### CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements may be identified by the use of words such as “ability,” “aim,” “assume,” “estimate,” “plan,” “possible,” “project,” “forecast,” “goal,” “opportunity,” “intend,” “will,” “expect,” “anticipate,” “believe,” “enable,” “seek,” “target” or other similar expressions that predict or indicate future events or trends or that are not statements of historical matters. These forward-looking statements include, but are not limited to, statements regarding projections, estimates and forecasts of revenue and other financial and performance metrics, projections of market opportunity and expectations, the Company’s ability to scale and grow its business, and the advantages and expected growth of the Company. These statements are provided for illustrative purposes only and are based on various assumptions, whether or not identified in this Quarterly Report on Form 10-Q, and on the current expectations of the Company’s management. These forward-looking statements are not intended to serve, and must not be relied on by any investor, as a guarantee, an assurance, a prediction or a definitive statement of fact or probability. Actual events and circumstances are difficult or impossible to predict and will differ from assumptions. Many actual events and circumstances are beyond the control of the Company.

These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions, known or unknown, that could cause actual results to vary materially from those indicated or anticipated. These risks, assumptions and uncertainties include those described in Item 1A. — “Risk Factors” of the Company’s Annual Report on Form 10-K for the year ended December 31, 2023 and in Item 1A. — “Risk Factors” of the Company’s Quarterly Report on Form 10-Q for the quarter ended June 30, 2024. These risk factors should be read to include our HPC Hosting segment, which met the criteria to be considered a new segment of the Company during the second quarter of 2024, and read in conjunction with our risk factors disclosed under the caption “Item 1A. — “Risk Factors” in this Quarterly Report on Form 10-Q. If one or more of these risks or uncertainties materializes, or if underlying assumptions prove incorrect, actual results may vary materially from those indicated or anticipated by such forward-looking statements. There may be additional risks that the Company could not presently know or that the Company currently believes are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. In addition, forward-looking statements reflect the Company’s expectations, plans or forecasts of future events and views as of the date of this Quarterly Report on Form 10-Q and should not be relied upon as representing the Company’s assessments as of any date subsequent to the date of this Quarterly Report on Form 10-Q. The Company anticipates that subsequent events and developments will cause the Company’s assessments to change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so except as required under applicable securities laws. Accordingly, you should not place undue reliance on these forward-looking statements, which speak only as of the date they are made.

**Notes to Unaudited Condensed Consolidated Financial Statements**

**1. ORGANIZATION AND DESCRIPTION OF BUSINESS**

Core Scientific, Inc. (“Core Scientific” or the “Company”) is a leader in digital infrastructure for bitcoin mining and high-performance computing. We operate dedicated, purpose-built facilities for digital asset mining and are a premier provider of digital infrastructure, software solutions and services to our third-party customers. We employ our own large fleet of computers (“miners”) to earn digital assets for our own account and we provide hosting services for large bitcoin mining customers and are in the process of allocating and converting a significant portion of our nine operational data centers in Alabama (1), Georgia (2), Kentucky (1), North Carolina (1), North Dakota (1) and Texas (3), and our facility in development in Oklahoma to support artificial intelligence-related workloads under a series of contracts that entail the modification of certain of our data centers to deliver hosting services for high-performance computing (“HPC”). We derive the majority of our revenue from earning bitcoin for our own account (“self-mining”).

The Company has historically focused on designing, developing and operating digital infrastructure to engage in digital asset mining for its own account and providing hosting solutions for third-party digital asset miners. Beginning on March 6, 2024, we announced a series of new contractual agreements with a third-party provider of HPC operations for customers using specialized graphics processing units (“GPUs”). These new agreements leverage the Company’s existing digital infrastructure and expertise in third-party hosting solutions.

We currently operate in three segments: “Digital Asset Self-Mining,” consisting of digital asset mining for our own account, “Digital Asset Hosted Mining,” consisting of our digital infrastructure and third-party hosting services for digital asset mining, and “HPC Hosting,” consisting of our digital infrastructure and third-party hosting services for client HPC operations. Prior to April 1, 2024, we operated only in the Digital Asset Self-Mining and Digital Asset Hosted Mining segments.

Our digital asset hosted mining business provides a full suite of services to our digital asset mining customers. We provide deployment, monitoring, troubleshooting, optimization and maintenance of our customers’ digital asset mining equipment and provide necessary electrical power, repair and other infrastructure services necessary for our customers to operate, maintain and efficiently mine digital assets.

Our HPC hosting services provide colocation, facilities operations, security and other services to third-party HPC customers to support workloads for machine learning and artificial intelligence. The extension of our business into the HPC Hosting segment involves significant risk, including risks involving facility construction, supply chain and the risk of nonperformance by our single customer, as disclosed further in Part II, Item 1A. — “Risk Factors” in this Quarterly Report on Form 10-Q.

***Chapter 11 Filing and Emergence from Bankruptcy***

On December 21, 2022, the Company and certain of its affiliates (collectively, the “Debtors”) filed voluntary petitions (the “Chapter 11 Cases”) in the United States Bankruptcy Court for the Southern District of Texas (the “Bankruptcy Court”) seeking relief under Chapter 11 of the United States Code (the “Bankruptcy Code”). The Chapter 11 Cases were jointly administered under Case No. 22-90341. The Debtors continued to operate their business and manage their properties as “debtors-in-possession” (“DIP”) under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court. For detailed discussion about the Chapter 11 Cases, refer to Note 3 — Chapter 11 Filing and Emergence from Bankruptcy.

On January 15, 2024, the Debtors filed the Fourth Amended Joint Chapter 11 Plan of Reorganization of Core Scientific, Inc. and its Debtor Affiliates (with Technical Modifications) (the “Plan of Reorganization”) with the Bankruptcy Court. On January 16, 2024, the Bankruptcy Court entered an order (the “Confirmation Order”) among other things, confirming the Plan of Reorganization. On January 23, 2024 (the “Effective Date”), the conditions to the effectiveness of the Plan of Reorganization were satisfied or waived and the Company emerged from bankruptcy.

The Company was not required to apply fresh start accounting based on the provisions of Accounting Standards Codification (“ASC”) 852, *Reorganizations*, since the entity’s reorganization value immediately before the date of confirmation is more than the total of all its post-petition liabilities and allowed claims.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Refer to the significant accounting policies described in Note 2 — Summary of Significant Accounting Policies to the consolidated financial statements and accompanying notes in Part II, Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2023.

### ***Basis of Presentation***

Our consolidated balance sheet as of December 31, 2023, which was derived from our audited consolidated financial statements, and our unaudited interim condensed consolidated financial statements provided herein have been prepared in accordance with the instructions for Form 10-Q. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted pursuant to rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). However, in our opinion, the disclosures made therein are adequate to make the information presented not misleading. We believe the unaudited interim financial statements herein furnished reflect all adjustments which are, in the opinion of management, necessary to present a fair statement of the results for the interim periods presented. All of these adjustments are of a normal recurring nature. The interim condensed consolidated results of operations and cash flows are not necessarily indicative of the consolidated results of operations and cash flows that might be expected for the entire year. These condensed consolidated financial statements and the accompanying notes should be read in conjunction with the audited consolidated financial statements and the notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2023.

### ***Debtor-in Possession***

On the Effective Date, the Company emerged from bankruptcy and was no longer considered debtors-in-possession under the Bankruptcy Code. For detailed discussion about the Chapter 11 Cases and our emergence from bankruptcy, refer to Note 3 — Chapter 11 Filing and Emergence from Bankruptcy. The Plan of Reorganization (i) eliminated substantial debt and debt service, (ii) established new debt in the form of a secured credit agreement, publicly traded notes and convertible notes, and debt to equipment lenders, and (iii) established new publicly traded equity and warrants. The settlement of accrued and payable claims through new debt and equity issuance and the extension of debt service to future periods on the Effective Date substantially eliminated the reported working capital deficit at December 31, 2023. During the nine months ended September 30, 2024, we converted or repaid substantially all of the notes, credit agreements, and other payable obligations resulting from the Plan of Reorganization on the Effective date. The majority of this activity occurred during the three months ended September 30, 2024, through the mandatory conversion of the New Secured Convertible Notes (as defined below) and repayment of the Exit Credit Agreement (as defined below) and Secured Notes (as defined below) from proceeds from the 2029 Convertible Notes Offering (as defined below) issuance as described further in Note 6 — Convertible and Other Notes Payable.

### ***Liquidity and Financial Condition***

For the nine months ended September 30, 2024, the Company generated a net loss of \$1.05 billion, of which \$1.22 billion related to the change in the fair value of warrants which will be settled with common stock shares. The Company had unrestricted cash and cash equivalents of \$253.0 million as of September 30, 2024, compared to \$50.4 million as of December 31, 2023. The Company has historically generated cash primarily through sales of digital assets received as digital asset self-mining revenue, revenue from contracts with customers, and the issuance of debt and common stock. As of September 30, 2024, the Company had net working capital of \$201.3 million and a total stockholders' deficit of \$729.4 million. Management has concluded that as of September 30, 2024, the Company's capital, cash flow from operations, and other sources of liquidity are sufficient to fund its operations and debt service obligations for at least the next 12 months following the date these condensed consolidated financial statements were issued.

### ***Digital Assets***

The Company sells bitcoin it receives through mining. As of August 19, 2024, the Company is no longer required to sell bitcoin it earns through mining within ten days of receipt as provided by the terms of the recently extinguished debt facilities (Exit Credit Agreement, the Secured Notes and the New Secured Convertible Notes). See Note 6 — Convertible and Other Notes Payable. In the future, the Company intends to optimize cash received from bitcoin mining which may entail, subject to market conditions, holding bitcoin for future sale at any particular point in time. Digital assets are classified as current assets on the Company's Condensed Consolidated Balance Sheets. Sales of digital assets awarded to the Company through its self-mining activities are classified as cash flows from operating activities. The Company does not have any off-balance sheet holdings of digital assets and does not safeguard digital assets for third parties.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

In December 2023, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2023-08, *Intangibles–Goodwill and Other–Crypto Assets (Subtopic 350-60): Accounting for and Disclosure of Crypto Assets* (“ASU 2023-08”). ASU 2023-08 is intended to improve the accounting for certain crypto assets by requiring an entity to measure those crypto assets at fair value each reporting period with changes in fair value recognized in net income (loss). The amendments also improve the information provided to investors about an entity’s crypto asset holdings by requiring disclosure about significant holdings, contractual sale restrictions, and changes during the reporting period. ASU 2023-08 is effective for annual and interim reporting periods beginning after December 15, 2024, with early adoption permitted.

The Company’s digital assets are within the scope of ASU 2023-08 and the Company elected to early adopt the new standard effective January 1, 2024. The transition guidance requires a cumulative-effect adjustment as of the beginning of the current fiscal year for any difference between the carrying amount of the Company’s digital assets and fair value. The early adoption did not have a material impact on the Company’s condensed consolidated financial statements.

The Company did not have any digital asset holdings as of September 30, 2024. The Company’s digital assets have active markets with observable prices and are considered Level 1 fair value measurements. The following table presents a roll-forward of total digital assets for the nine months ended September 30, 2024, based on the fair value model under ASU 2023-08, and the nine months ended September 30, 2023 (in thousands):

	September 30, 2024	September 30, 2023
Digital assets, beginning of period	\$ 2,284	\$ 724
Cumulative effect of ASU 2023-08, adopted January 1, 2024	24	—
Digital assets, beginning of period, as adjusted	2,308	724
Digital asset self-mining revenue, net of receivables <sup>1</sup>	329,799	278,100
Mining proceeds from shared hosting	15,693	10,321
Proceeds from sales of digital assets	(347,397)	(287,769)
Change in fair value of digital assets	(247)	—
Gain from sale of digital assets	—	2,351
Impairment of digital assets	—	(2,864)
Payment of board fee	(89)	(304)
Other	(67)	—
Digital assets, end of period	\$ —	\$ 559

<sup>1</sup> As of September 30, 2024 and December 31, 2023, there was \$0.7 million and \$1.7 million, respectively, of digital asset receivable included in prepaid expenses and other current assets on the condensed consolidated balance sheets.

**Use of Estimates**

The preparation of the Company’s unaudited condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Some of the more significant estimates include assumptions used to estimate the Company’s ability to continue as a going concern, the valuation of digital assets, property, plant and equipment, the initial measurement of lease liabilities, stock-based compensation, the fair value of derivative liabilities, and income taxes. These estimates are based on information available as of the date of the financial statements; therefore, actual results could differ from management’s estimates.

**Cash, Cash Equivalents, and Restricted Cash**

Cash and cash equivalents include all cash balances and highly liquid investments with original maturities of three months or less from the date of acquisition. As of September 30, 2024, the Company had cash and cash equivalents of \$253.0 million, substantially all of which exceeded Federal Deposit Insurance Corporation insured limits. Cash equivalents included \$243.8 million of highly liquid money market funds, which are classified as Level 1 within the fair value hierarchy. Restricted cash consists of cash held in escrow to pay for construction and development activities.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

***Property, Plant and Equipment, Net***

Property, plant, and equipment includes the cost of land, buildings, and improvements for datacenter and support facilities and the Company's corporate office space. Property and equipment further consists of computer, mining, network, electrical and other equipment, including property and equipment under finance leases. Property, plant and equipment, net is stated at cost less accumulated depreciation and amortization. Depreciation and amortization is computed using the straight-line method over the estimated useful lives of the assets. Leasehold improvements are capitalized at cost and amortized over the shorter of their estimated useful lives or the lease term. Future obligations related to finance leases are presented as Finance lease liabilities, current portion and Finance lease liabilities, net of current portion in the Company's Consolidated Balance Sheets. Depreciation expense, including amortization of assets held under finance leases, is primarily included in Cost of revenue in the Company's Consolidated Statements of Operations.

Property, plant and equipment capitalized costs include the directly identifiable costs incurred to acquire, construct, install, or otherwise prepare the asset for its intended use and to put it into service. Directly identifiable costs include construction payroll and benefits, demolition necessary for construction to purpose, and other direct capital project costs. Intersegment transfers of property, plant, and equipment are recorded at their net carrying value with no resulting gain or loss.

***Revenue Recognition - HPC Hosting Revenue***

Our HPC hosting segment generates revenue by licensing data center space to our customers under licensing agreements. These arrangements contain lease components for the right to use data center space and nonlease components for power delivery, physical security, and maintenance services. We have elected the practical expedient available under ASC Topic 842, *Leases*, to combine the nonlease revenue components that have the same pattern of transfer as the related operating lease components into a single combined component. The single combined component is accounted for under ASC Topic 842 as an operating lease if the lease components are the predominant components and is accounted for under ASC Topic 606 if the nonlease components are the predominant components. The lease components are the predominant components in our current licensing arrangements and the single combined component in these arrangements are accounted for under the operating lease guidance of ASC Topic 842.

We have concluded that it is probable that substantially all of the payments will be collected over the term of the arrangements and recognize the total combined component license payments under the agreements on a straight-line basis over the non-cancellable term. Straight-line license revenue represents the difference in revenue recognized during the period and the license payments due pursuant to the underlying arrangement as deferred revenue in the condensed consolidated balance sheets. Certain arrangements include options to extend the term. These extension options are not reasonably certain to be exercised and are excluded from the lease term and calculation of lease payments at lease commencement.

Certain licensing arrangements provide for variable payments for power delivery services and maintenance services on customer assets and reimbursements for lessor costs such as taxes. Payments for physical security and other routine maintenance services are included in the fixed lease payments. Power delivery services represent a stand ready obligation to make power available to the customer over the coterminous lease term and have the same pattern of transfer as the related operating lease components. Customers may request and the Company may provide maintenance services on customer assets during the coterminous lease term. Customers are charged monthly for fees incurred on these maintenance services delivered and actual power costs incurred at current utility or fuel cost rates. These payments from customers for power delivery and maintenance services are recognized as variable lease payments in accordance with the practical expedient elected. Variable lease payments are presented on a gross basis and are included in HPC hosting revenue in the Condensed Consolidated Statements of Operations.

***Performance Obligation Commitments***

The Company's performance obligation commitments relate to digital asset hosted mining services. The Company has performance obligations associated with commitments in customer digital asset hosted mining contracts for future services that have not yet been recognized in the financial statements. As of September 30, 2024, for contracts with original terms that exceed one year (typically ranging from 15 to 24 months), we expect to recognize approximately \$16.2 million of revenue in the future related to performance obligations associated with existing hosted mining contracts. The Company expects to recognize approximately 100% of this amount over the next 12 months.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

***Deferred Revenue***

The Company records contract liabilities in Deferred revenue on the Condensed Consolidated Balance Sheets when cash payments are received in advance of performance and recognizes them as revenue when the performance obligations are satisfied. The Company's total deferred revenue balance as of September 30, 2024 and December 31, 2023, was \$16.9 million and \$9.8 million, respectively.

In the three and nine months ended September 30, 2024, the Company recognized \$0.1 million and \$6.6 million of revenue, respectively, that was included in the deferred revenue balance as of the beginning of the year.

In the three and nine months ended September 30, 2023, the Company recognized \$2.7 million and \$20.5 million of revenue, respectively, that was included in the deferred revenue balance as of the beginning of the year.

Advanced payments are typically recognized in the following month for hosted mining services and are generally recognized within 30 months of license order commencement for HPC hosting services.

***Stock-Based Compensation***

Under ASC 718, *Stock Compensation* ("ASC 718") estimated fair value uses a fair-value-based method. Stock-based compensation expense is measured at the grant date based on the estimated fair value of the equity award. The estimated fair value of restricted stock units ("RSUs") with only service conditions is based on the closing market price of the Company's common stock on the date of grant. The estimated fair value of market condition restricted stock units ("MSUs") is estimated on the date of grant using the Monte-Carlo pricing model for each service and market condition tranche. The estimated fair value of stock option awards is estimated on the date of grant using the Black-Scholes option-pricing model.

For stock option and RSU awards with only service conditions, the estimated fair value of the equity awards is recognized as expense on a straight-line basis, less actual forfeitures as they occur, over the requisite service period for the entire award, which is generally the vesting period. For RSU awards with service and market conditions, the compensation expense is recognized for each separately vesting portion of the award, or tranche, as if it were a separate award with its own vesting and exercise conditions (i.e., on an accelerated attribution basis). The estimated fair value of each tranche is recognized as expense on a straight-line basis, less actual forfeitures as they occur, over the requisite service for the tranche. The requisite service period of each tranche is the greater of the derived service period from the market condition or the service condition vesting period. See Note 10 — Stockholders' Deficit for more information about the service and market conditions associated with the Company's equity awards.

***Convertible and Other Notes Payable***

Convertible and other notes payable ("Notes payable") are accounted for under ASC 470, *Debt* ("ASC 470") and are presented at their carrying value, which is their remaining par or face amount net of any related unamortized premium, discount and issuance costs. Notes payable are initially recognized at their present value. When cash proceeds are received for the issuance of Notes payable, the proceeds are used to establish their present value. When cash proceeds are not received for the issuance of Notes payable, their present value is based on the consideration exchanged. This present value generally will be the Notes payable's cash flows discounted at a market rate when it is more evident than the noncash consideration exchanged. When the present value of Notes payable on issuance varies from its par or face amount, an original discount or premium results and any related issuance costs are used to determine an effective interest rate. Original premium, discount and issuance costs are amortized using the level effective rate interest method. Amortization is recognized as a component of current interest expense.

Notes payable are evaluated at issuance to determine whether or not they have features or terms which would be treated as embedded derivatives that are required to be bifurcated under ASC 815, *Derivatives and Hedging* ("ASC 815"). As of September 30, 2024 and December 31, 2023, Notes payable did not have any embedded derivatives required to be bifurcated.

***Contingent Value Rights Liabilities***

As described in Note 7 — Contingent Value Rights and Warrant Liabilities, on the Effective Date, pursuant to the Plan of Reorganization, the Company entered into a contingent value rights agreement (the "Contingent Value Rights Agreement") which provides for the issuance of the contingent value rights (the "CVRs") to certain creditors and provides for the issuance of CVRs issued to holders of allowed general unsecured claims ("GUC") (in such capacity, the "GUC Payees") (the "GUC CVRs"). The CVRs and GUC CVRs are equity-linked instruments which are either only cash settled or in some instances share settled at the Company's sole

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

discretion. The Company determined that these equity-linked instruments are not indexed to the Company's stock and are required to be recognized as liabilities which are, initially and subsequently, measured at fair value with changes in value reflected in Net loss.

On the Effective Date, the CVRs and GUC CVRs were recognized at their fair value of \$86.3 million. On July 1, 2024, the GUC CVR obligations were extinguished as described in Note 7 — Contingent Value Rights and Warrant Liabilities. As of September 30, 2024, the CVRs were reported at a fair value of \$7.0 million in Contingent value rights on the Condensed Consolidated Balance Sheets. During the three and nine months ended September 30, 2024, the decrease in fair value of \$6.0 million and \$79.3 million, respectively, was included in Change in fair value of warrant and contingent value rights on the Company's Condensed Consolidated Statements of Operations.

***Warrant Liabilities***

As described in Note 7 — Contingent Value Rights and Warrant Liabilities, on the Effective Date, pursuant to the Plan of Reorganization, holders of the Company's previous common stock received warrants. The warrants are equity-linked instruments. The Company determined that these equity-linked instruments are not indexed to the Company's stock and are required to be recognized as liabilities which are, initially and subsequently, measured at fair value with changes in value reflected in Net income (loss).

On the Effective Date, the warrants were recognized at their fair value of \$345.9 million. As of September 30, 2024, the warrants were reported at a fair value of \$1.02 billion in Warrant liabilities on the Condensed Consolidated Balance Sheets. During the three and nine months ended September 30, 2024, the decrease in fair value of \$414.5 million and the increase in fair value of \$1.22 billion, respectively, were included in Change in fair value of warrant and contingent value rights on the Company's Condensed Consolidated Statements of Operations.

***Accounting Standards Not Yet Adopted***

In December 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, which will improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The amendments in ASU 2023-07 will be applied retrospectively and are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact this ASU will have on its consolidated financial statements and related disclosures.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. Under this ASU, public business entities must annually "(1) disclose specific categories in the rate reconciliation and (2) provide additional information for reconciling items that meet a quantitative threshold (if the effect of those reconciling items is equal to or greater than 5 percent of the amount computed by multiplying pretax income [or loss] by the applicable statutory income tax rate)." The amendments in ASU 2023-09 will be applied on a prospective basis and are effective for annual periods beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact this ASU will have on its consolidated financial statements and related disclosures.

There are no other new accounting pronouncements that are expected to have a significant impact on the Company's unaudited condensed consolidated financial statements.

**3. CHAPTER 11 FILING AND EMERGENCE FROM BANKRUPTCY**

***Chapter 11***

On December 21, 2022 (the "Petition Date"), the Debtors filed the Chapter 11 Cases in the Bankruptcy Court seeking relief under Chapter 11 of the Bankruptcy Code. The Chapter 11 Cases are jointly administered under Case No. 22-90341. The Debtors continued to operate their business and managed their properties as DIP under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court.

On June 20, 2023, the Debtors filed with the Bankruptcy Court (i) a proposed Joint Chapter 11 Plan of Reorganization of Core Scientific, Inc. and its Debtor Affiliates and a related proposed form of Disclosure Statement, and on January 15, 2024, the Debtors filed the Fourth Amended Joint Chapter 11 Plan of Reorganization of Core Scientific, Inc. and its Affiliated Debtors (with Technical Modifications) with the Bankruptcy Court.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

On January 16, 2024, the Bankruptcy Court entered the Confirmation Order among other things, confirming the Plan of Reorganization. On the Effective Date, the conditions to the effectiveness of the Plan of Reorganization were satisfied or waived and the Company emerged from bankruptcy.

