordance with the Prospectus Regulation), except that offers of Shares may be made to the public in that Member State at any time under the following exemptions under the Prospectus Regulation:

- (a) to any legal entity which is a qualified investor as defined under the Prospectus Regulation;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined under the Prospectus Regulation), subject to obtaining the prior consent of the underwriters for any such offer; or
- (c) in any other circumstances falling within Article 1(4) of the Prospectus Regulation, provided that no such offer of Shares shall require the Issuer or any Manager to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an “offer to the public” in relation to any Shares in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any Shares to be offered so as to enable an investor to decide to purchase or subscribe for any Shares, and the expression “Prospectus Regulation” means Regulation (EU) 2017/1129.

Notice to Prospective Investors in the United Kingdom

Each of the underwriters severally represents, warrants and agrees as follows:

- a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of FSMA) to persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 or in circumstances in which section 21 of FSMA does not apply to the company; and b) it has complied with, and will comply with all applicable provisions of FSMA with respect to anything done by it in relation to the units in, from or otherwise involving the United Kingdom.

Notice to Residents of Japan

The underwriters will not offer or sell any of our units directly or indirectly in Japan or to, or for the benefit of any Japanese person or to others, for re-offering or re-sale directly or indirectly in Japan or to any Japanese person, except in each case pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law of Japan and any other applicable laws and regulations of Japan. For purposes of this paragraph, “Japanese person” means any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

Notice to Residents of Hong Kong

The underwriters and each of their affiliates have not (1) offered or sold, and will not offer or sell, in Hong Kong, by means of any document, our units other than (A) to “professional investors” as defined in the Securities and Futures Ordinance (Cap.571) of Hong Kong and any rules made under that Ordinance or (B) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies Ordinance (Cap. 32 of Hong Kong) or which do not constitute an offer to the public within the meaning of that Ordinance

[Table of Contents](#)

or (2) issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere any advertisement, invitation or document relating to our units which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to our securities which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the Securities and Futures Ordinance and any rules made under that Ordinance. The contents of this document have not been reviewed by any regulatory authority in Hong Kong. You are advised to exercise caution in relation to the offer. If you are in any doubt about any of the contents of this document, you should obtain independent professional advice.

Notice to Residents of Singapore

This prospectus or any other offering material relating to our units has not been and will not be registered as a prospectus with the Monetary Authority of Singapore, and the units will be offered in Singapore pursuant to exemptions under Section 274 and Section 275 of the Securities and Futures Act, Chapter 289 of Singapore (the “Securities and Futures Act”). Accordingly our units may not be offered or sold, or be the subject of an invitation for subscription or purchase, nor may this prospectus or any other offering material relating to our units be circulated or distributed, whether directly or indirectly, to the public or any member of the public in Singapore other than (a) to an institutional investor or other person specified in Section 274 of the Securities and Futures Act, (b) to a sophisticated investor, and in accordance with the conditions specified in Section 275 of the Securities and Futures Act or (c) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the Securities and Futures Act.

Notice to Residents of Germany

Each person who is in possession of this prospectus is aware that no German sales prospectus (Verkaufsprospekt) within the meaning of the Securities Sales Prospectus Act (Wertpapier-Verkaufsprospektgesetz, the “Act”) of the Federal Republic of Germany has been or will be published with respect to our units. In particular, each underwriter has represented that it has not engaged and has agreed that it will not engage in a public offering (öffentlicher Angebot) within the meaning of the Act with respect to any of our units otherwise than in accordance with the Act and all other applicable legal and regulatory requirements.

Notice to Residents of France

The units are being issued and sold outside the Republic of France and that, in connection with their initial distribution, it has not offered or sold and will not offer or sell, directly or indirectly, any units to the public in the Republic of France, and that it has not distributed and will not distribute or cause to be distributed to the public in the Republic of France this prospectus or any other offering material relating to the units, and that such offers, sales and distributions have been and will be made in the Republic of France only to qualified investors (investisseurs qualifiés) in accordance with Article L.411-2 of the Monetary and Financial Code and décret no. 98-880 dated October 1, 1998.

Notice to Residents of the Netherlands

Our units may not be offered, sold, transferred or delivered in or from the Netherlands as part of their initial distribution or at any time thereafter, directly or indirectly, other than to, individuals or legal entities situated in The Netherlands who or which trade or invest in securities in the conduct of a business or profession (which includes banks, securities intermediaries (including dealers and brokers), insurance companies, pension funds, collective investment institution, central governments, large international and supranational organizations, other institutional investors and other parties, including treasury departments of commercial enterprises, which as an ancillary activity regularly invest in securities; hereinafter, “Professional Investors”); provided that in the offer, prospectus and in any other documents or advertisements in which a forthcoming offering of our units is publicly announced (whether electronically or otherwise) in The Netherlands it is stated that such offer is and will be exclusively made to such Professional Investors. Individual or legal entities who are not Professional Investors may not participate in the offering of our units, and this prospectus or any other offering material relating to our units may not be considered an offer or the prospect of an offer to sell or exchange our units.