*Replacement DIP Credit Agreement*

On February 2, 2023, the Bankruptcy Court entered an interim order authorizing, among other things, the Debtors to obtain senior secured non-priming super-priority replacement post-petition financing (the “Replacement DIP Facility”). On February 27, 2023, the Debtors entered into a senior secured super-priority replacement debtor-in-possession loan and security agreement governing the Replacement DIP Facility (the “Replacement DIP Credit Agreement”), with B. Riley Commercial Capital, LLC, as administrative agent (the “Administrative Agent”), and the lenders from time to time party thereto (collectively, the “Replacement DIP Lender”). Proceeds of the Replacement DIP Facility were used to, among other things, repay amounts outstanding under the original debtor-in-possession facility that was entered into in connection with the filing of the Chapter 11 Cases (the “Original DIP Facility”), including payment of all fees and expenses required to be paid under the terms of the Original DIP Facility. These funds, along with ongoing cash generated from operations, were anticipated to provide the necessary financing to effectuate the planned restructuring, facilitate the emergence from Chapter 11, and cover the fees and expenses of legal and financial advisors.

In January 2024, the Replacement DIP Facility was repaid in full and terminated on the Effective Date of the Company’s Plan of Reorganization.

***Reorganization items, net and Liabilities Subject to Compromise***

Effective on December 21, 2022, the Company began to apply the provisions of ASC 852, *Reorganizations* (“ASC 852”), which is applicable to companies under bankruptcy protection, and requires amendments to the presentation of certain financial statement line items. ASC 852 requires that the financial statements for periods including and after the filing of the Chapter 11 Cases distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of the business. Expenses (including professional fees), realized gains and losses, and provisions for losses that can be directly associated with the reorganization must be reported separately as Reorganization items, net in the Consolidated Statements of Operations beginning December 21, 2022, the date of filing of the Chapter 11 Cases. As of December 31, 2023, liabilities that were affected by the Plan of Reorganization were classified as liabilities subject to compromise at the amounts expected to be allowed by the Bankruptcy Court, even if they may have been settled for lesser amounts as a result of the Plan of Reorganization or negotiations with creditors. If there was uncertainty about whether a secured claim was under secured, or would be impaired under the Plan of Reorganization, the entire amount of the claim was included with prepetition claims in liabilities subject to compromise. After the Effective Date, any resulting changes in classification were reflected in subsequent financial statements.

As a result of the filing of the Chapter 11 Cases on December 21, 2022, the classification of pre-petition indebtedness was generally subject to compromise pursuant to the Plan of Reorganization. Generally, actions to enforce or otherwise effect payment of pre-bankruptcy filing liabilities were stayed. The Bankruptcy Court granted the Debtors authority to pay certain pre-petition claims in designated categories and subject to certain terms and conditions. This relief generally was designed to preserve the value of the Debtors’ businesses and assets. Among other things, the Bankruptcy Court authorized the Debtors to pay certain pre-petition claims relating to employee wages and benefits, taxes and critical vendors. The Debtors paid undisputed post-petition liabilities in the ordinary course of business. In addition, the Debtors rejected certain pre-petition executory contracts and unexpired leases with respect to their operations with the approval of the Bankruptcy Court. Any damages resulting from the rejection of executory contracts and unexpired leases were treated as general unsecured claims and paid in full.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

Reorganization items, net incurred as a result of the Chapter 11 Cases presented separately in the accompanying Condensed Consolidated Statements of Operations were as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Professional fees and other bankruptcy related costs	\$ —	\$ 25,113	\$ 21,480	\$ 62,970
Negotiated settlements	—	(61)	(2,269)	(61)
Satisfaction of allowed claims:				
Extinguishment of secured and other convertible notes	—	—	(10,831)	—
Extinguishment of miner equipment lender loans and leases	—	—	(102,024)	—
Satisfaction of general unsecured creditor claims	—	—	(31,167)	—
Satisfaction of cures and other claims	—	—	231	—
Total satisfaction of allowed claims	—	—	(143,791)	—
Reimbursed claimant professional fees	—	—	12,802	—
Debtor-in-possession financing costs	—	3,204	339	15,361
Reorganization items, net	\$ —	\$ 28,256	\$ (111,439)	\$ 78,270

During the nine months ended September 30, 2024, there were significant reorganization related gains resulting primarily from satisfaction of allowed claims under the Plan of Reorganization on the Effective Date and negotiated settlements, partially offset by professional fees and other bankruptcy related costs. These reorganization related impacts were classified as Reorganization items, net until the Effective Date. Reorganization costs incurred after the Effective Date have been classified as General and administrative expense.

The accompanying Consolidated Balance Sheet as of December 31, 2023, includes amounts classified as Liabilities subject to compromise, which represented liabilities the Company estimated would be allowed as claims in the Chapter 11 Cases by the Court. These amounts represented the Company's estimate of known or potential obligations to be resolved in connection with the Chapter 11 Cases.

Liabilities subject to compromise consisted of the following (in thousands):

	December 31, 2023
Accounts payable	\$ 36,678
Accrued expenses and other current liabilities	20,300
Accounts payable, and accrued expenses and other current liabilities	\$ 56,978
Debt subject to compromise	\$ 41,777
Accrued interest on liabilities subject to compromise	580
Leases, debt and accrued interest	42,357
Liabilities subject to compromise	\$ 99,335

Pre-petition unsecured and secured claims which were identified as impaired and subject to compromise during the bankruptcy process were reclassified to Liabilities subject to compromise. Final determination of the value at which liabilities were settled was made when the Plan of Reorganization became effective and the Company emerged from bankruptcy.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

**4. PROPERTY, PLANT AND EQUIPMENT, NET**

Property, plant and equipment, net as of September 30, 2024 and December 31, 2023 consist of the following (in thousands):

	September 30, 2024	December 31, 2023	Estimated Useful Lives
Land and improvements <sup>1</sup>	\$ 20,008	\$ 21,852	20 years
Building and improvements <sup>2</sup>	231,502	191,615	12 to 39 years
Mining and network equipment <sup>3</sup>	428,875	414,284	3 to 5 years
Electrical equipment <sup>4</sup>	78,016	64,810	5 to 15 years
Other property, plant and equipment <sup>5</sup>	2,683	2,935	5 to 7 years
Total	761,084	695,496	
Less: accumulated depreciation and amortization <sup>6</sup>	364,510	293,974	
Total	396,574	401,522	
Add: Construction in progress	153,858	183,909	
Property, plant and equipment, net	<u>\$ 550,432</u>	<u>\$ 585,431</u>	

<sup>1</sup> Estimated useful life of improvements. Land is not depreciated.

<sup>2</sup> Includes finance lease assets of \$1.0 million and \$6.6 million at September 30, 2024 and December 31, 2023, respectively.

<sup>3</sup> Includes finance lease assets of nil and \$40.0 million at September 30, 2024 and December 31, 2023, respectively.

<sup>4</sup> Includes finance lease assets of \$8.7 million and \$12.7 million at September 30, 2024 and December 31, 2023, respectively.

<sup>5</sup> Includes finance lease assets of \$0.4 million and \$0.4 million at September 30, 2024 and December 31, 2023, respectively.

<sup>6</sup> Includes accumulated amortization for assets under finance leases of \$3.8 million and \$43.4 million at September 30, 2024 and December 31, 2023, respectively.

Depreciation expense, including amortization of finance lease assets, for the three months ended September 30, 2024 and 2023, was \$28.5 million, and \$24.0 million, respectively, and for the nine months ended September 30, 2024 and 2023, was \$86.6 million and \$64.7 million, respectively.

**5. LEASES**

***Lessee Accounting***

The Company has entered into non-cancellable operating and finance leases for office space, data facilities, computer and networking equipment, electrical infrastructure and office equipment, with lease periods expiring through 2051. Variable lease payments are not included in the initial measurement of leases and are expensed as incurred.

On September 30, 2024, the Company entered into a lease agreement by and between the Company and Aubix, LLC (the "Aubix Lease") for approximately 5.7 acres of land, including a 40,000 square foot building that the Company intends to use for its HPC hosting operations. The Aubix Lease is anticipated to commence in November 2024 as the Company begins occupancy of the leased space. The term of the Aubix Lease is 10 years from the commencement date. The Company has the right to extend the term of the Aubix Lease up to an additional 15 years in 5 year increments. The total future minimum lease payments related to the Aubix Lease is approximately \$43.5 million.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

The components of operating and finance leases are presented on the Company's Condensed Consolidated Balance Sheets as follows (in thousands):

	Financial statement line item	September 30, 2024	December 31, 2023
<b>Assets:</b>			
Operating lease right-of-use assets	Operating lease right-of-use assets	\$ 74,733	\$ 7,844

<sup>2</sup> Other Convertible Notes and Secured Convertible Notes included principal balances at issuance and PIK interest.

<sup>3</sup> In connection with the Company's Chapter 11 Cases, \$41.8 million of outstanding notes payable were reclassified to Liabilities subject to compromise in the Company's Consolidated Balance Sheets as of December 31, 2023, at their expected allowed amount. Up to the Petition Date, the Company continued to accrue interest expense in relation to these reclassified debt instruments. As of December 31, 2023, \$0.6 million of accrued interest was classified as Liabilities subject to compromise.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

**3.00% Convertible Senior Notes due 2029**

On August 19, 2024, the Company completed a private offering (the “2029 Convertible Notes Offering”) of \$460.0 million aggregate principal amount of 3.00% Convertible Senior Notes due 2029 (the “2029 Convertible Notes”), which included the exercise in full of the initial purchasers’ option to purchase up to an additional \$60.0 million aggregate principal amount of 2029 Convertible Notes. The 2029 Convertible Notes were issued pursuant to, and are governed by, an indenture (the “2029 Convertible Notes Indenture”), dated as of August 19, 2024, between the Company and U.S. Bank Trust Company, National Association, as trustee (the “2029 Convertible Notes Trustee”).

The 2029 Convertible Notes accrue interest at a rate of 3.00% per annum, payable semi-annually in arrears on March 1 and September 1 of each year, beginning on March 1, 2025. The 2029 Convertible Notes will mature on September 1, 2029, unless earlier converted, redeemed or repurchased by the Company. Noteholders may convert their 2029 Convertible Notes at their option only in the following circumstances: (i) during any calendar quarter (and only during such calendar quarter) commencing after the calendar quarter ending on December 31, 2024, if the last reported sale price per share of the Company’s New Common Stock (as defined below), \$0.00001 par value per share, exceeds 130% of the conversion price for each of at least 20 trading days, whether or not consecutive, during the 30 consecutive trading days ending on, and including, the last trading day of the immediately preceding calendar quarter; (ii) during the five consecutive business days immediately after any 10 consecutive trading day period (such 10 consecutive trading day period, the “Measurement Period”) if the trading price per \$1,000 principal amount of 2029 Convertible Notes for each trading day of the Measurement Period was less than 98% of the product of the last reported sale price per share of the New Common Stock on such trading day and the conversion rate on such trading day; (iii) upon the occurrence of certain corporate events or distributions on the New Common Stock, as described in the 2029 Convertible Notes Indenture; (iv) if the Company calls any 2029 Convertible Notes for redemption; and (v) at any time from, and including, June 1, 2029 until the close of business on the scheduled trading day immediately before the maturity date. The Company will settle conversions by paying or delivering, as applicable, cash, shares of New Common Stock or a combination of cash and shares of New Common Stock, at the Company’s election, based on the applicable conversion rate(s). The initial conversion rate is 90.9256 shares of New Common Stock per \$1,000 principal amount of 2029 Convertible Notes, which represents an initial conversion price of approximately \$11.00 per share of New Common Stock. The conversion rate and conversion price will be subject to customary adjustments upon the occurrence of certain events. In addition, if certain corporate events that constitute a “Make-Whole Fundamental Change” (as defined in the 2029 Convertible Notes Indenture) occur, then the conversion rate will, in certain circumstances, be increased for a specified period of time.

The 2029 Convertible Notes are redeemable, in whole or in part (subject to certain limitations described below), at the Company’s option at any time, and from time to time, on or after September 7, 2027 and on or before the 20th scheduled trading day immediately before the maturity date, at a cash redemption price equal to the principal amount of the 2029 Convertible Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date, but only if certain liquidity conditions are satisfied and the last reported sale price per share of the New Common Stock exceeds 130% of the conversion price on (i) each of at least 20 trading days, whether or not consecutive, during the 30 consecutive trading days ending on, and including, the trading day immediately before the date the Company sends the related redemption notice; and (ii) the trading day immediately before the date the Company sends such notice. However, the Company may not redeem less than all of the outstanding 2029 Convertible Notes unless at least \$100.0 million aggregate principal amount of 2029 Convertible Notes are outstanding and not called for redemption as of the time the Company sends the related redemption notice. In addition, calling any 2029 Convertible Note for redemption will constitute a Make-Whole Fundamental Change with respect to that 2029 Convertible Note, in which case the conversion rate applicable to the conversion of that 2029 Convertible Note will be increased in certain circumstances if it is converted after it is called for redemption.

If a “Fundamental Change” (as defined in the 2029 Convertible Notes Indenture) occurs, then, subject to a limited exception for certain cash mergers, noteholders may require the Company to repurchase their 2029 Convertible Notes at a cash repurchase price equal to the principal amount of the 2029 Convertible Notes to be repurchased, plus accrued and unpaid interest, if any, to, but excluding, the Fundamental Change Repurchase Date (as defined in the 2029 Convertible Notes Indenture). The definition of Fundamental Change includes certain business combination transactions involving the Company and certain de-listing events with respect to the New Common Stock.

The 2029 Convertible Notes have customary provisions relating to the occurrence of “Events of Default” (as defined in the 2029 Convertible Notes Indenture), which include the following: (i) certain payment defaults on the 2029 Convertible Notes (which, in the case of a default in the payment of interest on the 2029 Convertible Notes, will be subject to a 30-day cure period); (ii) the Company’s failure to send certain notices under the 2029 Convertible Notes Indenture within specified periods of time; (iii) the Company’s failure to convert a 2029 Convertible Note in accordance with the 2029 Convertible Notes Indenture upon exercise of the conversion right with respect thereto; (iv) the Company’s failure to comply with certain covenants in the 2029 Convertible Notes

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

Indenture relating to the Company's ability to consolidate with or merge with or into, or sell, lease or otherwise transfer, in one transaction or a series of transactions, all or substantially all of the assets of the Company and its subsidiaries, taken as a whole, to another person; (v) a default by the Company in its other obligations or agreements under the 2029 Convertible Notes Indenture or the 2029 Convertible Notes if such default is not cured or waived within 60 days after notice is given in accordance with the 2029 Convertible Notes Indenture; (vi) certain defaults by the Company or any of its "Significant Subsidiaries" (as defined in the 2029 Convertible Notes Indenture) with respect to indebtedness for borrowed money of at least \$25.0 million; (vii) the rendering of certain judgments against the Company or any of its Significant Subsidiaries for the payment of at least \$25.0 million, where such judgments are not discharged or stayed within 60 days after date on which the right to appeal has expired or on which all rights to appeal have been extinguished; and (viii) certain events of bankruptcy, insolvency and reorganization involving the Company or any of its Significant Subsidiaries.

If an Event of Default involving bankruptcy, insolvency or reorganization events with respect to the Company (and not solely with respect to a Significant Subsidiary of the Company) occurs, then the principal amount of, and all accrued and unpaid interest on, all of the 2029 Convertible Notes then outstanding will immediately become due and payable without any further action or notice by any person. If any other Event of Default occurs and is continuing, then, the 2029 Convertible Notes Trustee, by notice to the Company, or noteholders of at least 25% of the aggregate principal amount of 2029 Convertible Notes then outstanding, by notice to the Company and the 2029 Convertible Notes Trustee, may declare the principal amount of, and all accrued and unpaid interest on, all of the 2029 Convertible Notes then outstanding to become due and payable immediately. However, notwithstanding the foregoing, the Company may elect, at its option, that the sole remedy for an Event of Default relating to certain failures by the Company to comply with certain reporting covenants in the 2029 Convertible Notes Indenture consists exclusively of the right of the noteholders to receive special interest on the 2029 Convertible Notes for up to 365 days at a specified rate per annum equal to 0.25% of the principal amount thereof for the first 180 days on which special interest accrues and, thereafter, at a rate per annum equal to 0.50% of the principal amount thereof.

The net proceeds from the 2029 Convertible Notes Offering were approximately \$447.6 million, after deducting the initial purchasers' discounts and commissions and the Company's estimated offering expenses. The Company used approximately \$62.0 million of the net proceeds from the 2029 Convertible Notes Offering to repay in full the outstanding loans under the Exit Credit Agreement, of which \$0.8 million was paid for interest. Additionally, the Company used approximately \$154.1 million of the net proceeds from the 2029 Convertible Notes Offering to redeem all of the outstanding Secured Notes, of which \$4.1 million was paid for interest. The Company intends to use the remaining net proceeds from the 2029 Convertible Notes Offering for general corporate purposes, including working capital, operating expenses, capital expenditures, acquisitions of complementary businesses, or other repurchases of its securities.

***Miner Equipment Lender Agreements (BlockFi and Stonebriar)***

On September 6, 2024, the Company paid \$49.6 million to repay the BlockFi facility in full, of which \$0.7 million was paid for interest. On October 2, 2024, the Company paid \$6.5 million to repay the Stonebriar facility in full, of which \$0.1 million was paid for interest. Below is a description of the Miner Equipment Lender Agreements prior to their repayment.

On the Effective Date, under the terms of the Plan of Reorganization, the Company entered into separate New Miner Equipment Lender Agreements (Election 2) with each holder of an Allowed Miner Equipment Lender Secured Claim that was a Settling Miner Equipment Lender that elected on its ballot to receive and was receiving the Miner Equipment Lender Treatment Election 2 (the "Election 2 Miner Equipment Facility Lenders"), in each case, in the principal amount of eighty percent (80%) of each applicable Holders' Allowed Miner Equipment Lender Claim as of the Effective Date (the "Miner Equipment Lender Facility").

The maturity date on the Miner Equipment Lender Facility was January 23, 2029. Loans issued under the Miner Equipment Lender Facility accrued interest (1) from the Effective Date to and including the second anniversary of the Effective Date, (x) if the Company did not deliver an Election Notice (as defined below), at a rate of 13.0% per annum and was payable 3.0% in cash interest and 10.0% paid-in-kind, and (y) if the Company delivered a written notice to the Election 2 Miner Equipment Facility Lenders five (5) business days prior to the due date of any interest payment during this period (an "Election Notice"), the Company could elect to have interest accrue at either (a) 12.0% per annum, payable 5.0% in cash and 7.0% paid-in-kind or (ii) 8.0% per annum, payable in cash and (2) following the second anniversary of the Effective Date, at a rate of 10.0% per annum, payable in cash. Upon the occurrence and during the continuance of an Event of Default (as such term is defined in the New Miner Equipment Lender Agreements (Election 2)), the obligations under the Miner Equipment Lender Facility could, at the option of the Election 2 Miner Equipment Facility Lenders, accrue interest at a rate equal to an additional 2.0% per annum over the rate otherwise applicable, with such interest being payable in cash on demand.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

Loans issued under the Miner Equipment Lender Facility were secured by a first-priority, duly-perfected and validly enforceable lien on (i) the collateral securing each Election 2 Miner Equipment Facility Lenders' existing equipment loan/lease and (ii) new, non-financed miners acquired by the Company after the Effective Date, in an aggregate amount of up to \$18.2 million (collectively, the "Equipment Priority Collateral").

On the Effective Date, under the terms of the Plan of Reorganization, each Miner Equipment Facility Lender entered into a separate intercreditor agreement with the Secured Convertible Notes Agent, the Secured Notes Agent and the Exit Agent (as defined in the Plan of Reorganization) with respect to the Equipment Priority Collateral.

The present value of the Miner Equipment Lender Facility's cash flows were estimated to be equal to its par amount, therefore no discount or premium was recorded on issuance.

The Miner Equipment Lender Facility contained customary covenants, representations and warranties.

#### **Previous Indebtedness Extinguished During Fiscal 2024**

##### ***Emergence***

The Replacement DIP Facility provided for a non-amortizing super-priority senior secured term loan facility in an aggregate principal amount not to exceed \$70 million. Under the Replacement DIP Facility, (i) \$35 million was made available following Bankruptcy Court approval of the interim debtor-in-possession order and (ii) \$35 million was made available following Bankruptcy Court approval of the final debtor-in-possession order on March 1, 2023. Loans under the Replacement DIP Facility bore interest at a rate of 10%, which was payable in kind in arrears on the first day of each calendar month. On January 4, 2024, the Company pre-paid the outstanding balance of \$4.5 million on the Replacement DIP Facility provided by B. Riley Financial, the Company's DIP lender. The \$4.5 million payment included exit fees of approximately \$0.2 million. The Replacement DIP Facility was terminated on the Effective Date.

On January 24, 2024, the Company entered into a settlement agreement with Dalton Utilities which resulted in the issuance of an unsecured promissory note with a principal amount of \$9.1 million dated December 29, 2023. The note bore interest at a contractual rate of 5.0% per annum and matured on May 2, 2024.

On the Effective Date, the obligations of the Company under the Company's April convertible notes, August convertible notes, replacement debtor-in-possession credit agreement, stock certificates, book entries, and any other certificate, share, note, bond, indenture, purchase right, option, warrant, or other instrument or document, directly or indirectly, evidencing or creating any indebtedness or obligation of or ownership interest in the Debtors giving rise to any claim or interest (except such certificates, notes or other instruments or documents evidencing indebtedness or obligations of, or interests in, the Debtors that are specifically reinstated pursuant to the Plan of Reorganization) were cancelled, and the duties and obligations of all parties thereto were deemed satisfied in full, canceled, released, discharged, and of no force or effect.

##### ***Extinguishments***

On the Effective Date, the holders of Secured and Other Convertible Notes received Secured Notes Indenture, New Secured Convertible Notes Indenture, New Common Stock and CVRs. Certain holders of New Secured Convertible Notes also funded and received the Exit Credit Agreement. The exchange and underlying agreements were executed contemporaneously and in contemplation of each other and were analyzed on a combined basis under ASC 470. The Company determined that extinguishment accounting was applicable, as the debt terms in the exchange are substantially different: (a) the present value of the cash flows of the new and remaining instruments differ by more than 10%, (b) the fair value of the conversion option changed by more than 10% of the carrying amount of the original instruments, and (c) a substantive conversion feature was added to the debt terms. The gain on extinguishment is reported in Reorganization items, net.

Two previous miner equipment lender loans were exchanged for Miner Equipment Lender Agreements. The Company determined that extinguishment accounting was applicable, as the loans had original maturities near the exchange on the Effective Date. The remaining miner equipment lender loans and leases were exchanged for New Common Stock. The Company determined that extinguishment accounting was applicable, as the remaining miner equipment lender loans and leases were settled by the issuance of equity-classified shares. The gain on extinguishment is reported in Reorganization items, net.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

***Issuances***

On the Effective Date, pursuant to the Plan of Reorganization, the Company issued the following debt instruments, which are defined and described in further detail below (in thousands):

	<u>Principal Balance on the Effective Date</u>
Exit Credit Agreement	\$ 61,200
Secured Notes Indenture	\$ 150,000
New Secured Convertible Notes Indenture	\$ 260,000
Miner Equipment Lender Agreements	\$ 52,947

In addition, approximately \$15.0 million of debt was reinstated pursuant to the Plan of Reorganization.

***Exit Credit Agreement***

Below is a description of the Exit Credit Agreement prior to its repayment in full on August 19, 2024. There is currently no outstanding Exit Credit Agreement.

On the Effective Date, under the terms of the Plan of Reorganization, the Company entered into a credit and guaranty agreement, dated as of January 23, 2024 (the “Exit Credit Agreement”), by and among the Company, as borrower, the guarantors named therein, the lenders party thereto and Wilmington Trust, National Association, as administrative agent and collateral agent, consisting of an \$80 million first-lien credit facility with certain holders of the Company’s April convertible notes and August convertible notes (in such capacity, the “Exit Lenders”) equal to (i) a \$40 million term loan comprised of (x) a \$20 million initial term loan and (y) a \$20 million delayed-draw term loan and (ii) a \$40 million roll-up of the outstanding balance of the April convertible notes and August convertible notes (the “Exit Facility”). The maturity date of the Exit Facility was January 23, 2027.

From the Effective Date, cash borrowings under the Exit Facility bore interest at 9.0% per annum, payable on the first business day of each Fiscal Quarter (as defined in the Exit Credit Agreement), commencing on April 1, 2024. The Exit Facility amortized in equal quarterly installments of \$1.25 million beginning on January 1, 2026. Upon the occurrence and during the continuance of an Event of Default (as such term is defined in the Exit Credit Agreement), the obligations under the Exit Facility automatically bore interest at a rate equal to an additional 2.0% per annum over the rate otherwise applicable, with such interest being payable in cash on each interest payment date (unless the administrative agent demands prior payment).

At issuance, the Company identified embedded features in the Exit Facility and evaluated them for potential bifurcation in accordance with ASC 815-15. The identified embedded features were determined to be clearly and closely related to the debt host and not subject to bifurcation.

The present value of the Exit Facility’s cash flows were estimated to be equal to its par amount, therefore no discount or premium was recorded on issuance.

Obligations under the Exit Credit Agreement were secured by a valid and perfected lien and security interest on substantially all assets and property of the Company and the guarantors thereof, including a first-priority lien on all new, unencumbered miner equipment purchased by the Company or any subsidiary thereof other than the following, which were each secured by a second priority lien on, (i) Equipment Priority Collateral (as defined below) and (ii) future financed equipment. Obligations under the Exit Credit Agreement were guaranteed by all direct and indirect subsidiaries of the Company.

The Exit Facility provided for affirmative, negative and financial covenants, that, among other things, limited the ability of the Company and, in certain cases, certain of the Company’s subsidiaries, to incur more indebtedness; pay dividends, redeem stock or make other distributions; make investments; grant or permit certain liens; transfer or sell assets; merge or consolidate; and enter into certain transactions with our affiliates. The Exit Facility also imposed financial maintenance covenants in the form of a maximum leverage ratio and minimum liquidity requirements. The Exit Facility contained certain events of default, including, without limitation, nonpayment of principal, nonpayment of interest, fees or other obligations after three business days, bankruptcy events of the Company or any of its subsidiaries and certain changes of control.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

***Secured Notes Indenture***

Below is a description of the Secured Notes (as defined below) prior to their repayment in full on August 19, 2024. There are currently no outstanding Secured Notes.

On the Effective Date, under the terms of the Plan of Reorganization, the Company issued \$150.0 million aggregate principal amount of senior secured notes due 2028 (the “Secured Notes”) pursuant to a secured notes indenture (the “Secured Notes Indenture”) among (i) the Company, as the issuer, (ii) the guarantors named therein and (iii) Wilmington Trust, National Association, as trustee and collateral agent (the “Secured Notes Agent”).

The maturity date of the Secured Notes was January 23, 2028. The Secured Notes bore interest at a rate of 12.5% per annum, payable on March 15, June 15, September 15 and December 15 of each year, beginning on June 15, 2024. There was no amortization on the Secured Notes prior to maturity.

The Secured Notes were secured by a valid and perfected second lien and security interest on substantially all assets of the Company and the guarantors thereof, which liens were junior in priority to liens securing the Exit Facility and were subject to the terms of the New Intercreditor Agreement. The Secured Notes were guaranteed by all direct and indirect subsidiaries of the Company.

The Company was entitled to prepay the notes prior to maturity. If the notes were prepaid after the first year (including in the event that the notes are accelerated), or if the notes were not paid when due at the stated maturity, the Company was required to pay a premium on the outstanding principal amount equal to: (a) 1.00% of the aggregate principal amount of the notes then outstanding, if the notes were prepaid on or after the first anniversary of the Issue Date (as such term is defined in the Secured Notes Indenture) and prior to the second anniversary of the Issue Date, (b) 2.00% of the aggregate principal amount of the notes then outstanding, if the notes were prepaid on or after the second anniversary of the Issue Date and prior to the third anniversary of the Issue Date and (c) 3.00% of the aggregate principal amount of the notes then outstanding, if the notes were prepaid on or after the third anniversary of the Issue Date or if the notes were not paid when due at maturity, in each case whether such payment was made before or after an event of default or an acceleration (including any acceleration as a result of an insolvency proceeding) of all or part of the notes. No prepayment premium shall be applicable in connection with any prepayment, repayment or refinancing that occurs prior to the first anniversary of the Issue Date.

At issuance, the Company identified embedded features in the Secured Notes and evaluated them for potential bifurcation in accordance with ASC 815-15. The identified embedded features were determined to be clearly and closely related to the debt host and not subject to bifurcation.

The present value of the Secured Notes’ cash flows at issuance were estimated to be \$149.5 million, the discount was amortized to result in recognition of a level effective interest rate.

The Secured Notes Indenture contained affirmative and negative covenants consistent with those in the Exit Facility and the New Secured Convertible Notes Indenture (as defined below) that, among other things, limited the ability of the Company and, in certain cases, certain of the Company’s subsidiaries to incur more indebtedness; pay dividends, redeem stock or make other distributions; make investments; grant or permit certain liens; transfer or sell assets; merge or consolidate; and enter into certain transactions with its affiliates. The Secured Notes Indenture contained certain events of default, including, without limitation, nonpayment of principal, nonpayment of fees, interest or other obligations after three business days, violations of the covenants (subject, in the case of certain affirmative covenants, to certain grace periods), and bankruptcy events of the Company or any of its subsidiaries.

***New Secured Convertible Notes Indenture; Interest Payment and Mandatory Conversion***

The New Secured Convertible Notes (as defined below) were mandatorily converted as of July 10, 2024 and are no longer outstanding. On the Effective Date, under the terms of the Plan of Reorganization, the Company issued \$260.0 million aggregate principal amount of secured convertible notes due 2029 (the “New Secured Convertible Notes”) pursuant to a secured convertible notes indenture (the “New Secured Convertible Notes Indenture”) among (i) Core Scientific, Inc., as the issuer, (ii) the guarantors party thereto and (iii) Wilmington Trust, National Association, as trustee and as collateral agent for the New Secured Convertible Notes (in such capacity, the “Secured Convertible Notes Agent”). The New Secured Convertible Notes were issued to holders of the Company’s April convertible notes and August convertible notes.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

The maturity date of the New Secured Convertible Notes was January 23, 2029. The New Secured Convertible Notes bore interest payable quarterly on March 15, June 15, September 15 and December 15, beginning on June 15, 2024, at the Company's option, (i) in cash at a rate of 10.0% per annum, or (ii) in cash at a rate of 6.0% of per annum and in stock at a rate of 6.0% of per annum (the "Cash/PIK Interest"); provided that the payable-in-stock portion of the Cash/PIK Interest was payable in New Common Stock using a price equal to the volume weighted average price of the New Common Stock for the 20 consecutive trading day period immediately preceding the date that was three business days prior to the applicable interest payment date. The Company exercised its option to make the June 15, 2024 interest payment 6% in cash for approximately \$6.0 million and 6% in stock and issued 881,610 shares of its New Common Stock to the holders of the New Secured Convertible Notes on that date for total interest expense of approximately \$9.8 million. Prior to the mandatory conversion on July 10, 2024, \$26.4 million of New Secured Convertible Notes including interest were voluntarily converted for 4.5 million shares of New Common Stock.

On July 5, 2024, the mandatory conversion feature of the New Secured Convertible Notes pursuant to the Indenture, dated as of January 23, 2024 (the "Indenture"), by and among the Company, as issuer, Wilmington Trust, National Association ("Wilmington Trust"), as trustee and collateral agent, and the other parties thereto, was triggered when the trading price of the Company's New Common Stock on a daily volume weighted average basis ("VWAP") exceeded the applicable threshold specified in the Indenture for the 20th consecutive trading day. In connection with the mandatory conversion of the Notes, which took place on July 10, 2024, each registered holder of the New Secured Convertible Notes was entitled to receive (1) a number of shares of the Company's New Common Stock equal to the aggregate principal amount of his, her or its notes outstanding, divided by the conversion price of \$5.8317 (not including fractional shares), and (2) an amount of cash equal to the number of the resulting fractional shares, multiplied by the closing trading price of the Company's New Common Stock on July 9, 2024.

Following the mandatory conversion of the New Secured Convertible Notes, 40.1 million shares of the Company's New Common Stock in the aggregate were issued in exchange for \$233.6 million aggregate principal amount of the New Secured Convertible Notes.

***Description of the New Secured Convertible Notes Indenture Prior to the Mandatory Conversion***

Below is a description of the New Secured Convertible Notes prior to their mandatory conversion on July 10, 2024. There are currently no outstanding New Secured Convertible Notes.

The New Secured Convertible Notes were secured by a valid and perfected third lien and security interest on substantially all assets of the Company and the guarantors thereof, and which liens were junior in priority to liens securing the Exit Facility and Secured Notes and were subject to the terms of the New Intercreditor Agreement. The New Secured Convertible Notes were guaranteed by all direct and indirect subsidiaries of the Company.

Upon the occurrence of a Fundamental Change (as such term is defined in the New Secured Convertible Notes Indenture), the holders of the New Secured Convertible Notes had the right to require the Company to purchase all or any portion of such holder's New Secured Convertible Notes at the principal amount thereof plus accrued interest to the repurchase date. Holders could elect to convert the New Secured Convertible Notes into shares of New Common Stock at any time prior to maturity at an initial conversion rate of 171.48 shares of New Common Stock per \$1,000 principal amount of New Secured Convertible Notes (equal to a conversion price of \$5.8317 per share of New Common Stock), which the Company could deliver in cash, New Common Stock or a combination thereof. The conversion price was subject to anti-dilution adjustments upon (among other triggering events) the occurrence of certain dilutive transactions, including share dividends, splits, combinations and reclassification. The New Secured Convertible Notes also automatically converted into New Common Stock if the volume weighted average price for each day for any 20 consecutive trading days was greater than or equal to 133.6% of the as-adjusted conversion price of \$7.79.

At issuance, the Company identified embedded features in the New Secured Convertible Notes and evaluated them for potential bifurcation in accordance with ASC 815-15. The conversion feature was determined to be indexed to the Company's own stock and would be classified in equity if it were freestanding meeting a scope exception from derivative accounting under ASC 815. The other identified embedded features were determined to be clearly and closely related to the debt host and not subject to bifurcation.

Convertible debt instruments not specifically addressed in other GAAP are accounted for in accordance with ASC 470-20. Under that guidance a substantial premium is presumed to be attributable to the conversion feature. A conversion feature which is not bifurcated as a derivative is initially recognized in equity as additional paid-in capital. The New Secured Convertible Notes were estimated to have a present value of \$293.2 million on issuance. \$260.0 million was initially recognized as debt and \$33.2 million was

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

initially recognized as additional paid-in capital. Under the relevant guidance, neither balance was subject to recognition of recurring remeasurements.

The New Secured Convertible Notes Indenture contained affirmative and negative covenants consistent with those in the Exit Facility and the Secured Notes Indenture that, among other things, limited the ability of the Company and, in certain cases, certain of the Company's subsidiaries to incur more indebtedness; pay dividends, redeem stock or make other distributions; make investments; grant or permit certain liens; transfer or sell assets; merge or consolidate; and enter into certain transactions with its affiliates. The New Secured Convertible Notes Indenture contained certain events of default, including, without limitation, nonpayment of principal, nonpayment of interest, fees or other obligations after three business days, and bankruptcy events of the Company or any of its subsidiaries.

## **7. CONTINGENT VALUE RIGHTS AND WARRANT LIABILITIES**

### ***Contingent Value Rights Agreement***

On the Effective Date, under the terms of the Plan of Reorganization, the Company entered into the Contingent Value Rights Agreement and recorded the liabilities at fair value as of the Effective Date. Pursuant to the Contingent Value Rights Agreement, the Company issued 51,783,625 CVRs to holders of the Company's April convertible notes and August convertible notes who received New Common Stock (in such capacity, the "Payees") in an aggregate amount of 51,783,625 shares of New Common Stock (the "Corresponding New Common Stock"). The CVRs require the Company to make payments to each Payee, of:

- (i) at the first testing date, cash equal to such Payee's pro rata share (the "Year 1 Contingent Payment Obligation") of the lesser of (a) \$43,333,333.33 and (b) the difference between (1) \$260,000,000 and (2) the fair market value of the Corresponding New Common Stock (the "First Anniversary Payment Amount"); provided that the Year 1 Contingent Payment Obligation will be extinguished if the fair market value of the Corresponding New Common Stock is equal to or in excess of \$260,000,000 with respect to the first testing date; as of September 30, 2024, the fair market value of the Corresponding New Common Stock was in excess of \$260,000,000.
- (ii) at the second testing date, cash or New Common Stock (or a combination of cash and New Common Stock), in the Company's sole discretion, equal to such Payee's pro rata share (the "Year 2 Contingent Payment Obligation") of the lesser of (a) \$43,333,333.33 and (b) the difference between (1) \$260,000,000 minus the First Anniversary Payment Amount and (2) the fair market value of the Corresponding New Common Stock (the "Second Anniversary Payment Amount"); provided that the Year 2 Contingent Payment Obligation will be extinguished if the fair market value of the Corresponding New Common Stock is equal to or in excess of \$260,000,000 minus the First Anniversary Payment Amount, if any, with respect to the second testing date; and
- (iii) at the third testing date, cash or New Common Stock (or a combination of cash and New Common Stock), in the Company's sole discretion, equal to such Payee's pro rata share (the "Year 3 Contingent Payment Obligation") of the lesser of (a) \$43,333,333.33 and (b) the difference between (1) \$260,000,000 minus the sum of the First Anniversary Payment Amount and the Second Anniversary Payment Amount and (2) the fair market value of the Corresponding New Common Stock (the "Third Anniversary Payment Amount"); provided that the Year 3 Contingent Payment Obligation will be extinguished if the fair market value of the Corresponding New Common Stock is equal to or in excess of \$260,000,000 minus (1) the First Anniversary Payment amount, if any and (2) the Second Anniversary Payment Amount, if any, with respect to the third testing date.

### ***GUC Contingent Value Rights and Extinguishment***

On the Effective Date, pursuant to the Plan of Reorganization, the Company issued (i) 20,335,491 shares of New Common Stock to holders of allowed general unsecured claims (the "GUC Equity Distribution") and (ii) GUC CVRs to holders of allowed general unsecured claims.

The terms of the GUC CVRs provided that unless the value of the GUC Equity Distribution, as implied by the volume weighted average ("VWAP") of the closing price during any 20 trading days over any consecutive 30 trading day period during the period beginning on the Effective Date and ending on the date 18 months following the Effective Date (the "GUC CVR Testing Period"), is equal to or in excess of the GUC Equity Distribution at Plan Value, the Company would be required to pay to each GUC Payee New Common Stock in an amount equal to the lesser of (i) such GUC Payee's pro rata share of the New Common Stock with an aggregate value, based on Plan Value, of \$7,100,000 and (ii) the difference between (a) the GUC Equity Distribution at Plan Value and (b) the

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

value of the GUC Equity Distribution as implied by the volume weighted average of the closing price of the GUC Equity Distribution during the 60 trading days prior to the GUC CVR Testing Date.

On July 1, 2024, the GUC CVR obligations were extinguished pursuant to their terms when the VWAP of the Company's New Common Stock on Nasdaq National Market System exceeded \$5.02 for 20 trading days within the applicable 30 consecutive trading day period.

***Warrant Agreement***

On the Effective Date and pursuant to the Plan of Reorganization and the Confirmation Order, the Company entered into a warrant agreement (the "Warrant Agreement") providing for the issuance of 98,313,313 warrants, each exercisable for one share of New Common Stock at an exercise price of \$6.81 per share (the "Tranche 1 Warrants") and (ii) an aggregate of 81,927,898 warrants, each exercisable for one share of New Common Stock at an exercise price of \$0.01 per share (the "Tranche 2 Warrants" and, together with the Tranche 1 Warrants, the "Warrants"). Pursuant to the Plan of Reorganization, holders of the Company's previous common stock received, for each share of the Company's previous stock held, 0.253244 Tranche 1 Warrants and 0.211037 Tranche 2 Warrants.

Each whole Tranche 1 Warrant entitles the registered holder to purchase one whole share of New Common Stock at an exercise price of \$6.81 per share (the "Tranche 1 Exercise Price"). Each whole Tranche 2 Warrant entitles the registered holder to purchase one whole share of New Common Stock at an exercise price of \$0.01 per share at any time following the time the volume weighted average price per share of New Common Stock equals or exceeds \$8.72 per share on each trading day for 20 consecutive trading days (the "Triggering Event"), which event occurred on July 11, 2024. The Tranche 1 and Tranche 2 Exercise Prices are subject to adjustment for specific events as set forth in the Warrant Agreement.

The Tranche 1 Warrants will expire on January 23, 2027, and the Tranche 2 Warrants will expire on January 23, 2029, each at 5:00 p.m., New York City time, or earlier upon the occurrence of certain events as set forth in the Warrant Agreement. The Warrant Agreement provides that the Warrant Agreement, with respect to the Tranche 1 Warrants or Tranche 2 Warrants, may be amended with the prior written consent of holders holding a majority of the shares then issuable upon exercise of the Tranche 1 Warrants or Tranche 2 Warrants then outstanding, as applicable; provided, however, that any amendment or supplement to the Warrant Agreement that would reasonably be expected to materially and adversely affect any right of a holder of Warrants shall require the written consent of such holder. In addition, the consent of each holder of Warrants affected shall be required for any amendment pursuant to which the applicable exercise price would be increased, the number of shares issuable upon exercise of Warrants would be decreased (other than pursuant to adjustments provided in the Warrant Agreement) or the applicable expiration date would be revised to an earlier date; provided, however, that the Company and the Warrant Agent may amend the Warrant Agreement without the consent of holders of Warrants to (i) to cure any ambiguity; (ii) correct any defective provision; or (iii) make any other provisions with respect to matters or questions arising under the Warrant Agreement as long as the new provisions do not adversely affect (other than a de minimis adverse effect) the interest of holders of Warrants.

The Warrants may be exercised upon prior written notice of such election, payment of the applicable exercise price (together with any applicable taxes and governmental charges) and, with respect to Warrants held through the book-entry facilities of the Depository (as defined in the Warrant Agreement), surrender of the warrant certificate on or prior to the settlement date.

The Tranche 2 Warrants may be exercised on a cashless basis, pursuant to which the holder shall be entitled to receive a number of shares of New Common Stock equal to one share of New Common Stock multiplied by a fraction equal to (x) the fair market value (as of the business day immediately preceding the date on which the exercise notice was delivered) of one share of New Common Stock, minus the applicable exercise price, divided by (y) such fair market value. Holders of Warrants do not have the rights or privileges of holders of New Common Stock or any voting rights until they exercise their Warrants and receive shares of New Common Stock. After the issuance of shares of New Common Stock upon exercise of the Warrants, each holder will be entitled to the same rights as holders of New Common Stock.

Pursuant to the Warrant Agreement, holders of Warrants may exercise their Warrants only for a whole number of shares of New Common Stock. If, upon exercise, a holder would be entitled to receive a fractional interest in a share, such fractional interest will be rounded to the next higher whole number of the number of shares of New Common Stock to be issued to the holder.

Effective January 24, 2024, the Tranche 1 Warrants and Tranche 2 Warrants began trading on the Nasdaq Global Select Market under the symbols "CORZW" and "CORZZ," respectively.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

During the three and nine months ended September 30, 2024, 0.2 million and 0.2 million Tranche 1 Warrants were exercised, respectively, which resulted in cash receipts of \$1.1 million and \$1.5 million, respectively.

The Tranche 2 Warrants became exercisable as of the close of trading on July 11, 2024, when the daily volume weighted average trading price of the Company's New Common Stock exceeded \$8.72 per share for the 20th consecutive trading day pursuant to the Warrant Agreement. During the three and nine months ended September 30, 2024, 51.5 million Tranche 2 Warrants were exercised, which resulted in cash receipts of \$0.4 million.

**8. FAIR VALUE MEASUREMENTS**

The Company measures certain assets and liabilities at fair value on a recurring or non-recurring basis in certain circumstances. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. To increase the comparability of fair value measures, the following hierarchy prioritizes the inputs to valuation methodologies used to measure fair value:

Level 1 — Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2 — Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 — Valuations based on unobservable inputs reflecting the Company's own assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

The Company uses observable market data when determining fair value whenever possible and relies on unobservable inputs only when observable market data is not available.

***Recurring Fair Value Measurements***

The CVRs, GUC CVRs and Warrants are recognized as derivative liabilities in accordance with ASC 815 and are initially and subsequently measured at fair value with changes in fair value reflected in Net loss. When these instruments were recognized on the Effective Date, observable market data was not available. As of September 30, 2024, observable Level 1 market data was available for the CVRs and Warrants.

The following presents the levels of the fair value hierarchy for the Company's derivatives measured at fair value on a recurring basis as of September 30, 2024 (in thousands):

	September 30, 2024			
	Fair value hierarchy			
	Level 1	Level 2	Level 3	Fair value
Contingent value rights liabilities:				
Contingent value rights	\$ 6,991	\$ —	\$ —	\$ 6,991
Total contingent value rights liabilities	6,991	—	—	6,991
Warrants liability:				
Warrants	1,017,299	—	—	1,017,299
Total warrants liability	1,017,299	—	—	1,017,299
Total liabilities measured at fair value on a recurring basis	\$ 1,024,290	\$ —	\$ —	\$ 1,024,290

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

**Level 2 Recurring Fair Value Measurements**

In October 2023, the Company entered into an energy forward purchase contract to fix a specified component of the energy price related to forecasted energy purchases at the Cottonwood 1 facility from November 1, 2023 through May 31, 2024 (the “Energy Derivatives”). The Energy Derivatives are recognized as derivatives in accordance with ASC 815 initially and subsequently measured at fair value with changes in value reflected in Net income (loss).

The following table summarizes the fair value of the energy forward purchase contract on the Company’s Condensed Consolidated Balance Sheets (in thousands):

	Financial statement line item	Fair Value (Level 2)	
		September 30, 2024	December 31, 2023
Energy forward purchase contract	Accrued expenses and other current liabilities	\$ —	\$ 2,262

The Company recorded the following losses related to the energy forward purchase contract on the Company’s Condensed Consolidated Statements of Operations (in thousands):

	Financial statement line item	Three Months Ended September 30,		Nine Months Ended September 30,	
		2024	2023	2024	2023
Energy forward purchase contract	Change in fair value of energy derivatives	\$ —	\$ —	\$ (2,757)	\$ —

**Nonrecurring fair value measurements**

The Company’s non-financial assets, including property, plant and equipment, and intangible assets are measured at estimated fair value on a nonrecurring basis. These assets are adjusted to fair value only when an impairment is recognized, or the underlying asset is held for sale.

No non-financial assets were classified as Level 3 as of September 30, 2024 or December 31, 2023.

**Fair value of financial instruments**

The Company’s financial instruments, that are not subject to recurring fair value measurements, include cash and cash equivalents, restricted cash, accounts receivable, accounts payable, leases, notes payable and certain accrued expenses and other liabilities. Except for the Convertible Notes, the carrying amount of these financial instruments materially approximate their fair values. As of September 30, 2024, the fair value of the Convertible Notes using Level 1 active market price was \$631.1 million.

**9. COMMITMENTS AND CONTINGENCIES**

**Commitments**

As of September 30, 2024, the Company had open commitments related to construction contracts of approximately \$660.1 million, substantially all of which is reimbursable by the customer.