Notice to Prospective Investors in the Cayman Islands

No invitation, whether directly or indirectly, may be made to the public in the Cayman Islands to subscribe for our units.

Notice to Canadian Residents

The Units may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Units must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts ("NI 33-105"), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

LEGAL MATTERS

Kirkland & Ellis LLP, Houston, Texas will pass upon the validity of the securities offered in this prospectus with respect to units and warrants. Vinson & Elkins L.L.P., Houston, Texas advised the underwriters in connection with this offering of the securities.

EXPERTS

The financial statements of Power & Digital Infrastructure Acquisition Corp. as of December 31, 2020 and for the period from December 29, 2020 (inception) through December 31, 2020 appearing in this prospectus have been audited by Marcum LLP, independent registered public accounting firm, as set forth in their report, thereon (which contains an explanatory paragraph relating to substantial doubt about the ability of Power & Digital Infrastructure Acquisition Corp. to continue as a going concern as described in Note 1 to the financial statements), appearing elsewhere in this prospectus, and are included in reliance on such report given on the authority of such firm as experts in auditing and accounting.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the securities we are offering by this prospectus. This prospectus does not contain all of the information included in the registration statement. For further information about us and our securities, you should refer to the registration statement and the exhibits and schedules filed with the registration statement. Whenever we make reference in this prospectus to any of our contracts, agreements or other documents, the references are materially complete but may not include a description of all aspects of such contracts, agreements or other documents, and you should refer to the exhibits attached to the registration statement for copies of the actual contract, agreement or other document.

Upon completion of this offering, we will be subject to the information requirements of the Exchange Act and will file annual, quarterly and current event reports, proxy statements and other information with the SEC. You can read our SEC filings, including the registration statement, over the Internet at the SEC's website at www.sec.gov. We currently do not have a website, and therefore do not make our public filings available on such a website. Upon request, we will provide electronic copies of our public filings free of charge.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of
Power & Digital Infrastructure Acquisition Corp.

Opinion on the Financial Statements

We have audited the accompanying balance sheet of Power & Digital Infrastructure Acquisition Corp. (the “Company”) as of December 31, 2020, the related statement of operations, stockholders’ equity and cash flows for the period from December 29, 2020 (inception) through December 31, 2020, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2020, and the results of its operations and its cash flows for the period from December 29, 2020 (inception) through December 31, 2020, in conformity with accounting principles generally accepted in the United States of America.

Explanatory Paragraph — Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As more fully described in Note 1 to the financial statements, the Company’s ability to execute its business plan is dependent upon its completion of the proposed initial public offering described in Note 3 to the financial statements. The Company has a working capital deficiency as of December 31, 2020 and lacks the financial resources it needs to sustain operations for a reasonable period of time, which is considered to be one year from the issuance date of the financial statements. These conditions raise substantial doubt about the Company’s ability to continue as a going concern. Management’s plans in regard to these matters are also described in Notes 1 and 3. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

**POWER & DIGITAL INFRASTRUCTURE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 1 — Description of Organization, Business Operations, Going Concern and Basis of Presentation

Power & Digital Infrastructure Acquisition Corp. (the “Company”) is a blank check company incorporated in Delaware on December 29, 2020. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities (the “Business Combination”). The Company is an emerging growth company and, as such, the Company is subject to all of the risks associated with emerging growth companies.

As of December 31, 2020, the Company had not commenced any operations. All activity for the period from December 29, 2020 (inception) through December 31, 2020 relates to the Company’s formation and the proposed initial public offering described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the Proposed Public Offering (as defined below). The Company has selected December 31 as its fiscal year end.

The Company’s sponsor is XPDI Sponsor LLC, a Delaware limited liability company (the “Sponsor”). The Company’s ability to commence operations is contingent upon obtaining adequate financial resources through a proposed public offering (the “Proposed Public Offering”) of 25,000,000 units of the Company (each, a “Unit” and collectively, the “Units”) at \$10.00 per Unit (or 28,750,000 Units if the underwriters’ over-allotment option is exercised in full), which is discussed in Note 3, and the sale of an aggregate of 5,000,000 warrants of the Company (or 5,500,000 warrants if the underwriters’ over-allotment option is exercised in full) (each, a “Private Placement Warrant” and collectively, the “Private Placement Warrants”), at a price of \$1.50 per Private Placement Warrant in a private placement to the Sponsor and certain funds and accounts managed by subsidiaries of BlackRock, Inc. (the “Anchor Investors”), that will close simultaneously with the Proposed Public Offering.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Proposed Public Offering and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete one or more initial Business Combinations having an aggregate fair market value of at least 80% of the net assets held in the Trust Account (as defined below) (excluding the deferred underwriting commissions and taxes payable by us on the income earned on the trust account) at the time of the agreement to enter into the initial Business Combination. However, the Company only intends to complete a Business Combination if the post-transaction company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act 1940, as amended (the “Investment Company Act”). Upon the closing of the Proposed Public Offering, management has agreed that an amount equal to at least \$10.00 per Unit sold in the Proposed Public Offering, including the proceeds from the sale of the Private Placement Warrants, will be held in a trust account (“Trust Account”) located in the United States with Continental Stock Transfer & Trust Company acting as trustee, and invested only in U.S. “government securities,” within the meaning of Section 2(a)(16) of the Investment Company Act, having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act, which invest only in direct U.S. government treasury obligations, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