On July 5, 2024, the Company entered into a purchase agreement with Block, Inc. for the purchase of 3 nanometer Application Specific Integrated Circuits chips (“ASIC chips”) representing approximately 15 EH/s of hash rate. On July 12, 2024, the Company paid a \$10.0 million deposit which will be applied evenly towards the ASIC chips. Payments are due in installments, starting six months prior to delivery. Delivery of the ASIC chips is expected to begin by the end of 2025.

**Legal Proceedings**—The Company is subject to legal proceedings arising in the ordinary course of business. The Company accrues losses for a legal proceeding when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. However, the uncertainties inherent in legal proceedings make it difficult to reasonably estimate the costs and effects of

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

resolving these matters. Accordingly, actual costs incurred may differ materially from amounts accrued and could materially adversely affect the Company's business, cash flows, results of operations, financial condition and prospects. Unless otherwise indicated, the Company is unable to estimate reasonably possible losses in excess of any amounts accrued.

*Purported Shareholder Class Action ("Pang")*

On November 14, 2022, Plaintiff Mei Pang filed a purported class-action complaint against Core Scientific, Inc., its former chief executive officer, Michael Levitt, and others in the United States District Court, Western District (Austin) of Texas asserting that the Company violated the Securities and Exchange Act by allegedly failing to disclose to investors that among other things the Company was vulnerable to litigation given its decision to pass power costs to its customers, that certain clients had breached their contracts, and that this impacted the Company's profitability and ability to continue as a going concern. The complaint seeks monetary damages. Core filed a notice of suggestion of bankruptcy stating that its petition for bankruptcy—filed on December 21, 2022—operates as a stay to the continuation of this matter. Plaintiff subsequently withdrew its claims against Core. A lead plaintiff was appointed in April 2023 and proofs of claim were filed in the Company's Chapter 11 Cases. After the Company filed its motion to dismiss and a subsequent motion for consideration with respect to remaining claims not dismissed, all remaining claims in the complaint against the individual defendants were subsequently dismissed without prejudice in April 2024.

On December 7, 2023, the United States Bankruptcy Court for the Southern District of Texas in Houston, sustained the Company's objection to the filed class proof of claim without prejudice to re-file a proof of claim on an individual basis by December 20, 2023; and denied plaintiff's Motion for Class Treatment under Fed. R. Bankr. P. 7023. No individual proof of claim was filed by any of the class representatives of the purported class action by December 20, 2023, and a separately filed objection to confirmation of Debtors' Fourth Amended Chapter 11 Plan and Disclosure Statement was overruled by the Bankruptcy Court on January 16, 2024. On January 29, 2024, plaintiff filed a notice of appeal of the order confirming the Company's Plan of Reorganization.

On June 7, 2024, Plaintiff refiled its complaint asserting that the individual defendants violated the Securities Exchange Act by allegedly failing to disclose to investors that among other things the Company failed to disclose known trends or uncertainties that would have an impact on the Company's financial performance. The Company's motion to dismiss the refiled complaint is pending with the United States District Court in Austin, Texas.

*Purported Shareholder Class Action ("Ihle")*

On July 24, 2023, Plaintiff Brad Ihle filed a purported class action complaint against certain officers and directors of Power & Digital Infrastructure Acquisition Corp. (the former name of the current corporate entity operating our business, or "XPDI") and XMS Sponsor LLC et al, in the Court of Chancery State of Delaware. The complaint alleges breach of fiduciary duties arising out of the merger of XPDI and the entity that conducted our business operations prior to the merger ("Legacy Core") and the marketing and solicitation of shareholders pursuant to that merger agreement dated July 20, 2021. Certain of the defendants have notified the Company of their intention to seek defense and indemnification in this matter pursuant to Delaware law and the Company's bylaws.

*Employment Claim*

On September 30, 2022, Harlin Dean, a former executive of Blockcap, Inc. (n/k/a Core Scientific Acquired Mining, LLC) sent a demand letter to the Company, seeking approximately \$9.8 million. Along with the demand letter, Mr. Dean enclosed a complaint that had been filed in the 419<sup>th</sup> Judicial District Court, Travis County, Texas, which asserted the following causes of action: (1) breach of employment agreement; (2) quantum meruit; (3) promissory estoppel; (4) conversion; (5) declaratory relief; (6) equitable relief/specific performance; (7) imposition of constructive trust; (8) accounting; and (9) attorneys' fees and costs. According to Mr. Dean, the Company failed to honor the terms of his employment agreement upon his resignation.

Following the Company's filing of the Chapter 11 Cases, Mr. Dean filed proofs of claim in the Chapter 11 Cases alleging the Company breached Mr. Dean's employment agreement and various equity award agreements. Mr. Dean seeks a total recovery of approximately \$8 million. The Debtors filed an objection to Mr. Dean's proofs of claim on September 19, 2023. Mr. Dean filed a reply in support of his claim and moved for summary judgment on October 19. Adjudication of the validity and value of Mr. Dean's proof of claim is pending. As a general unsecured creditor under the Plan of Reorganization, any amount determined to be owed to plaintiff will be paid in common shares of the Company as provided in the Plan of Reorganization.

**Core Scientific, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

*Contract Claims*

GEM Mining 1, LLC, GEM Mining 2, LLC, GEM Mining 2B, LLC, and GEM Mining 4, LLC (together “GEM”) have filed proofs of claim in the Chapter 11 Cases alleging the Company breached its hosting agreements with GEM and are seeking to recover approximately \$4.1 million. The Debtors filed an initial objection to GEM’s proofs of claim on May 4, 2023, and filed a supplemental objection on May 6, 2023. GEM filed a response in opposition to Debtors’ objections on September 6, 2023. Additionally, GEM 1 and GEM 4 filed proofs of claim in the Chapter 11 Case asserting approximately \$8 million in rejection damages. The Debtors are currently preparing an objection to these claims along with a reply to GEM’s response to the Debtors’ earlier filed objections. As a general unsecured creditor under the Plan of Reorganization, any amount determined to be owed to plaintiff will be paid in common shares of the Company as provided in the Plan of Reorganization.

As of September 30, 2024 and December 31, 2023, there were no other material loss contingency accruals for legal matters.

**Leases**—See Note 5 — Leases for additional information.

## **10. STOCKHOLDERS' DEFICIT**

*Equity Rights Offering*

On November 20, 2023, the Company commenced an equity rights offering (the “Equity Rights Offering”) of common shares of the reorganized Company (the “ERO Shares”) in an aggregate amount of \$55 million. On the Effective Date, the Company issued 15,648,896 shares on account of the Equity Rights Offering in exchange for the cash proceeds. Also, on November 16, 2023, the Company entered into an agreement (the “Backstop Commitment Letter”) with the parties named therein (the “Commitment Parties”), pursuant to which the Commitment Parties agreed to severally and not jointly backstop \$37.1 million of the Equity Rights Offering (the “Backstop Commitment”), subject to the terms and conditions of the Backstop Commitment Letter. The subscription period for the ERO expired on January 5, 2024. The Equity Rights Offering was oversubscribed and the aggregate subscriptions (including over subscriptions) exceeded the number of ERO Shares offered to be purchased as part of the Equity Rights Offering. The results of the Equity Rights Offering rendered the previously arranged Backstop Commitment unnecessary, however, on the Effective Date, the Company issued 2,111,178 New Common Stock shares on account of the underlying backstop fee associated with the Backstop Commitment.

*Emergence from Bankruptcy*

As disclosed in Note 1 — Organization and Description of Business, on December 21, 2022, the Debtors filed the Chapter 11 Cases in the Bankruptcy Court seeking relief under Chapter 11 of the Bankruptcy Code.

On January 15, 2024, the Debtors filed with the Bankruptcy Court the Plan of Reorganization, and on January 16, 2024, the Bankruptcy Court entered the Confirmation Order.

On the Effective Date, the Plan of Reorganization became effective in accordance with its terms and the Debtors emerged from the Chapter 11 Cases. On the Effective Date, in connection with the effectiveness of, and pursuant to the terms of, the Plan of Reorganization and the Confirmation Order, the Company’s common stock outstanding immediately before the Effective Date was canceled and is of no further force or effect, and the new organizational documents of the Company became effective, authorizing the issuance of shares of common stock, par value \$0.00001 per share (the “New Common Stock”). In accordance with the foregoing, on the Effective Date, the Company, as reorganized on the Effective Date and in accordance with the Plan of Reorganization, issued the: (i) New Common Stock, (ii) Warrants, (iii) CVRs, (iv) New Secured Convertible Notes, (v) Secured Notes and (vi) the GUC CVRs (each, as defined below). Such securities, rights, or interests were issued in reliance upon the exemption from the registration requirements of the Securities Act of 1933, as amended (the “Securities Act”) provided by section 1145 of the Bankruptcy Code.

On the Effective Date, all equity interests in the Company that existed immediately prior to the Effective Date were cancelled, including the Company’s then-existing common stock and warrants, and the Company issued or caused to be issued the New Common Stock in accordance with the terms of the Plan of Reorganization.

On the Effective Date, pursuant to the Plan of Reorganization, the Company issued or held in reserve as issuable:

- 176,266,782 shares of New Common Stock;
- 4,725,091 shares of New Common Stock held in reserve for disputed claims;

- 180,241,211 Warrants, composed of 98,313,313 Tranche 1 Warrants and 81,927,898 Tranche 2 Warrants;
- 51,783,625 CVRs; and
- GUC CVRs.

The 4,725,091 shares of New Common Stock held in reserve for disputed claims will be distributed in settlement of previously disputed claims which become allowed by the Court. On the one-year anniversary from the Effective Date, or at such earlier date as all disputed claims are considered resolved, any reserved shares not distributed in settlement of previously disputed claims which become allowed will be issued to holders of the common stock immediately prior to the Effective Date. As these shares will be issued and only the recipient is contingent, the Company accounts for these shares as outstanding in its Condensed Consolidated Balance Sheets and in the Basic and Diluted Weighted average shares outstanding in its Condensed Consolidated Statements of Operations. Shares estimated by the Company to be issued to disputed claims are included in the gain on satisfaction of the GUC claims reported in Reorganization items, net.

#### ***New Common Stock and Preferred Stock***

The Company is authorized to issue 10,000,000,000 shares of New Common Stock and 2,000,000,000 shares of preferred stock (the “Preferred Stock”), each having a par value of \$0.00001 per share. The rights and preferences of the New Common Stock shall at all times be subject to the rights of the Preferred Stock as may be set forth in one or more certificates of designations filed with the Secretary of State of the State of Delaware from time to time in accordance with the Delaware General Corporation Law and the Charter.

The Charter authorized the Board of Directors to provide for the issuance of a share or shares of Preferred Stock in one or more series and to fix for each such series (i) the number of shares constituting such series and the designation of such series, (ii) the voting powers (if any) of the shares of such series, (iii) the powers, preferences, and relative, participating, optional or other special rights of the shares of each such series, and (iv) the qualifications, limitations, and restrictions thereof. The authority of the Board of Directors with respect to the Preferred Stock shall include, but not be limited to, determination of (i) the number of shares constituting any series, (ii) the dividend rate or rates on the shares of any series, (iii) the voting rights, if any, of such series and the number of votes per share, (iv) conversion privileges, (v) whether the shares of any series shall be redeemable, (vi) whether any series shall have a sinking fund for the redemption or purchase of shares of such series, (vii) the rights of the shares in the event of voluntary or involuntary liquidation, dissolution or winding up of the Company and (viii) any other powers, preferences, rights, qualifications, limitations and restrictions of any series.

#### ***Incentive Plan***

In accordance with the Plan of Reorganization, the Company adopted an equity-based management incentive plan on April 26, 2024 (the “Incentive Plan”). The Incentive Plan provides for the grant of non-qualified stock options, stock appreciation rights, shares of restricted stock, restricted stock units, performance awards, dividend equivalent rights and other stock-based awards.

The Incentive Plan provides for grants of up to 40,000,000 shares of the Company’s Common Stock in respect of awards, subject to adjustment as provided in the Incentive Plan, and limits the aggregate compensation that may be paid to the Company’s non-employee directors in respect of any single fiscal year (including awards under the Incentive Plan) to a total of \$800,000.

The form of outstanding grants under the Incentive Plan currently includes RSUs and MSUs. The participants in the Incentive Plan, the timing and allocations of the awards to participants, and the other terms and conditions of such awards (including, but not limited to, vesting, exercise prices, base values, hurdles, forfeiture, repurchase rights and transferability) is determined by the Compensation Committee of the Board of Directors in its discretion, as plan administrator.

Under the Incentive Plan, certain executives have been granted MSUs which are subject to the achievement of market-based share price goals and the executives’ continued service until the relevant vesting date. The number of shares which vest as of the end of each measurement period on each vesting date are conditioned on the highest 20-day volume weighted average price of the Company’s share price achieved during the tranche’s measurement vesting period since grant. The MSU vesting schedule is proportionate over a three-year service period where such proportions are identified as tranches with separate service conditions and measurement periods for the market conditions. If certain market-based share price goals are not met during certain tranche measurement periods, the ability to satisfy such goals apply in subsequent measurement periods and permit vesting if such market

conditions are then met (and the service conditions are then satisfied). The following table presents additional information relating to each MSU award:

	Share Price Goal	Incremental Units	Tranche Cumulative Units
<b>December 31, 2024 Vesting:</b>			
\$	3.14	147,691	147,691
\$	5.00	147,691	295,382
\$	8.00	147,692	443,074
\$	10.00	147,692	590,766
\$	12.00	147,692	738,458
\$	14.00	147,692	886,150
<b>December 31, 2025 Vesting:</b>			
\$	3.14	147,691	147,691
\$	5.00	147,691	295,382
\$	8.00	147,692	443,074
\$	10.00	147,692	590,766
\$	12.00	147,692	738,458
\$	14.00	147,692	886,150
<b>December 31, 2026 Vesting:</b>			
\$	3.14	147,691	147,691
\$	5.00	147,691	295,382
\$	8.00	147,692	443,074
\$	10.00	147,692	590,766
\$	12.00	147,692	738,458
\$	14.00	147,692	886,150

#### ***Stock-Based Compensation***

During the nine months ended September 30, 2024, the Company did not grant any stock options, while 1.9 million stock options expired or were forfeited. Total unrecognized stock-based compensation expense related to unvested stock options was immaterial as of September 30, 2024.

A summary of RSU and MSU activity for the nine months ended September 30, 2024, is as follows (amounts in thousands, except per share amounts):

	Restricted Stock Units		Market Condition Restricted Stock Units	
	Number of Shares	Weighted-Average Grant Date Fair Value	Number of Shares	Weighted-Average Grant Date Fair Value
Unvested - January 1, 2024	38,358	\$ 2.69	—	\$ —
Cancellation of common stock in connection with emergence	(38,358)	2.69	—	—
Issuance of new common stock in connection with emergence	3,836	26.93	—	—
Unvested - Effective Date	3,836	26.93	—	—
Granted	20,466	6.49	2,814	5.95
Vested	(1,817)	26.14	—	—
Forfeited	(2,238)	18.33	(155)	3.99
Unvested - September 30, 2024	<u>20,247</u>	\$ 7.29	<u>2,659</u>	\$ 6.06

As of September 30, 2024, the Company had approximately \$125.6 million of unrecognized stock-based compensation expense related to RSUs, which is expected to be recognized over a weighted average time period of 2.7 years, and an additional \$11.4 million of unrecognized stock-based compensation expense related to MSUs for which some or all of the requisite service has been provided under the service conditions but had market conditions that had not yet been achieved. The unrecognized stock-based compensation expense related to MSUs is expected to be recognized over a weighted average time period of 2.3 years.

Stock-based compensation expense for the three and nine months ended September 30, 2024 and 2023, is included in the Company's Condensed Consolidated Statements of Operations as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Cost of revenue	\$ 2,338	\$ 1,503	\$ 5,496	\$ 3,607
Research and development	1,077	334	1,739	1,144
Sales and marketing	1,814	517	4,048	1,561
General and administrative	15,059	12,507	16,439	35,102
Stock-based compensation expense, net of amounts capitalized	20,288	14,861	27,722	41,414
Capitalized stock-based compensation <sup>1</sup>	235	—	235	—
Total stock-based compensation cost	<u>\$ 20,523</u>	<u>\$ 14,861</u>	<u>\$ 27,957</u>	<u>\$ 41,414</u>

<sup>1</sup> Represents the amounts of stock-based compensation capitalized to property, plant, and equipment.

## 11. INCOME TAXES

Current income tax expense represents the amount expected to be reported on the Company's income tax returns, and deferred tax expense or benefit represents the change in net deferred tax assets and liabilities. Deferred tax assets and liabilities are determined based on the difference between the financial statement and tax basis of assets and liabilities as measured by the enacted tax rates that will be in effect when these differences reverse. Valuation allowances are recorded as appropriate to reduce deferred tax assets to the amount considered likely to be realized.

The income tax expense and effective income tax rate for the three and nine months ended September 30, 2024 and 2023 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
	(in thousands, except percentages)			
Income tax expense	\$ 134	\$ 114	\$ 484	\$ 347
Effective income tax rate	— %	(0.3)%	— %	(0.7)%

For the three and nine months ended September 30, 2024, the Company recorded \$0.1 million and \$0.5 million, respectively, of income tax expense which consisted of discrete state taxes. The Company's estimated annual effective income tax rate without consideration of discrete items is 0.0%, compared to the U.S. federal statutory rate of 21.0% due to projected changes in the valuation allowance 1.0%, state taxes 0.1%, non-deductible loss on warrant and contingent liabilities (21.9)% and other items (0.2)%. The Company has a full valuation allowance on its net deferred tax asset as the evidence indicates that it is not more likely than not expected to realize such asset.

For the three and nine months ended September 30, 2023, the Company recorded \$0.1 million and \$0.3 million, respectively, of income tax expense. The Company's estimated annual effective income tax rate was (0.7)%, compared to the U.S. federal statutory rate of 21.0% due to a change in the valuation allowance 2.3%, state taxes (0.4)%, non-deductible transaction costs (22.8)% and other items (0.1)%. The Company has a full valuation allowance on its net deferred tax asset as the evidence indicates that it is not more likely than not expected to realize such asset.

## 12. NET LOSS ATTRIBUTABLE TO COMMON STOCKHOLDERS

Basic earnings per share ("EPS") is measured as the income or loss available to common stockholders divided by the weighted average common shares outstanding for the period. Approximately 30.5 million shares of common stock issuable upon the exercise of the Tranche 2 Warrants are included in the number of outstanding shares used for the computation of basic net loss per share for the three and nine months ended September 30, 2024. Additionally, the basic EPS numerator includes an adjustment to eliminate the change in fair value effects that have been recorded in net income from the close of trading on July 11, 2024, the date the Tranche 2 Warrants became exercisable, through September 30, 2024. Since the shares are issuable for little or no consideration, sometimes referred to as "penny warrants", they are considered outstanding in the computation of basic EPS, as discussed in ASC 260-10-45-13.

Diluted EPS presents the dilutive effect on a per-share basis from the potential conversion of convertible securities or the exercise of options and/or warrants; the dilutive impacts of potentially convertible securities are calculated using the if-converted method; the potentially dilutive effect of options or warrants are computed using the treasury stock method. Securities that potentially have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the diluted EPS calculation.

The following table sets forth reconciliations of the numerators and denominators used to compute basic and diluted loss per share (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
<b>Numerator:</b>				
Net loss	\$ (455,259)	(41,146)	\$ (1,049,464)	\$ (50,794)
Add: Change in fair value of Tranche 2 Warrants	111,834	—	111,834	—
Basic and diluted net loss	<u>\$ (343,425)</u>	<u>\$ (41,146)</u>	<u>\$ (937,630)</u>	<u>\$ (50,794)</u>
<b>Denominator:</b>				
Weighted average shares outstanding - basic	292,486	382,483	253,058	378,107
Weighted average shares outstanding - diluted	292,486	382,483	253,058	378,107
Net loss per share - basic	\$ (1.17)	\$ (0.11)	\$ (3.71)	\$ (0.13)
Net loss per share - diluted	\$ (1.17)	\$ (0.11)	\$ (3.71)	\$ (0.13)

Potentially dilutive securities include securities not included in the calculation of diluted net loss per share because to do so would be anti-dilutive. Potentially dilutive securities are as follows (in common stock equivalent shares, in thousands):

	Three and Nine Months Ended	
	September 30, 2024	September 30, 2023
Stock options	369	22,025
Tranche 1 Warrants	98,079	—
Restricted stock units	20,247	38,646
Market condition restricted stock units	1,772	—
Warrants	—	14,892
Convertible Notes	41,825	69,998
SPAC Vesting Shares	—	1,725
Total potentially dilutive securities	<u>162,292</u>	<u>147,286</u>

### 13. SEGMENT REPORTING

The Company's operating segments are aggregated into reportable segments only if they exhibit similar economic characteristics and have similar business activities.

The Company now has three operating segments: "Digital Asset Self-Mining", consisting of performing digital asset mining for its own account; "Digital Asset Hosted Mining", consisting of providing hosting services to third-parties for digital asset mining; and "HPC Hosting", consisting of providing hosting services to third parties for GPU-based HPC operations. The Company's HPC operations met the criteria to be considered a new segment during the second quarter of 2024. The Digital Asset Self-Mining segment generates revenue from operating owned digital infrastructure and computer equipment as part of a pool of users that process transactions conducted on one or more blockchain networks. In exchange for these services, the Company receives digital assets. The Digital Asset Hosted Mining business generates revenue through the sale of consumption-based contracts for its digital asset hosted mining services which are recurring in nature. The HPC Hosting business generates revenue through licensing agreements and orders with licensees that include fixed and variable payments on a recurring basis.

The primary financial measures used by the chief operating decision maker ("CODM") to evaluate performance and allocate resources are revenue and gross profit. The CODM does not evaluate performance or allocate resources based on segment asset or liability information; accordingly, the Company has not presented a measure of assets by segment. The segments' accounting policies are the same as those described in the summary of significant accounting policies. The Company excludes certain operating expenses and other expenses from the allocations to operating segments.

The following table presents revenue and gross profit by reportable segment for the periods presented (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
(in thousands, except percentages)				
<b>Digital Asset Self-Mining Segment</b>				
Digital asset self-mining revenue	\$ 68,138	\$ 83,056	\$ 328,840	\$ 278,164
Cost of digital asset self-mining	74,555	72,603	236,120	212,125
Digital Asset Self-Mining gross (loss) profit	\$ (6,417)	\$ 10,453	\$ 92,720	\$ 66,039
Digital Asset Self-Mining gross margin	(9)%	13 %	28 %	24 %
<b>Digital Asset Hosted Mining Segment</b>				
Digital asset hosted mining revenue from customers	\$ 16,878	\$ 29,848	\$ 71,050	\$ 82,307
Cost of digital asset hosted mining services	11,914	24,882	49,388	64,187
Digital Asset Hosted Mining gross profit	\$ 4,964	\$ 4,966	\$ 21,662	\$ 18,120
Digital Asset Hosted Mining gross margin	29 %	17 %	30 %	22 %
<b>HPC Hosting Segment</b>				
HPC hosting revenue	\$ 10,338	\$ —	\$ 15,857	\$ —
Cost of HPC hosting services	9,041	—	13,932	—
HPC Hosting gross profit	\$ 1,297	\$ —	\$ 1,925	\$ —
HPC Hosting gross margin	13 %	— %	12 %	— %
<b>Consolidated</b>				
Consolidated total revenue	\$ 95,354	\$ 112,904	\$ 415,747	\$ 360,471
Consolidated cost of revenue	\$ 95,510	\$ 97,485	\$ 299,440	\$ 276,312
Consolidated gross (loss) profit	\$ (156)	\$ 15,419	\$ 116,307	\$ 84,159
Consolidated gross margin	— %	14 %	28 %	23 %

For the three months ended September 30, 2024 and 2023, cost of revenue included depreciation expense of \$27.4 million and \$22.0 million, respectively, for the Digital Asset Self-Mining segment. For the three months ended September 30, 2024 and 2023, cost of revenue included depreciation expense of \$0.9 million and \$1.9 million, respectively for the Digital Asset Hosted Mining segment. For the three months ended September 30, 2024 and 2023, cost of revenue included depreciation expense of a nominal amount and nil, respectively for the HPC Hosting segment.

For the nine months ended September 30, 2024 and 2023, cost of revenue included depreciation expense of \$83.1 million and \$60.8 million, respectively for the Digital Asset Self-Mining segment. For the nine months ended September 30, 2024 and 2023, cost of revenue included depreciation expense of \$3.2 million and \$3.7 million, respectively, for the Digital Asset Hosted Mining segment. For the nine months ended September 30, 2024 and 2023, cost of revenue included depreciation expense of a nominal amount and nil, respectively, for the HPC Hosting segment.

#### **Concentrations of Revenue and Credit Risk**

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of cash and cash equivalents and accounts receivable. Credit risk with respect to accounts receivable is concentrated with a small number of customers. The Company places its cash and cash equivalents with major financial institutions, which management assesses to be of high credit quality, in order to limit the exposure to credit risk. As of September 30, 2024 and December 31, 2023, all of the Company's fixed assets were located in the United States. For the three and nine months ended September 30, 2024 and 2023, all of the Company's revenue was generated in the United States. For the three and nine months ended September 30, 2024, 71% and 79%, respectively, of the Company's total revenue was generated from digital asset mining of bitcoin, which is subject to extreme price volatility, from one customer. For the three and nine months ended September 30, 2023, 74% and 77%, respectively, of the Company's total revenue was generated from digital asset mining of bitcoin from one customer.

For the three and nine months ended September 30, 2024 and 2023, the concentration of customers comprising 10% or more of the Company's Digital Asset Self-Mining, Digital Asset Hosted Mining, and HPC Hosting segment revenue were as follows:

	Three Months Ended September 30,		Three Months Ended September 30,		Three Months Ended September 30,	
	2024	2023	2024	2023	2024	2023

#### 14. RELATED-PARTY TRANSACTIONS

In the ordinary course of business, the Company from time to time has entered into various transactions with related parties.

The Company had agreements to provide hosting services to various entities that are managed and invested in by individuals who were directors and executives of Core Scientific during fiscal 2023. For the three and nine months ended September 30, 2024, there were no related-party transactions. For the three and nine months ended September 30, 2023, the Company recognized hosting revenue of \$2.8 million and \$10.1 million, respectively, from contracts with related parties.

#### 15. SUBSEQUENT EVENTS

On October 22, 2024, the Company announced the exercise by CoreWeave of its final option to contract for an additional 120 MW of infrastructure to host CoreWeave's GPUs for its HPC operations.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Unless the context otherwise requires, all references in this section to "we," "us," "our," the "Company," "Core Scientific," or "Core" refer to Core Scientific, Inc. and its subsidiaries.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to promote understanding of the results of operations and financial condition. This MD&A is provided as a supplement to, and should be read in conjunction with, our unaudited condensed consolidated financial statements and the accompanying Notes to Unaudited Financial Statements (Part I, Item 1 of this Form 10-Q) as well as the financial and other information included in our Annual Report on Form 10-K for the year ended December 31, 2023, filed with the Securities and Exchange Commission on March 13, 2024. This section generally discusses the results of operations for the three and nine months ended September 30, 2024 compared to September 30, 2023.

As discussed in the section titled "Cautionary Note Regarding Forward-Looking Statements," the following discussion and analysis contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause our results to differ materially from those expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those identified below, and those discussed in the section titled "Risk Factors" under Part I, Item 1A in our Annual Report on Form 10-K for the year ended December 31, 2023, filed with the Securities and Exchange Commission on March 13, 2024, and under Part II, Item 1A in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2024, filed with the Securities and Exchange Commission on August 7, 2024.

### Overview

Core Scientific is a leader in digital infrastructure for bitcoin mining and high-performance computing. We operate dedicated, purpose-built facilities for digital asset mining and are a premier provider of digital infrastructure, software solutions and services to our third-party customers. We employ our own large fleet of computers ("miners") to earn digital assets for our own account and to provide hosting services for large bitcoin mining customers and we are in the process of allocating and converting a significant portion of our nine operational data centers in Alabama (1), Georgia (2), Kentucky (1), North Carolina (1), North Dakota (1) and Texas (3), and our facility in development in Oklahoma to support artificial intelligence-related workloads under a series of contracts that entail the modification of certain of our data centers to deliver hosting services for high-performance computing ("HPC"). We derive the majority of our revenue from earning bitcoin for our own account ("self-mining"). We began digital asset mining at scale in 2018 and in 2020 became one of the largest North American providers of hosting services primarily for third-party mining customers. We had an average hourly operating power demand of approximately 607 megawatts ("MW") for the nine months ended September 30, 2024. We had secured approximately 1,200 MW of contracted power capacity at our sites as of September 30, 2024. We also operate and manage one of the largest data center infrastructure asset bases among publicly listed North American miners with operational capacity of approximately 830 MW in support of our mining and HPC operations.

Our average self-mining fleet energy efficiency for the three months ended September 30, 2024 was 24.5 joules per terahash, compared to 24.7 joules per terahash for the three months ended June 30, 2024. Self-mining fleet energy efficiency is a measure of our fleet's average actual energy efficiency over the period presented.

Beginning on March 6, 2024, we announced a series of new contractual agreements with a third-party provider of HPC operations for customers using specialized cloud-based graphics processing units ("GPUs"). These new agreements leverage the Company's existing digital infrastructure and expertise in third-party hosting solutions. We believe that using our existing infrastructure for HPC hosting operations will provide more consistent dollar-based revenue and represents substantially less risk than for our traditional hosted bitcoin mining or our bitcoin self-mining operations. As a result, we intend to focus our business development and marketing efforts on expanding our HPC hosting customer base. We expect that third-party hosting for traditional bitcoin mining customers will decline significantly as a portion of our revenue mix.

Our total revenue was \$415.7 million and \$360.5 million for the nine months ended September 30, 2024 and 2023, respectively. We generated operating income of \$20.6 million and \$5.0 million for the nine months ended September 30, 2024 and 2023, respectively. We incurred net loss of \$1.05 billion and \$50.8 million for the nine months ended September 30, 2024 and 2023, respectively. Our adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA") was \$144.2 million and \$112.9 million for the nine months ended September 30, 2024 and 2023, respectively. Adjusted EBITDA is a non-GAAP financial measure. See "Key Business Operating Metrics and Non-GAAP Financial Measures" below for our definition of, and additional information related to Adjusted EBITDA.

## **Recent Developments**

### ***CoreWeave HPC Hosting Agreements***

On February 29, 2024, the Company entered into a long-term contract with CoreWeave, Inc. (“CoreWeave”) to deliver 16 MW of infrastructure at the Company’s Austin, Texas facility. Following the commencement of operations in the Austin, Texas facility, on June 3, 2024, the Company entered into a series of long-term contracts with CoreWeave to deliver approximately 200 MW of infrastructure to host CoreWeave’s HPC operations, which will require the Company to modify multiple existing sites. The site modifications commenced in the second half of fiscal 2024 and operational status is expected to begin in the first half of fiscal 2025. On June 25, 2024, the Company announced CoreWeave’s execution of an option to secure an additional 70 MW of infrastructure to host its HPC operations. Operational status for the additional 70 MW is expected in the second half of 2025. Further, on August 6, 2024, the Company announced that CoreWeave had executed an option to secure an additional 112 MW of infrastructure to host its HPC operations. On October 22, 2024, the Company announced that CoreWeave had exercised its final option for an additional 120 MW of infrastructure.

### ***2029 Convertible Notes Offering***

On August 19, 2024, the Company completed a private offering (the “2029 Convertible Notes Offering”) of \$460.0 million aggregate principal amount of 3.00% Convertible Senior Notes due 2029 (the “2029 Convertible Notes”), which included the exercise in full of the initial purchasers’ option to purchase up to an additional \$60.0 million aggregate principal amount of 2029 Convertible Notes. The net proceeds from the 2029 Convertible Notes Offering were approximately \$447.6 million, after deducting the initial purchasers’ discounts and commissions and the Company’s estimated offering expenses. The Company used approximately \$62.0 million of the net proceeds from the 2029 Convertible Notes Offering to repay in full the outstanding loans under the Exit Credit Agreement, of which \$0.8 million was paid for interest. Additionally, the Company used approximately \$154.1 million of the net proceeds from the 2029 Convertible Notes Offering to redeem all of the outstanding Secured Notes, of which \$4.1 million was paid for interest. Further, On September 6, 2024, the Company paid \$49.6 million to repay the BlockFi facility in full, of which \$0.7 million was paid for interest. The Company intends to use the remaining net proceeds from the 2029 Convertible Notes Offering for general corporate purposes, including working capital, operating expenses, capital expenditures, acquisitions of complementary businesses or assets, or other repurchases of its securities. For more detailed information regarding the 2029 Convertible Notes Offering conversion, refer to Note 6 — Convertible and Other Notes Payable to our condensed consolidated financial statements in Item 1 of Part I of this Quarterly Report on Form 10-Q.

### ***Halving***

On April 19, 2024, the Bitcoin protocol executed its fourth planned halving, wherein the bitcoin rewards issued for each solved block declined from 6.25 bitcoin to 3.125 bitcoin, reducing the bitcoin received from bitcoin mining by 50% (excluding transaction fee rewards). As a result, revenue generated from bitcoin mining declined, adversely impacting gross profit.

### ***Emergence from Bankruptcy***

On January 15, 2024, the Company and certain of its affiliates filed with the United States Bankruptcy Court for the Southern District of Texas (the “Bankruptcy Court”) the Fourth Amended Joint Chapter 11 Plan of Core Scientific, Inc. and its Affiliated Debtors (with Technical Modifications) (the “Plan of Reorganization”). On January 16, 2024, the Bankruptcy Court entered an order confirming the Plan of Reorganization. On January 23, 2024 (the “Effective Date”), the conditions to the effectiveness of the Plan of Reorganization were satisfied or waived and the Company emerged from bankruptcy. On January 24, 2024, the Company’s common shares began trading on the Nasdaq market under the ticker symbol CORZ.

On the Effective Date, a new Board of Directors was constituted and the Company, in accordance with the Plan of Reorganization satisfied and extinguished claims in the Chapter 11 cases through the issuance of (i) new common stock (“New Common Stock”), (ii) new warrants (“New Warrants”), (iii) contingent value rights (“CVRs”), (iv) new secured convertible notes due 2029 (“New Secured Convertible Notes”), and (v) new secured notes due 2028 (“New Secured Notes”). For more detailed information regarding our emergence from bankruptcy, refer to Notes 3 — Chapter 11 Filing and Emergence from Bankruptcy, 6 — Convertible and Other Notes Payable, 7 — Contingent Value Rights and Warrant Liabilities and 10 — Stockholders’ Deficit to our condensed consolidated financial statements in Item 1 of Part I of this Quarterly Report on Form 10-Q.

## **Our Business Model**

### *Business Overview*

As a large-scale owner and operator of high-power digital infrastructure for bitcoin mining and hosting services, we believe that we are well positioned to serve customers in digital asset mining and an expanding market for HPC operations. We believe that the adoption and mainstream use of bitcoin and the blockchain technology on which it is based has accelerated the demand for bitcoin and other digital currencies. Further, as noted in the “Business Strategy” section below, we believe that opportunities for growth exist in various applications of our data centers for third-party customers focused on cloud computing as well as machine learning and artificial intelligence, which has driven our recent expansion into providing HPC hosting services.

We focus primarily on mining and selling bitcoin for cash, enhancing efficiencies in our operations (reducing our cost to mine) and contracting our digital infrastructure for HPC hosting. Our digital asset mining operation is focused on earning bitcoin by solving complex cryptographic algorithms to validate transactions on specific bitcoin blockchains, which is commonly referred to as “mining.” Our digital asset self-mining activity competes with myriad mining operations throughout the world to complete new blocks on the blockchain and earn the reward in the form of bitcoin.

Our data centers house bitcoin mining computers and will increasingly house GPUs. These specialized facilities lever our specialized design and construction proficiency by employing high-density, low-cost engineering, power designs and modular construction. For bitcoin mining, our proprietary thermodynamic structural design manages heat and airflow to deliver best-in-class uptime and, ultimately, increased mining rewards to us and our customers. We are allocating a significant portion of our current and future data centers to support other forms of high-value compute, such as HPC hosting operations, in connection with our short-, medium- and long-term strategic plan.

### *Business Strategy*

Our business strategy is to grow our revenue and profitability by maximizing the portion of our infrastructure portfolio contracted for HPC hosting, expanding that portfolio and increasing the efficiency of our self-mining fleet. We intend to strategically develop the infrastructure necessary to support business growth and profitability and pursue adjacent high-value compute opportunities that lever our data center expertise and capabilities. For example, in February 2024, we entered into a multi-year lease agreement for a data center in Austin, Texas, to provide hosting services for CoreWeave with up to 16 MW of data center infrastructure in support of its GPU cloud compute workloads. This facility became operational in the second fiscal quarter of 2024. Since June 3, 2024, the Company has entered into a series of long-term contracts with CoreWeave to deliver approximately 500 MW of infrastructure to host CoreWeave’s HPC operations.

These contracts represent a significant milestone in the HPC hosting portion of our strategy and tap into the rapidly growing hyperscale data center market. We believe the potential business opportunity for HPC hosting complements our current business model with expected stable, long-term revenue.

We believe we can successfully apply our experience developing and operating a large, multi-state portfolio of digital infrastructure for digital asset mining to the design, development and operation of large-scale data centers configured to optimize the performance of specialized computers for other specific, high-value applications such as cloud computing, machine learning and artificial intelligence. We intend to seek additional opportunities and to engage additional customers in the HPC Hosting segment to expand our business into these areas using our knowledge, expertise, existing and future infrastructure where favorable market opportunities exist.

### *Segments*

We have three operating segments: “Digital Asset Self-Mining,” consisting of performing digital asset mining for our own account, “Digital Asset Hosted Mining,” consisting of providing hosting services to third parties for digital asset mining, and “HPC Hosting,” consisting of providing hosting services to third parties for GPU-based HPC hosting operations. Our Digital Asset Self-Mining operation segment generates revenue from operating our own digital infrastructure and mining computers as part of a pool of users that process transactions conducted on one or more blockchain networks. In exchange for this activity, we receive digital assets in the form of bitcoin. Our Digital Asset Hosted Mining operation segment generates revenue through the sale of electricity-based consumption contracts for our hosting services, which are recurring in nature. Our HPC Hosting operation segment generates revenue by providing colocation, cloud and connectivity services to customers in exchange for a fee. The Company’s HPC and cloud compute operations met the criteria to be considered a new segment during the second quarter of 2024.

### Mining Equipment

We own and host specialized computers (“miners”) configured for the purpose of validating transactions on multiple digital asset network blockchains (referred to as, “mining”), predominantly the Bitcoin network. Substantially all of the miners we own and host were manufactured by Bitmain Technologies Limited (“Bitmain”) and incorporate application-specific integrated circuit (“ASIC”) chips specialized to solve blocks on the bitcoin blockchains using the 256-bit secure hashing algorithm (“SHA-256”) in return for bitcoin digital asset rewards.

We have entered into and facilitated agreements with vendors to supply mining equipment for our digital asset mining operations. The majority of our purchases are made on multi-month contracts with installment payments due in advance of scheduled deliveries. Delivery schedules have ranged from one month to 12 months. As of December 31, 2023, we had two active purchase agreements with Bitmain. The first agreement was for the acquisition of Antminer S19J XP miners with a combined exahash of 4.1 or 28,400 miners. The second agreement was for the acquisition of Antminer S21 miners with a combined exahash of 2.5 or approximately 12,900 miners. As of September 30, 2024, the Company had received all of the miners and completed all 2024 payments due on miners ordered for deployment this year.

The tables below summarize the total number of self- and hosted miners in operation as of September 30, 2024 and December 31, 2023 (miners in thousands):

Mining Equipment	Bitcoin Miners in Operation as of September 30, 2024	
	Hash rate (EH/s)	Number of Miners
Self-miners	20.4	175.2
Hosted miners	3.0	22.4
Total mining equipment	23.4	197.6

Mining Equipment	Bitcoin Miners in Operation as of December 31, 2023	
	Hash rate (EH/s)	Number of Miners
Self-miners	16.9	158.0
Hosted miners	6.3	51.1
Total mining equipment	23.2	209.1

### Summary of Digital Asset Activity

Activity related to our digital asset balances for the nine months ended September 30, 2024 and 2023, were as follows (in thousands):

	September 30, 2024	September 30, 2023
Digital assets, beginning of period	\$ 2,284	\$ 724
Cumulative effect of ASU 2023-08, adopted January 1, 2024 <sup>1</sup>	24	—
Digital assets, beginning of period, as adjusted	2,308	724
Digital asset self-mining revenue, net of receivables <sup>2</sup>	329,799	278,100
Mining proceeds from shared hosting	15,693	10,321
Proceeds from sales of digital assets	(347,397)	(287,769)
Change in fair value of digital assets	(247)	—
Gain from sale of digital assets	—	2,351
Impairment of digital assets	—	(2,864)
Payment of board fee	(89)	(304)
Other	(67)	—
Digital assets, end of period	<u>\$ —</u>	<u>\$ 559</u>

<sup>1</sup> Reflects the impact of the Company's adoption of Accounting Standards Update ("ASU") 2023-08, *Intangibles-Goodwill and Other-Crypto Assets (Subtopic 350-60): Accounting for and Disclosure of Crypto Assets* ("ASU 2023-08") effective January 1, 2024.

<sup>2</sup> As of September 30, 2024 and December 31, 2023, there was \$0.7 million and \$1.7 million, respectively, of digital asset receivable included in prepaid expenses and other current assets on the condensed consolidated balance sheets.

### Performance Metrics

#### Hash Rate

Miners perform computational operations in support of digital asset blockchains measured in "hash rate" or "hashes per second." A "hash" is the computation run by mining hardware in support of the blockchain; therefore, a miner's "hash rate" refers to the rate at which it is capable of solving such computations. The equipment originally employed for mining bitcoin used the central processing unit ("CPU") of a computer to mine various forms of digital assets. Due to performance limitations, CPU mining was rapidly replaced by the GPU, which offers significant performance advantages over CPUs. General purpose chipsets like CPUs and GPUs have since been replaced as the standard in the mining industry by ASIC chips such as those found in the miners we and our customers use to mine bitcoin (although they continue to have uses in other industries). These ASIC chips are designed specifically to maximize the rate of hashing operations.

#### Network Hash Rate

In digital asset mining, hash rate is a measure of the processing speed at which a mining computer operates in its attempt to secure a specific digital asset. A participant in a blockchain network's mining function has a hash rate equivalent to the total of all its miners seeking to mine a specific digital asset. System-wide, the total network hash rate reflects the sum total of all miners seeking to mine each specific type of digital asset. A participant's higher total hash rate relative to the system-wide total hash rate generally results in a corresponding higher success rate in digital asset rewards over time as compared to mining participants with relatively lower total hash rates.

However, as the relative market price for a digital asset, such as bitcoin, increases, more users are incentivized to mine for that digital asset, which increases the network's overall hash rate. As a result, a mining participant must increase its total hash rate in order to maintain its relative possibility of solving a block on the network blockchain. Achieving greater hash rate power by deploying increasingly sophisticated miners in ever greater quantities has become one of the bitcoin mining industry's great sources of competition. Our goal is to deploy a powerful fleet of self- and hosted-miners, while operating as energy-efficiently as possible.

## Key Factors Affecting Our Financial Performance

### Market Price of Digital Assets

Our Digital Asset Self-Mining segment is heavily dependent on the spot price of bitcoin. The prices of digital assets, specifically bitcoin, have experienced substantial volatility, meaning that high or low prices may have little or no relationship to identifiable market forces, may be subject to rapidly changing investor sentiment, and may be influenced by factors such as technology, regulatory void or changes, fraudulent actors, manipulation, and media reporting. Bitcoin (as well as other digital assets) may have value based on various factors, including their acceptance as a means of exchange by consumers and others, scarcity, and market demand.

Our financial performance and continued growth depend in large part on our ability to mine for digital assets profitably and to attract customers for our digital asset hosted mining services. Increases in power costs, inability to mine digital assets efficiently and to sell digital assets at favorable prices will reduce our operating margins, impact our ability to attract customers for our services, may harm our growth prospects and could have a material adverse effect on our business, financial condition and results of operations. Over time, we have observed a positive trend in the total market capitalization of digital assets, which suggests increased adoption. However, historical trends are not indicative of future adoption, and it is possible that the adoption of digital assets and blockchain technology may slow, take longer to develop, or never be broadly adopted, which would negatively impact our business and operating results.

### Network Hash Rate

Our business is not only impacted by the volatility in digital asset prices, but also by increases in the competition for digital asset production. For bitcoin, this increased competition is described as the network hash rate resulting from the growth in the overall quantity and quality of miners working to solve blocks on the bitcoin blockchain, and the difficulty index associated with the secure hashing algorithm employed in solving the blocks.

### Difficulty

The increase in bitcoin's network hash rate results in a regular increase in the cryptographic complexity associated with solving blocks on its blockchain, or its difficulty. Increased difficulty reduces the mining proceeds of the equipment proportionally and eventually requires bitcoin miners to upgrade their mining equipment to remain profitable and compete effectively with other miners. Similarly, a decline in network hash rate results in a decrease in difficulty, increasing mining proceeds.

### Transaction Fees

Bitcoin miners receive a transaction fee in the form of a portion of bitcoin for validating transactions on the Bitcoin network. The transaction fee can vary in value over time, with higher fees prioritizing certain transactions over those with lower fees. An increase in Bitcoin network transaction fees increases mining proceeds.

The table below provides a summary of the impact to revenue from the increase or decrease in the market price of bitcoin, difficulty and our hash rate. The impact to revenue in each scenario assumes only one driver increases or decreases and all others are held constant.

Driver	Impact to Revenue	
	Increase in Driver	Decrease in Driver
Market Price of Bitcoin	Favorable	Unfavorable
Core Scientific Hash Rate	Favorable	Unfavorable
Difficulty	Unfavorable	Favorable
Transaction Fees	Favorable	Unfavorable

### Halving

Further affecting the industry, and particularly for the bitcoin blockchain, the digital asset reward for solving a block is subject to periodic incremental halving. Halving is a process designed to control the overall supply and reduce the risk of inflation in digital

assets using a proof-of-work consensus algorithm. At a predetermined block, the mining reward is reduced by half, hence the term “halving.” A reduction in the number of bitcoins rewarded per block would result in a reduction of revenue to those mining bitcoin, barring any increase in the spot price of bitcoin or decrease in Bitcoin network hash rate or difficulty. Historically, the network hash rate has tended to decline, for a period of time, post-halving as less efficient mining servers become less profitable to operate and their operators discontinue or limit their use.

For bitcoin, our most significant digital asset to which our mining power is devoted, the reward was initially set at 50 bitcoin rewards per block. The bitcoin blockchain has undergone halving four times since its inception, as follows: (1) on November 28, 2012, at block 210,000; (2) on July 9, 2016 at block 420,000; (3) on May 11, 2020 at block 630,000; and (4) on April 19, 2024 at block 840,000, when the reward was reduced to its current level of 3.125 bitcoin per block. The next halving for the bitcoin blockchain is anticipated to occur in 2028 at block 1,050,000. This process will repeat until the total amount of bitcoin rewards issued reaches 21 million and the theoretical supply of new bitcoin is exhausted, which is expected to occur around the year 2140. Many factors influence the price of bitcoin and the other digital assets we may mine for, and potential increases or decreases in prices in advance of or following a future halving are unknown.