The Company will provide the holders (the “Public Stockholders”) of the Company’s issued and outstanding shares of Class A common stock, par value \$0.0001 per share, sold in the Proposed Public Offering (the “Public Shares”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then held in the Trust Account (initially anticipated to be \$10.00 per Public Share). The per-share amount to be distributed to Public Stockholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will

**POWER & DIGITAL INFRASTRUCTURE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 1 — Description of Organization, Business Operations, Going Concern and Basis of Presentation (cont.)

pay to the underwriters (as discussed in Note 5). These Public Shares will be recorded at a redemption value and classified as temporary equity upon the completion of the Proposed Public Offering in accordance with the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." If the Company seeks stockholder approval, the Company will proceed with a Business Combination if a majority of the outstanding shares are voted by the stockholders at a stockholders meeting to approve the Business Combination, unless applicable law, the Company's corporate governing documents or applicable stock exchange rules require a different vote, in which case the Company will complete its Business Combination only if such requisite vote is received. The Company will not redeem the Public Shares in connection with a Business Combination in an amount that would cause its net tangible assets to be less than \$5,000,001. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation (the "Certificate of Incorporation"), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission ("SEC") and file tender offer documents with the SEC prior to completing a Business Combination. If, however, stockholder approval of the transaction is required by law, or the Company decides to obtain stockholder approval for business or legal reasons, the Company will offer to redeem the Public Shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Additionally, each Public Stockholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction. If the Company seeks stockholder approval in connection with a Business Combination, the initial stockholders (as defined below) will agree to vote their Founder Shares (as defined below in Note 4) and any Public Shares purchased during or after the Proposed Public Offering in favor of a Business Combination. In addition, the initial stockholders will agree to waive their redemption rights with respect to their Founder Shares and Public Shares in connection with the completion of a Business Combination.

The Certificate of Incorporation provides that a Public Stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Public Shares, without the prior consent of the Company.

The holders of the Founder Shares (the "initial stockholders") will agree not to propose an amendment to the Certificate of Incorporation (A) to modify the substance or timing of the Company's obligation to provide holders of shares of Class A common stock the right to have their shares redeemed in connection with a Business Combination or to redeem 100% of the Public Shares if the Company does not complete a Business Combination within the Combination Period (as defined below) or (B) with respect to any other provision relating to the rights of holders of Class A common stock, unless the Company provides the Public Stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

If the Company is unable to complete a Business Combination within 24 months from the closing of the Proposed Public Offering (the "Combination Period") and the Company's stockholders have not amended the Certificate of Incorporation to extend such Combination Period, the Company will (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than 10 business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable by us), divided by the number of then issued and outstanding Public Shares, which redemption will completely extinguish Public Stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any); and (3) as promptly as reasonably possible following such redemption, subject to the approval of the remaining stockholders and the Company's board of directors, liquidate and dissolve, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

The initial stockholders and Anchor Investors will agree to waive their rights to liquidating distributions from the Trust Account with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the initial stockholders and Anchor Investors acquire Public Shares in or after the Proposed Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such Public Shares if the Company fails to complete a Business Combination within the Combination

**POWER & DIGITAL INFRASTRUCTURE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 1 — Description of Organization, Business Operations, Going Concern and Basis of Presentation (cont.)

Period. The underwriters will agree to waive their rights to the deferred underwriting commission (see Note 5) held in the Trust Account in the event the Company does not complete a Business Combination within in the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be only \$10.00. In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party (except for the Company's independent registered public accounting firm) for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement (a "Target"), reduce the amount of funds in the Trust Account to below (i) \$10.00 per Public Share or (ii) the lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of the trust assets, in each case net of interest which may be withdrawn to pay taxes, provided that such liability will not apply to any claims by a third party or Target that executed a waiver of any and all rights to seek access to the Trust Account nor will it apply to any claims under the Company's indemnity of the underwriters of the Proposed Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). In the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (other than the Company's independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Going Concern Consideration

As of December 31, 2020, the Company had no cash and a working capital deficit of approximately \$400. Further, the Company has incurred and expects to continue to incur significant costs in pursuit of its financing and acquisition plans. The Company lacks the financial resources it needs to sustain operations for a reasonable period of time, which is considered to be one year from the issuance date of the financial statements. Management's plans to address this need for capital through the Proposed Public Offering. The Company cannot assure that its plans to raise capital or to consummate an initial Business Combination will be successful. In addition, management is currently evaluating the impact of the COVID-19 pandemic on the industry and its effect on the Company's financial position, results of its operations and/or closing the initial public offering or search for a target company.