#### *Electricity Costs*

Electricity cost is the major operating cost for the mining fleet, as well as for the hosting services provided to customers and related parties. The cost and availability of electricity are affected primarily by changes in seasonal demand, with peak demand during the summer months driving higher costs and increased curtailments to support grid operators. Severe winter weather can increase the cost of electricity and the frequency of curtailments when it results in damage to power transmission infrastructure that reduces the grid’s ability to deliver power. Geopolitical and macroeconomic factors, such as overseas military or economic conflict between states, can adversely affect electricity costs by raising the cost of power generation inputs such as natural gas. Other events out of our control can also impact electricity costs and availability. In certain power markets, financial hedging can be employed to protect buyers from the financial impact of significant increases in power prices.

#### *Equipment Costs*

Increases in the market value of digital assets increases the demand for new miners, which can result in a scarcity in the supply of, and increases in the price of, those miners. Declines in the market value of digital assets can result in excess supply of miners and a general decline in their prices. As a result, the cost of new miners can be unpredictable and could be significantly different than our historical cost for new miners.

#### *Our Competition and Customers*

In addition to factors underlying our mining business growth and profitability, the success of our HPC hosting business greatly depends on our ability to retain and develop opportunities with our existing customers, secure additional infrastructure and attract new customers.

Our business environment is constantly evolving. In digital asset mining, miners can range from individual enthusiasts to professional mining operations with dedicated data centers. The Company competes with other enterprises that focus all or a portion of their activities on mining activities at scale. We face significant competition in every aspect of our business, including, but not limited to, the acquisition of new miners, the ability to raise capital, obtaining low-cost electricity, obtaining access to sites with reliable sources of high power, and evaluating new technology developments in the industry.

Presently, the information concerning the activities of digital asset miners may not be readily available as most of the participants in this sector do not publish information publicly, or the information may be unreliable. Published sources of information include “bitcoin.org” and “blockchain.info;” however, the reliability of that information and its continued availability cannot be assured.

Based on available data, we believe that an increase in the scale and sophistication of competition in the digital asset mining industry has continued to increase network hash rate, with new entrants and existing competitors increasing the number of miners mining for bitcoin.

Despite this trend, we believe we have continued to maintain a competitive hash rate capacity among both public and private bitcoin miners. However, remaining competitive in our evolving industry, both against new entrants into the market and existing

competitors, will require the expansion of our existing miner fleet by purchasing new and available used miners, as well as innovating to develop and implement new technologies and mining solutions.

In HPC hosting, we compete with other providers of high-power data center capacity, such as major data center real estate investment trusts (“REITs”), developers of data centers, hyperscalers and bitcoin miners with capacity suitable for HPC hosting. This competition focuses primarily on the identification and acquisition of new, high-power sites, but also includes competition for the capital required to build or modify existing sites to support HPC hosting. Additionally, the modification of some of our data centers to accommodate HPC hosting involves the procurement of critical equipment, technologies and skilled labor, which are in high demand from other entities seeking to address the same market opportunity, thereby putting us into competition with many other organizations for those resources.

We believe that because of our operational high-power data center capacity and the experience, knowledge, capabilities and relationships of our data center development and operations team, we are uniquely qualified to address the current strong demand for high-power data center capacity to support HPC applications successfully.

#### *Differentiation, Innovation and Expansion of Our Platform*

Our investments in research and development drive differentiation of our service offerings, core technology innovation and our ability to bring new products to market.

We believe that we differentiate ourselves by offering premium products and services, including our ability to manage our power sourcing and construct proprietary, passively-cooled digital asset mining data centers at scale. Our operational digital asset mining facilities lever our specialized design and construction proficiency by employing high-density, low-cost engineering and power designs. Our proprietary thermodynamic solution manages heat and airflow to deliver best-in-class uptime and, ultimately, increases mining rewards to us and to our hosted mining customers. We design our facilities to maximize both the efficiency and lifespan of our mining equipment. We have developed expertise in the installation, operation, optimization and repair of digital mining equipment. We continue to refine and develop our data center design and technology solutions to optimize our operations with the knowledge gained from our considerable digital asset mining experience, including optimizing the location of miners in our data centers to increase profitability. Our approach to data center design enables us to deliver efficiency at scale.

We believe we possess unique knowledge of data center design principles and systems integration architectures, as well as extensive experience designing, constructing and operating data centers that differentiates and informs our plans for modifying digital asset mining data centers to support HPC hosting, and for developing new data centers designed to support future high-value compute requirements. This knowledge includes designs for higher rack energy densities than currently offered in the legacy data center market to satisfy emerging requirements for advanced technologies supporting emerging workloads such as artificial intelligence.

We develop proprietary hardware and software solutions that support our current operations and represent potential future growth opportunities. We intend to continue to invest judiciously in research and development activities to extend our platform management and software solutions in order to manage our infrastructure and mining fleet more efficiently and productively.

#### *Regulation*

Due to the relatively short history of digital assets, and their emergence as a new asset class, government regulation of blockchain and digital assets is constantly evolving, with increased interest expressed by U.S. and internal regulators. In October 2020, the Cyber-Digital Task Force of the U.S. Department of Justice published a report entitled “Cryptocurrency: An Enforcement Framework” that detailed the Department’s view with respect to digital assets and the tools at the Department’s disposal to deal with threats posed by digital assets. In February 2021, representatives of the government of Inner Mongolia, China announced plans to ban digital asset mining within the province due to the energy and rare earth mineral demands of the industry. In March 2021, the nominee for Chair of the SEC expressed the need for investor protection along with promotion of innovation in the digital asset space. In March 2022, President Biden signed an Executive Order outlining a “whole-of-government” approach to addressing the risks and harnessing the potential benefits of digital assets and its underlying technology. The executive order lays out a national policy for digital assets over six highlighted priorities. In January 2023, the U.S. House of Representatives created a new congressional subcommittee focused on digital assets, the Subcommittee of Digital Assets, Financial Technology and Inclusion, operating under the House Financial Services Committee.

In addition to the activities of the United States federal government and its various agencies and regulatory bodies, government regulation of blockchain and digital assets is also under active consideration by similar entities in other countries and transnational organizations, such as the European Union. State and local regulations within the United States also may apply to our activities and other activities in which we may participate in the future. Other governmental or semi-governmental regulatory bodies have shown an interest in regulating or investigating companies engaged in blockchain or digital asset businesses. For instance, the SEC has taken an active role in regulating the use of public offerings of proprietary coins (so-called “initial coin offerings”) and has made statements and official promulgations as to the status of certain digital assets as “securities” subject to regulation by the SEC.

### Key Business Operating Metrics and Non-GAAP Financial Measures

In addition to our financial results, we use the following business operating metrics and non-GAAP financial measures to evaluate our business, measure our performance, identify trends affecting our business, and make strategic decisions. For a definition of these key business operating metrics, see the sections titled “Self-Mining Hash Rate,” “Cost of Self-Mining One Bitcoin and Hash Cost,” (below), and for non-GAAP financial measures, see the section titled “Adjusted EBITDA” (below).

	September 30,			
	2024		2023	
Self-Mining Hash rate (Exahash per second)	20.4		15.0	
	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024		2023	
Adjusted EBITDA (in millions)	\$ 10.1	\$ 27.8	\$ 144.2	\$ 112.9
	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024		2023	
<i>Cash Costs per Bitcoin</i>				
Direct power cost per bitcoin self-mined	\$ 33,946	\$ 14,550	\$ 22,099	\$ 12,019
Operational costs per bitcoin self-mined <sup>1</sup>	8,405	3,487	4,742	2,422
Total cost to self-mine one bitcoin <sup>2</sup>	\$ 42,351	\$ 18,037	\$ 26,841	\$ 14,441
	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024		2023	
<i>Cash-Based Hash Cost<sup>3</sup></i>				
Direct power cost per terahash	\$ 0.025	\$ 0.033	\$ 0.026	\$ 0.032
Operational costs per terahash <sup>1</sup>	0.006	0.008	0.005	0.006
Total cash-based hash cost <sup>3</sup>	\$ 0.031	\$ 0.041	\$ 0.031	\$ 0.038

<sup>1</sup> Includes personnel and related costs, software, telecommunications, security, etc. Amount excludes stock-based compensation and depreciation.

<sup>2</sup> Represents our direct cash costs of power and operational costs based on our self-mining/hosting mix divided by total bitcoin self-mined during the periods presented.

<sup>3</sup> Represents the cash expense of power and facilities operation cost divided by our self-mining fleet hash rate, in terahash.

### Self-Mining Hash Rate

We operate mining hardware which performs computational operations in support of the blockchain measured in “hash rate” or “hashes per second.” A “hash” is the computation run by mining hardware in support of the blockchain; therefore, a miner’s “hash rate” refers to the rate at which the hardware is capable of solving such computations. Our hash rate represents the hash rate of our miner fleet, which drives the digital asset rewards that will be earned by our fleet. We calculate and report our hash rate in exahash per second (“EH/s”). One exahash equals one quintillion hashes per second.

We measure the hash rate produced by our mining fleet through our management software Minder™, which consolidates the reported hash rate from each miner. The method by which we measure our hash rate may differ from how other operators present such a measure.

Generally, miners with a greater hash rate relative to the global Bitcoin network hash rate at a given time will over time, have a greater chance of earning a bitcoin, as compared to miners with relatively lower total hash rates. Further, with the increase in demand for bitcoin contributing to an increase in computational resources for digital asset mining, the global network hash rate has increased, and we expect it to continue to increase. As such, our self-mining hash rate provides useful information to investors because it demonstrates our capacity, and our competitive advantage, for mining bitcoin, which contributes to our digital asset self-mining revenue. Management uses our self-mining hash rate to monitor our performance and competitive advantage in mining bitcoin as global competition also increases.

Our self-mining hash rate was 20.4 EH/s and 15.0 EH/s as of September 30, 2024 and 2023, respectively representing a 36% increase year over year.

Our combined self-mining and customer and related party hosting hash rate increased 5%, to 23.4 EH/s as of September 30, 2024, from 22.3 EH/s as of September 30, 2023.

#### ***Cost of Self-Mining One Bitcoin and Hash Cost***

Our profitability with respect to self-mining is heavily dependent upon our cost to mine a bitcoin, calculated during a particular period as the actual cash expense for power and other mining facility operations cash expenditures attributable to bitcoin self-mined, divided by the total bitcoin self-mined during the period presented. Our cost efficiency with respect to solving computations on the Bitcoin network to mine bitcoin is reflected in our cash-based hash cost, which is calculated as the actual cash expense for power and other mining facility operations cash expenditures attributable to bitcoin self-mined, divided by our self-mining hash rate, in terahash. The Company excludes stock-based compensation and depreciation from calculations of these operating metrics.

The cost of self-mining one bitcoin metric provides useful information to investors as it demonstrates our capacity to profitably mine bitcoin when comparing it to the price of bitcoin, particularly given volatility in energy prices as well as in the price of bitcoin. Management uses this metric to monitor both our cost efficiency in mining bitcoin as compared to our past performance and the performance of competitors, as well as our continued ability to profitably mine bitcoin. Similarly, the hash cost provides useful information to investors as it demonstrates our cost efficiency in solving computations on the Bitcoin network to mine bitcoin. Management uses this information to monitor our cost efficiency in mining bitcoin as compared to our past performance and the performance of our competitors.

#### ***Adjusted EBITDA***

Adjusted EBITDA is a non-GAAP financial measure defined as our net income or (loss), adjusted to eliminate the effect of (i) interest income, interest expense, and other income (expense), net; (ii) provision for income taxes; (iii) depreciation and amortization; (iv) stock-based compensation expense; (v) Reorganization items, net; (vi) change in fair value of energy derivatives; (vii) change in fair value of warrant and contingent value rights; (viii) HPC advisory startup costs or site conversion startup costs which are not reflective of the ongoing costs incurred after startup, (ix) bankruptcy advisory costs incurred related to reorganization which are not reflective of the ongoing costs incurred in post-emergence operations, and (x) certain additional non-cash items that do not reflect the performance of our ongoing business operations. For additional information, including the reconciliation of net income (loss) to Adjusted EBITDA, please refer to the table below. We believe Adjusted EBITDA is an important measure because it allows management, investors, and our Board of Directors to evaluate and compare our operating results, including our return on capital and operating efficiencies, from period-to-period by making the adjustments described above. In addition, it provides useful information to investors and others in understanding and evaluating our results of operations, as well as provides a useful measure for period-to-period comparisons of our business, as it removes the effect of net interest expense, taxes, certain non-cash items, variable charges and timing differences. Moreover, we have included Adjusted EBITDA in this Quarterly Report on Form 10-Q because it is a key measurement used by our management internally to make operating decisions, including those related to operating expenses, evaluate performance, and perform strategic and financial planning.

The above items are excluded from our Adjusted EBITDA measure because these items are non-cash in nature or because the amount and timing of these items are not related to the current results of our core business operations which renders evaluation of our current performance, comparisons of performance between periods and comparisons of our current performance with our competitors less meaningful. However, you should be aware that when evaluating Adjusted EBITDA, we may incur future expenses similar to those excluded when calculating this measure. Our presentation of this measure should not be construed as an inference that its future results will be unaffected by unusual items. Further, this non-GAAP financial measure should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). We compensate for these limitations by relying primarily on GAAP results and using Adjusted EBITDA on a supplemental basis. Our computation of Adjusted EBITDA may not be comparable to other similarly titled measures computed by other companies because not all companies calculate this measure in the same fashion. You should review the reconciliation of net income (loss) to Adjusted EBITDA below and not rely on any single financial measure to evaluate our business.

The following table presents a reconciliation of net loss to Adjusted EBITDA for the three and nine months ended September 30, 2024 and 2023, (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023 <sup>1</sup>	2024	2023 <sup>1</sup>
<b>Adjusted EBITDA</b>				
Net loss	\$ (455,259)	\$ (41,146)	\$ (1,049,464)	\$ (50,794)
Adjustments:				
Interest expense, net	7,072	2,196	35,934	2,317
Income tax expense	134	114	484	347
Depreciation and amortization	28,691	24,233	87,164	64,800
Stock-based compensation expense	20,288	14,861	27,722	41,414
Unrealized fair value adjustment on energy derivatives	—	—	(2,262)	—
Loss on disposal of property, plant and equipment	509	340	4,061	514
HPC advisory startup costs	—	—	4,611	—
Bankruptcy advisory costs	1,863	—	2,160	—
Loss (gain) on debt extinguishment	317	(374)	487	(21,135)
Reorganization items, net	—	28,256	(111,439)	78,270
Change in fair value of warrant and contingent value rights	408,520	—	1,144,441	—
Other non-operating expenses (income), net	(2,003)	(1,090)	144	(3,978)
Other	—	368	121	1,105
Adjusted EBITDA	\$ 10,132	\$ 27,758	\$ 144,164	\$ 112,860

<sup>1</sup> Certain prior year amounts have been reclassified for consistency with the current year presentation.

## Components of Results of Operations

### Revenue

Our revenue consists primarily of digital asset self-mining income, and fees from our digital asset hosting and HPC hosting operations. The Company’s HPC and cloud compute operations began during the second quarter of 2024.

- **Digital asset self-mining revenue.** We operate a digital asset self-mining operation using specialized computers equipped with ASIC chips (known as “miners”) to solve complex cryptographic algorithms in support of the bitcoin blockchain (in a process known as “solving a block”) in exchange for digital asset rewards (primarily bitcoin). The Company participates in “mining pools” organized by “mining pool operators” in which we share our mining power (known as “hash rate”) with the hash rate generated by other miners participating in the pool to earn digital asset rewards. The mining pool operator provides a service that coordinates the computing power of the independent mining enterprises participating in the mining pool. The pool uses software that coordinates the pool members’ mining power, identifies new block rewards, records how much hash rate each participant contributes to the pool, and assigns digital asset rewards earned by the pool among its participants in

proportion to the hash rate each participant contributed to the pool in connection with solving a block. Revenues from digital asset self-mining are impacted by volatility in bitcoin prices, as well as increases in the bitcoin blockchain's network hash rate resulting from the growth in the overall quantity and quality of miners working to solve blocks on the bitcoin blockchain and the difficulty index associated with the secure hashing algorithm employed in solving the blocks.

- **Digital asset hosted mining revenue from customers and related parties.** Digital asset hosted mining revenue from customers and related parties is based on electricity-based consumption contracts with our customers and related parties. Most contracts are renewable, and our customers are generally billed on a fixed and recurring basis each month for the duration of their contract, which vary from one to three years in length. During the second quarter of 2023, we initiated our first new digital asset hosted mining customer contracts based on proceed sharing. Under these new contracts, customers pay for the cost of digital asset hosting and infrastructure, and we share the proceeds that are generated.
- **HPC hosting revenue.** HPC hosting revenue is generated by licensing data center space and related services to licensees at our Austin, Texas data center. These licensing agreements and orders include lease components, nonlease components (such as power delivery, physical security, maintenance and other billable expenses), as well as noncomponent elements such as taxes. Under these contracts, customers pay fixed payments (based on electric capacity) and variable payments on a recurring basis.

#### *Cost of revenue*

The Company's cost of digital asset self-mining and digital asset hosted mining services, primarily consist of electricity costs, salaries, stock-based compensation, depreciation of property, plant and equipment used to perform mining operations and hosting services and other related costs. Cost of HPC hosting services relate to our Austin, Texas data center, and primarily consists of lease expense, power, payroll and benefits expense and stock-based compensation expense.

#### *Change in fair value of digital assets*

The Company adopted ASU 2023-08 effective January 1, 2024. Under ASU 2023-08, the Company measures digital assets at fair value with the changes in fair value during the reporting period recognized in change in fair value of digital assets. Recognition of digital asset results prior to adoption are described below.

#### *Gain from sale of digital assets*

Prior to the adoption of ASU 2023-08 effective January 1, 2024, gain from sale of digital assets consisted of the excess of sales proceeds over the carrying value of the digital assets at the time of sale. Gains were recognized as they were realized upon sale(s).

#### *Impairment of digital assets*

Prior to the adoption of ASU 2023-08 effective January 1, 2024, impairment losses were recognized in the period in which the impairment was identified. The impaired digital assets were written down to their fair value at the time of impairment and the new carrying value would not be adjusted upward for any subsequent increase in fair value until sale.

#### *Change in fair value of energy derivatives*

The Change in fair value of energy derivatives represents changes in the fair value of the derivative liability related to the energy forward purchase contract described in more detail in "Energy Forward Purchase Contract" in Note 2 — Summary of Significant Accounting Policies to our consolidated financial statements in Item 8 of Part II of our Annual Report on Form 10-K for the year ended December 31, 2023.

#### *Loss on disposal of property, plant and equipment*

Loss on disposal of property, plant and equipment are measured as the differences between the carrying value of the property, plant and equipment disposed of and fair value of the consideration received upon disposal.

### *Operating expenses*

Operating expenses consist of research and development, sales and marketing, and general and administrative expenses. Each is outlined in more detail below.

- **Research and development.** We invest in research and development to enhance the efficiency and effectiveness of our mining operations and hosting services and to support our efforts to capture business opportunities in adjacent high-value compute markets. Research and development costs include compensation and benefits, stock-based compensation, other personnel related costs and professional fees.
- **Sales and marketing.** Sales and marketing expenses consist of marketing expenses, trade shows and events, professional fees, compensation and benefits, stock-based compensation and other personnel-related costs.
- **General and administrative.** General and administrative expenses include compensation and benefits expenses for employees who are not part of the research and development and sales and marketing organization and other personnel-related expenses. Also included are stock-based compensation, rent, HPC advisory and site startup costs, bankruptcy advisor fees related to the reorganization, professional fees, business insurance, auditor fees, bad debt, amortization of intangibles, franchise taxes, and bank fees. HPC advisory startup costs were specifically incurred preparing for and entering into the HPC hosting business on activities and services that are not expected to be utilized within future ongoing operations of the HPC hosting business.

### *Non-operating (income) expenses, net:*

Non-operating expenses, net includes (gain) loss on debt extinguishment, interest expense (income), net, reorganization items, net, fair value adjustments of warrants and contingent value rights, and other non-operating (income) expenses, net. Reorganization items, net consists of costs directly associated with the reorganization during the bankruptcy period, including professional fees (including reimbursed third-party professional fees) and other bankruptcy related costs, negotiated settlements, satisfaction of allowed claims, and debtor-in-possession finance fees.

### *Income tax expense*

Income tax expense consists of U.S. federal and state income taxes. We maintain a full valuation allowance against our U.S. federal and state net deferred tax assets as realization of deferred tax assets is dependent upon the generation of future taxable income, the timing and amount of which are uncertain and therefore have concluded it is not more likely than not that we will realize our net deferred tax assets.

Income tax expense consists of federal and state tax expense on our operating activity, and changes to our deferred tax asset and deferred tax liability.

Deferred income tax expense consists of income taxes recorded using the asset and liability method. Under this method, deferred tax assets and liabilities are recorded based on the estimated future tax effects of differences between the financial reporting and tax bases of existing assets and liabilities. These differences are measured using the enacted tax rates that are expected to be in effect when these differences are anticipated to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management believes it is not more likely than not to be realized.

## Results of Operations for the Three Months Ended September 30, 2024 and 2023

The following table sets forth our selected Condensed Consolidated Statements of Operations for each of the periods indicated.

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
Revenue:	(in thousands, except percentages)			
Digital asset self-mining revenue	\$ 68,138	\$ 83,056	\$ (14,918)	(18)%
Digital asset hosted mining revenue from customers	16,878	27,020	(10,142)	(38)%
Digital asset hosted mining revenue from related parties	—	2,828	(2,828)	NM
HPC hosting revenue	10,338	—	10,338	NM
Total revenue	95,354	112,904	(17,550)	(16)%
Cost of revenue:				
Cost of digital asset self-mining	74,555	72,603	1,952	3%
Cost of digital asset hosted mining services	11,914	24,882	(12,968)	(52)%
Cost of HPC hosting services	9,041	—	9,041	NM
Total cost of revenue	95,510	97,485	(1,975)	(2)%
Gross (loss) profit	(156)	15,419	(15,575)	(101)%
Change in fair value of digital assets	(206)	—	(206)	NM
Gain from sale of digital assets	—	363	(363)	NM
Impairment of digital assets	—	(681)	681	NM
Change in fair value of energy derivatives	—	—	—	NM
Loss on disposal of property, plant and equipment	(509)	(340)	(169)	50%
Operating expenses:

NM - Not Meaningful

## Revenue

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
Revenue:	(in thousands, except percentages)			
Digital asset self-mining revenue	\$ 68,138	\$ 83,056	\$ (14,918)	(18)%
Digital asset hosted mining revenue from customers	16,878	27,020	(10,142)	(38)%
Digital asset hosted mining revenue from related parties	—	2,828	(2,828)	NM
HPC hosting revenue	10,338	—	10,338	NM
Total revenue	\$ 95,354	\$ 112,904	\$ (17,550)	(16)%
Percentage of total revenue:				
Digital asset self-mining revenue	71 %	73 %		
Digital asset hosted mining revenue from customers	18 %	24 %		
Digital asset hosted mining revenue from related parties	— %	3 %		
HPC hosting revenue	11 %	— %		
Total revenue	100 %	100 %		

Total revenue decreased by \$17.6 million or 16%, to \$95.4 million for the three months ended September 30, 2024, from \$112.9 million for the three months ended September 30, 2023, as a result of the factors described below.