These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern one year from the date these financial statements are issued. The financial statements do not include any adjustments that might result from its inability to consummate the Proposed Public Offering or its inability to continue as a going concern.

Basis of Presentation

The accompanying financial statements are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and pursuant to the rules and regulations of the SEC.

Emerging Growth Company

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

**POWER & DIGITAL INFRASTRUCTURE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 1 — Description of Organization, Business Operations, Going Concern and Basis of Presentation (cont.)

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Note 2 — Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from those estimates.

Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under FASB ASC 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the balance sheet.

Deferred Offering Costs Associated with the Proposed Public Offering

Deferred offering costs consist of legal, accounting, and other costs incurred through the balance sheet date that are directly related to the Proposed Public Offering and that will be charged to stockholders' equity upon the completion of the Proposed Public Offering. Should the Proposed Public Offering prove to be unsuccessful, these deferred costs, as well as additional expenses to be incurred, will be charged to operations.

Net Loss Per Share of Common Stock

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, "Earnings Per Share." Net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period excluding shares of common stock subject to forfeiture. Weighted average shares were reduced for the effect of an aggregate of 937,500 shares of Class B common stock that are subject to forfeiture if the over-allotment option is not exercised by the underwriters (Note 5). At December 31, 2020, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the period presented.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under FASB ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

**POWER & DIGITAL INFRASTRUCTURE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 2 — Summary of Significant Accounting Policies (cont.)

The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. Deferred tax assets were deemed immaterial as of December 31, 2020.

FASB ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of December 31, 2020. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties as of December 31, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

Recent Accounting Pronouncements

The Company's management does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the accompanying financial statements.

Note 3 — Proposed Public Offering

Pursuant to the Proposed Public Offering, the Company offered for sale 25,000,000 Units at a price of \$10.00 per Unit. Each Unit consists of one share of Class A common stock, and one-third of one redeemable warrant (each, a "Public Warrant"). Each Public Warrant entitles the holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 6).

The Company has granted the underwriters a 45-day option from the date of the final prospectus relating to the Proposed Public Offering to purchase up to 3,750,000 additional Units to cover over-allotments, if any, at the Proposed Public Offering price, less underwriting discounts and commissions.

Note 4 — Related Party Transactions

Founder Shares

On December 31, 2020, the Sponsor paid \$25,000 to cover for certain offering costs on behalf of the Company in exchange for issuance of 7,187,500 shares of the Company's Class B common stock, par value \$0.0001 per share, (the "Founder Shares"). In January 2021, the Sponsor agreed to sell to the Anchor Investors 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) and the Anchor Investors agreed to purchase from the Sponsor on the date of the initial business combination an aggregate of 1,125,000 founder shares (or 1,293,750 founder shares if the underwriters' over-allotment option is exercised in full) for an aggregate purchase price of approximately \$3,913 (or \$4,500 if the underwriters' over-allotment option is exercised in full), or approximately \$0.003 per share. The initial stockholders have agreed to forfeit up to an aggregate of 937,500 Founder Shares. The forfeiture will be adjusted to the extent that the over-allotment option is not exercised in full by the underwriters so that the Founder Shares will represent 20.0% of the Company's issued and outstanding shares after the Proposed Public Offering.

The initial stockholders and the Anchor Investors will agree, subject to limited exceptions, not to transfer, assign or sell any of the Founder Shares until the earlier to occur of: (A) one year after the completion of the initial Business Combination; and (B) subsequent to the initial Business Combination (x) if the last reported sale price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20-trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination or (y) the date on which the Company completes a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property. Any permitted transferees would be subject to the same restrictions and other agreements of the initial stockholders and the Anchor Investors with respect to any Founder Shares.

**POWER & DIGITAL INFRASTRUCTURE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 4 — Related Party Transactions (cont.)

Private Placement Warrants

The Sponsor and the Anchor Investors will agree to purchase an aggregate of 5,000,000 Private Placement Warrants (or 5,500,000 Private Placement Warrants if the underwriters' over-allotment option is exercised in full), at a price of \$1.50 per Private Placement Warrant, or \$7.5 million in the aggregate (or approximately \$8.3 million if the underwriters' over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of the Proposed Public Offering.

Each Private Placement Warrant is exercisable for one whole share of Class A common stock at a price of \$11.50 per share. A portion of the proceeds from the sale of the Private Placement Warrants to the Sponsor will be added to the proceeds from the Proposed Public Offering to be held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the Private Placement Warrants will expire worthless.