Digital asset self-mining revenue decreased by \$14.9 million or 18%, to \$68.1 million for the three months ended September 30, 2024, from \$83.1 million for the three months ended September 30, 2023. The decrease in mining revenue was driven primarily by a 62% decrease in bitcoin mined. The decrease in mining revenue was partially offset by an increase in the price of bitcoin and an increase in our self-mining hash rate, which was due to an approximate increase of 31,000 mining units deployed. Our self-mining hash rate increased by 36%, to 20.4 EH/s for the three months ended September 30, 2024, from 15.0 EH/s for the same period in the prior year. The total number of bitcoins self-mined for the three months ended September 30, 2024, was 1,115 compared to 2,953 for the same period in the prior year. Although our self-mining hash rate increased 36%, the April 2024 halving and a 61% increase in network hash rate lead to a 62% decrease in bitcoin received from self-mining. The average price of bitcoin for the three months ended September 30, 2024, was \$61,002 as compared to \$28,091 for the same period in the prior year, a 117% increase.

Total digital asset hosted mining revenue from customers decreased by \$10.1 million or 38%, to \$16.9 million for the three months ended September 30, 2024, from \$27.0 million for the three months ended September 30, 2023. The decrease in digital asset hosted mining revenue from customers was primarily driven by the termination of contracts with several customers since September 30, 2023, due primarily to the reallocation of a majority of our data centers from digital asset mining to HPC hosting.

Total digital asset hosted mining revenue from related parties was nil for the three months ended September 30, 2024, compared to \$2.8 million for the three months ended September 30, 2023. There were no related-party transactions during the three months ended September 30, 2024.

Total HPC hosting revenue was \$10.3 million for the three months ended September 30, 2024, compared to nil for the same period in the prior year due to the initiation of HPC hosting operations for CoreWeave at our Austin, Texas data center during the quarter ended June 30, 2024.

## Cost of revenue

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
Cost of revenue	\$ 95,510	\$ 97,485	\$ (1,975)	(2)%
Gross (loss) profit	(156)	15,419	(15,575)	(101)%
Gross margin	—%	14%		

Cost of revenue decreased by \$2.0 million or 2%, to \$95.5 million for the three months ended September 30, 2024, from \$97.5 million for the three months ended September 30, 2023. The decrease in cost of revenue was primarily attributable to a \$11.6 million decrease in power costs and a \$1.9 million decrease in facility operations expense, partially offset by increased HPC hosting costs, primarily lease, power, payroll and benefits and stock-based compensation, of \$7.4 million incurred during the current quarter with no comparable activity for the same period in fiscal 2023, increased depreciation expense of \$4.4 million driven by the increase in the number of miners in service, and a \$0.8 million increase in stock-based compensation expense.

#### Change in fair value of digital assets

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Change in fair value of digital assets	\$ (206)	\$ —	\$ (206)	NM
Percentage of total revenue	— %	— %		

Change in fair value of digital assets was \$0.2 million for the three months ended September 30, 2024, and reflects the Company's adoption of ASU 2023-08 effective January 1, 2024.

#### Gain from sale of digital assets

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Gain from sale of digital assets	\$ —	\$ 363	\$ (363)	NM
Percentage of total revenue	— %	0 %		

Gain from sale of digital assets was nil for the three months ended September 30, 2024, compared to a gain of \$0.4 million for the three months ended September 30, 2023. There are no gains from sale of digital assets recorded in fiscal 2024 due to the Company's adoption of ASU 2023-08 effective January 1, 2024. For the three months ended September 30, 2023, the carrying value of our digital assets sold was \$88.5 million and the sales price was \$88.1 million.

#### Impairment of digital assets

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Impairment of digital assets	\$ —	\$ (681)	\$ 681	NM
Percentage of total revenue	— %	(1)%		

Impairment of digital assets was nil for the three months ended September 30, 2024, compared to \$0.7 million for the three months ended September 30, 2023. Upon the Company's adoption of ASU 2023-08 effective January 1, 2024, the Company measures digital assets at fair value each reporting period with changes in fair value recognized in net income. Prior to the adoption of ASU 2023-08, impairment existed when the carrying amount exceeded its fair value. Impairment was measured using quoted prices of the digital asset at the time its fair value was being assessed. Quoted prices, including intraday low prices, were collected and utilized in impairment testing and measurement on a daily basis. If the then current carrying value of a digital asset exceeded the fair value so determined, an impairment loss occurred with respect to those digital assets in the amount equal to the difference between their carrying value and the price determined. The carrying value of our digital assets amounted to nil as of September 30, 2024 and \$0.6 million as of September 30, 2023.

## Loss on disposal of property, plant and equipment

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Loss on disposal of property, plant and equipment	\$ (509)	\$ (340)	\$ (169)	50%
Percentage of total revenue	(1)%	— %		

Loss on disposal of property, plant and equipment increased by \$0.2 million to a loss of \$0.5 million for the three months ended September 30, 2024, from a loss of \$0.3 million for the three months ended September 30, 2023. This loss was due to the disposal of mining equipment.

## Operating Expenses

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Operating expenses:				
Research and development	\$ 2,841	\$ 2,253	\$ 588	26 %
Sales and marketing	3,151	1,041	2,110	NM
General and administrative	34,356	23,511	10,845	46 %
Total operating expenses	\$ 40,348	\$ 26,805	\$ 13,543	51 %
Percentage of total revenue	42 %	24 %		

Total operating expenses increased \$13.5 million or 51%, to \$40.3 million for the three months ended September 30, 2024, from \$26.8 million for the three months ended September 30, 2023.

Research and development expenses increased \$0.6 million or 26%, to \$2.8 million for the three months ended September 30, 2024, from \$2.3 million for the three months ended September 30, 2023. The increase was driven by a \$0.7 million increase in stock-based compensation expense and a \$0.1 million increase in payroll and benefits expense primarily driven by higher salaries, partially offset by a \$0.3 million decrease in software costs.

Sales and marketing expenses increased \$2.1 million to \$3.2 million for the three months ended September 30, 2024, from \$1.0 million for the three months ended September 30, 2023. The increase was driven primarily by a \$1.3 million increase in stock-based compensation expense and a \$0.7 million increase in sales and marketing event expenses.

General and administrative expenses increased \$10.8 million to \$34.4 million for the three months ended September 30, 2024, from \$23.5 million for the three months ended September 30, 2023. The increase was primarily driven by a \$3.7 million increase in HPC site startup costs incurred during the current quarter with no comparable activity for the same period in fiscal 2023, a \$2.1 million increase in bankruptcy advisory costs, a \$4.1 million increase in payroll and benefits expense primarily driven by increased bonuses and higher salaries, a \$1.0 million increase in corporate taxes, a \$0.6 million increase in software costs, and \$0.5 million higher stock-based compensation expense.

## Non-operating expenses, net

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
Non-operating expenses (income), net:	(in thousands, except percentages)			
Loss (gain) on debt extinguishment	\$ 317	\$ (374)	\$ 691	NM
Interest expense, net	7,072	2,196	4,876	NM
Reorganization items, net	—	28,256	(28,256)	NM
Change in fair value of warrant and contingent value rights	408,520	—	408,520	NM
Other non-operating income, net	(2,003)	(1,090)	(913)	84%
Total non-operating expenses, net	\$ 413,906	\$ 28,988	\$ 384,918	NM

Total non-operating expenses, net increased by \$384.9 million, to total non-operating expense, net of \$413.9 million for the three months ended September 30, 2024, from total non-operating expenses, net of \$29.0 million for the three months ended September 30, 2023. The increase in total non-operating expenses, net was primarily driven by:

- the Company's entry into a warrant agreement and Convertible Value Rights Agreement pursuant to the Plan of Reorganization. During the three months ended September 30, 2024, we incurred a \$408.5 million Change in fair value of warrant and contingent value rights was due to the increase in the price of the underlying instruments driven by the increase in the Company's stock price to \$11.86 per share as of September 30, 2024, from \$9.30 per share as of June 30, 2024. The increase in stock price resulted in a \$414.5 million increase in the fair value of the warrant liabilities during the three months ended September 30, 2024, partially offset by a \$6.0 million decrease in fair value of contingent value rights, and;
- a \$4.9 million increase in Interest expense, net resulting from the Bankruptcy Court ordered stay on payment of pre-petition obligations, including interest during the same period in 2023; partially offset by,
- \$28.3 million in Reorganization items, net for the three months ended September 30, 2023, with no comparable activity for the same period in fiscal 2024 due the Company's emergence from bankruptcy during the first quarter 2024.

## Income tax expense

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Income tax expense	\$ 134	\$ 114	\$ 20	18 %
Percentage of total revenue	— %	— %		

Income tax expense consists of U.S. federal, state and local income taxes. For the three months ended September 30, 2024, our income tax expense was \$0.1 million. For the three months ended September 30, 2023, our income tax expense was \$0.1 million. The Company's effective tax rate for the three months ended September 30, 2024, was lower than the federal statutory rate of 21% primarily due to a valuation allowance on the Company's deferred tax assets and certain non-deductible expenses.

### Segment Total Revenue and Gross Profit

The following table presents total revenue and gross (loss) profit by reportable segment for the periods presented:

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
(in thousands, except percentages)				
<b>Digital Asset Self-Mining Segment</b>				
Digital asset self-mining revenue	\$ 68,138	\$ 83,056	\$ (14,918)	(18)%
Cost of digital asset self-mining	74,555	72,603	1,952	3 %
Digital Asset Self-Mining gross (loss) profit	\$ (6,417)	\$ 10,453	\$ (16,870)	NM
Digital Asset Self-Mining gross margin	(9)%	13%		
<b>Digital Asset Hosted Mining Segment</b>				
Digital asset hosted mining revenue from customers	\$ 16,878	\$ 29,848	\$ (12,970)	(43)%
Cost of digital asset hosted mining services	11,914	24,882	(12,968)	(52)%
Digital Asset Hosted Mining gross profit	\$ 4,964	\$ 4,966	\$ (2)	— %
Digital Asset Hosted Mining gross margin	29 %	17 %		
<b>HPC Hosting Segment</b>				
HPC hosting revenue	\$ 10,338	\$ —	\$ 10,338	NM
Cost of HPC hosting services	9,041	—	9,041	NM
HPC Hosting gross profit	\$ 1,297	\$ —	\$ 1,297	NM
HPC Hosting gross margin	13%	—%		
<b>Consolidated</b>				
Consolidated total revenue	\$ 95,354	\$ 112,904	\$ (17,550)	(16)%
Consolidated cost of revenue	95,510	97,485	(1,975)	(2)%
Consolidated gross (loss) profit	\$ (156)	\$ 15,419	\$ (15,575)	(101)%
Consolidated gross margin	—%	14%		

For the three months ended September 30, 2024, cost of revenue included depreciation expense of \$27.4 million for the Digital Asset Self-Mining segment, \$0.9 million for the Digital Asset Hosted Mining segment, and a nominal amount for the HPC Hosting segment. For the three months ended September 30, 2023, cost of revenue included depreciation expense of \$22.0 million for the Digital Asset Self-Mining segment, \$1.9 million for the Digital Asset Hosted Mining segment, and nil for the HPC Hosting segment.

For the three months ended September 30, 2024 and 2023, the top three hosting customers accounted for approximately 97% and 76%, respectively, of the Digital Asset Hosted Mining's segment total revenue.

For the three months ended September 30, 2024, gross profit in the Digital Asset Self-Mining segment decreased by \$16.9 million, resulting in a gross loss of \$6.4 million compared to gross profit of \$10.5 million for the three months ended September 30, 2023. The decrease in the Digital Asset Self-Mining segment gross profit was primarily due to a 18% decrease in mining revenue driven by a 62% decrease in bitcoin mined due to the April 2024 halving and higher network difficulty, partially offset by a 117% increase in the price of bitcoin and an increase in our self-mining hash rate and an approximate increase of 31,000 mining units deployed. An increase in depreciation expense, driven primarily by the increase in miners placed in service, further contributed to the decrease in the Digital Asset Self-Mining segment gross profit. Our self-mining hash rate was 20.4 EH/s for the three months ended September 30, 2024, compared to 15.0 EH/s for the three months ended September 30, 2023, by an increase of 36%.

For the three months ended September 30, 2024, gross profit in the Digital Asset Hosted Mining segment decreased nominally compared to the three months ended September 30, 2023. Digital Asset Hosted Mining segment gross margin for the three months ended September 30, 2024 was 29%, compared to a gross margin of 17% for the three months ended September 30, 2023. The

increase in Digital Asset Hosted Mining segment gross margin for the three months ended September 30, 2024, compared to the three months ended September 30, 2023 was primarily due to lower Digital asset hosted mining revenue driven by the termination of contracts with several customers since September 30, 2023, due primarily to our shift to HPC hosting, offset by lower power costs from lower rates and a reduced allocation of power to hosted customers.

For the three months ended September 30, 2024, gross profit in the HPC Hosting segment was \$1.3 million compared to nil for the three months ended September 30, 2023, due to the HPC Hosting segment starting operation during the quarter ended June 30, 2024.

A reconciliation of the reportable segment gross (loss) profit to loss before income taxes included in our Condensed Consolidated Statements of Operations for the three months ended September 30, 2024 and 2023, is as follows:

	Three Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Reportable segment gross (loss) profit	\$ (156)	\$ 15,419	\$ (15,575)	(101)%
Change in fair value of digital assets	(206)	—	(206)	NM

## Revenue

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
Revenue:	(in thousands, except percentages)			
Digital asset self-mining revenue	\$ 328,840	\$ 278,164	\$ 50,676	18 %
Digital asset hosted mining revenue from customers	71,050	72,245	(1,195)	(2)%
Digital asset hosted mining revenue from related parties	—	10,062	(10,062)	NM
HPC hosting revenue	15,857	—	15,857	NM
<b>Total revenue</b>	<b>\$ 415,747</b>	<b>\$ 360,471</b>	<b>\$ 55,276</b>	<b>15 %</b>
Percentage of total revenue:				
Digital asset self-mining revenue	79 %	77 %		
Digital asset hosted mining revenue from customers	17 %	20 %		
Digital asset hosted mining revenue from related parties	— %	3 %		
HPC hosting revenue	4 %	— %		
<b>Total revenue</b>	<b>100 %</b>	<b>100 %</b>		

Total revenue increased by \$55.3 million or 15%, to \$415.7 million for the nine months ended September 30, 2024, from \$360.5 million for the nine months ended September 30, 2023, as a result of the factors described below.

Digital asset self-mining revenue increased by \$50.7 million or 18%, to \$328.8 million for the nine months ended September 30, 2024, from \$278.2 million for the nine months ended September 30, 2023. The year over year increase in mining revenue was driven primarily by an increase in the price of bitcoin and an increase in our self-mining hash rate fleet mix and efficiency, and an approximate increase of 31,000 mining units deployed. The increase in mining revenue was partially offset by a 48% decrease in bitcoin mined. Our self-mining hash rate increased by 36%, to 20.4 EH/s for the nine months ended September 30, 2024, from 15.0 EH/s for the same period in the prior year. The total number of bitcoins self-mined for the nine months ended September 30, 2024, was 5,621 compared to 10,721. Although our self-mining hash rate increased 36%, the April 2024 halving and the nine month average network hash rate increased approximately 71%, leading to a 48% decrease in bitcoin received from self-mining. The average price of bitcoin for the nine months ended September 30, 2024, was \$60,031 as compared to \$26,353 for the same period in the prior year, a 128% increase.

Total digital asset hosted mining revenue from customers decreased by \$1.2 million or 2%, to \$71.1 million for the nine months ended September 30, 2024, from \$72.2 million for the nine months ended September 30, 2023. The decrease in hosted mining revenue from customers was primarily driven by the termination of contracts with several customers since September 30, 2023, due primarily to the reallocation of a majority of our data centers from digital asset mining to HPC hosting.

Total digital asset hosted mining revenue from related parties was nil for the nine months ended September 30, 2024, compared to \$10.1 million for the nine months ended September 30, 2023. There were no related-party transactions during the nine months ended September 30, 2024.

Total HPC hosting revenue was \$15.9 million for the nine months ended September 30, 2024, compared to nil for the same period in the prior year due to the initiation of HPC hosting operations for CoreWeave at our Austin, Texas data center during the quarter ended June 30, 2024.

## Cost of revenue

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Cost of revenue	\$ 299,440	\$ 276,312	\$ 23,128	8 %
Gross profit	116,307	84,159	32,148	38 %
Gross margin	28 %	23 %		

Cost of revenue increased by \$23.1 million or 8%, to \$299.4 million for the nine months ended September 30, 2024, from \$276.3 million for the nine months ended September 30, 2023. As a percentage of total revenue, cost of revenue totaled 72% and 77% for the nine months ended September 30, 2024 and 2023, respectively. The increase in cost of revenue was primarily attributable to increased depreciation expense of \$21.9 million driven by the increase in the number of miners in service, HPC hosting costs, primarily rent, power, payroll and benefits and stock-based compensation of \$12.2 million incurred during the current fiscal year with no comparable activity for the same period in fiscal 2023, increased proceeds sharing costs of \$3.5 million associated with the increase in average bitcoin price over prior year, a \$2.3 million increase in payroll and benefits primarily driven by increased bonuses and higher salaries, and a \$1.9 million increase in stock-based compensation expense, partially offset by a \$14.3 million decrease in power costs and \$2.6 million lower facility operations expense.

## Change in fair value of digital assets

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Change in fair value of digital assets	\$ (247)	\$ —	\$ (247)	NM
Percentage of total revenue	— %	— %		

Change in fair value of digital currency assets was \$0.2 million for the nine months ended September 30, 2024, and reflects the Company's adoption of ASU 2023-08 effective January 1, 2024.

## Gain from sale of digital assets

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Gain from sale of digital assets	\$ —	\$ 2,358	\$ (2,358)	NM
Percentage of total revenue	— %	1 %		

Gain from sale of digital assets was nil for the nine months ended September 30, 2024, compared to a gain of \$2.4 million for the nine months ended September 30, 2023. There are no gains from sale of digital assets recorded in fiscal 2024 due to the Company's adoption of ASU 2023-08 effective January 1, 2024. For the nine months ended September 30, 2023, the carrying value of our digital assets sold was \$285.4 million and the sales price was \$287.8 million.

### Impairment of digital assets

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Impairment of digital assets	\$ —	\$ (2,864)	\$ 2,864	NM
Percentage of total revenue	— %	(1)%		

Impairment of digital assets was nil for the nine months ended September 30, 2024, compared to \$2.9 million for the nine months ended September 30, 2023. Upon the Company's adoption of ASU 2023-08 effective January 1, 2024, the Company measures digital assets at fair value each reporting period with changes in fair value recognized in net income. Prior to the adoption of ASU 2023-08, impairment existed when the carrying amount exceeded its fair value. Impairment was measured using quoted prices of the digital asset at the time its fair value was being assessed. Quoted prices, including intraday low prices, were collected and utilized in impairment testing and measurement on a daily basis. If the then current carrying value of a digital asset exceeded the fair value so determined, an impairment loss occurred with respect to those digital assets in the amount equal to the difference between their carrying value and the price determined. The carrying value of our digital assets amounted to nil as of September 30, 2024, and \$0.6 million as of September 30, 2023.

### Change in fair value of energy derivatives

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Change in fair value of energy derivatives	\$ (2,757)	\$ —	\$ (2,757)	NM
Percentage of total revenue	(1)%	— %		

Change in fair value of energy derivatives, which is related to the change in fair value of the derivative liability of the energy forward purchase contract entered into in October 2023, was \$2.8 million for the nine months ended September 30, 2024.

### Loss on disposal of property, plant and equipment

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Loss on disposal of property, plant and equipment	\$ (4,061)	\$ (514)	\$ (3,547)	NM
Percentage of total revenue	(1)%	— %		

Loss on disposal of property, plant and equipment increased by \$3.5 million to \$4.1 million for the nine months ended September 30, 2024, from \$0.5 million for the nine months ended September 30, 2023. This loss was due to the disposal of mining equipment.

## Operating Expenses

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
Operating expenses:	(in thousands, except percentages)			
Research and development	\$ 6,814	\$ 5,308	\$ 1,506	28 %
Sales and marketing	7,099	3,133	3,966	NM
General and administrative	74,742	69,671	5,071	7 %
Total operating expenses	<u>\$ 88,655</u>	<u>\$ 78,112</u>	<u>\$ 10,543</u>	13 %
Percentage of total revenue	21 %	22 %		

Total operating expenses increased \$10.5 million or 13%, to \$88.7 million for the nine months ended September 30, 2024, from \$78.1 million for the nine months ended September 30, 2023.

Research and development expenses increased by \$1.5 million or 28%, to \$6.8 million for the nine months ended September 30, 2024, from \$5.3 million for the nine months ended September 30, 2023. The increase was driven by a \$1.0 million increase in payroll and benefits expense primarily driven by increased bonuses and higher salaries and a \$0.6 million increase in stock-based compensation expense.

Sales and marketing expenses increased by \$4.0 million to \$7.1 million for the nine months ended September 30, 2024, from \$3.1 million for the nine months ended September 30, 2023. The increase was driven primarily by a \$2.5 million increase in stock-based compensation expense and a \$1.0 million increase in sales and marketing event expenses.

General and administrative expenses increased by \$5.1 million or 7%, to \$74.7 million for the nine months ended September 30, 2024, from \$69.7 million for the nine months ended September 30, 2023. The increase was primarily driven by a \$14.2 million increase in payroll and benefits expense primarily driven by increased bonuses and higher salaries, \$4.6 million of HPC advisory startup costs and \$3.7 million site startup costs incurred during the current period with no comparable activity for the same period in fiscal 2023, a \$2.2 million increase in bankruptcy advisor fees, and a \$1.8 million increase in corporate taxes, primarily property taxes, partially offset by \$20.7 million lower stock-based compensation due to cancellation and forfeitures of equity-based awards during the nine months ended September 30, 2024, and no new equity awards granted during fiscal 2023.

## Non-operating (income) expenses, net

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
Non-operating (income) expenses, net:	(in thousands, except percentages)			
Loss (gain) on debt extinguishment	\$ 487	\$ (21,135)	\$ 21,622	NM
Interest expense, net	35,934	2,317	33,617	NM
Reorganization items, net	(111,439)	78,270	(189,709)	NM
Change in fair value of warrant and contingent value rights	1,144,441	—	1,144,441	NM
Other non-operating expense (income), net	144	(3,978)	4,122	NM
Total non-operating expenses, net	<u>\$ 1,069,567</u>	<u>\$ 55,474</u>	<u>\$ 1,014,093</u>	NM

Total non-operating expenses, net increased by \$1.01 billion, to \$1.07 billion for the nine months ended September 30, 2024, from total non-operating expenses, net of \$55.5 million for the nine months ended September 30, 2023. The increase in total non-operating expenses, net was primarily driven by:

- the Company's entry into a warrant agreement and Convertible Value Rights Agreement pursuant to the Plan of Reorganization. During the nine months ended September 30, 2024, we incurred a \$1.14 billion Change in fair value of warrant and contingent value rights was due to the increase in the price of the underlying instruments driven by the increase in the Company's stock price to \$11.86 per share as of September 30, 2024, from \$3.44 per share as of the Effective Date.

The increase in stock price resulted in a \$1.22 billion increase in the fair value of the warrant liabilities during the nine months ended September 30, 2024, partially offset by a \$79.3 million decrease in fair value of contingent value rights;

- a \$33.6 million increase in Interest expense, net resulting from the Bankruptcy Court ordered stay on payment of pre-petition obligations, including interest during the same period in fiscal 2023, and;
- a \$21.1 million Gain on extinguishment of debt recognized during the same period in the prior year, partially offset by
- a \$189.7 million decrease in Reorganization items, net related to a \$143.8 million gain associated with the satisfaction of allowed claims, a \$41.5 million decrease in profession fees and other bankruptcy costs, an \$15.0 million decrease in debtor-in-possession financing costs, partially offset by a \$12.8 million increase in reimbursed claimant professional fees.