The purchasers of the Private Placement Warrants will agree, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants (except to permitted transferees) until 30 days after the completion of the initial Business Combination.

Related Party Loans

On December 31, 2020, the Sponsor agreed to loan the Company an aggregate of up to \$300,000 to cover expenses related to the Proposed Public Offering pursuant to a promissory note (the "Note"). This loan is non-interest bearing and payable on the earlier of June 30, 2021 or the completion of the Proposed Public Offering. As of December 31, 2020, the Company had not borrowed any amount under the Note.

In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination or, at the lender's discretion, up to \$1.5 million of such Working Capital Loans may be convertible into warrants of the post Business Combination entity at a price of \$1.50 per warrant. The warrants would be identical to the Private Placement Warrants. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. To date, the Company had no borrowings under the Working Capital Loans.

Administrative Services Agreement

The Company has entered into an agreement that provides that, commencing on the date that the Company's securities are first listed on the Nasdaq through the earlier of consummation of the initial Business Combination and the Company's liquidation, the Company will pay affiliates of the Sponsor a total of \$20,000 per month for office space, administrative and support services.

The Sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on the Company's behalf such as identifying potential target businesses and performing due diligence on suitable Business Combinations. The Company's audit committee will review on a quarterly basis all payments that were made by us to the Sponsor, directors, officers or the Company's or any of their affiliates.

**POWER & DIGITAL INFRASTRUCTURE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 4 — Related Party Transactions (cont.)

Business Combination Payments

The Company may make a cash payment to XMS Capital or its affiliates for any financial advisory, placement agency or other similar investment banking services that XMS Capital or its affiliates may provide to the Company, in connection with its initial Business Combination, and reimburse XMS Capital or its affiliates for any out-of-pocket expenses incurred by them in connection with the performance of such services.

Note 5 — Commitments & Contingencies

Registration Rights

The holders of Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans, if any (and any shares of common stock issuable upon the exercise of the Private Placement Warrants or warrants issued upon conversion of the Working Capital Loans and upon conversion of the Founder Shares), will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to the consummation of the Proposed Public Offering. These holders will be entitled to certain demand and “piggyback” registration rights. However, the registration rights agreement provides that we will not be required to effect or permit any registration or cause any registration statement to become effective until termination of the applicable lock-up period. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The underwriters are entitled to an underwriting discount of \$0.20 per Unit, or \$5.0 million in the aggregate (or \$5.75 million in the aggregate if the underwriters’ over-allotment option is exercised in full), payable upon the closing of the Proposed Public Offering. An additional fee of \$0.35 per Unit, or \$8.75 million in the aggregate (or approximately \$10.1 million in the aggregate if the underwriters’ over-allotment option is exercised in full) will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

Risks and Uncertainties

Management is currently evaluating the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company’s financial position, results of its operations and/or closing the initial public offering or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Note 6 — Stockholder’s Equity

Class A Common Stock — The Company is authorized to issue 500,000,000 shares of Class A common stock with a par value of \$0.0001 per share. As of December 31, 2020, there were no shares of Class A common stock issued or outstanding.

Class B Common Stock — The Company is authorized to issue 50,000,000 shares of Class B common stock with a par value of \$0.0001 per share. On December 31, 2020, the Company issued 7,187,500 shares of Class B common stock to the Company by the Sponsor for an aggregate price of \$25,000, including an aggregate of up to 937,500 shares of Class B common stock that are subject to forfeiture to the extent that the underwriter’s over-allotment option is not exercised in full or in part, so that the initial stockholders will collectively own 20% of the Company’s issued and outstanding common stock after the Proposed Public Offering. All shares and associated amounts have been retroactively restated to reflect the stock split.

**POWER & DIGITAL INFRASTRUCTURE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 6 — Stockholder’s Equity (cont.)

Common stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders and vote together as a single class, except as required by law; provided, that, prior to the Company’s initial Business Combination, holders of the Class B common stock will have the right to appoint all of the Company’s directors and remove members of the board of directors for any reason, and holders of the Class A common stock will not be entitled to vote on the appointment of directors during such time.

The Class B common stock will automatically convert into Class A common stock at the time of the initial Business Combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts issued in the Proposed Public Offering and related to the closing of the initial Business Combination, the ratio at which the shares of Class B common stock will convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the issued and outstanding shares of the Class B common stock agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of all shares of common stock issued and outstanding upon the completion of the Proposed Public Offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial Business Combination, excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial Business Combination.

Preferred Stock — The Company is authorized to issue 1,000,000 shares of preferred stock, par value \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. As of December 31, 2020, there were no shares of preferred stock issued or outstanding.

Warrants — Public Warrants may only be exercised for a whole number of shares. No fractional Public Warrants will be issued upon separation of the Units and only whole Public Warrants will trade. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination or (b) 12 months from the closing of the Proposed Public Offering; provided in each case that the Company has an effective registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the Public Warrants and a current prospectus relating to them is available (or the Company permits holders to exercise their Public Warrants on a cashless basis and such cashless exercise is exempt from registration under the Securities Act). The Company has agreed that as soon as practicable, but in no event later than 20 business days after the closing of its initial Business Combination, the Company will use its commercially reasonable efforts to file with the SEC and have an effective registration statement covering the shares of Class A common stock issuable upon exercise of the warrants and will use its commercially reasonable efforts to cause the same to become effective within 60 business days after the closing of the Company’s initial Business Combination and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed. If the shares issuable upon exercise of the warrants are not registered under the Securities Act in accordance with the above requirements, the Company will be required to permit holders to exercise their warrants on a cashless basis. However, no warrant will be exercisable for cash or on a cashless basis, and the Company will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration is available. Notwithstanding the above, if the Company’s shares of Class A common stock are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, it will not be required to file or maintain in effect a registration statement, and in the event the Company does not so elect, it will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

**POWER & DIGITAL INFRASTRUCTURE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 6 — Stockholder’s Equity (cont.)

The warrants have an exercise price of \$11.50 per share, subject to adjustments, and will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation. In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of the initial Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the Company’s board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Class A common stock during the 20 trading day period starting on the trading day prior to the day on which the Company consummates the initial Business Combination (such price, the “Market Value”) is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, the \$18.00 per share redemption trigger prices described below under “Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00” and “Redemption of warrants when the price per share of Class A common stock equals or exceeds \$10.00” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price described below under “Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00” will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

The Private Placement Warrants are identical to the Public Warrants, except that the Private Placement Warrants and the shares of Class A common stock issuable upon exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be non-redeemable (except as described below in “Redemption of warrants when the price per share of Class A common stock equals or exceeds \$10.00”) so long as they are held by the Sponsor or its permitted transferees. If the Private Placement Warrants are held by someone other than the Sponsor, the Anchor Investors or their respective permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00: Once the warrants become exercisable, the Company may call the outstanding warrants for redemption (except as described herein with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption to each warrant holder; and
- if, and only if, the last reported sale price of Class A common stock for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders (the “Reference Value”) equals or exceeds \$18.00 per share (as adjusted).

The Company will not redeem the warrants as described above unless a registration statement under the Securities Act covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants is then effective and a current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period. If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

**POWER & DIGITAL INFRASTRUCTURE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 6 — Stockholder’s Equity (cont.)

Redemption of warrants when the price per share of Class A common stock equals or exceeds

\$10.00: Once the warrants become exercisable, the Company may redeem the outstanding warrants:

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days’ prior written notice of redemption provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to an agreed table based on the redemption date and the “fair market value” (as defined below) of Class A common stock;
- if, and only if, the Reference Value equals or exceeds \$10.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described herein under the heading “Description of Securities — Warrants — Public Stockholders’ Warrants — Anti-dilution Adjustments”); and
- if the Reference Value is less than \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described herein under the heading “Description of Securities — Warrants — Public Stockholders’ Warrants — Anti-dilution Adjustments”), the Private Placement Warrants must also concurrently be called for redemption on the same terms as the outstanding Public Warrants, as described above.

The “fair market value” of Class A common stock shall mean the volume weighted average price of Class A common stock during the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of warrants. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 shares of Class A common stock per warrant (subject to adjustment).

In no event will the Company be required to net cash settle any warrant. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company’s assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

Note 7 — Subsequent Events

The Company has evaluated subsequent events after the balance sheet date through January 8, 2021, the date the financial statements were issued. Based on this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

Until _____, 2021 (25 days after the date of this prospectus), all dealers that effect transactions in these securities, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers' obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.

PART II**INFORMATION NOT REQUIRED IN PROSPECTUS****Item 13. Other Expenses of Issuance and Distribution.**

The estimated expenses payable by us in connection with the offering described in this registration statement (other than the underwriting discount and commissions) will be as follows:

SEC/FINRA expenses	\$	75,000
Accounting fees and expenses		60,000
Printing and engraving expenses		35,000
Travel and road show expenses		50,000
Legal fees and expenses		350,000
Nasdaq listing and filing fees		75,000
Director & Officers liability insurance premiums ⁽¹⁾		700,000
Miscellaneous		155,000
Total	\$	<u>1,500,000</u>

- (1) This amount represents the approximate amount of annual director and officer liability insurance premiums the registrant anticipates paying following the completion of its initial public offering and until it completes a business combination.

Item 14. Indemnification of Directors and Officers.

Our amended and restated certificate of incorporation will provide that all of our directors, officers, employees and agents shall be entitled to be indemnified by us to the fullest extent permitted by Section 145 of the Delaware General Corporation Law (“DGCL”). Section 145 of the DGCL concerning indemnification of officers, directors, employees and agents is set forth below.