#### Income tax expense

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Income tax expense	\$ 484	\$ 347	\$ 137	39 %
Percentage of total revenue	— %	— %		

Income tax expense consists of U.S. federal, state and local income taxes. For the nine months ended September 30, 2024 and 2023, our income tax expense was \$0.5 million and \$0.3 million, respectively. The Company's effective tax rate for the nine months ended September 30, 2024, was lower than the federal statutory rate of 21% primarily due to a valuation allowance on the Company's deferred tax assets and certain non-deductible expenses.

### Segment Total Revenue and Gross Profit

The following table presents total revenue and gross profit by reportable segment for the periods presented:

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
(in thousands, except percentages)				
<b>Digital Asset Self-Mining Segment</b>				
Digital asset self-mining revenue	\$ 328,840	\$ 278,164	\$ 50,676	18 %
Cost of digital asset self-mining	236,120	212,125	23,995	11 %
Digital Asset Self-Mining gross profit	\$ 92,720	\$ 66,039	\$ 26,681	40%
Digital Asset Self-Mining gross margin	28 %	24%		
<b>Digital Asset Hosted Mining Segment</b>				
Digital asset hosted mining revenue from customers	\$ 71,050	\$ 82,307	\$ (11,257)	(14)%
Cost of digital asset hosted mining services	49,388	64,187	(14,799)	(23)%
Digital Asset Hosted Mining gross profit	\$ 21,662	\$ 18,120	\$ 3,542	20 %
Digital Asset Hosted Mining gross margin	30 %	22 %		
<b>HPC Hosting Segment</b>				
HPC hosting revenue	\$ 15,857	\$ —	\$ 15,857	NM
Cost of HPC hosting services	13,932	—	13,932	NM
HPC Hosting gross profit	\$ 1,925	\$ —	\$ 1,925	NM
HPC Hosting gross margin	12%	—%		
<b>Consolidated</b>				
Consolidated total revenue	\$ 415,747	\$ 360,471	\$ 55,276	15 %
Consolidated cost of revenue	299,440	276,312	23,128	8 %
Consolidated gross profit	\$ 116,307	\$ 84,159	\$ 32,148	38%
Consolidated gross margin	28%	23%		

For the nine months ended September 30, 2024, cost of revenue included depreciation expense of \$83.1 million for the Digital Asset Self-Mining segment, \$3.2 million for the Digital Asset Hosted Mining segment, and a nominal amount for the HPC Hosting segment. For the nine months ended September 30, 2023, cost of revenue included depreciation expense \$60.8 million for the Digital Asset Self-Mining segment, \$3.7 million for the Digital Asset Hosted Mining segment, and nil for the HPC Hosting segment.

For the nine months ended September 30, 2024 and 2023, the top three hosting customers accounted for approximately 89% and 73%, respectively, of the Digital Asset Hosting's segment total revenue.

For the nine months ended September 30, 2024, gross profit in the Digital Asset Self-Mining segment increased by \$26.7 million compared to the nine months ended September 30, 2023, due to a higher Digital Asset Self-Mining segment gross margin of 28% for the nine months ended September 30, 2024, compared to 24% for the nine months ended September 30, 2023. The increase in the Digital Asset Self-Mining segment gross profit was primarily due to a 18% increase in self-mining revenue driven by a 128% increase in the price of bitcoin, an increase in our self-mining hash rate, fleet mix and efficiency, and an increase in the number of mining units deployed, partially offset by the 48% decrease in bitcoin mined. The increase in the Digital Asset Self-Mining segment gross profit was partially offset by an increase in depreciation expense as a percentage of segment revenues, which was driven primarily by an approximate increase of 31,000 miners placed in service. Our self-mining hash rate was 20.4 EH/s for the nine months ended September 30, 2024, compared to 15.0 EH/s for the nine months ended September 30, 2023, an increase of 36%.

For the nine months ended September 30, 2024, gross profit in the Digital Asset Hosted Mining segment increased by \$3.5 million compared to the nine months ended September 30, 2023, reflecting a Digital Asset Hosted Mining segment gross margin of

30% for the nine months ended September 30, 2024, compared to a gross margin of 22% for the nine months ended September 30, 2023. The increase in Digital Asset Hosted Mining segment gross margin for the nine months ended September 30, 2024, compared to the nine months ended September 30, 2023 was primarily due to lower Cost of digital asset hosted mining services primarily driven by lower power costs from lower rates and usage, partially offset by decreased digital asset hosted mining revenue from related parties as there were no related party transactions during fiscal 2024 and by the termination of contracts with several customers since September 30, 2023, due primarily to our shift to HPC hosting.

For the nine months ended September 30, 2024, gross profit in the HPC Hosting segment was \$1.9 million compared to nil for the nine months ended September 30, 2023, due to the HPC Hosting segment starting operation during the quarter ended June 30, 2024.

A reconciliation of the reportable segment gross profit to loss before income taxes included in our Condensed Consolidated Statements of Operations for the nine months ended September 30, 2024 and 2023, is as follows:

	Nine Months Ended September 30,		Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Reportable segment gross profit	\$ 116,307	\$ 84,159	\$ 32,148	38%
Change in fair value of digital assets	(247)	—	(247)	NM
Gain from sale of digital assets	—	2,358	(2,358)	NM
Impairment of digital assets	—	(2,864)	2,864	NM
Change in fair value of energy derivatives	(2,757)	—	(2,757)	NM
Loss on exchange or disposal of property, plant and equipment	(4,061)	(514)	(3,547)	NM
Operating expenses:				
Research and development	6,814	5,308	1,506	28 %
Sales and marketing	7,099	3,133	3,966	NM
General and administrative	74,742	69,671	5,071	7 %
Total operating expenses	88,655	78,112	10,543	13 %
Operating income	20,587	5,027	15,560	NM
Non-operating (income) expenses, net:				
Loss (gain) on debt extinguishment	487	(21,135)	21,622	NM
Interest expense, net	35,934	2,317	33,617	NM
Reorganization items, net	(111,439)	78,270	(189,709)	NM
Change in fair value of warrant and contingent value rights	1,144,441	—	1,144,441	NM
Other non-operating (income) expense, net	144	(3,978)	4,122	NM
Total non-operating expenses, net	1,069,567	55,474	1,014,093	NM
Loss before income taxes	\$ (1,048,980)	\$ (50,447)	\$ (998,533)	NM

## Liquidity and Capital Resources

### Sources of Liquidity

We finance our operations primarily through cash generated from operations, including sales of self-mined bitcoin, debt issuances, equipment financing arrangements, and sales of equity securities.

### Operating and Capital Resources

Historically, a substantial portion of our liquidity needs arose from debt service on our outstanding indebtedness and from funding the costs of operations, working capital and capital expenditures. Following our Chapter 11 filing, our level of capital expenditures was reduced, and we expect them to remain at a reduced level now that we have emerged from Chapter 11.

We have assessed our current and expected operating and capital expenditure requirements and our current and expected sources of liquidity, and have determined, based on our forecasted financial results and financial condition as of September 30, 2024, that our operating cash flows, existing cash balances, and continued access to debt markets will be sufficient to satisfy our cash requirements over the next twelve months and beyond.

### Cash, Cash Equivalents, Restricted Cash, Cash Requirements and Cash Flows

Cash and cash equivalents include all cash balances and highly liquid investments with original maturities of three months or less from the date of acquisition.

	September 30,	December 31,	Period over Period Change	
	2024	2023	Dollar	Percentage
	(in thousands, except percentages)			
Cash and cash equivalents	\$ 253,019	\$ 50,409	\$ 202,610	NM
Restricted cash	783	19,300	(18,517)	(96)%
Total cash, cash equivalents and restricted cash	<u>\$ 253,802</u>	<u>\$ 69,709</u>	<u>\$ 184,093</u>	NM

As of September 30, 2024 and December 31, 2023, restricted cash of \$0.8 million and \$19.3 million, consisted of cash held in escrow to pay for construction and development activities.

The following table summarizes our cash, cash equivalents and restricted cash and cash flows for the periods indicated.

	Nine Months Ended September 30,	
	2024	2023
	(in thousands)	
Cash, cash equivalents and restricted cash – beg. of period	\$ 69,709	\$ 52,240
Net cash provided by (used in)		
Operating activities	29,091	43,411
Investing activities	(66,394)	(5,356)
Financing activities	221,396	(26,352)
Cash, cash equivalents and restricted cash - end of period	<u>\$ 253,802</u>	<u>\$ 63,943</u>

Our principal uses of cash in recent periods have been funding our operations and investing in capital expenditures.

### Operating Activities

Changes in net cash from operating activities results primarily from cash received from hosting customers payments for power fees and equipment purchases. Other drivers of the changes in net cash from operating activities include research and development

costs, sales and marketing costs and general and administrative expenses (including personnel expenses and fees for professional services) and interest payments on debt.

Net cash provided by operating activities was \$29.1 million for the nine months ended September 30, 2024 and \$43.4 million for the nine months ended September 30, 2023. The decrease in net cash provided by operating activities was primarily due to a increase in net loss of \$1.00 billion, a \$143.8 million increase in non-cash reorganization items, a \$79.3 million decrease in the fair value of contingent value rights, a \$50.7 million increase in digital asset self-mining income, and a \$13.5 million decrease in stock-based compensation. The decrease in net cash provided by operating activities was partially offset by a \$1.22 billion increase in the fair value of warrant liabilities, a \$22.4 million increase in depreciation and amortization, and a \$21.6 million decrease in loss on debt extinguishment.

#### ***Investing Activities***

Our net cash used in investing activities consists primarily of purchases of property, plant and equipment. Net cash used in investing activities for the nine months ended September 30, 2024 and 2023, was \$66.4 million and \$5.4 million, respectively. The increase in net cash used in investing activities was driven primarily by a \$61.7 million increase in purchases of property, plant and equipment.

#### ***Financing Activities***

Net cash provided by (used in) financing activities consists of proceeds from stock issuances, issuances of debt, net of issuance costs and principal payments on debt, including notes payable and finance leases.

Net cash provided by financing activities for the nine months ended September 30, 2024 was \$221.4 million. Net cash used by financing activities for the nine months ended September 30, 2023 was \$26.4 million. The change was due primarily to an inflow of \$447.6 million from the proceeds for the issuance of 3% senior convertible notes, net, \$55.0 million from the issuance of common stock during the nine months ended September 30, 2024, and a \$20.0 million draw from the Exit Facility. The increase in net cash provided by financing activities was partially offset by an increase in principal payments on debt of \$268.9 million.

#### **Future Commitments and Contractual Obligations**

For a discussion of Commitments and Contractual Obligations, refer to Note 9 — Commitments and Contingencies to our unaudited condensed consolidated financial statements.

#### **Related Party Transactions**

We had agreements to provide hosting services to various entities that are either managed and invested in by individuals who were directors and executives of Core Scientific during fiscal 2023. For the three and nine months ended September 30, 2024, there were no related-party transactions. For the three and nine months ended September 30, 2023, we recognized digital asset hosting revenue of \$2.8 million and \$10.1 million, respectively, from the contracts with related parties.

#### **Foreign Currency and Exchange Risk**

The vast majority of our cash generated from revenue is denominated in U.S. dollars.

#### **Critical Accounting Estimates**

We prepare our condensed consolidated financial statements in accordance with GAAP. In doing so, we have to make estimates and assumptions. Our critical accounting estimates are those estimates that involve a significant level of uncertainty, subjectivity and judgment at the time the estimate was made, and changes in them have had or are reasonably likely to have a material effect on our financial condition or results of operations. Accordingly, actual results could differ materially from our estimates. We base our estimates on past experience and other assumptions that we believe are reasonable under the circumstances, and we evaluate these estimates on an ongoing basis. Except as described below, there have been no other material changes to our critical accounting estimates during the nine months ended September 30, 2024, as compared to those disclosed in our “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” audited consolidated financial statements and the accompanying notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023, which was filed with the SEC on March 13, 2024.

### ***Contingent Value Rights Liabilities***

As described in Note 2 — Summary of Significant Accounting Policies and Note 7 — Contingent Value Rights and Warrant Liabilities, on the Effective Date, the Company issued CVRs to certain creditors. When the CVRs were recognized on the Effective Date, observable market data was not available. The Monte Carlo simulation model was used to determine their fair value, which required inputs that were both unobservable and significant to the overall fair value measurement, including estimated volatility. If we had used different assumptions or estimates, the estimated fair value of the CVRs could have been materially different. Subsequently, the fair value of the CVRs has been determined based on the observable listed trading price for such CVRs, thereby eliminating the significant level of estimation uncertainty in periods subsequent to the initial recognition of the CVRs.

### ***Warrant Liabilities***

As described in Note 2 — Summary of Significant Accounting Policies and Note 7 — Contingent Value Rights and Warrant Liabilities, on the Effective Date, holders of the Company's previous common stock received warrants. When the warrants were recognized on the Effective Date, observable market data was not available. The Monte Carlo simulation model was used to determine their fair value, which required inputs that were both unobservable and significant to the overall fair value measurement, including estimated volatility. If we had used different assumptions or estimates, the estimated fair value of the warrants could have been materially different. Subsequently, the fair value of the warrants has been determined based on the observable listed trading price for such warrants, thereby eliminating the significant level of estimation uncertainty in periods subsequent to the initial recognition of the warrants.

### ***Stock-Based Compensation***

As described in Note 2 — Summary of Significant Accounting Policies, during the nine months ended September 30, 2024, the Company granted MSUs to certain executives. The estimated fair value of the MSUs was estimated on the date of grant using the Monte Carlo simulation model, which required inputs that were both unobservable and significant to the overall fair value measurement, including estimated volatility. If we had used different assumptions or estimates, the estimated fair value of the MSUs could have been materially different.

### **Recent Accounting Pronouncements**

For a discussion of new accounting standards relevant to our business, refer to Note 2 — Summary of Significant Accounting Policies to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q.

### **Emerging Growth Company**

We are an "emerging growth company" as defined in the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. We may take advantage of certain exemptions from various public company reporting requirements, including not being required to have our internal control over financial reporting audited by our independent registered public accounting firm under Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and any golden parachute payments. We may take advantage of these exemptions for up to five years or until we are no longer an emerging growth company, whichever is earlier. In addition, the JOBS Act provides that an "emerging growth company" can delay adopting new or revised accounting standards until those standards apply to private companies. We have elected to use the extended transition period under the JOBS Act. Accordingly, our financial statements may not be comparable to the financial statements of public companies that comply with such new or revised accounting standards.

On the last business day of the second quarter in 2024, the aggregate market value of the Company's shares of common stock held by non-affiliate stockholders exceeded \$700 million. As a result, as of December 31, 2024, the Company will be considered a "large accelerated filer" as defined in Rule 12b-2 under the Exchange Act, and will cease to be an emerging growth company as defined in the JOBS Act.

The impact of this change in filing status includes being subject to the requirements of large accelerated filers, which includes shortened filing timelines, no delayed adoption of certain accounting standards, and attestation of the Company's internal control over financial reporting by its independent auditor.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The following discussion about our market risk exposures involves forward-looking statements. Actual results could differ materially from those projected in our forward-looking statements. For more information regarding the forward-looking statements used in this section and elsewhere in this Quarterly Report on Form 10-Q, see the section titled “Cautionary Note Regarding Forward-Looking Statements” included elsewhere in this Quarterly Report.

**Risk Regarding the Price of Bitcoin**

Our business and development strategy is focused on maintaining and expanding our bitcoin Mining operations to maximize the amount of new bitcoin rewards we earn. As of September 30, 2024, we did not have any bitcoin holdings.

We cannot predict the future market price of bitcoin and, as such, we cannot predict future changes in the carrying value of our bitcoin assets based on future market prices. The future value of bitcoin will affect the amount of revenue recognized from our operations, and any changes in the future value of bitcoin while we hold it in our account would also be reported in our net income (or loss), either of which could have a material adverse effect on the market price for our securities.

Bitcoin prices for the three months ended September 30, 2024 ranged from a low of \$49,250 to a high of \$68,245, with an average price of \$61,002. A hypothetical 10% increase or decrease in the price of bitcoin produced during the three months ended September 30, 2024, would have increased or decreased net loss by approximately \$6.8 million.

**Commodity Price Risk**

There have been no material changes to the Company’s commodity price risk as described in the Company’s Annual Report on Form 10-K for the year ended December 31, 2023. For a discussion of the Company’s exposure to commodity price risk, refer to the Company’s commodity price risk disclosures set forth in Part II, Item 7A, “Quantitative and Qualitative Disclosures About Market Risk” of the 2023 Annual Report on Form 10-K.

#### **Item 4. Controls and Procedures**

##### ***Evaluation of Disclosure Controls and Procedures***

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, have evaluated our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) prior to the filing of this quarterly report.

Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that, as of the end of the period covered by this quarterly report, certain of our disclosure controls and procedures were not effective at the reasonable assurance level as of September 30, 2024, due to the following material weaknesses in internal control over financial reporting.

- i. The Company did not design and implement program change management controls for certain financially relevant systems to ensure that IT program and data changes affecting the Company's (i) financial IT applications, (ii) digital currency mining equipment, and (iii) underlying accounting records, are identified, tested, authorized and implemented appropriately to validate that data produced by its relevant IT system(s) were complete and accurate. Automated process-level controls and manual controls that are dependent upon the information derived from such financially relevant systems were also determined to be ineffective as a result of such deficiency.
- ii. The Company did not design and/or implement user access provisioning controls to ensure appropriate segregation of duties that would adequately restrict user access to the financially relevant systems and data to the appropriate Company personnel.
- iii. The Company's internal controls over financial reporting did not operate effectively at all times to ensure transactions were recorded timely and in accordance with GAAP. Appropriate segregation of duties was also not maintained at all times during the year.

##### ***Changes in Internal Control over Financial Reporting***

Other than the ongoing remediation efforts described below, during the most recently completed fiscal quarter, there was no change in Core Scientific, Inc.'s internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

##### ***Remediation Efforts to Address Disclosed Material Weaknesses***

Our management, with oversight from our Audit Committee, continues to make progress in the remediation of the design and implementation of internal controls to address the previously disclosed material weakness and continue to improve our internal control over financial reporting, primarily through:

- increasing the depth, experience and communication within our accounting and finance organization;
- enhancing the design, coordination and documentation of controls over transactions, financial reporting, and inputs into period-end disclosures;
- updating internal reporting procedures, including enhancing the analytical procedures used to assess period-end balances, to add depth to our review process and improve our segregation of duties; and
- improving IT application-specific and general controls to manage access and program changes across our key systems.

##### ***Limitations on Controls***

Our disclosure controls and procedures and internal control over financial reporting are designed to provide reasonable assurance of achieving the desired control objectives. Our management recognizes that any control system, no matter how well designed and operated, is based upon certain judgments and assumptions and cannot provide absolute assurance that its objectives will be met. Similarly, an evaluation of controls cannot provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, have been detected.

## Part II - Other Information

### Item 1. Legal Proceedings

We are involved in lawsuits and other contingencies in the ordinary course of business. While the outcome of such contingencies cannot be predicted with certainty, we believe that the liabilities arising from these matters will not have a material adverse effect on our consolidated financial position, results of operations or cash flows. However, to the extent the liability arising from the ultimate resolution of any matter exceeds our estimates reflected in the recorded reserves relating to such matter, we could incur additional charges that could be significant. For a description of our material pending legal proceedings, please see Note 9 — Commitments and Contingencies, to our unaudited condensed consolidated financial statements in Item 1 of Part I of this Quarterly Report on Form 10-Q.

Please refer to the discussions contained in our Annual Report on Form 10-K for the year ended December 31, 2023 within Item 1. — “Business” under the subtitle “Emergence from Bankruptcy”; Item 1A. — “Risk Factors”; Item 5. — “Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities; and Item 7. — “Management’s Discussion and Analysis of Financial Condition and Results of Operations” under the subtitles “Recent Developments” and “Chapter 11 Filing and Other Related Matters - Pre-Emergence”; our Notes to Unaudited Condensed Consolidated Financial Statements in the Quarterly Report on Form 10-Q; as well as elsewhere in our Annual Report on Form 10-K for the year ended December 31, 2023 for further information regarding the commencement of the aforementioned Company’s emergence from bankruptcy and satisfaction and extinguishment of claims in the Chapter 11 Cases.

### Item 1A. Risk Factors

For a discussion of our risk factors, see the section titled “Risk Factors” under Part I, Item 1A. — “Risk Factors” of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2023, which was filed with the United States Securities and Exchange Commission on March 13, 2024, and under Part II, Item 1A. in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2024, which was filed with the United States Securities and Exchange Commission on August 7, 2024.

There have been no material changes in our risk factors from those disclosed under the caption Item 1A. — “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2023 or in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2024, except as set forth below. The risks identified in our Annual Report on Form 10-K that refer to or are associated with “hosting” and its variations (and corresponding industries and services) should be read as being applicable to both “Digital Asset Hosted Mining” and “HPC Hosting,” as appropriate in light of the circumstances. In addition to the risks described in our Annual Report on Form 10-K for the year ended December 31, 2023 and in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2024, the Company has identified the following additional risk factors given the division of our prior “Hosting” segment into the current (as of this Quarterly Report on Form 10-Q) “Digital Asset Hosted Mining” and “HPC Hosting” segments due to our expansion into providing additional HPC hosting services, as well as changes to our status as an “emerging growth company,” as defined in the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”).

#### *Our HPC business strategy may not perform as planned.*

We believe the potential for HPC hosting complements our current business model with expected stable, long-term and high margin revenue. We also believe that using our existing infrastructure for HPC customers provides more consistent dollar-based revenue and substantially less risk than our traditional bitcoin mining customers or our bitcoin self-mining operations. However, our success in the HPC Hosting segment may not develop as anticipated, and may be affected by factors such as the reliability and timing of power supply, supply chain disruption (including local labor availability) and changes in in-house specialized expertise to manage the business. Our HPC business strategy may not perform as planned.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the quarter ended September 30, 2024, 180,234 shares of New Common Stock were issued upon the exercise of Tranche 1 Warrants in reliance on the exemption provided by Section 1145 of the Bankruptcy Code. The Company received cash proceeds from the exercise of \$1.1 million.

During the quarter ended September 30, 2024, 51.5 million shares of New Common Stock were issued upon the exercise of Tranche 2 Warrants in reliance on the exemption provided by Section 1145 of the Bankruptcy Code. The Company received cash proceeds from the exercise of \$0.4 million.

On July 5, 2024, the mandatory conversion feature of the New Secured Convertible Notes pursuant to the Indenture, dated as of January 23, 2024 (the “Indenture”), by and among the Company, as issuer, Wilmington Trust, National Association (“Wilmington Trust”), as trustee and collateral agent, and the other parties thereto, was triggered when the trading price of the Company’s common stock on a daily volume weighted average basis (“VWAP”) exceeded the applicable threshold specified in the Indenture for the 20th consecutive trading day. In connection with the mandatory conversion of the Notes, which took place on July 10, 2024, each registered holder of the New Secured Convertible Notes was entitled to receive (1) a number of shares of the Company’s common stock equal to the aggregate principal amount of his, her or its notes outstanding, divided by the conversion price of \$5.8317 (not including fractional shares), and (2) an amount of cash equal to the number of the resulting fractional shares, multiplied by the closing trading price of the Company’s common stock on July 9, 2024. The shares of New Common Stock issued upon the conversion of the New Secured Convertible Notes were issued in reliance on the exemption provided by Section 1145 of the Bankruptcy Code.

Following the mandatory conversion of the New Secured Convertible Notes, 40.1 million shares of the Company’s common stock in the aggregate were issued in exchange for \$233.6 million aggregate principal amount of the New Secured Convertible Notes.

**Item 3. Defaults Upon Senior Securities**

None.

**Item 4. Mine Safety Disclosures**

Not applicable.

**Item 5. Other Information**

**Trading Arrangements**

During the three months ended September 30, 2024, no director or officer of the Company adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K.

**Item 6. Exhibits**

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER**  
**PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Adam Sullivan, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Core Scientific, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