Section 145. Indemnification of officers, directors, employees and agents; insurance.

- (a) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys’ fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person’s conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that the person’s conduct was unlawful.
- (b) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys’ fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of

[Table of Contents](#)

Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

- (c) To the extent that a present or former director or officer of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in subsections (a) and (b) of this section, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.
- (d) Any indemnification under subsections (a) and (b) of this section (unless ordered by a court) shall be made by the corporation only as authorized in the specific case upon a determination that indemnification of the present or former director, officer, employee or agent is proper in the circumstances because the person has met the applicable standard of conduct set forth in subsections (a) and (b) of this section. Such determination shall be made, with respect to a person who is a director or officer at the time of such determination, (1) by a majority vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (2) by a committee of such directors designated by majority vote of such directors, even though less than a quorum, or (3) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, or (4) by the stockholders.
- (e) Expenses (including attorneys' fees) incurred by an officer or director in defending any civil, criminal, administrative or investigative action, suit or proceeding may be paid by the corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of such director or officer to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified by the corporation as authorized in this section. Such expenses (including attorneys' fees) incurred by former officers and directors or other employees and agents may be so paid upon such terms and conditions, if any, as the corporation deems appropriate.
- (f) The indemnification and advancement of expenses provided by, or granted pursuant to, the other subsections of this section shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such person's official capacity and as to action in another capacity while holding such office. A right to indemnification or to advancement of expenses arising under a provision of the certificate of incorporation or a bylaw shall not be eliminated or impaired by an amendment to such provision after the occurrence of the act or omission that is the subject of the civil, criminal, administrative or investigative action, suit or proceeding for which indemnification or advancement of expenses is sought, unless the provision in effect at the time of such act or omission explicitly authorizes such elimination or impairment after such action or omission has occurred.
- (g) A corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the corporation would have the power to indemnify such person against such liability under this section.
- (h) For purposes of this section, references to "the corporation" shall include, in addition to the resulting corporation, any constituent corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers, and employees or agents, so that any person who is or was a director, officer, employee or agent of such constituent corporation, or is or was serving at the request of such constituent corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under this section with respect to the resulting or surviving corporation as such person would have with respect to such constituent corporation if its separate existence had continued.

Table of Contents

For purposes of this section, references to “other enterprises” shall include employee benefit plans; references to “fines” shall include any excise taxes assessed on a person with respect to any employee benefit plan; and references to “serving at the request of the corporation” shall include any service as a director, officer, employee or agent of the corporation which imposes duties on, or involves services by, such director, officer, employee or agent with respect to an employee benefit plan, its participants or beneficiaries; and a person who acted in good faith and in a manner such person reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner “not opposed to the best interests of the corporation” as referred to in this section.

The indemnification and advancement of expenses provided by, or granted pursuant to, this section shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

The Court of Chancery is hereby vested with exclusive jurisdiction to hear and determine all actions for advancement of expenses or indemnification brought under this section or under any by law, agreement, vote of stockholders or disinterested directors, or otherwise. The Court of Chancery may summarily determine a corporation’s obligation to advance expenses (including attorneys’ fees).

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in a successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to the court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

In accordance with Section 102(b)(7) of the DGCL, our amended and restated certificate of incorporation, will provide that no director shall be personally liable to us or any of our stockholders for monetary damages resulting from breaches of their fiduciary duty as directors, except to the extent such limitation on or exemption from liability is not permitted under the DGCL. The effect of this provision of our amended and restated certificate of incorporation is to eliminate our rights and those of our stockholders (through stockholders’ derivative suits on our behalf) to recover monetary damages against a director for breach of the fiduciary duty of care as a director, including breaches resulting from negligent or grossly negligent behavior, except, as restricted by Section 102(b)(7) of the DGCL. However, this provision does not limit or eliminate our rights or the rights of any stockholder to seek non-monetary relief, such as an injunction or rescission, in the event of a breach of a director’s duty of care.

If the DGCL is amended to authorize corporate action further eliminating or limiting the liability of directors, then, in accordance with our amended and restated certificate of incorporation, the liability of our directors to us or our stockholders will be eliminated or limited to the fullest extent authorized by the DGCL, as so amended. Any repeal or amendment of provisions of our amended and restated certificate of incorporation limiting or eliminating the liability of directors, whether by our stockholders or by changes in law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to further limit or eliminate the liability of directors on a retroactive basis.

Our amended and restated certificate of incorporation will also provide that we will, to the fullest extent authorized or permitted by applicable law, indemnify our current and former officers and directors, as well as those persons who, while directors or officers of our corporation, are or were serving as directors, officers, employees or agents of another entity, trust or other enterprise, including service with respect to an employee benefit plan, in connection with any threatened, pending or completed proceeding, whether civil, criminal, administrative or investigative, against all expense, liability and loss (including, without limitation, attorney’s fees, judgments, fines, ERISA excise taxes and penalties and amounts paid in settlement) reasonably incurred or suffered by any such person in connection with any such proceeding.

[Table of Contents](#)

Notwithstanding the foregoing, a person eligible for indemnification pursuant to our amended and restated certificate of incorporation will be indemnified by us in connection with a proceeding initiated by such person only if such proceeding was authorized by our board of directors, except for proceedings to enforce rights to indemnification.

The right to indemnification which will be conferred by our amended and restated certificate of incorporation is a contract right that includes the right to be paid by us the expenses incurred in defending or otherwise participating in any proceeding referenced above in advance of its final disposition, provided, however, that if the DGCL requires, an advancement of expenses incurred by our officer or director (solely in the capacity as an officer or director of our corporation) will be made only upon delivery to us of an undertaking, by or on behalf of such officer or director, to repay all amounts so advanced if it is ultimately determined that such person is not entitled to be indemnified for such expenses under our amended and restated certificate of incorporation or otherwise.

The rights to indemnification and advancement of expenses will not be deemed exclusive of any other rights which any person to be covered by our amended and restated certificate of incorporation may have or hereafter acquire under law, our amended and restated certificate of incorporation, our amended and restated bylaws, an agreement, vote of stockholders or disinterested directors, or otherwise.

Any repeal or amendment of provisions of our amended and restated certificate of incorporation affecting indemnification rights, whether by our stockholders or by changes in law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to provide broader indemnification rights on a retroactive basis, and will not in any way diminish or adversely affect any right or protection existing at the time of such repeal or amendment or adoption of such inconsistent provision with respect to any act or omission occurring prior to such repeal or amendment or adoption of such inconsistent provision. Our amended and restated certificate of incorporation will also permit us, to the extent and in the manner authorized or permitted by law, to indemnify and to advance expenses to persons other than those specifically covered by our amended and restated certificate of incorporation.

Our amended and restated bylaws will include the provisions relating to advancement of expenses and indemnification rights consistent with those which will be set forth in our amended and restated certificate of incorporation. In addition, our amended and restated bylaws will provide for a right of indemnity to bring a suit in the event a claim for indemnification or advancement of expenses is not paid in full by us within a specified period of time. Our amended and restated bylaws will also permit us to purchase and maintain insurance, at our expense, to protect us and/or any director, officer, employee or agent of our corporation or another entity, trust or other enterprise against any expense, liability or loss, whether or not we would have the power to indemnify such person against such expense, liability or loss under the DGCL.

Any repeal or amendment of provisions of our amended and restated bylaws affecting indemnification rights, whether by our board of directors, stockholders or by changes in applicable law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to provide broader indemnification rights on a retroactive basis, and will not in any way diminish or adversely affect any right or protection existing thereunder with respect to any act or omission occurring prior to such repeal or amendment or adoption of such inconsistent provision.

We will enter into indemnification agreements with each of our officers and directors a form of which is to be filed as an exhibit to this Registration Statement. These agreements will require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified.

Pursuant to the Underwriting Agreement to be filed as Exhibit 1.1 to this Registration Statement, we have agreed to indemnify the underwriters and the underwriters have agreed to indemnify us against certain civil liabilities that may be incurred in connection with this offering, including certain liabilities under the Securities Act.

Item 15. Recent Sales of Unregistered Securities.

In December, 2020, our sponsor paid an aggregate of \$25,000, or approximately \$0.003 per share, to cover certain of our offering costs in consideration of 7,187,500 shares of Class B common stock, par value \$0.0001. In January 2021, our sponsor transferred 30,000 Class B ordinary shares to each of our independent directors. These 120,000 shares will not be subject to forfeiture in the event the underwriters' over-allotment option is not exercised. Such securities were issued in connection with our organization pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

Our sponsor is an accredited investors for purposes of Rule 501 of Regulation D. Each of the equity holders in our sponsor are accredited investors under Rule 501 of Regulation D. The sole business of our sponsor is to act as the company's sponsor in connection with this offering.

Our sponsor has committed, pursuant to a written agreement, to purchase an aggregate of 5,000,000 private placement warrants (or 5,500,000 private placement warrants if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one common stock at \$11.50 per share, at a price of \$1.50 per warrant (approximately \$7,500,000 in the aggregate or \$8,250,000 if the underwriters' over-allotment option is exercised in full), in a private placement that will close simultaneously with the closing of this offering. These issuances will be made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

No underwriting discounts or commissions were paid with respect to such sales.

Item 16. Exhibits and Financial Statement Schedules.

- (i) The Exhibit Index is incorporated herein by reference.

Item 17. Undertakings.

- (i) The undersigned registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreements, certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.
- (ii) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
- (iii) The undersigned registrant hereby undertakes that:
 - 1. For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.
 - 2. For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
